## A NECESSITY

Some years ago Iron and Brass Beds were more of a luxury than a necessity. The price was high, the finish crude, and the patterns were about four in number. Now the price is low, the finish perfect, and we carry over 70 patterns in our show rooms.

We also have a full line of Springs, Pillows, and Mattresses.

The friends of the measure will carry on a vigorous campaign from this time until the state election, when the people will be called upon to vote on the question.

—About 8.45 o'clock Monday morning, an Italian laborer at work on the side-wall of the B. & A. excavation, opposite the Newton station, was badly injured by a falling block of granite. His right leg was broken in two places, and his left severely crushed. Before the injured man could be extricated it was necessary to raise the stone, he being pinned beneath it. Dr. Carroll ordered the man's removal to the hospital, where his left foot was amputated.

—William Coleman of Emerson street, with a friend, both on bicycles, was on his way to Boston, on Commonwealth avenue, Brighton, last Saturday night. A young man named Nickerson, living in Brighton, was returning from the city, and just beyond Needham street ran into them. Coleman and Nickerson were both thrown to the ground, the latter's shoulder striking the former full in the face. Nickerson was only stunned. Coleman fled from the scene and mouth, and his face was swollen frightfully. Dr. Marion was summoned and the injured man was taken to Newton. It is feared that he received internal injuries. Both wheels were completely demolished. Neither of the riders was to blame.

—The Woman's Foreign Missionary Society of the Methodist church held its annual meeting at the Wesleyan Home on Wednesday evening last. The officers for the year are: Pres., Mrs. S. M. Sites; Vice-Pres., Mrs. C. W. Rishell; Rec. Sec., Mrs. H. S. Leonard; Cor. Sec., Mrs. A. G. Barber; Treas., Miss E. L. Harvey.

—The opening of the New England Conservatory of Music concert season, Wednesday evening, was artistically and socially a success. Some 75 special invitations had been sent out to the friends of the new director, George W. Chadwick, and to those of the artist who made his debut as a member of the conservatory faculty, J. Wallace Goodrich, the newly appointed professor of organ and harmony. Mr. Goodrich selected a repertoire which gave his talents and versatility full play. Among the difficult selections rendered were numbers from Bach, Saint-Saens, Rheinberger, Schumann and Wilder.

—The great delay in getting Washington street into a passable condition is not at all his fault, Mr. W. H. Mague says. He has the contract for laying the street car rails, and had not been delayed by outside causes the tracks would have all been laid long ago. He has had to wait for the gas company to dig its mains, for the telephone company to remove poles from the track location, for the city to dig catch basins and make the grade, and for the street railway company to remove poles. Besides this, two street railway companies are laying the tracks, which causes some delay, and the rails for the tracks below Newtonville did not arrive till Tuesday of this week, and now there is a shortage of ties and work will have to stop until they arrive.

Mr. Mague says he is willing to take all the blame that belongs to him, but he does not wish to bear the blame that belongs to the telephone company, whose poles are still in the way of the tracks, or for the failure of the railway companies to supply him with rails and ties. He has made great progress this week, having laid the complicated switch tracks at the junction of Walnut street, and he only blocked the roadway to the Walnut street bridge five hours, which is considered very quick work. By Saturday he will have the two tracks completed to Harvard street and the cars switched on to them, so that the old track can be torn up and the street given over to the highway department. The section between Walsall and Parsons street is being macadamized this week, but citizens are getting so impatient over the delay that it is hoped the highway committee will put all the men it can hire at work, and get the

street into passable condition before winter sets in, at least.

—Tonic. Hahn's Ext. Malt. Sterilized.

—Sewing machine supplies, repairing and machines to let at 10 Pearl court. tf

—Parents who appreciate stylish haircutting, send children to Burns', Cole's block.

—Money deposited in the Newton Savings bank before Oct. 11, will begin to earn dividends.

—Mrs. Justin Whittier has given up her home on Hunnewell hill, and will be at The Hunnewell for the winter.

—Mr. E. A. Howard will furnish the talent for the Knights of Pythias entertainment in Dennison hall, Oct. 18.

—Mr. Frank D. Frisbie was an usher at the wedding of Miss Blanche A. Pearl and Mr. Richard E. Jeffery at Boston, Tuesday evening.

—Mr. Harrington, the newsdealer, will move back to his old store in Cole's block, Nov. 1st, as Mr. Lane is to move to the Taylor block.

—Mrs. S. Y. B. Speare and Miss Speare of Wesley street and Mrs. Joshua Davis of Centre street left this week for a visit in Waterville, Me.

—Bring your babies and children to Mr. Olin Fritz's "new" studio, No. 253 Washington street, to be photographed. Near terminus of electric cars.

—The engagement is announced of Miss Ellen Mabel Langford, daughter of Mr. and Mrs. John T. Langford of Newton and Mr. Clarence G. Croll of Boston.

—Rev. Dr. Hornbrook delivered an address of welcome at the installation of Rev. W. S. Jones, the newly appointed pastor of the Newton Highlands Unitarian church.

—Mrs. Wm. Hamilton Hallett of Centre street has issued cards for the wedding of her daughter, Miss Florence Clifton Hallett to Mr. Gray Blandy, to take place Tuesday, Oct. 12, at Grace church.

—Miss Blanche Rice, formerly of Church street, who has won an enviable reputation in her theatrical career, will appear next week at the Boston Grand Opera house in "The Sporting Duchess."

—Rev. W. R. Boone of Oklahoma territory spoke on "Educational and Missionary Work in the West," at the Unitarian church last Sunday morning. A substantial collection was subscribed for the work.

—A literary class, composed of members of the Channing church, has been recently formed. The first meeting will be held Friday evening, Oct. 15. "The Works of Milton," will be the subject for the season's meetings.

—Boys' and men's gymnasium classes begin tomorrow in the Y. M. C. A. gymnasium, under the direction of E. C. Wyatt. Children's and ladies' classes will begin Oct. 16 under the direction of Miss Macomber of Cambridge.

—Dr. H. C. Spencer, whose office will be located in the Stevens' building, is a graduate of the dental school of Harvard University, and for the past three years has been in the office of Dr. W. L. Drake of Chelsea, the leading dental practitioner of that city.

—The Channing Religious Union will hold its first meeting for the season, Sunday evening at 7.30 o'clock in the parlors of the Channing church. A large attendance is desired and all young people are cordially invited. Subject, "What shall we do for and with our Young People's Society?"

—The largest fish caught in the Adirondacks this season, and one of the largest ever caught, was captured by Master Leland Powers of Arlington street, last week in Lower Saranac Lake. It was a pickerel weighing sixteen pounds and was thirty-seven inches in length, and was hooked while trolling.

—The annual meeting of the Women's Home Missionary Society connected with the Methodist church was held at the Wesleyan Home on Wesley street, Monday afternoon. The officers for the coming year are: president, Mrs. J. West Barber; vice-president, Mrs. Hugh Campbell; corresponding secretary, Mrs. Fletcher Barber; recording secretary, Mrs. A. G. Barber; treasurer, Mrs. H. S. Leonard.

—Last evening in the lecture room of the new Methodist church building, a large Epworth League held its first business meeting of the season. The leading feature of the evening was an address on "Echoes of the great Toronto Convention," by Rev. Dillon Bronson, former pastor of the church. Mr. Bronson was warmly received by his former parishioners, and his remarks were listened to with interest.

—The first meeting of the season of the Ladies' Social Circle was held at the Methodist parsonage on Wesley street, Wednesday afternoon. At the annual meeting Mrs. W. A. Alexander was elected president; Mrs. D. F. Barber, vice president; Mrs. W. H. Doane, secretary; Miss Lillian Tower, treasurer. The Circle are planning for a fair to be held in December. Later supper was served and the evening was spent in a social way.

—The abutments for the Washington street bridge have been ready for three weeks, but the bridge company is behind with its orders and hence the delay. The Centre street abutments are also waiting and the prospects are that they will have to wait. The bridge opposite Adams street was put across this week. The railroad company expect to begin excavating the big bank opposite the station next week. The delay at the Centre street bridge, especially, is causing a good deal of grumbling among the citizens.

—A dinner of 60 Co. Chalmers, took place at the United States hotel in Boston, Wednesday night. The company had as its guests some of the 2d brigade officers, including Brig. Gen. William A. Baurcroft, Lieut. Col. Wm. H. Oakes, Majors Mossman, Ballard and Morrison, Adj. Gen. Locke, Qm. Ramsay and Major Henry E. Cobb of Newton. The speakers were Major Cobb, Gen. Baurcroft, Lieut. Col. Oakes and Asst. Adj. Gen. Benyon. Other guests present were Capt. Stover, and Lieuts. Tolman and Bray. Capt. Ernest R. Springer presided. First Lieut. Harry B. Inman and 2d Lieut. Robert W. Daley and some 57 members of the company were present.

—Music in Eliot church next Sunday: SOLOING.

## THE MAYORALTY.

The question of choosing a mayor of the  
city for the coming year is now agitating  
the public mind, as the issues for the state  
election are settled and out of the way. If  
the new charter is adopted, as seems prob-  
able, there being no open opposition to it,  
the office of mayor will become of unusual  
importance. Under the new charter, the  
mayor is the chief executive of the city, in  
fact as well as in name, and will have a  
position of great responsibility in starting  
the wheels of the new government in the  
right direction. He will need to be a man  
of unusual executive ability, of great tact  
in dealing with men; and with indepen-  
dence of character sufficient to enable him  
to follow out his own policy, regardless of  
the pressure that will be brought to bear  
upon him, in regard to the appointments he  
will have to make. It goes without saying,  
also, that he must enter upon the office  
absolutely untrammelled by pledges to  
any faction, if he is to administer affairs  
for the good of the city.

Men of the character indicated are not  
numerous enough to block up any street,  
and when they are found they are not al-  
ways willing to give up their private busi-  
ness for public office.

There has been a general inclination  
among prominent men in all parts of the  
city towards ex-Mayor Bothfield, and his  
return from the mountains, this week, was  
the signal for a seige of his office, to find  
out if he would consent to take the office  
again. Many think he fills all the neces-  
sary requirements, and his long experience  
in the city government would give him an  
advantage over any new and untried candi-  
date. His position is said to be that he  
would prefer to devote himself to his  
private business, but if there is a general  
desire to have him serve, he would accept  
a nomination, provided it came without  
any effect on his part. He does not care  
enough for the office to enter upon any  
fight for it, or to do anything to secure it,  
as it would be a sacrifice to him, from a  
financial standpoint.

That is the answer that all the inter-  
viewers have received, and those who con-  
sider that he is the best available candidate  
have the matter in their own hands.

There are others, however, and a num-  
ber of other candidates have warm ad-  
vocates. First among them is Mayor Cobb,  
who has many friends who think he is  
just the man for the position, and some of  
them are known as skilled workers in the  
field of local politics. While Mayor Cobb  
would not engage in any active work for  
the nomination, it is said that he would  
accept if it came to him in a regular fash-  
ion.

Others who are mentioned are President  
Davis of the common council, a repre-  
sentative of Ward Three, who has a consid-  
erable following, and Alderman Roberts of  
Ward Two, whose friends think the office  
really belongs to that ward this year.

time. Besides, the prospects are that  
Newton, as well as all other cities in the  
Metropolitan district, will soon become a  
part of the Boston postal district, and then  
it will not take twenty-four hours or more  
for Boston letters to be delivered in New-  
ton.

GEORGE FRED WILLIAMS had every  
thing his own way at Worcester and those  
not in sympathy with him had to get out.  
If a candidate has no hope of being elected  
it must be some satisfaction to know that  
he whipped all his enemies in his own  
party, and perhaps Mr. Williams thinks that  
a small and united party is better than a  
large and discordant one, in which half  
the members are more or less secretly fight-  
ing the other half. When his party once  
gets as thoroughly disciplined as the party  
of his political opponents, and realize that  
they must either obey in all things or else  
be turned out as traitors and mugwumps,  
perhaps Mr. Williams thinks he will have  
some chance of success. This year he can  
do much more than to fight for position,  
and get things in thorough working  
order for another year. Meanwhile he fur-  
nishes an interesting spectacle for political  
students and adds some life and energy to  
an off-year campaign.

COL. MELVIN O. ADAMS made quite an  
innovation at the Republican State conven-  
tion, by reciting the platform from mem-  
ory, without reference to the manu-  
script. Some say he ought to have made it  
rhyme, instead of putting it all in blank  
verse, but the whole thing was a gem in  
its way, and those who had the benefit of  
Col. Adams' masterly elocution will not  
forget how charming political platforms  
can be made. Of course there is not very  
much to say this year, there is no doubt of  
the reelection of Gov. Wolcott and the rest  
of the ticket, but from a literary stand-  
point it is the best platform we have ever  
had.

The Republican Representative Conven-  
tion meets at Newtonville, this evening,  
when Representatives Pickard and Hay-  
ward will be renominated without oppo-  
sition. After the convention the delegates  
are invited by Messrs. Pickard and Hay-  
ward, to a dinner at the Woodland Park  
Hotel, which will be one of the fine affairs  
for which that hostelry is noted.

CAN any of the opponents of biennial  
elections tell what advantage Massachu-  
setts will gain by having an election this  
year? There are no new issues, the pres-  
ent state officials will all be renominated  
and re-elected, and there seems absolutely  
no reason for all the fuss and expense that  
is involved.

## Appreciative.

To the Editor of the Graphic:—  
Though there is a speculative purpose in  
nearly all enterprises that seem to be of  
public character, like the new Masonic and  
other buildings erected during the recent  
past in our growing Newton city, I think  
the average citizen will feel a generous  
degree of pride and appreciation in these im-  
provements, which not only add largely  
to the appearance of our streets and  
squares, but also to the taxable value of  
the city.

The writer has in mind just now the  
marked changes in Newtonville, exclusive  
of the extensive and expensive improve-  
ment of the Boston & Albany Railroad Co.,  
the Washington street widening and new  
tracking, noted in a recent issue of the  
GRAPHIC, but the elegant and slightly  
Masonic building, which will soon be ready  
for dedication and occupancy. I have just  
returned from a look through the quarters  
in this block, occupied by the Newtonville  
Trust Co., which I am glad to know,  
though not a stockholder, is more than  
repaying its highest expectations of success.  
The expense of equipping this bank and  
the special care taken in its construction to  
make it every way a safe deposit, not only  
for daily balances but for other valuables,  
which may be entrusted to its trust keep-  
ers, renders it a most welcome accommo-  
dation to our citizens, who will not have to  
go to Boston or elsewhere and pay twice as  
much for no better security. We have to  
thank Mr. S. W. French, the obliging  
treasurer, for allowing us behind the bars  
and explaining the modus operandi of the  
big safe in the most confidential manner  
possible, and without exacting from us a  
pledge that we would not betray the secret  
of opening and closing its ponderous doors  
and lockers. Through our French guide  
and interpreter spoke excellent English in  
telling us "how to do it." We were glad  
to find that the results were the same  
after as before my examination. G. H. L.

## Music.

It is a well known experience of musi-  
cians that, at least, nine out of ten ad-  
vanced pupils, who come to them for in-  
struction in music, give plentiful evidence  
of deficiency and uncertainty in their early  
training. The general impression among  
parents has been that any kind of teacher  
will do, at the beginning, and later on the  
child can be sent to a better one. If there  
is ever a time when poor instruction in  
anything is advisable it certainly is not at  
the foundation, upon which the whole  
super-structure rests. But most teachers,  
sufficiently experienced and competent to  
instruct advanced pupils, will not spend  
their time with beginners. They rarely  
have the necessary patience nor the faculty  
of putting themselves into the beginner's  
position and viewing the difficulties from  
their standpoint. The child is often  
blamed and scolded when the fault really  
is in the teacher. Most children learn  
readily, anything within their powers,  
which is sufficiently explained and in which  
their interest is awakened.

Miss G. M. Harris, whose card is in  
another column of this paper, a graduate  
of the Leipzig Conservatory, and the win-  
ner of the Heibig and Moscheles prizes at  
that institution, realizing the great need of  
thorough foundational work in the study  
of music, will this season devote a part of  
her teaching hours to the training of chil-  
dren from the age of 5 years, upwards, in  
solfege, Harmony, and Piano-forte play-  
ing. Terms, which will be very reason-  
able, made known on application at studio,  
daily, from 9 to 10 o'clock a. m., excepting  
Saturdays.

## The Newton Star Course.

An exchange sale of reserved seat tickets  
for the Newton Star Course was held at  
the box office at Eliot hall, Wednesday  
evening, and quite a number of our citi-  
zens secured seats for the season. It is re-  
gretted however that more did not avail  
themselves of the opportunity of securing  
seats for the finest course of entertainments  
ever given in Newton, several of the at-  
tractions are to appear in the Boston Star  
Course the coming season.  
Reserved seats for the course are now on  
sale at Hudson's drug store, where a plan  
of the hall may be seen and choice seats  
selected.

"Glenfield." Miss Sarah B. Matthews is  
in charge. Already a large number of  
students have entered.

## Lassell Notes.

On Monday morning at about 8 o'clock,  
a party of sixty alert girls, with Principal  
Bragdon as escort, left the seminary in  
barges, bound for Concord and Lexington,  
places which to most of them had probably  
never been previously visited. The girls  
of old war stories recited perhaps in the  
history class in bygone days. Now they  
were to become living realities; the pan-  
caked red-coats of '75 will henceforth be  
to the young ladies something more than  
spectral figures. Emerson, Hawthorne,  
and the Alcotts will seem more credibly  
to have been of our own race, tongue,  
and time; and pride of country will be  
not a possible, but an actual thing.  
Such trips have an educational value and  
a stimulating power not always sufficiently  
recognized. Thoroughly familiar with  
these places and their historic and literary  
associations, Mr. Bragdon is a valuable  
guide for such a party; and it is needless to  
say that the day was thoroughly enjoyed.

The third excursion of the school year  
is to be a two days trip to the White Moun-  
tains, the party, which numbers thirty-five  
or forty, leaving Auburndale on Saturday,  
Oct. 2d, and returning Monday evening.  
The exquisite autumn coloring of the trees  
at this season will lend to this trip a charm  
which the average visitor to these beauti-  
ful mountains misses wholly, spending  
there, as he does, only a few weeks of the  
summer time. The principal will, in this  
instance also, conduct the party.

Thursday's musical treat consisted of an  
enjoyable concert by Prof. Stanton, assist-  
ed by Miss G. Potvin. During the concert  
interesting comments were made upon the  
various numbers of the program, and the  
entertainment thus made more instructive  
as well as more pleasurable.

Boating on the Charles River is a favorite  
recreation with the students during the  
fine fall days, and basket-ball has its  
devotees also.

## The Blue Book.

The Blue Book of Newton, which alter-  
nates every other year with the Directory  
is promised within a few weeks, and can-  
vassers are now at work throughout the  
city. It is published by E. A. Jones of  
115 Congress street, Boston, and is always  
valuable as it brings the changes in ad-  
dresses up to date, and gives a society ad-  
dress, the latest map of Newton, an al-  
phabetical list of prominent residents, a  
street directory, and much other informa-  
tion which every one wishes to have at hand.

## Millinery Opening.

The ladies of Newton are invited to the  
millinery opening at 200 Centre street,  
Stevens block, Oct. 5th and 6th. Miss A.  
Smith will have a fine display of the  
latest designs in fall and winter bonnets,  
including copies of late French models.  
As the store is in Newton square it is  
convenient to all the electrics.

## Opening.

Mrs. E. A. Smith of 202 Moody street,  
Waltham, will have her 7th annual open-  
ing of fall and winter millinery, on Oct.  
6th and 8th, and the ladies of Newton  
will find it worth while to attend. Mrs.  
Smith has many regular customers in New-  
ton who will be interested in the announce-  
ment made in another column.

## REAL ESTATE.

Bowker, Gay & Wills have sold for the  
trustees of Brentwood Park the fine corner  
lot at Hancock avenue, and Bridgebridge  
road, Newton Centre, to Joseph B. Gay,  
architect, who will build a house for his  
own occupancy. The trustees have also  
sold a lot of 10,400 feet, with the buildings  
thereon, which will be converted into a  
club stable, to John H. Bombard of New-  
tonville. This club stable will be for the  
use of the residents of Brentwood Park, as  
restrictions do not admit of private stables.

Frederick E. Barton has sold for S. E.  
Downs the 10-room house, 96 Boyd street,  
Newton. The lot contains 7500 square feet  
of land. The price paid was \$6000.

Through the agency of Alvord Bros. &  
Co., a lot of land of over 12,000 feet has  
been sold on the corner of Langley road  
and Maple Park, Newton Centre, by L. S.  
Warren to Helen L. Rodden. It is the in-  
tention of the new owner to erect at once  
two single houses, one for her own occu-  
pancy. The same firm have also rented a  
house on Parker street, Newton Centre, for  
Mrs. F. M. Keeler, to L. H. Myers, also the  
store No. 65 Union Bldg., to Miss Mary F.  
Ryan, who has opened a first class millinery  
establishment, also the room No. 5 in the  
Union building to Mme. Reamey as a man-  
icure and chiropodist establishment.

## Who Can Explain This Mystery?

It was a Sunday school lesson about  
Peter's trial of loyalty and his gallant  
failure. "The daniel said, 'Thou also  
wast with Jesus of Galilee.'"

The teacher asked one of her young class,  
"What is a daniel?"

"They all gave it up at first, but finally  
one suggested that it was a man with only  
one leg. Generally there is a reason for  
such answers, but the teacher did not find it.  
"Sciolis" in Milford Gazette.

"The Beautiful Deerfield Valley" is the  
way it is usually referred to and it deserves  
its title. The Fitchburg Railroad popular  
Hoosac Tunnel excursion of Sept. 18th,  
runs through it, and the rate is only \$2.

Mrs. W. S. Tilton reported at police headquarters Wednesday evening that some time during the summer vacation, her house at the corner of Walnut and Hull streets was entered by force and a few tools were left behind. Little of value was carried off.

The canoeing season is rapidly drawing to a close. The children who have cooled the ardor of the enthusiasts, and the number of boats is diminishing. Last Sunday's beautiful weather called out a large number of pleasure crafts, and the number of boats in the sport was usually large for this time of the year. Throughout the season the water was very high, and the weather for the most part very favorable. As usual the boat club concerts have been the leading feature of the season. The recreation grounds attracted many visitors. Norumbega park, has about closed a most successful season. The scores of attractions offered have apparently proved irresistible. Thousands were entertained almost daily.

The directors of the Associated Charities came together for the first time after the summer vacation, yesterday afternoon. The treasurer reported the receipt from Eliot church of \$179, the amount of unsolicited contributions at the union services during the summer. This donation, which is most gratefully acknowledged, has enabled the society to meet all obligations up to the first of September. It was voted to amend a by-law of the corporation, so that the annual meeting will occur on the second Thursday in January, instead of October as heretofore. The society is still agitating the subject of the Old People's Home. Several eligible sites have been proposed. It was reported by a committee interested in the proposed legislation for the separation of the children's department from the other branches of state charities, that there is but one feeble minded and one indigent child supported by the city of Newton in institutions at present.

Mr. Condon, will stage his play in November, at Park theatre, Waltham, under the auspices of the Young Men's Association.

In the police court Tuesday morning James F. Meehan and James E. Dow were brought before Judge Kennedy, on the charge of larceny of a quantity of building materials from a new house on Warwick road owned by Angus D. Campbell of Medford. They were fined \$20 each. In addition Meehan was charged with larceny from a building on two counts. He was found guilty and sentenced to two months in the house of correction on each count. Both men appealed.

Shortly before Sunday morning, Patrolman Condon and Kite arrested Martin Nolan, a Waltham expressman, on the charge of illegal transportation of liquor. They allege that the marks on cases of liquor, which he was delivering, did not agree with the known address of the persons to whom delivered. The contents of his wagon, consisting of one-half barrel of ale, 92 pints of ale, one quart of rum and 72 empty bottles, was taken to police headquarters. In court Monday morning Nolan was found guilty, and the case continued for sentence.

## NEWTON CLUB.

A special meeting of the club was held last Saturday evening at the clubhouse. James W. French, for the executive committee, presented a report suggesting that the club in the interests of economy and better service should own its own electric lighting and heating plant. After some discussion it was voted to install the plant, and the executive committee was authorized to proceed with the work. The treasurer was authorized to issue a note of the club for \$5000 to defray the cost.

French Decorations.

Doe, Hunnewell & Co., 361 Boylston street, near Arlington street, Boston, are fortunate in securing the services of a foreman, who is a member of the School of Fine Arts of Paris, and who will take charge of their drapery and upholstery department. This firm opens this fall with a fine display of exclusive French designs in silks and tapestries for draperies and furniture. Also special patterns of carpets and wall papers. They make a specialty of plain and decorative painting.

Masonic Hall Association.

On another page will be found a description of the new Masonic Hall building, at Newtonville, to be dedicated next week. The officers of the association are, George P. Whitmore, Pres.; Frank R. Porter, Vice Pres.; E. P. Hatch, Treas.; Charles A. Kellogg, Clerk; The above and the following are directors, Samuel Shaw, J. P. H. Eustis, John N. Fisher, J. Cheever Fuller, Chas. F. Mason, N. H. Chadwick, H. A. Boynton, W. C. Boyden, Clarence Tibbets, Geo. F. Williams and E. D. Van Tassell.

## Boston Food Fair.

The Boston Food Fair at Mechanics' Building, Boston, bids fair to score the biggest success ever known in the exhibition line. Five hundred souvenir spoons given away to first five hundred purchasing tickets every morning. Different designs every day. Four thousand five hundred articles distributed to the people daily from the big give away department. Sousa's Band, Reeves' Band and Salem Cadet Band are notable attractions in the musical department. The Maine Department, the Household Institute, the Bakers' Department, the Agricultural Department and the Irish Exhibit with its Blarney Stone are some of the special features.

Nonantum Wins Again.

The Newton Veteran Firemen won first prize again at Haverhill, yesterday, with a stream of 138 feet, 10-18 in., more than 8 feet beyond their nearest competitor. Our veterans have a record the city is proud of. Upon their return last night they celebrated their victory by a parade of drums. A meeting in the engine house on Watertown street followed.

Three Solemn Truths.

When a young clerk in an office is privileged to dictate letters to a stenographer, his sense of importance is so great that he struts around and carries his head higher than the head of any concern ever dared to.

The real boy despises his schoolmate who presents a red apple to the teacher every morning.

When a woman in a street car is engaged in purchasing a newspaper, the newsboy calculates on riding at least a mile before she finishes. —Roxbury Gazette.

His Accomplishments.

Askins—They say that Broadhead is an accomplished linguist.

Grimes—Yes; he speaks six different languages—English, baby talk, society gabble, base ball dialect, bill of fare French and the New Jersey language.

Probably the most popular tour in America is that to New York and return via the Hoosac Tunnel Route to Albany, the Day Line to New York and the Fall River Line to Boston. The Fitchburg Railroad popular New York excursion of September 30th is via this route and the rate is only \$5.00.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Chas. Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera, morbus dysenteriae and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by E. F. ## Quarterly Meeting of Hospital Trustees.

The quarterly meeting of the Newton Hospital Trustees was held as usual, President Leeson occupying the chair, and the following members present: Messrs. Bacon, Cobb, Gould, Haskell, Hovey, Leonard, Mason, and Morse, Messrs. Burr, Edmonds, Pettie, Pratt, Tyler, Mr. George D. Davis, and Drs. Hunt, Thayer, Eaton and Seales.

The report of the treasurer showed an income for the quarter of about \$3000, and the receipt of a legacy of \$2000 from the estate of William Wallis, and one of \$100 from that of Mrs. E. E. Stiles; while the expenses were \$2246, with a balance of only \$1355 on hand with which to meet the current expenses. Mr. Pratt as Chairman of the Finance Committee, in reference to the deficit shown by the above figures, urged the necessity of increased contributions from the churches and citizens generally to prevent running still further behind.

Dr. Seales for the executive committee gave the daily average of patients for June, 35-1-10, July, 33-1-10, August, 24, 5-1-0, averaging for the quarter nearly 31, somewhat lower than that of last year, and the usual amount of routine business. Dr. Eaton representing the Managers of the Training School, reported two probationers admitted to the school, making the total number of pupil nurses 28, of whom 9 were employed on outside duty; that the lecture course, discontinued through August, had been again resumed, and that the school was running in a very satisfactory manner. In answer to a question, Dr. Thayer stated that plans had not been sufficiently matured to permit of any material progress this winter on the additions to the buildings so greatly needed, and which kind friends are ready to provide. He deeply regretted this, because the main wards of the hospital are already filled to overflowing, but said that steps were being taken to complete all the details, so that the work could be pushed as soon as the season permitted.

## FIRST GAME A VICTORY.

NEWTON CLUB A. A. OPENS ITS FOOTBALL SEASON BY DEFEATING THE NORTH SHORE A. A. ON THE CEDAR STREET GROUNDS—LACK OF PRACTICE SHOWN BY BOTH TEAMS.—HOME TEAM PROMISES SOME FINE MATCHES IN THE FUTURE.

The first game of the Newton Club A. A.'s football season was played last Saturday afternoon on the Cedar street grounds. Newton won easily with a score of 16 to 0, but the playing was not up to the standard that these teams will attain later in the season.

Newton has a strong eleven this year, and after the men get to playing together they should give a good account of themselves. The line was weak in spots, principally at tackles. The centre was of the stone wall variety, with George Callahan in the middle and Paul and Eddy on either side.

Callahan, for a man of his weight, was as lively as a kitten, and played all round Legate. The ex-Amherst captain has lost none of his old time agility, and he repeatedly broke through and fell on the ball in a fumble. Jerry Murphy put up a fine game at the end, and the North Shore contingent did not do any damage on his side of the line. The backs, Corbett, Dole and Edmonds, are all well known players, and they made some pretty runs with good interference.

The Newton Club A. A. men were a bit shy on signals, however, and this seriously interfered with team play. On several occasions the backs did not find the right hole, and Newton lost the ball once on a fourth down because the quarter-back could not find any one to pass the leather to.

One of the new men on Newton club A. A. is Fitzpatrick, formerly of Lehigh. When the game opened it was North Shore's kick-off, and Ellis sent the ball to Edmonds, who fumbled and finally returned to the middle of the field, where Holmes fumbled and "Butt" fell on the leather for Newton. Then Newton hammered away at North Shore, and never lost the ball until a touchdown was made. Dole went 20 yards around left end. Then the centre was worked for short gains, and a fake kick netted 30 yards. Sands taking the ball around left end with good interference. This run placed the ball on the five-yard line, and Dole was pushed over the white chalk mark. Corbett kicked goal. The six points were earned in five minutes' actual play.

On the kick-off Dole secured the ball on his own 25-yard line, and recovered 10 yards before he was dropped by Merritt. After a couple of ineffectual rushes, Dole punted to North Shore's 25-yard line, and Newton was in possession again on account of a fumble. Ellis juggled the ball and fell on it.

Corbett and Dole, assisted by clever interference, did the rest. Dole made the touchdown, and Corbett, from a long kick, secured his second goal.

For the remainder of the half North Shore had the better of the argument. Honors were a pretty run around Fitzpatrick's end, and Dole and Ellis made short gains. Both teams were rather evenly matched, and the ball was on Newton's 30-yard line when the whistle blew.

After an exchange of punts, Newton secured the ball on North Shore's 40-yard line. On the next play Corbett made a corking dodging run around right end for 20 yards, and Fitzpatrick went the other 20 around the opposite end for a touchdown. There was some misunderstanding on the punt out, and Newton lost her try for a touchdown. When play was resumed both sides commenced to punt, and on one of these changes Newton gained 20 yards. Ellis punted the sphere back to the middle of the field, where Corbett secured it and started a run. Merritt and Whitney landed on him for keeps, and the latter promptly claimed interference, with a fair catch. His bluff worked all right and Newton was awarded the yards.

A moment later Newton lost the ball on a fumble and Ellis punted to Newton's 30-yard line, where Eddy fell on the ball. By kicking, Newton placed the ball on North Shore's 20-yard line. E. Vought of North Shore got away for a 25-yard run, and the game ended with the ball in Newton's territory.

## What do the Children Drink?

Don't give them tea or coffee. Have you tried the new food drink called Grain-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 1-4 as much. All grocers sell it. 15c and 25c.

## Garden City A. A. 10; Emmanuel A. A. 0.

The Garden City Athletic Association opened its third season last Saturday in a match with Emmanuel A. A. of Boston on Morse's field. The work of both teams was very strong, but that of the home team was superior in every point. Its interference was too much for the Emmanuel's, whose center was broken for big gains. A triple pass play was also effective around the ends, and worked a gain of 40 yards. G. Wilson, Harrington, Hill and Bailey played finely for the Garden City, while the Emmanuel's best work was done by Barrington, Brown and Alexander. The summary:

## NONANTUM.

—Mr. Alfred H. Handley has returned from Jackson, New Hampshire.  
—Several wheelers of the Nonantum club took a run to Blue Hill last Sunday.  
—Simon Lovely is soon to leave for Pawtucket, where he has taken a position.

—Mr. and Mrs. Bert Frye of Bridge street have returned from Skowhegan, Maine.  
—Mr. Moses Armstrong, formerly of this place, is now in business in Waltham.

—Mr. Joshua Holdsworth and family of Cambridge street are soon to remove to Connecticut.

—Mr. Edmund Neal and family, formerly of Woburn street, have taken a house on Sweet's court.

—Driver Michael Turner of hose 8 company left Wednesday on his annual two weeks vacation.

—Mr. R. Woodman lead the Y. P. S. C. E. meeting at the North Evangelical church last Sunday evening.

—The cottage prayer meeting was held Wednesday evening at the home of Miss Jane Arnold of California street.

—The children of Mr. and Mrs. Alexander Blue of Bridge street are recovering from an attack of whooping cough.

—Mr. Warren Rockwell of Watertown will be the speaker at next Sunday's meeting of the Belah Baptist mission on Bridge street.

—Mr. and Mrs. William Bowen's children of California street have been suffering with whooping cough, but are now much improved.

—The Hebrew families of this place observed the Jewish New Year this week. Their places of business were closed Monday and Tuesday.

—Miss Mary Sullivan of Bridge street, while wheeling on Watertown street last Monday afternoon, came into collision with another bicyclist, and was badly injured. She was taken to her home. The wheel was considerably damaged.

—Members of the special committee appointed by the city government have been looking over the building on Beach street, which have caused so much discussion of late. Every house was inspected, and the work thoroughly examined. The committee will probably report at the next meeting of the board of aldermen.

—At Lynn last Saturday afternoon, the Newton Cricket club badly defeated the Wanderers of that place, winning hands down by a score of 69 to 23. Davidson, Genest and M. Johnson did some heavy batting for the visitors, while the latter also performed the "bat trick." J. C. Bennett was the only home player who could do anything with the Newton bowlers.

—Ex-Councilman and Mrs. Rueben Forkall of California street observed their 20th wedding anniversary Monday evening at their home. The house was elaborately decorated with cut flowers and potted plants, and filled by over half a hundred guests. From 8 to 9 o'clock Mr. and Mrs. Forkall received informally assisted by Mr. Bertram Forkall and Mrs. William Bowen. Following the reception refreshments were served, and a musical entertainment of pleasing numbers was given.

Mr. and Mrs. Forkall were the recipient of many handsome and valuable gifts. Among those who came to extend their best wishes were several who were present at the wedding of their hosts. Mr. Forkall has been a resident of this place for 28 years, and Mrs. Forkall for 25. Both are members of the North Evangelical church, and are very popular socially.

—The parents of school children of this place have a grievance against the school board, which they will present to that body at its next regular meeting. There is no master for ninth grade scholars at the Eliot school, it is said, and the pupils are compelled to go to the Adams school. The principal of the latter school cannot give full time to the Eliot school classes, so the only solution of the problem, in the opinion of the school board, is the appointment of a master at the Eliot building. There was considerable objection made by Newtonville people when their children were obliged to walk to Nonantum to attend certain classes. This, it will be remembered, was necessary when the Adams building was burned, and was but temporary. Of course the new building is some distance from the Adams school, and the walk is almost too great for scholars who live near the Watertown line. The protest of Nonantum residents will probably be made in the form of a petition, which will doubtless receive a large number of signatures.

—A dying leap through the window of her tenement on the third floor of a house off West street Monday night, was all that saved Mrs. Antonette Skein, an Italian woman, from death or serious wounds at the hands of her husband, Felice Skein. Her terror, caused by a knife in the hands of her husband and his threats against her life, were sufficient to nerve her for a leap from the window, 25 feet above the ground, and her desperate attempt was rewarded by a wonderful escape from injury. After striking the ground, she got up and rushed through Adams street to Watertown street, where she encountered patrolman O'Halloran and Lacey, who accompanied her back to the house, but Skein had already made his escape. It is known however, that he returned to the house later. He bears a bad reputation, and is believed by the police to be altogether too handy with his knife for the safety of those with whom he comes in contact. His wife next morning appeared before Clerk Whitteley of the police court to swear out a complaint.

## GREAT WATER SPORTS.

EXHIBITION AT RIVERSIDE RECREATION GROUNDS—NEWTON BOAT CLUB MEN WON MUCH APPLAUSE—RIDING REGATTA CANOE TOURNAMENT.

The opening of the Riverside recreation grounds at Riverside took place last Saturday afternoon in the presence of several hundred people.

The day's program was carried out willy to water sports, and the different events were well contested.

The first event was a 50-yard swim straightaway, open to members and students under 18 years of age.

This contest was swam in heats. In the first trial there were four starters, W. Fox of the Brookline high school, J. B. Dunn of the Roxbury high, D. W. Howes of the Newton high and W. Wright of the Adams school. Fox took the lead at the start and was never headed, although pressed hard by Dunn.

In the second heat there were but two starters, H. G. Osborn of the Brookline high and J. B. Meagher of the Adams school. Adams won with ease.

The final heat was first, J. B. Dunn of the Brookline high second, and H. L. Burroughs of the Newton club third. No time taken. The diving contest had seven entries. This event included standing and running dives, plunges, etc. The winners were H. G. Osborn of the Brookline high first, J. B. Dunn of the Roxbury high second, and H. L. Burroughs of the Newton club third.

A 50-yard match race between F. R. Sedgley of the Newton high and H. L. Burroughs of the Newton club was won by the latter, who swam away from his rival with ease.

Then followed an exhibition by James Shea, instructor of the B. A. A., and several members of that association, which included swimming under water and the various strokes, diving through hoops and many other difficult feats.

The work of Messrs. Shea and Baxter was especially clever, and these men were cheered to the echo by the spectators.

A relay race between the B. A. A. and Newton boat clubs was the next feature on the card. The teams were made up as follows: B. A. A., Cutts, Howe, Williams, Baxter; N. B. C., Burrage, May, Spencer, Batchelder.

The Newton boys were outclassed, and the B. A. A. swimmers had no trouble in winning the race.

At the close of this race Messrs. Baxter, Shea and Howe gave a clever exhibition of high diving.

John W. Leavitt came out at this point and attempted to swim across the pool, a distance of 70 yards, under water, but failed.

Mr. Leavitt then showed the different styles of swimming by the various professional swimmers.

A feature that caused much merriment was the riding of the keg. Although several of the boys tried it there was but one who could remain seated until the keg reached the end of the long pole.

The sports were brought to a close by a tournament, in which two crews went out in canoes, and with the aid of a long pole, they each tried to upset the other. The crews were composed of P. Lynch and mate, and J. M. Gibbs and mate. After sparring about for some minutes Lynch and mate sent their rivals sprawling into the water and the contest was at an end.

The events were under the direction of Charles W. Hubbard, who officiated as referee of all the contests. Messrs. Street and Kisson were the judges.

## NEWTON UPPER FALLS.

—Mr. Joseph Abbott is enjoying his vacation.  
—Mrs. O. G. Billings is visiting in New Hampshire.

—Mr. John Thomason attended the firemen's muster at Haverhill, yesterday.

—Officers Fuller and McKenzie returned to duty Wednesday, after two weeks vacation.

—Miss Nellie Leach and Miss Lena Sullivan have returned from a two weeks' vacation trip in New York.

—It is reported that a large sewing machine manufacturing company is to locate its works in this place.

—Mr. William Keefe has been visiting in Baltimore, where he attended the famous Boston-Baltimore baseball game.

—Supt. Williams of the Metropolitan Park commission, accompanied by his wife, is enjoying a vacation trip in Vermont.

—There are letters in the postoffice for Nora Scannell, John Chasson, Charles H. Holmes, and Brownistaw Dobyszewski.

—G. Valenti, the Chestnut street fruit dealer, has purchased a store at Highlandville. He will operate both places of business.

—Mr. Daniel Hurley of High street was presented to President McKinley at North Adams last week. Upper Falls residents fully appreciate this honor shown one of their leading citizens.

—Winter street sidewalks are in bad shape, and badly need the attention of the highway department. The recent rains have loosened the stones in streets, which will also have to be repaired.

—James Farrar and John Campbell, while at work at Pettie's, Tuesday morning, had their hands severely injured by coming in contact with some portion of the machinery. Each man suffered the loss of a finger.

—Complaint has been heard among residents of this place against the electric car service. The claim is made that the cars are not run on time, and the trips are not sufficiently frequent. The matter will probably be brought before the directors of the road.

## NEWTON LOWER FALLS.

—Registration officers registered applicants for the voting list at Freeman Hall, Tuesday evening.

—The Manus football team have organized for the voting list at Freeman Hall, Tuesday evening.

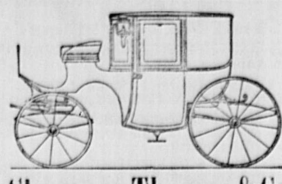

—The household effects of Wm. Merrill were disposed of by auction sale, Wednesday, Mr. Geo. N. Smith, who has succeeded Mr. Chester, deceased, of Wellesley Hills, was the auctioneer.

—The following are unclaimed letters at the postoffice: Mrs. Ada A. Olesime, Bernard D. Ernest, Barnum, Matthew H. McAvoy, Mrs. Amy Fiske, Miss Mary McMackin, Giovanni Spinaola.

—Mr. Arthur Hunter and family have disposed of their house and moved to Bolton, Mass., where they have bought a farm. Mr. Andrew Kimball has purchased the property and will occupy it.

—A turn out has been laid this week just beyond the bridge, on the Natick and Cohasset electric road. Many unfounded rumors were that the work began were that both divisions were to run their cars to the termination of both lines.

—Natick entertained a large number from this vicinity last Saturday, on the occasion of the annual day of that place. A principal attraction was the playout between Newton and Hopkinton vets, who competed through invitation in a friendly contest, the former making the best record by 12 feet.

—Sunday afternoon about 1:30 o'clock an alarm was rung in from box 712 for a lively blaze in Mr. Arthur H. Ely's house on Commonwealth avenue, near Cedar street. The fire started from an overheated stove, and worked into the partitions, giving the department a stubborn battle. Damage \$500, insured.

—Herbert F. Cobb and Arthur A. Blanchard have returned to town and to their studies at Tech., after a full month's vacation cruise in the delightful region along the coast of Maine, between Rockland and Bar Harbor. Another Tech. student, Mr. Donald Campbell from Lowell, Mr. Herbert C. Stearns of Newton, and Mr. Cobb's younger brother, with skipper Dechow, made up the party. They had fine weather, fine sailing and shooting, making the outing most enjoyable.

—The wedding of Miss Lillian Gray White, daughter of Mr. and Mrs. Daniel A. White of Glen avenue, and Mr. Henry E. Williams of Rochester, N. Y., took place Wednesday evening, in the First Baptist church in this place. Nearly 500 guests were present. The ceremony was performed by the Rev. Dr. Alvah Hovey, assisted by Rev. E. Y. Mullins. The bride was given away by her father, and was attended by Miss Gladys F. Smith as maid of honor. The bride's gown was of white satin, trimmed with duchess lace, and she carried a bunch of bride roses. Her train was arranged with the same flowers. The maid of honor was crowned in pink gossamer with white chiffon trimmings. The bridesmaids were Misses Marion Haskell, Mary Gerrish, Fannie Edmonds, Clara Bond, Marguerite Logan, and Elsie Warren. They wore white muslin over green tulle. During the ceremony they sang "O Perfect Love." Mr. Allen S. White, brother of the bride, was best man, and the ushers were Messrs. Appleton Smith, William Humphrey, Douglas Burt, Horace Williams, Carol Capen and Randall Capen. The church was beautifully decorated with palms and wild flowers, the prominent figure of ornate being golden red. The ceremony was followed by a reception at the home of the bride's parents, to which 500 guests were invited. The house was beautified by masses of hydrangeas and autumn foliage. A pleasant feature of the reception was the announcement by Mrs. White of the engagement of the maid of honor, Miss Smith, and the best man, Mr. A. S. White. Mr. and Mrs. Williams will

be at home, after Jan. 1, in Fayetteville, N. J.

Rev. Mr. Havens will conduct the service in the evening at 7:30, and the topic will be "Missionary Heroes."

—The writer begins by saying it is not often that residents in a prosperous and up to date city have any yearnings to return to town government, but this is precisely the desire of a number of residents of that portion of Wards Five and Six, which is known as Oak Hill. The movement, he says, has not as yet taken definite shape, but the leaders are endeavoring to arrange for a meeting of Oak Hill people next week to consider the change. He goes on to explain that the cause of the existing dissatisfaction is the small size which the city of Newton occupies annually in the Oak Hill district; and he says it is claimed that the Oak Hill tax-payers pay five times as much in taxes as the city expends in their district, that the roads are not properly policed, that its roads are not well looked after, and that it enjoys none of the advantages which accrue to other sections of Newton in return for taxes.

Having thus stated the alleged grievances with tolerable accuracy, although the disproportion between taxes paid and benefits received is greatly underestimated, the correspondent proceeds to set forth what he understands to be the answers, namely: That Oak Hill is hardly entitled to all the advantages of a city, for the reason that the district covers more than one-third of the total area of the city, is a distinctly farming community, and only of its citizens live much nearer West Roxbury, Dedham and Brookline, than Newton Centre or Newton Highlands. He does not explain that it is considered equitable to regard Oak Hill as part of a prosperous and up-to-date city, when it comes to taxing the property owners, and as a mere "farming community," when the tax-payers ask for some proportionate benefits in return for their taxes, nor does he assert that West Roxbury, Dedham, and Brookline, which get none of the Oak Hill taxes, ought to provide Oak Hill with good roads, street lamps, and police protection; but he does not think it is difficult to imagine what he thinks he means.

In fact, the idea of seeking to be set off as a city is entertained by anybody in the Oak Hill district, so far as I know or believe. On the contrary, the movement now in progress contemplates closer relations than have hitherto existed between the district and the rest of the city of Newton. I know of no effort to arrange for a meeting of Oak Hill people next week to consider the change, but it was my privilege to attend and humbly to participate in a meeting last evening, called to consider the interests of the neighborhood by a committee appointed at a conference held by a few citizens a week ago. The meeting last evening, in the Oak Hill school house, was well attended, harmonious and enthusiastic. Rev. Lyman King presided, and brief addresses were made by Messrs. King, Este, Cooper, Anderson, Hurley, Ayres, and others. The following resolutions were adopted unanimously and with hearty applause:

Whereas—This part of the city of Newton, known as the Oak Hill district, comprises nearly half of the entire city area and has a large resident population, and

Whereas—The district pays a large and increasing amount of the municipal taxes in proportion to the benefits received—and

Whereas—Individuals owning large tracts of land in this district are ready to develop them in a public way but are restrained from so doing by want of public improvements,—and

Whereas—We have not been represented in the City Government to an adequate extent,—and

Whereas—Every portion of the city should have an equal enjoyment in the public benefits.

Resolved: That we, legal voters and land owners of this Oak Hill district, of the city of Newton, demand a fair division of the city of Newton, and a representation in the board of aldermen.

Resolved: That we as individuals will use all proper means to obtain such improvements and representation, and to further this just cause will attend the caucus and vote for persons known to be in sympathy with these resolutions.

Mr. Herbert D. Ward of Dudley street, Ward 5, was selected by the voters of the city of Newton, to represent them, as well as other sections of the ward, in the City Board of Aldermen next year, in the adoption of the proposed new municipal charter. The chairman, in accordance with authority conferred by vote, appointed a committee consisting of Messrs. Ayres, Cooper, Santerson, F. S. Este, and William Wier, to use all legitimate means in their power to carry out the expressed wishes of the meeting.

Yours truly,  
C. M. AYRES.

## CITY GOVERNMENT.

UPPER BOARD MEETS FOR THE CONSIDERATION OF A LARGE AMOUNT OF ROUTINE BUSINESS—REPORT OF THE SPECIAL COMMITTEE FOR THE CONSIDERATION OF THE ALLEGED VIOLATIONS OF THE BUILDING ORDINANCES—MATTER REFERRED TO THE CITY SOLICITOR—SEVERAL SMALL HEARINGS—NEWTON STREET RAILWAY AND WELLESLEY & BOSTON STREET RAILWAY GRANTED LOCATIONS ON WASHINGTON STREET TO NONANTUM SQUARE—\$1300 APPROPRIATED FOR THE IMPROVEMENT OF LAUNDRY BROOK.

There was an unusual amount of routine business presented for the consideration of the board at their regular meeting Monday evening. Little action of importance was taken though the session lasted for two solid hours. When the board was called to order by Mayor Cobb at 8 o'clock each member was in his seat.

## HEARINGS.

A hearing which developed a large remonstrance was that on the petition of the telephone company for permission to locate six poles on Cabot street, Newtonville. Three communications were read, each protesting, signed by J. W. Dickinson, F. J. Hartshorne and R. E. Goodwin. Accompanying was a petition in remonstrance bearing the signatures of all the residents and tenants on the street with one or two exceptions.

Mr. H. S. Allen of the telephone company addressed the board at the opening of the hearing, stating that the company desired to maintain these poles that a telephone might be placed in a gentleman's residence on that street. In this gentleman's house at present a phone was in use, but the wires were laid through private property, and in some places not over 10 feet above the ground, when the city ordinances require them to be 20. The company desired a change for better service.

Mr. Price spoke of appearing before the board last year at a similar hearing, and protesting. The telephone company at that time was granted leave to withdraw its petition. The conditions at present were unchanged. "We are a unit on Cabot street in protesting against this, and hope tonight will end it."

Dr. Coxeter was the next speaker. He spoke of the injury that the trees on that street would likely suffer. At present, he said, it is a bicyclist's paradise. There are no pieces of wire or broken glass insulators that the telephone company is sure to throw in the street after working on the poles. He disputed Mr. Allen's statement regarding the height of the wires, saying it might not be 20 feet, but was over 10 feet. Mr. Bailey, another resident of the street, also spoke in opposition. He thought the street too narrow, and that the placing of poles there would disfigure it. "We don't feel," he said, "that at present we want telephones." "If the wires were buried there would probably be no objection."

Mr. Allen said the company did not wish to press the matter further, and asked that the petition be left in the files at the city clerk's office.

Mr. Bailey was not slow in grasping the point of Mr. Allen's request, and rising promptly said, "Mr. Mayor, does this mean we are to come up again next year on the same matter, when the telephone company present this petition?" No one attempted to answer this very interesting question and the hearing was closed.

Three hearings followed: on the telephone company's location of poles on Nehodden road; on the West End Street Railway's petition to use the gas company's poles on Centre street; on the telephone company's petition to use the gas company's poles on Washington street.

The Newton Street Railway Company's petitions for turnout at junction of River and Lexington streets, and extension of tracks on Washington street from bank 100 feet to Nonantum square were also heard. President Coffin briefly explained the plans of the company, and the plans for the location were passed to each member of the board for inspection. There was no remonstrance and the hearing was closed.

## COMMUNICATIONS AND PETITIONS.

On motion of Alderman Hobart the reading of the records was dispensed with. There were no papers from the common council.

Mayor Cobb appointed Henry W. Burt a deputy election inspector.

A communication was received from Chief Handlett of the fire department recommending the placing of two hydrants on Beacon street near the cemetery. One in front of J. B. Kneeland's house and the other 60 feet west. In the communication it was set forth that the water supply had been cut off by the construction of a sewer near the cemetery. The communication was referred to the committee on fire department.

Michael Diviny, in a communication to the board, asked indemnity for damages received on account of an alleged defect in the highway on South street, Chestnut Hill. Claims committee.

A communication was received from Inspector of buildings George H. Elder, notifying the board that E. R. Drohan had petitioned for right to erect a building on Adams street, 200 feet south of Washington street, to be used as a toy store. The petition was referred to the license committee.

The petition of a Newton Centre resident to remove a building from Hammond street to Broadway place was referred to the license committee.

Martin Quinlan petitioned for street lights on Pearl street. Street light committee.

Mrs. Emaline Frohisher's communication claiming a settlement for damages to her property on account of the changing of the grade on Chestnut street was referred to the highway surveyors.

M. B. Flanders petitioned for a sewer in Langley road. Sewer committee.

W. C. Gaudette petitioned for the transfer of his sixth class liquor license from Washington street to his new store in the Masonic building. It was voted to properly advertise the same.

A hearing was ordered for Oct. 18th on the telephone company's petition for locations on Griffith and Lake avenues.

A hearing on the same date was ordered on the telephone company's petition to remove poles on Commonwealth avenue.

The Newton Club's petition to locate a boiler on Walnut place was presented by Alderman Roberts, and a hearing ordered for Oct. 18.

Annie H. Maher asked a settlement of her claim for damages on account of the widening of Washington street. Highway committee.

Vose for concrete crossings on Woodward street, were granted leave to withdraw on recommendation of the highway committee.

It was voted to construct concrete sidewalks on the following streets: W. J. Johnson and others for repair of concrete sidewalks and laying of edgestones on Thornton street; W. D. Eaton, Grasmere road; of E. McCallan, Centre street; G. Walker, Montvale road; John Adams, Auburn street; A. D. Clafin, Commonwealth avenue and Walnut street; of I. F. Kingsbury, at Chestnut Hill; of W. H. Gleason, Beacon street; C. T. Pulsifer, Kirkstall road; P. J. Mahoney, Ripley street; T. Emerson, Walker street; W. H. Magne, Chestnut street; Lassell Seminary company, Grove street; H. E. Hoyt, Sumner and Chestnut streets; H. E. Wait, Otis and Lenox streets; G. R. Eager, Seminary and Myrtle avenues, and F. M. O'Donnell or edgestones on Crafts street.

It was also voted to construct concrete gutters on Berkeley, Fairfax, Temple and Prospect streets.

For the special committee appointed to consider this matter Alderman Downs reported that one unfinished house on Fox street, referred to in the petition of I. T. Fletcher and others for more stringent building ordinances, was filled with rubbish, poorly constructed, and a source of danger in case of fire, as well as a detriment to the real estate in the vicinity.

He further reported that other finished dwelling houses in the vicinity did not conform to the building ordinances, and should be either torn down or repaired. He finally recommended that the city solicitor be instructed to proceed against the owners of the property. The report was accepted.

Alderman White—I would like to ask if we have an inspector of buildings who have to appoint a special committee to look into the matter?

Alderman Downs—At the time the petition came up I went over the buildings with Mr. Elder. He thought they were well built. I was not satisfied and went over later myself. The conditions then did not satisfy me, and for that reason I asked for the appointment of a special committee.

Alderman White—If this is the case, would like to ask what we have an inspector of buildings for. If we have to appoint a committee to take him over there and point out the defects, we certainly need an assistant inspector of buildings. I think Alderman Downs would be capable.

Alderman Downs—I am not after the job.

The sewer committee recommended the construction of sewers on Manet road, Cherry street, Pine Grove avenue and Cornell street.

\$5000 was transferred from the appropriation for better streets to the appropriation for drains and culverts on Lexington street.

It was voted to appropriate \$1300 for the deepening of Laundry Brook. The deepening was ordered for Oct. 25 on the petition for sidewalks on Seminary avenue, also on Walnut street from Morse to Mill street, also for edgestones in front of the Washington and Hall streets owned by the Alderman and Stevens estates on Thornton street.

It was ordered that sewers be constructed on Cherry street, Manet road and Cornell street.

The End railway was granted use of the gas company's poles on Centre street, and the telephone company was granted permission to use the gas company's poles on Washington street.

It was voted to refer the report of the joint special committee, which reported on the alleged building nuisance at Nonantum, to the city solicitor with instruction to report in writing on the proper method of procedure.

At 10 o'clock the board adjourned.

A pain in the chest is nature's warning that pneumonia is threatening. Jampan a piece of flannel with Chamberlain's Pain Balm and bind over the seat of pain, and another on the back between the shoulders, and prompt relief will follow. Sold by E. T. Fanning, Newtonville; L. L. G. Genest, Nonantum; B. Billings, Newton Upper Falls; J. H. Green, Newton Highlands.

**Homeopathy in Taxation.**

What labor wants today is a fairer share of the wealth it produces. It asks either that its nominal money wage shall be higher, or else, what is equivalent, that its potential wage, the purchasing power of its money wage, shall not be abridged. A numerous and respectable class of people maintain that the trouble with wages today is allopathic taxation, a taxation that reduces the money wages on the one hand, and reduces its purchasing power on the other. Will not labor trouble itself carefully to examine directly or by delegated investigation the foundation for this claim?

There are but two kinds of taxes—direct taxes and indirect taxes. Direct taxes are taxes on ground rents, on incomes, and on inheritances. All other taxes are indirect taxes. Direct taxes are paid by those persons upon whom they are assessed. Indirect taxes are never paid by those upon whom they are assessed, and in proportion to their possessions, but always by the consumer, and in proportion to his expenses.

As you know, everybody knows, but you straightway forget. Labor's universal malady is indirect taxation. Not having "protection" itself, its wages are brought to a minimum by competition. By laws of the earth, the child to be born tomorrow bears from a hundred to a thousand times more heavily upon the very poor than upon the very rich, taking from 4 per cent. of the savings of the rich to 75 per cent. of the savings of the poor.

This is how the rich grow richer, and the poor poorer. Is it any secret how taxation is the accounting cause? Is it any wonder that labor finds itself in a tight place, where first it battles with the tax, and then in less discriminating and less oppressive taxation? The Single Taxer asserts without fear of contradiction that his plan will bring this desired relief in the form of exemption from all this burden except ground rent which will be paid into its own pocket, the pocket of the community, instead of as now into private pockets.

This means ground rent ceases to be a tax, except in mere form, but is a market price for a value received.

The Single Taxer thinks he knows that every man has an equal right to the use of the earth, the child to be born tomorrow truly as the child born today, the man of 1897 no more than the man of 1897. He feels sure that when every man who is accorded exclusive possession of a given location, or is granted the exclusive enjoyment of any other special privilege above his fellows, pays to all the market value therefor, there will be left so much as a tincture of the unjust burden under which labor struggles and reels today. The first great emolument for labor is homeopathic taxation. Will you not call your Daniels to sit in judgment on this grave matter?

## Benefits of Annual Elections.

To the Editor of the Graphic—

In this week's issue of the GRAPHIC you print in your editorial columns the following:

"Can any of the opponents of biennial elections tell what advantages to society will gain by having an election this year? There are no new issues, the present state officials will all be re-nominated; and there seems absolutely no reason for all the fuss and expense that is involved."

Without pretending to be able to completely answer your question, I am enough interested in the matter to ask for space to set forth a few reasons why it is to Massachusetts' advantage that she still cling to the annual election.

In the first place, this year's election, if it does nothing more, serves to knock down blow to the argument advanced by the advocates of biennials, "that annual elections disturb business," for no one can claim that the present state election has any such effect.

But this year's election serves more good purposes than the answering of a false argument. It has served so far to give the people of the state a two striking object lessons in the methods of the powerful lobby that dictates, to a great extent, the kind of laws that shall be made by our legislators.

In the one instance, that of Mr. George of Haverhill, we find the people victorious, in the other instance, that of Senator Bailey of Arlington, we find an honest, competent man driven out of the contest by the power of the lobby, which he had the courage to oppose.

Mr. George dared to fight legislation desired by the great insurance interests, and these interests through their political agents tried to buy about his reelection and re-election, but the people of Haverhill had their eyes opened to what was being attempted and Mr. George was re-nominated. Whether the insurance interests can defeat him at the polls is something that remains to be seen.

Senator Bailey was less fortunate. In his case the Senate he was elected to represent the interests of the elevated and West End lobbyists and tools. All sorts of pressure was brought to bear to induce him to desert but he persisted. In spite of him the Legislature gave the road money that should have been given and gave to the rights of the people less protection than should have been given, and Gov. Wolcott signed the bill. Not content with having secured the legislation desired, the West End lobby upon Mr. Bailey as a dangerous man, set about to secure his defeat for re-nomination and succeeded.

Now here are two actual and striking object lessons of what lobbyists try to do and succeed in doing. They evidence a condition of things that ought not to be tolerated. They furnish the text for a strictly state issue. They furnish proof positive that the lobby issue is still existent. They prove a condition that demands discussion and action. If the newspapers and political speakers of the state are too indifferent, too ignorant, or too cowardly to discuss the question, it is not the fault of annual elections, but the shame of the men who control the papers and the men who make the speeches.

You say there are "no new issues." Perhaps not, but it is pertinent to call attention to the fact that Gov. Brackett, who was as clean, as honorable, and as able a governor as Gov. Wolcott, was defeated for having signed a bill that gave the lobby the right of no worse a lobby than that which secured the passage of the elevated bill.

You say, "the present state officials will all be re-nominated and re-elected." True, but the question is should they be re-elected? The candidates of the Democratic National party stand on a better platform than do the candidates of the Republican party and man for man they are as worthy and as honest as the men who vote for Gov. Wolcott a large number will do so because he is the Republican candidate, and another large number will vote for him because he has made an honorable record according to his lights and because they like him. But why vote for a man because one likes him? Why not pay some attention to serious issues and vote to advance the interests of the state rather than to compliment a pleasant gentleman?

If the present election serves no other purposes than to help the Gold Democracy to present its claims and to strengthen its ranks, and to advance the interests of a part of the people to the fact that there are really state issues that sooner or later must be met and decided, it will be a gain and an advantage to the state.

Finally, a few words in regard to annual and biennial elections generally. If annual elections help in the least to increase an interest in political affairs and to keep state issues more persistently before the people why do away with them? Can it honestly be said that we elect any worse men to office at annual elections than we would at biennial elections? Would we elect any better men to office if we elected once in two years instead of every year? Unless the answer to both these last two questions is a positive and incontrovertible "yes," why advocate a change from annual to biennial elections? JOHN CUTLER.

**The Late Levi F. Warren Honored.**

The Massachusetts Schoolmasters' Club held its annual dinner at Hotel Brunswick, Boston, last Saturday afternoon. Among the Newton gentlemen present were Supt. of Schools George I. Aldrich, Supt. of Boston Public Schools Edwin P. Seaver, Mr. George A. Walton, Mr. Nathaniel T. Allen, and Alderman James T. Allen. At the business meeting of the club which followed, Mr. S. W. Davis of West Newton reported for the committee on resolutions on the death of the late Levi F. Warren, for 25 years master of the Pierce grammar school at West Newton.

He paid a simple, earnest tribute to the character of Mr. Warren. Appropriate resolutions were read and adopted by the club. Mr. Warren was particularly well known in educational circles in Massachusetts and was for many years a trustee of the Teachers' annuity fund. In addition to Mr. Davis, several members of the club testified to the sincerity and general worth of Mr. Warren's life.

At the election of officers Mr. George I. Aldrich of Newton was re-elected president.

## NEGLECT IS SUICIDE.

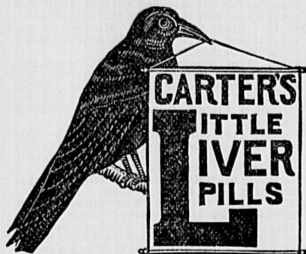

Plain Words From Mrs. Pinkham, Corroborated by Mrs. Charles Dunmore, That Ought to Bring Suffering Women to Their Senses.

If you were drowning and friendly hands shoved a plank to you, and you refused it, you would be committing suicide!

Yet that is precisely what women are doing if they go about their homes almost dead with misery, yet refuse to grasp the kindly hand held out to them! It is suicidal to go day after day with that dull, constant pain in the region of the womb and that bloating heat and tenderness of the abdomen, which make the weight of your clothes an almost intolerable burden to you. It is not natural to suffer so in merely emptying the bladder. Does not that special form of suffering tell you that there is inflammation somewhere?

Shall I tell you what it is? It is inflammation of the womb! It goes on, polypus, or tumor, or cancer will set in. Commence the use of Lydia E. Pinkham's Vegetable Compound. Thousands of women in this condition have been cured by it. Keep your bowels open with Mrs. Pinkham's Liver Pills, and if you want further advice, write to Mrs. Pinkham at Lynn, Mass., stating freely all your symptoms—she stands ready and willing to give you the very best advice. She has given the helping hand to thousands suffering just like yourself, many of whom lived miles away from a physician. Her marvelous Vegetable Compound has cured many thousands of women. It can be found at any respectable drug store.

Mrs. CHARLES DUNMORE, 103 Fremont St., Winter Hill, Somerville, Mass., says: "I was in pain day and night; my doctor did not seem to help me. I could not seem to find any relief until I took Lydia E. Pinkham's Vegetable Compound. I had inflammation of the womb, a bearing-down pain, and the whites very badly. The pain was so intense that I could not sleep at night. I took Lydia E. Pinkham's Vegetable Compound for eight months, and am now all right. Before that I took morphine pills for my pain; that was a great mistake, for the relief was only momentary and the effect vile. I am so thankful to be relieved of my sufferings, for the pains I had were something terrible. I am, indeed, very grateful for the good Mrs. Pinkham's remedies have done me."

## MASONIC BUILDING DEDICATED.

GRAND MASTER HUTCHINSON AND HIS ASSOCIATES PRESENT—IMPRESSIONS, CEREMONIES, AND A GREAT CROWD OF GUESTS.

In accordance with the impressive Masonic ritual, the new Masonic building at Newtonville was formally dedicated Wednesday evening by Most Worshipful Charles C. Hutchinson, grand master of Masons in Massachusetts, assisted by the officers of the grand lodge. It was one of the most brilliant Masonic gatherings ever held in Newton.

The building, which is located on the corner of Newtonville avenue and Walnut street, Newtonville, was described in the GRAPHIC last week. It is one of the most elaborate and finely appointed Masonic temples in the state.

The dedication ceremonies were strictly Masonic, only members of the order being admitted. Even with this limitation, the spacious apartments were crowded with prominent Masons from Boston and other parts of the state, as well as the members of Dalhousie lodge, Newton Royal Arch Chapter and Gethsemane Commandery. Altogether, more than 600 were present at the dedication.

The members of the local fraternity, by whom the building was erected, turned out to the number of 300 or more, and the grand lodge, the grand commandery, the grand chapter of Massachusetts and the pastmasters' association of the fifth Masonic district, as well as every lodge of Masons in the fifth district, were represented.

At 7 the members of Dalhousie lodge met in the old hall on Washington street, Newtonville, and took a last look at the familiar departments, which have been the home of the organization for so many years. Half an hour later a procession was formed, and under the escort of a platoon of police the lodge marched to the splendid new hall on Walnut street, which it will henceforth make its home.

The members of the grand lodge and the invited guests had already assembled in the Masonic hall, and the Masonic services were at once begun.

The grand lodge was organized with the following officers: Most worshipful grand master, Charles C. Hutchinson; deputy grand master, Arthur G. L. Pollock; senior grand warden, Edward F. Smith; junior grand warden, Joseph H. Gleason; grand treasurer, John Carr of Roxbury; recording grand secretary, George D. Nason; grand chaplain, George E. Henry of Brookline; district deputy grand masters, first district, George E. Henry of Brookline; district 2, Henry S. Rowe of Boston; district 3, Henry Sparrow of Revere; district 4, Albert B. Rodger of Boston; district 5, Frank K. Porter of Waltham; district 6, John E. Parry of Somerville; district 7, George E. White of Sandwich; grand chaplain, Rev. Charles A. Skinner of North Cambridge; grand marshal, Henry K. Dutton of Brookline; grand marshal, Frank W. Kaan of Somerville; senior grand deacon, Albert L. Harwood of Newton; junior grand deacon, Eugene C. Upton of Malden; senior grand steward, Walworth O. Barbour of Cambridge; junior grand steward, John A. McKim of Boston; grand pursuivant, Leonard W. Ross of Brighton; grand tyler, George W. Chester of Boston.

There were also present Past Grand Master Edwin B. Holmes of Brookline, Past Grand Warden Frank T. Dinnell of Brookline, Henry G. Fay of Boston, Thomas W. Davis of Belmont, William H. H. Soule of Boston, George W. Storer of Arlington, Henry G. Jordan of Boston and Henry J. Mills of Saugus, and Worshipful Master Abraham Byfield of Winslow Lewis lodge of Boston.

After the opening ceremonies the grand master was waited upon by a committee of Dalhousie lodge, and requested to dedicate the new apartments in accordance with the ancient usages of the craft. The usual procession was formed in the following order: Committee of Dalhousie lodge, grand marshal, grand tyler, stewards, architect, bearing square, level and plumb, grand secretary and grand treasurer, grand chaplain, bearing the three great lights, junior grand warden, bearing a golden vessel of corn and a burning taper of blue wax; senior grand warden, bearing a silver cup of wine and a burning taper of red wax; deputy grand master, bearing a silver cup of oil and a burning taper of white wax; most worshipful grand master, grand deacons, grand sword bearer.

As the procession entered the hall, the usual proclamation was made by the grand marshal. The procession passed around the carpet, which had been previously placed in position by the grand tyler, and the vessels of corn, wine and oil and the burning tapers were respectively deposited upon the carpet at the south, west and east, and the three great lights were placed on the altar.

The grand master was then introduced to Worshipful Master Winfield Slocum of Dalhousie lodge by the grand marshal, George P. Whitmore, and after the usual courtesies, the grand master and other grand officers assumed their stations.

A brief introductory address was made by Worshipful Bro. Albert L. Harwood. He said the occasion was one of great importance to the Masonic fraternity of Newton. For a long time the brethren have looked forward to the occupancy of a building built by and under the control of Masons.

Masonry in Newton dates back to 1860, when by dispensation began its history. The history of these years cannot be told by a few dates or names. The history of Freemasonry is deeper, and lives in the characters of individuals. These deeper things of the soul cannot be depicted.

During all these years the utmost harmony has prevailed, and has made possible this great work, now brought to successful consummation. This harmony is as pronounced in the chapter and commandery as in Dalhousie lodge. May this harmony, this friendship, this brotherly love long continue.

Dalhousie lodge was instituted in 1860 with 26 charter members, of whom five are still living. The present membership is 339. The chapter was instituted in 1863, and Gethsemane commandery in 1871.

The dedicatory hymn, "Hark! Hark! to the Voices," was sung by the Dalhousie quartet, augmented by 12 voices, and was followed by prayer by Grand Chaplain Skinner.

These formal exercises being concluded the architect briefly addressed the grand master, calling attention to the fact that the edifice was completed, and surrendered the implements committed to his care. These were the square, level and plumb, which were by the grand marshal presented to the grand master, and were by him in order in turn presented to the deputy grand master and grand wardens.

The worshipful master then addressed the grand master on behalf of Dalhousie lodge, and requested that the new apartments be dedicated agreeably to ancient form.

The grand master responded suitably, and ordered that the usual examination of the new building be made. Upon favorable report, the grand master commended the architect for his work and pronounced the edifice one that will continue a lasting monument of the taste, spirit and liberality of its founders.

The deputy grand master then spoke for the craft, and requested that the apartments be dedicated according to ancient form and usage.

The carpet was uncovered by the grand tyler, and the procession of grand officers formed and proceeded to their respective stations around the carpet. The grand chaplain offered the prayer of dedication, which was responded to by the grand mas-

ter and brethren. The hall was then dedicated to Freemasonry by the pouring of corn upon the carpet; to virtue by the pouring on of wine, and to universal benevolence by the pouring on of oil.

Suitable passages of scripture, read by the grand chaplain, were interspersed with the ceremonies, and appropriate selections were sung by the quartet. At the close of these ceremonies the grand chaplain completed the dedicatory prayer. The grand tyler then uncovered the carpet, and the grand chaplain read the usual invocation. The procession was re-formed, and the grand officers returned to their respective stations. The usual proclamation was made by the grand marshal, after which the grand master delivered a congratulatory address.

He congratulated the fraternity upon the successful event, and then said, in substance:

"These occasions are very rare, where so much thought and care and expense have been expended for the benefit of the fraternity. This beautiful edifice will be a source of pride to the Masons of Newton, and the grand officers are glad to assist in its dedication. Here the enduring principles of Freemasonry shall find a beautiful and lasting exemplification. The influences of the building being completed, and the company adjourned to the large temple hall, where a banquet was served. More than 400 members of the Newton lodge, representatives of the grand lodge, the grand chapter, the grand commandery, city officials and prominent Masons from all parts of the state, sat down at the brilliantly illuminated and decorated tables.

After the material wants of the company had been amply provided for, Worshipful Master George P. Whitmore called the company to order, and in behalf of Dalhousie lodge and its allied organizations bade the guests of the evening a hearty welcome. He referred briefly to the efforts of the Newton Masons to secure a home of their own, and the success with which they had been crowned at last. In conclusion, he introduced the toastmaster of the evening, Hon. Albert L. Harwood.

The speakers who followed Senator Harwood were Frank Mason, representing Newton Royal Arch chapter, Most Worshipful Master F. B. Jones, Worshipful Master Freeman Harman, and Hon. Henry E. Cobb, mayor of Newton.

The reception committee consisted of George P. Whitmore, Charles A. Brown, J. L. Goodrich, L. E. Binney, W. D. Harvey, A. H. Deane, O. M. Fisher, Stuart Pratt, John K. Taylor, Mitchell Wing, T. W. Mutchmore, E. H. Smith, G. W. Torrey, D. T. Kidder, C. T. Luitweller, Chas. E. Sackett, J. M. Beck, C. Bowditch Coffin, Albert Plummer and Andrew Kieffer.

In addition to the members of the grand lodge the following past masters of the fifth Masonic district were among the guests of the evening: George B. Livermore, Austin Bageot, S. N. Davenport, Horace E. Marion, J. Wesley Farmer, Otis H. Marion, Joshua S. Duncklee, Edward A. Scates, George W. Warren, Edwin P. Lamont, Sylvester B. Carter, B. H. Edwards, Leonard W. Ross, and Wm. ## ONE BOARD CITY COUNCIL.

The people of both Boston and Newton are to vote at the state election next month upon the acceptance of legislative acts consolidating the board of aldermen and the common council in each city. This trend toward a single board in municipal government is a marked one, and with the exception of the charter of Greater New York we believe all the recent charters contain this provision. In our own state for some years Waltham and Quincy have been under a one-board government. North Adams has recently organized itself into a city under the same plan.

While this one board government is not, therefore, an innovation, it has not been the general form of municipal administration in this country. In Europe, however, and chiefly in Great Britain, a single chamber has been the accepted form, and nowhere in the world has such a near approach been made to ideal municipal management as in many of the cities of Great Britain, notably Glasgow, Birmingham, Edinburgh, Liverpool, etc.

There is no valid reason why American cities should be cumbered with a system of government which, in the very nature of things, never was adapted to municipal affairs. In a recent address the Hon. Chas. Francis Adams has shown how the one board city government is the natural outgrowth of the New England town meeting. He says:

The reason why the legislative department is the weak side of the American municipal machine as now usually constituted becomes too apparent when one considers the principles on which that machine has been built up. And in the first place, we have firmly to grasp the fact that our municipalities are political business corporations, they are not states or body politics; they are mere organizations to carry on certain work which experience has shown must be done through communal machinery, and this work can only be properly done when it is done on accepted business principles. Our whole system here in Massachusetts was founded on this principle. Originally what is now the commonwealth was a land company, managed by a body of stockholders acting under a charter; and those stockholders assembled periodically in general court, as it was called, or stockholders' meetings, as we know them. In like manner our towns—"plantations," as they were first termed—were land companies, having their general courts, which subsequently became town meetings; and in those courts, or town meetings, the stockholders chose a board of directors, or executive committee, who a little later on, were known as selectmen. Presently some of the towns became so large in population that they could no longer assemble in general court, and when this time came, most unfortunately for us, instead of developing on the original lines, and in the case of our cities, in that other business corporations, providing for the election of a board of directors from the whole number of voters to conduct the business of the municipality, the law-makers became possessed with an idea that a city government must in some way resemble a national government; and so they tried to turn the business corporation into a little body politic, with its checks and its balances, its legislative chambers and its petty representative districts, called wards.

There is a latent fear that under a single board legislation would be hasty and ill-considered, and that frequently this is prevented by the check exercised in a two board government of one chamber upon the other. The fallacy of this view is known to all who have served at city hall, and must be apparent to all intelligent persons, when it is known that it is almost an every day occurrence for orders entailing thousands of dollars of expenditure to be rushed through both branches in Newton and elsewhere, within a fraction of an hour, under suspension of the rules. The check is in theory only; it is certainly not shown in practice.

Recent legislation in Massachusetts has placed so much more power with the board of aldermen than rested with the upper branch when the dual system was first established that, in many of the most important matters which are to be decided, the lower branch has no voice whatever. Among these are all questions of license; of administration of law and control of the police; of the granting of franchises to corporations; of the confirmation or removal of officials.

In practice, therefore, the tendency has been really towards a one board system. The charter for the city of Boston, which was so strongly presented to the last legislature by the Municipal League of Boston, an organization containing thousands of the city's leaders in every walk of life, and the merchants' municipal committee, composed of such able business men as Hon. Jonathan A. Lane, A. Shuman, Jas. P. Stearns, Robt. M. Barnett, Andrew G. Webster and John C. Cobb, has as its leading reform feature the consolidation of the board of aldermen and the common council. And this is exactly what is proposed for the city of Newton in the charter upon which the people must vote next month,

with this difference: In Boston, the total membership is largely decreased; in Newton it is continued as at present, with a provision that it may be altered only by direct vote of the people. The features are alike in both cities as to representation, that is, a portion of the board are elected at large and a larger portion by the individual wards. Again, a part of the members hold office for two years and the larger part for one year. This prevents a "clean sweep," always leaving at least a considerable body of experienced men to assist in the management of affairs. In Newton, the people at large are to choose one alderman from each ward, for the term of two years. (The first year, of course, there will also be chosen at large, one alderman from each ward for one year.)

In addition, each ward annually chooses one alderman. The operation of this arrangement after the first year will be the election at large of 7 aldermen for the term of two years, one from a ward, and of 7 aldermen, one from a ward, by the individual ward. So that it always will be in the power of the people to change 14 out of the 21 aldermen, thus giving a vote on any issue sufficient to override the veto power, and yet there will hold over 7 men, or one-third of the body, who will act as a conservative and experienced force.

There are those whose only fear of a one board system is the danger of a legislative stampede. But see how splendidly this is prevented in the new charter. Section 11 reads, "any ordinance, order or resolution of the board of aldermen may be passed through all its stages of legislation at one session, provided no member of said board objects thereto; but if one or more members object the measure shall be postponed for that meeting; and if when it is next brought up five or more members object to its passage at that meeting a second postponement of at least one week shall take place."

This is organic law and cannot be suspended or annulled except by action of the General Court. How infinitely more safe than the present safeguard (?) of two bodies with a provision in their rules intended to prevent railroad matters through, which provision can be and constantly is made null by the votes of the bodies themselves.

A CORRESPONDENT in another column defends annual elections, and instances the cases of Senator Bailey of Arlington, who was defeated for reelection because he dared to oppose West End street railway schemes, and Senator George of Haverhill, who was opposed by the insurance lobby but who was renominated in spite of it. These two cases show of course the power of the lobby and how dangerous it is for Senators or Representatives to oppose West End schemes, but if we had had biennial elections, both men would have been able to continue their good work another year, without fear of the lobbyists. As we elect men now practically for two year terms, if this was done by one election, the men would be able to be more independent, and could disregard the threats of the lobbyists, whose schemes they opposed. Perhaps, too, we should then find a dozen or more men who would dare to stand up for the interests of the people, instead of only one or two, as the case seems to be under our present policy of annual elections. Electing men for two years, and making them ineligible for a reelection, would make it much more difficult for the corporations to control our state Senate, as then they would have to buy the Senators outright, instead of as now merely threaten to defeat them. But it is certainly curious that among all our state senators, only two incurred the enmity of the lobbyists. Were all the others ready to do as they were ordered?

THE BOSTON CORRESPONDENT of the Springfield Republican, in writing of the contest for the presidency of the Senate says "There has been a change with Senator Harwood. A few weeks ago he said he had looked over the field and decided that he should not be a candidate. Then his preference was for Senator Smith. But he has been seen by friends who represent that he is the first choice of a respectable number of senators, and that there is therefore a possibility of his winning. They have persuaded him to enter the lists formally, and he is therefore to be reckoned not as a Smith man any longer. He is personally a highly qualified man for the office, above suspicion in his integrity, a good debater and a man of good presence in the chair. He would never be the tool of a corporation, and the interests of the people would be safe in his hands."

SENATOR LODGE'S speech before the Republican Editorial Association was eminently characteristic of the man, but very few of the editors present have such a lack of common sense, or business sense either, as to follow the Senator's ideas. The day of the narrow partisan organ has passed away, owing probably to the spread of intelligence among newspaper readers. If our junior senator would only cultivate a feeling of respect for the intelligence of the common people, his speeches would have more of the effect for which political speeches are intended.

SAMUEL O. UPHAM of Waltham was renominated for County Commissioner, on Tuesday, at the convention in Lowell, all the excitement over what was called the county ring having died out, in the usual American fashion. Mr. Edwin O. Childs of Newton was renominated without opposition for register of deeds for the southern district.

## Lecture by Edwin D. Mead.

The Newton Education Association will hold its first meeting of the season, Tuesday evening, Oct. 6th, at 7.45, in the chapel of the Congregational church, Newtonville.

A lecture will be delivered by Mr. Edwin D. Mead, president of the Twentieth Century Club, Boston, on "The Study of History," to be followed by an informal discussion. Every one interested in educational matters is cordially invited to be present. Rev. Francis B. Hornbrook, president, Ellen F. Blodgett, secretary pro tem.

## The Allen School.

A limited number of day pupils will be admitted to the Allen school at West Newton, a school whose reputation extends all over the United States. The school fits pupils for the Institute of Technology, for the scientific schools at the various colleges, and that special attention is given to pupils which can not be given in the large public schools.

—In the Auburndale column of our issue of September 24, we referred in an complimentary way to a collection agency, which has its headquarters at Waltham street, and does business in Newton.

The item was sent us by a reporter, who had not investigated the facts but sent the item on hearsay. We find upon investigation that the statements made were entirely untrue. We regret having said anything which might injuriously affect it or its standing in the community.

—Mr. George L. Chandler, a well known and popular instructor in the Newton public schools, died rather suddenly at 12.30 o'clock Wednesday night at his home on Auburn street. Death was due to liver troubles. Mr. Chandler was a native of Waterville, Me., and attended Harvard College on graduating from the schools of that place. Upon leaving Harvard he came to Newton and taught in the public schools for a number of years. Some 15 years ago, he assumed charge of the Williams school, Auburndale, as master, and taught there until his death. He was a devoted and successful teacher, and his loss will be keenly felt. Mr. Chandler was a member of the Auburn Fraternity Benefit society and of the Auburndale village improvement society. To the latter society and its work, he was always greatly devoted and was held in the highest esteem by its members. Many of the improvements in the village accomplished during the past few years, were due to his untiring energy and interest in the work of the society. Mr. Chandler was 48 years old, and leaves a wife and three children. The funeral services will be held at the Unitarian church West Newton, at 11.30 Saturday morning.

## Boston Cooking School.

This well known school which has recently gone into new quarters at 372 Boylston street, as will be seen by advertisement in another column, is now forming classes in plain, fancy and richer cooking and invites attention to the same. As fitting a certain place in home life, there is nothing like this noted school, and any lady who likes occasionally to get into the mysteries of cooking, should become interested in the school and its workings and either take a course of instruction or attend one or more of the demonstration lectures given from time to time.

The Mass. Prohibitionists will hold a rousing ratification meeting at the Y. M. C. A. Hall, Boston, Thursday, Oct. 14, at 7.45 p. m. Rev. E. D. Barr, D. D., of Boston and Hon. John G. Woolley of Chicago will address the meeting. Special music provided.

—Judge McIntire gave a hearing last Friday in the Middlesex probate court, East Cambridge, on the petition of Susan L. Greely, alleged widow of the late Rev. J. Greely of Newton, for the administration of his estate. Five heirs-at-law, all Greelys, are named in the petition, which was filed July 31, immediately after Mr. Greely's death. Mrs. Susan L. Greely, the alleged widow, whose maiden name was Corcoran, testified that she was married to Greely on Jan. 3, 1897, in the office of John W. Tyler, justice of the peace, Boston, a week after Greely's death she made it known that she was his widow. Greely was 72 years of age, and before her marriage to him Mrs. Greely was his book keeper. John W. Tyler testified as to his performing the ceremony. He said he was aware of his violating the statutes in doing so. Margaret E. Duffy testified that she witnessed the ceremony at Tyler's office. Miss Hiscok told of conversations she had with Greely regarding Miss Corcoran. She knew a marriage ceremony had been performed as Miss Corcoran had told her. Mrs. Haskell, who boarded at Riverside, knew Greely well. He was very attentive to Miss Corcoran. She asked Greely why he did not marry Miss Corcoran, and he replied: "I would marry her tomorrow if I was financially situated as I would like to be." The next hearing will be held on Oct. 29, when the defense will be put in.

—Miss Clara Allen of Washington terrace returned Thursday after a three weeks trip to Nova Scotia.

—Mrs. J. H. Walker and daughter have returned from Winchendon, where they passed the summer vacation.

—Your special attention is called to C. C. Clapp's announcement of Fall Opening of fine footwear on this page.

—Auctioneer Loomis sold on Monday last the Hunt estate on Grove Hill avenue, to Mr. Charles S. Keene of this place.

—More than the usual stir is apparent in real estate selling and renting, but actual transactions are somewhat limited, so report goes.

—Have your furnace repaired by W. B. Wolcott, who will put it in thorough order, and also put on a perfectly working regulator, if desired.

—The Lend-a-Hand society connected with the Universalist church held its regular meeting yesterday afternoon in the church parlors.

—Mr. Miller of Boston has rented, through the Loomis agency, one of the Schofield flats. Mr. Miller is of the firm of Cobb, Bates & Yerxa.

—Mrs. John W. Tift and Mrs. Wm. C. Demarest of Buffalo, are guests of their sister, Mrs. A. Fred Brown. Mrs. Brown will receive on Mondays.

—The Newtonville Woman's Guild will hold its first fall reception, Tuesday afternoon, at the home of Mrs. Charles W. Leonard on Forest street.

—The next regular meeting of the Newtonville Baptist Division will be held next Wednesday, at 2:30 p. m., with Mrs. O. B. Kilburn, 11 Jennison street.

—The Oxford Musical Club will give a concert under the auspices of Newton Lodge, Knights of Pythias in Dennison hall, Monday evening, Oct. 18.

—Mr. Edward A. Wilkie of Mill street was elected a member of the Massachusetts Horticultural society at the quarterly meeting of that organization in Boston, Saturday.

—The Universalist society will hold its parish fair Nov. 17, 18, and 19. The chairman of the various departments of the fair met recently and reported the work as progressing rapidly.

—Rev. Charles S. Nickerson delivered a sermon at the Boston Seminary's Friday society chapel last Sunday evening. He also gave an address at the Dorchester Home for aged couples in the afternoon.

—The funeral of Mr. Edward S. Nagle, formerly a resident of Crafts street, took place yesterday afternoon in the cemetery chapel. The Rev. J. M. Dutton of the Central Congregational church officiated.

—Rev. Charles S. Nickerson of the Universalist church is planning a series of popular, profitable and progressive addresses and discussions on alternate Monday evenings in the chapel. Final arrangements will soon be completed.

—Next Thursday evening the first social for the season will be held in the chapel of the Universalist church. Supper at 6 o'clock and an entertainment by the Lend-a-Hand at 7:30. These socials are for the public generally, as well as for the parish.

—The electric fans in the Masonic building had their trial, Wednesday evening, and worked to the great satisfaction of all. There are two in the basement and one in the tower, and they keep the air fresh and pure in the halls. It is claimed that the air is changed every minute by these fans.

—To know just how and when to advertise is the secret of a business man's success. Manager Loomis of real estate notices reports five different parties responding to his "special ad." of house to let in last week's GRAPHIC. It, as some think, is a game of chance, the chances are often worth taking.

—The History Club held a social and business meeting Tuesday evening at the residence of Prof. J. B. Taylor, Lowell street. The membership list of this well-known club is filled and there is a large waiting list. It has been suggested that an amendment to the constitution be made allowing a larger membership.

—While Mr. and Mrs. A. W. Vose of Waban were calling upon Mrs. Woodworth of Washington park, Thursday morning, the bicycle used by Mrs. Vose was stolen from in front of the house. The wheel was afterward recovered by Officer Soule in the rear of the Central Congregational church on Walnut street. The thief apparently had poor luck, as marks of a severe fall were visible on the wheel.

—A new difficulty in the way of that much-anticipated stable loomed up this week. When the happy possessors of the permit for the stable went to purchase the lot of land on the corner of Appleton and Austin street for their building, they found that the lot had been sold to parties representing the remonstrants, and also the adjoining lot, and that pledges had been secured from other owners of vacant land in the vicinity, not to sell any land for a stable. The lots sold are said to have brought a very fanciful price. The stable projectors are now looking after another site, and will have to have another hearing before the board of health.

—John W. Dickinson, Jr. son of Hon. John W. Dickinson, was married at Greenfield, Wednesday, to Miss Annie Elizabeth Potter. The ceremony took place at St. James Episcopal church. The best man was Mr. Benjamin W. Wells of Boston. The ushers were Mr. Thomas W. Slocum of New York city, Mr. George S. Lewis of Holyoke, Mr. Arthur D. Potter, a brother of the bride, Mr. Albert T. Hall and Mr. William S. Allen of Greenfield. The bride wore a beautiful gown of white satin with train, veil and orange blossoms and carried a prayer book. A reception followed the ceremony at the residence of the bride's father. The groom is the superintendent of the Lyman mills of Holyoke, and the bride is the only daughter of Mr. and Mrs. Wayne N. Potter of Greenfield. After the return from their wedding journey Mr.

and Mrs. Dickinson will make their home in Holyoke.

—Officer Burke will return Saturday after a two weeks' vacation.

—Sergt. Frank Joy and son of Crafts street have returned from their trip to New York.

—The regular meeting of Waban lodge, I. O. O. F., was held in Dennison hall, last evening.

—The regular meeting of the Knights of Columbus was held in Dennison hall, Tuesday evening.

—Mr. F. C. Harvey and family of Auburndale will occupy the Harkins house on Bowers street.

—The Norumbega Tribe of Red Men held its regular meeting in Dennison hall, Wednesday evening.

—Rev. Charles R. Tenney of Dorchester occupied the pulpit at the Universalist church, Sunday morning.

—The regular meeting of the Knights of Pythias was held Monday evening, and final arrangements made for the concert to be given in Dennison hall, Monday evening, Oct. 18.

—The Board of Health yesterday granted a location for that club stable on the old site, corner of Oia and Appleton streets, and it is claimed that it was illegal to do this without a hearing.

—Bishop Lawrence will meet the people who are interested in the formation of the Episcopal church society, in this place, on Friday, Oct. 8, at 7:45 in the evening, in the New church parlors, on Highland avenue.

—There are letters in the postoffice for D. A. S. Barker, Mrs. Fitzgerald, Mrs. M. E. Gray, Mrs. Sara H. S. Leighton, Mrs. Franklin A. Morley, Mrs. M. C. Millway, Mrs. Madge Milroy, care of Mrs. Hubberton, Robert D. McNeil, F. Nash, Mrs. Elizabeth Seymour, Mrs. J. T. Tuttle, Mrs. C. M. Van Slyder, C. M. Washburn, and Mrs. Mary L. Wyatt.

—The Misses Cunningham, dressmakers, who have gone to New York in the interest of their business, will be back at their home, Bowers street, after the 13th. Having been fortunate in securing two first-class dressmakers, they propose to employ a sufficient corps of workers to accommodate their large custom with prompt attention to all orders.

—The ladies of the New church society are to have "food sales" in their church parlors from 4 to 6 o'clock, the third Saturday in each month, from October to April. The proceeds are for the payment of the church debt. The ladies hope to make the sales useful to the community, and a cordial invitation is extended. The first sale, Oct. 16, will be in charge of Miss Worcester.

—The art and business reception of Mrs. Wyman and Miss Noyes in their new and pleasant quarters in Bridgman's block, occurred last week and was largely attended. Mrs. Wyman, with her skill and acknowledged good taste in pottery decoration, and Miss Noyes with her deft hand at high-class embroidery will hardly fail to enlist attention and patronage of the ladies of Newton and vicinity. The latest string of welcome is out and cordial invitation is extended.

—Gen. Hull lodge, A. O. U. W., will hold its regular meeting this evening in Dennison hall. At this meeting a convocation of lodges will be held. Grand Master Workman, Louis C. Merrill of Concord, N. H., is expected to be present, also Grand Overseer Nathan Cray, Grand Recorder, J. Edward Burt, Grand Supervisor, W. F. Sanborn, District Deputy, W. A. Clark, and about one hundred others and members of other lodges. Fifteen new members will be initiated and the degree work will be exemplified by the Uniformed Degree Staff of Waltham lodge, assisted by the Waltham lodge quartet.

## IN A CHINA SHOP.

A Dresden shepherdess was one day  
Singing a sweet little ditty  
When a French marquis came along—  
I saw him smile and bow.  
O lovely shepherdess, hear my song!  
I think I heard him say  
"For once I have captured a porcelain heart,  
And by my sword I swear thou art  
A star in the Milky Way."  
—George S. Heinman in *Morningside*.

## HIS REVENGE.

Sergeant Dick Doubleday was, I think, about the most reserved and reticent man I ever met with, either in or out of the service. He was a fine fellow—vigorous, tall and well developed in figure; black haired, with eyes full of fire; dark, well defined eyebrows, and features sharp and grave—a man with a past, you would say after a slight scrutiny, and a past undoubtedly of the saddest was there in the life of poor Sergeant Dick Doubleday.

A splendid soldier, attentive and obedient to his superiors and kind and generous to those beneath him, yet withal so stern and reserved was he that many almost shunned him, while others held him in awe and dread, the few soubriquets were given sufficiently indicating the character the man bore among his comrades, who were wont to call him Dead and Alive Doubleday, Moody Doubleday, Dumb Doubleday, and a dozen other such appellations.

It was toward the close of a beautiful day that, after a long march along dusty roads, portions of jungle and through a swollen stream, we had come to a halt, making preparations to bivouac in a large open glade with a little sparkling rivulet running along one side of it, a thick jungle on the other and a precipitous range of mountainous hills at the back.

Having left Poonah early that morning, after our long and toilsome march it was with exquisite relief that we gathered round the bivouac fires.

Sitting on a small mound a little apart from my comrades I was busily engaged loading my pipe for a whiff when I was startled and surprised at the sudden appearance of Dick Doubleday, who, very pale and his large black eyes gleaming with lurid fire, exclaimed as he placed his hand on my shoulder: "Corporal Evans, do you mind leaving the camp along with me? I want some one as a chum, and you are the only one of the battalion that I care about—that's to say, as a friend."

Starting to my feet, I of course expressed my pleasure and willingness to join him, though I was as much surprised as I should have been had our Scotch colonel asked me to dance a highland reel with him, my astonishment increasing as he, in a low, hoarse voice, told me to bring my rifle with me!

"You may have to stain your bayonet before we come back, Ned," these words and the deadly glare upon the usually swart features of the stolid sergeant completely astounded me.

"What on earth's in the wind?" I thought, as, catching up my rifle and carrying it carelessly under my arm, I followed Doubleday, who had now begun to climb the precipitous side of the rocky eminence at the back of the camp.

No words were spoken until we gained the summit of the steep, and then, sitting down upon a boulder of rock that was covered and surrounded with tall Indian grass, the sergeant, pointing to the fires in the bivouac below, exclaimed sententially, "We are safe here, Ned Evans, from prying eyes or eager ears!"

"You may bet any sun on that, sergeant. There'll be no ramblers from camp tonight. They are all too tired after the day's march."

"You did not allow that to deprive me of your company when I solicited it just now."

"Only too glad to join you, Doubleday. I am sure of that. You are different from all the rest. That is why I am going to relate a dark page in the history of my life. Dead and Alive Doubleday they call me. What would they have been had they beheld the sight I did in this accursed country ten years ago?"

I caught my breath nervously and fairly quivered with pain and excitement. I was about to hear the secret. The poor sergeant had selected me as the one in whom to confide a relation of his past. He was going to reveal some dread incident in his career hitherto buried with deepest reticence in his bosom. Then, as I gazed at the stern, set face, the compressed lips, the knitted brow, and recalled the words uttered shortly before, "You may have to stain your bayonet before we come back," I asked myself what on earth was the mystery. The sergeant knew I was bold and daring to recklessness, and also that I felt a closer friendship for him than any one in the regiment. Evidently there was some dangerous project in view, and I felt proud and exultant, I admit, that I, of all our fellows, should have been chosen to join in his enterprise and be trusted with the relation of his past.

Ruminating thus as I gazed at the bright moon and then down below at the rapidly flickering watch fires, I was aroused by my companion from my temporary reverie, as, in a low, hoarse voice, he began his dread tale.

"It is six years since I first saw you, when you came out with that draft from England and joined us at Bombay, and it was ten years this very month, Ned Evans, since I beheld my young bride of a few hours only, and a young and loved sister violently maltreated, dishonored and done to death before my eyes."

A stifled sob here choked the unhappy sergeant's utterance, who, as I was about to console with him, placed his hand upon my arm and resumed: "We were lying at Bangalore. My sister, who had been alling slightly, was well and happy on my wedding day. My young bride was an orphan, the daughter of Indian parents, but with no relatives living to say her way gave me her hand in preference to accepting as a husband a native who long had pressed his suit upon her. This demon, as I was strolling with my loved sister and my young wife a mile or more from Bangalore on the night of my marriage, set upon us, and, aided by a dozen of the tribe, succeeded in overpowering and binding me to a tree. Then, while one of his allies seized in his arms my shrieking sister, Zedah Timour, my accused rival, with a shout of fiendish glee, secured my loved Nourmahal in his detested embrace. What followed I dare not tell. Several times in wild and mad horror I closed my eyes on the devilish scene, but even this mercy was denied me, knives being thrust deep into my flesh until I again in frenzy and mad rage gazed upon the sufferings of those two poor girls, all I loved on earth. After the lapse of a terrible hour, to me years of agony, the Indian devils, piling dry brushwood round the tree to which they had bound me, were about to fire this improvised funeral pyre when loud shouts in the distance caused the miscreants to take to flight, but not before

they had hacked to death the poor girls who had so hideously and barbarously abused."

"When my comrades, who, alarmed at our absence, had left the barracks in a search of us, arrived, they found me in a raving delirium. I hovered 'twixt life and death for many weeks, but recovered, registering a vow to heaven that I would have a fearful revenge upon the wretch Zedah Timour. For ten long years I have waited, and now the time has come!"

"The incarnate devil then lives, and you this night purpose to consummate your vengeance upon him!" I exclaimed excitedly. I now understood all and guessed why poor Doubleday had asked me to join him. He had feared that alone perhaps his prey might escape him.

"Within the hour I shall avenge the wrongs of my sister and my bride."

There was a sharp, hissing sound in the voice of the sergeant, whose eyes now gleamed like tongues of flame.

"Where is he to be found, Doubleday?" I here began to see if the charge of my rifle was all right, and, with a meaning smile upon my companion, fixed on my bayonet.

"Zedah Timour and his friend and half brother, Akbar Khan, the destroyer of my sister Adele, are now, with some half dozen Afghans, camped in the hut by the 'Well of the Serpents.'"

"I know the place. A better spot we could not have. But you are sure of this?"

"As that the sun they will never see will rise tomorrow."

"You heard of their close vicinity when?"

"Two days back. I have had a native spy I can rely upon watching every movement of the demon brothers the past week, and when we bivouacked at the foot of the hills my spy paid a visit to my tent and told me the time had come."

"All right, sergeant. You look after the two brothers and leave the others to me."

"That would be too long odds, Ned. I have six lives here." Doubleday here produced a revolver, the barrel of which glistened ominously in the moonlight.

"Oh, with that six shooter our job will be an easy one, as we shall have the advantage of taking the black scum by surprise."

"As I was taken that terrible night ten years ago, but come; half an hour's walk will bring us to the end of our journey. And now mind, whatever you do, if by any mischance Zedah Timour should fall into your hands, slay him not. His life belongs to me."

"Rest easy, sergeant. I will secure him and leave you to give him his coup de grace."

Without further converse we now pursued the path to our destination, an open space upon the edge or verge of the jungle distant from our bivouac three miles or a little more.

It was with a quickening pulse and beating heart that I at length, in the bright moonlight, caught sight of the old hut near the Well of the Serpents, a place known to the soldiery at Poonah as a spot where some 50 whites had been set upon by a fierce set of Afghan clans some years before and slaughtered to a man.

"As I felt assured, Evans, they have a sentry. Do you see him there leaning against the door of the hut?"

"Yes, and too motionless and silent to be on the watch. He is reclining upon a mound or something. Sergeant, that fellow has fallen asleep at his post—a sleep that to him shall be eternal."

Drawing his sword from its sheath, before I could utter a protest against such a proceeding Doubleday had glided swiftly away, and just before I gained his side had buried his bright blade deep in the breast of the doomed sentry, who, with a groan and a bubbling, gasping cry, fell with a crash against the door of the hut outside of which he had kept such faithless guard.

In a moment a dusky little crowd appeared before us who, with loud, hoarse cries, yelled out, "Death, death to the Far-English!"

Taken by surprise, however, with no firearms, the Afghans were, like the unfortunate sentry, doomed men. Rushing forward with daggers, spears and scimitars upraised, they were received by a succession of bullets fired upon them by the infuriated sergeant, who, emptying his revolver, then dashed upon a tall, gigantic warrior, who, spared by Doubleday from his keen messengers of death, I conjectured was his dastard foe, the man to whom he owed the loss of his wife and such bitter wrongs.

Five human forms lay by the threshold of the hut, dead and dying, while another, covered with blood from a bullet wound in his head, his jambea (dagger) raised on high, standing forward, made a blow which I avoided by darting aside at the same time that, swinging my rifle round as I did so, I caught the Afghan on the head, my weapon coming with a sickening, dreadful crash full on his skull, which splintered like glass from the force of the blow, the wretch, with a stifled groan, falling senseless at my feet.

Looking round now I beheld Sergeant Doubleday, with eyes that gleamed like fire, kneeling upon the chest of his victim, who, half stunned and incapable of further resistance, lay supine and helpless at the mercy of his conqueror.

I could not suppress a shudder as I heard the hissing accents of the infuriated sergeant as he dragged the maimed, bruised, bleeding villain toward the old well:

"I have waited ten years for this, Zedah Timour! Oh, oh, your time has come at last! I'm going to hurl you alive into the Well of the Serpents! My bride, my sister Adele, are avenged at last!"

Close beside the open mouth of the old well the sergeant had now conveyed the doomed Afghan, whose swart visage I perceived in the bright moonlight had turned to a leaden gray as he had recognized his assailant and heard his doom pronounced.

Instinctively, without thought, the miserable villain raised his hands as though in an attempt to fight free of that fearful grip of pent up rage and hate. Then a mournful wail rang on the night air as head first the doomed wretch was hurled 50 feet down into his horrible grave.

Standing beside the sergeant, I gazed with a shudder into the dark abyss. There was the dull echo of a heavy crash below, and then a horrible hissing noise followed. Infected by deadly serpents, could he have been drawn up from his horrible tomb the villain Timour would still have ultimately perished.

Without a word Doubleday now hastily examined the features of the dead, pausing for a moment as he gazed upon my late assailant, now no more.

"I fancy you gave this dog his coup de grace, Evans!"

"Who is it, sergeant?"

"My sister's destroyer, Ned. Come, let us go. All is finished!"

Exactly one year after that night upon which he had carried out his revenge poor Doubleday perished, the leader of a forlorn hope.—Boston (Lincolnshire) Guardian.

## CHANGES.

"The world goes well and life is all gay.  
There is no tomorrow, just today!"  
Smiling I said it and turned to go,  
Thinking blindly 'twould ever be so.

A friend said softly: "Life is all woe.  
Joy is a thing I never shall know."  
Smiling she said it, calmly resigned,  
Nor dreamed the cloud was all silver lined.

Later, when life had brought sore grief  
And robbed me of all that first belief,  
I met this friend. Ah, joy had been there,  
Lifted her burdens and eased her care.

## ON A NEIGHBOR'S ROOF.

Chicago Lady Gives Her Dog a Daily Air-  
ing With a String.

Was she fishing for airships or merely flying a kite head downward? Or could it be that she was trying to conduct a clandestine correspondence by the time honored method dear to boarding school misses—a basket and string?

In any event the string was what bothered the good North Side people who watched the woman's maneuvers the other day.

There she was, leaning head and shoulders out of a window of her sixth floor flat. Her arm was extended, and from her hand dangled a long line made of strips of white cotton cloth knotted together at irregular intervals. That she held one end in a firm grip was palpable. The whereabouts and possible purpose of the other kept her spies guessing.

There was a low building with a flat gravel roof about 40 feet underneath her window. Over this surface the string waved wildly, describing remarkable twists, curves and gyrations.

A small boy was the first to crane his neck upward in a futile effort to discover what it was all about. He was joined by the driver of an ice wagon, a servant maid caught sight of the white cloth and came running out of a neighboring house. The crowd was swelled by a bicyclist or two, a scissors grinder and a policeman, who appeared willing to snatch a moment from the pursuit of crime to satisfy curiosity.

"Must be off her nut," remarked the policeman tersely.

Just then the woman gave a sharp tug at the line and began to pull it in hand over hand, evidently meeting with some resistance. The waiting crowd held its breath. Slowly the kite tail shortened, and with a final jerk a small, brown, wriggling object swung into view, dangled a moment in midair, voicing its disapprobation at having its outing cut short, and was swallowed up in the tender embrace of its mistress's arms.

Well, even my evasive skin to purr out for a morning walk."

And it was.—Chicago Tribune.

## They Were So Unlucky!

A family who live in Peru, where the skies are so much more placid than the political temper of the populace, are visiting in Washington. As they neared the end of their sea journey a long, low rumble, which was readily recognized by the sailors as the note of a thunderstorm, sent dismay into their souls.

To them the familiar reverberation was a majestic and ominous mystery. "What do you suppose it can be?" inquired the mother, and pater, not happening to recall any explanatory allusions which he had met with in reading books of travel, rose to a sublime height of moral courage and confessed he didn't know.

The noise attracted so little attention among the people around them that they disliked to make any inquiries for fear of inviting ridicule, and they sat in silence and tried to evolve a solution for themselves. "I believe I have it," the eldest daughter exclaimed. "It goes to show how unlucky we are." "You don't think it's a bad sign, do you?" "Not in any superstitious sense, but when we left home we congratulated ourselves on having got away from the political disturbances which are continually spoiling our peace of mind, but it's no use trying to be calm and peaceable. The fates won't allow it. It was our luck to get to this country just as they were dragging out the artillery and starting a revolution."—Washington Star.

## To Be Congratulated Anyway.

"My dear fellow," exclaimed Jones, rushing up to his friend Robinson, "let me congratulate you."

"Hum!" returned Robinson. "What for?"

"Your engagement. Smith told me about it, you know."

"He did, did he? Well, I'm not engaged."

"No?"

"And no likelihood of being."

"My dear fellow," exclaimed Smith later in the day, rushing up to Robinson, "let me congratulate you."

"Now, see here, Smith," returned Robinson, "there's nothing to congratulate me about."

"Oh, yes, there is," went on Smith, shaking him warmly by the hand. "Jones has told me all about it."

"And what has he told you?"

"That you're not engaged, after all, and there's no likelihood of your being so."—Boston Budget.

## An Epitaph.

In the following from a Welsh paper: In a little churchyard near Llany-necch is a tombstone with these lines upon it:

In crossing o'er the fatal bridge  
John Morgan he was slain,  
But it was not by mortal hand,  
But by a railway train.

John Morgan was the huntsman to the Tanside harriers and paid the capital penalty for taking a short cut along the Cambrian line.—Notes and Queries.

## Too Much.

"And," were the concluding words of the professor's lecture to the medical students, "do not promise too much. I knew a physician of real ability who promised a patient whose leg he had just amputated that he would have him on his feet within two weeks."—Cincinnati Enquirer.

## Misunderstood.

"Now that we have been in the States tell me if it is true that the Chicago girls have really such big feet."

"Rather. I saw one girl whose foot was as large as five of mine."

"Oh, I didn't know you had so many."

"Pick Me Up."

Kansas City is the second largest packing center in the world, having five plants with a total daily capacity of 10,000 cattle, 25,000 hogs and 8,000 sheep.

It has been decided in New York by a court of justice that tobacco is an article of necessity rather than of luxury.

ful Results of Purifying the Blood.

"A very severe pain came in my left knee, which grew worse and worse, and finally a sore broke out above the knee. It discharged a great deal and the pain from my thigh down was maddening. Large, hard, purple spots appeared on my leg. I suffered in this way for years, and gave up all hope of ever being cured. My wife was reading of a case like mine cured by Hood's Sarsaparilla, and she advised me to try it. I began taking it and when I had used a few bottles I found relief from my suffering. Oh, how thankful I am for this relief! I am stronger than I have ever been in my life. I am in the best of health, have a good appetite and am a new man altogether."

Mrs. Perry accepted the gift with appropriate remarks. A collation followed and the company departed after extending Mrs. Perry their sincere congratulations.

—One of the most disastrous fires that has occurred in this vicinity for some time broke out shortly after seven o'clock last Saturday evening in the barn at 629 Centre street, owned by Miss Loring. The flames gained a tremendous headway before they were discovered. An alarm was rung in from box 75 and all apparatus of the south side of the city quickly responded. When the department arrived, the building was a mass of flames, and the high blaze was extinguished with difficulty. The structure was a total loss. Two horses, one cow, twenty tons of hay, several carriages and farming implements were destroyed. The loss will amount to over \$3000.

—A quarterly meeting of the Bradford K. Pierce chapter of the Epworth League was held in the vestry of the M. E. church last Tuesday evening at 7:45 o'clock. In the absence of the president, Dr. West, the 1st vice pres., Dr. Cooke, presided. After an opening hymn and prayer, the report of the secretary was read and accepted. The following is a list of officers who are installed for the coming year: Pres. Dr. Geo. L. West; 1st vice pres., Dr. Cooke, 2d vice pres., Miss Julia L. Fowler; 3d vice pres., Miss Rand; 4th vice pres., Miss Spaulding; Mr. G. W. Goodie; treas., Mr. Johnson W. Ritchey. The officers gave short addresses in regard to the work which they wished to have accomplished during the coming year. Mr. Richardson and Miss Fowler gave an interesting account of their trip to the Toronto convention, which occurred last July. The meeting was then adjourned, and the company retired to the dining room, where a chafing dish lunch was served, under the management of Mrs. Brown. The following ladies assisted: Mrs. George F. Richardson, and the

Misses Spaulding, Rand, Fowle, and Rachael Rand.

—Sergeant Charles Bartlett is enjoying his annual vacation.

—Dr. Alvah Hovey, president of the Newton Theological Seminary, will lecture on his travels in the Holy Land, the Baptist church at the regular Sunday evening service. This lecture promises to be one of unusual interest.

—About 8 o'clock Wednesday evening Walter L. Sanborn reported at police headquarters that his wheel, valued at \$75, had been stolen from his barn on Chase street. The barn was securely fastened, and, so far as could be discovered, the locks had not been tampered with.

—The Junior Missionary society of the Baptist church gave a reception to Mr. and Mrs. Parchy in the church vestry last Tuesday evening. There was a large attendance of young people and church members, and the occasion proved a most auspicious one. After the reception a collation was served.

—The Misses Cunningham, dressmakers, Newtonville, who have gone to New York in the interest of their business, will be back at their rooms, Bowers street, after the 13th. Having been fortunate in securing two first-class dressmakers they propose to employ a sufficient corps of workers to accommodate their large custom with prompt attention to all orders.

### In Memoriam.

"Who Follows in His Train."  
HOWARD MASON WILSON.  
At Newton Centre, October 4, 1897.  
Aet. 20 yrs. 10 mos. 25 ds.

"Manly" symbolizes the character of this young life who so soon came to the end. What numbers of men live to old age and never attain even this first trait of nobleness! What few young men, however, very few indeed practice or aspire to this! "He worked as though he'd live forever; He lived as though he'd die today."

Born in Brookline, Mass., the family early removed to Newton Centre, where they have since resided.  
From 1884 to 1890 he attended the grammar school here, and in the fall of 1890 entered the Newton High school, graduating from the General Course in June, 1891.

During his four years there his work was very creditable and he won the love and respect of his fellow-graduates and teachers by his straight-forward, manly and modest bearing.

On the graduation program his name appeared among those who had made exceptionally good records in scholarship. He was lieutenant in Co. "B" of the N. H. S. battalion.

In the summer of 1895 he entered the employ of Spaulding & Bliss, leather, High street, Boston, as boy, and in July last, when the concern changed, was given entire charge of the stock.

Of his work there, his employers say: "We never had a young man in our employ, nor have we in our business experience ever known a young man more capable, conscientious and earnest."

Such a record is an honor for one so young, and the more so when made by one not yet of age.  
Howard M. Wilson, who did nothing hastily, who gave everything which he undertook, his best attention and effort; who always did what was right and was not afraid nor ashamed to do it; who was too noble for this generation, has gone from us in body, but he will be an inspiration and a pattern to men who were older than he, who knew and loved him, and are left behind.

Not only such bereavements to come, to teach us that there is a God; that there are those on earth whom He places there as examples of Christian living, and that when they leave us their souls cannot but be under His care.

Goodbye to the body to you, dear Howard, son, brother, cousin, nephew, "my partner," our hearts mourn your absence; our lives will be the better for your sweet influence.  
Those who met you could but note the tone of your character, while those who knew you have an everlasting blessing in their lives. For it is a blessing, a beautiful benediction, to be allowed to come in contact with such natures.

"O God to us may grace be given,  
To follow in his train."

### NEWTON HIGHLANDS.

—Mr. G. M. Stone has returned from a trip to the mountains.

—Mr. W. F. Blake has leased the Williams house on Griffin avenue.

—The Kellogg family, who have spent the summer at Duxbury, are at home again.

—Mr. W. G. Burbeck and family, who have had a summer sojourn at Hull, have returned.

—The engagement is announced of Mr. Robert Treatwell and Miss Chamberlain of Cambridge.

—Mr. Trickey now occupies the house belonging to Mr. C. Henry Adams at Eliot, opposite the station.

—Mr. Benjamin Dickerman fell down the cellar stairs at his home on Sunday last, and received severe injuries.

—Miss Thompson will open a private kindergarten for a few children, at her home on Hartford street, Oct. 11th.

—Rev. Mr. Twombly will have charge of the service at St. Pauls next Sunday. Morning service at 10:45. Evening service at 5 o'clock.

—The conversations on the philosophy of health will be held at Mrs. Carbone's, Wednesday afternoon, Oct. 13th, from 5:30 to 4:30. Every one is welcome.

—Mr. Darius Cobb is to give an illustrated lecture on "Faces and Phases" in Highland club hall, Oct. 12. The proceeds are for the All Souls Unitarian church.

—Mrs. Kinney, of Connecticut, and daughter, who attends the Normal Art school, have taken a suite of rooms on Bowdoin street, in the house belonging to Mrs. Whiting.

—Rev. Mr. Havens will occupy the pulpit at the Congregational church next Sunday. Topic for the morning service will be "Unjust Steward," and evening topic will be "Ideals."

—A reception was given at the Congregational chapel on Wednesday evening, to Rev. and Mrs. Havens, and they were assisted in receiving by Mr. and Mrs. George May, Mr. and Mrs. A. F. Hayward, and Mr. and Mrs. S. W. Jones. All the members of the congregation were invited, and a large number were present. Following the reception, piano selections were given by Mrs. Shumway, choice vocal selections were rendered by Miss Logan, with Mrs. Logan at the piano, and violin solos by Miss Edith Whittemore. The Boys Brigade were present and a detachment from same gave musical selections in a very creditable manner, after which the brigade under the command of Capt. Arthur Logan, went through the evolutions of a military drill, which was done with great efficiency. Light refreshments were served, and Mrs. Hauscom, Mrs. Green, and Miss Stone

pour tea and coffee. It was a most delightful occasion.

—Mr. Arthur Hartwell has gone to Andover, to resume his studies.

—The West End Literary Club will meet Monday, Oct. 11th, with Mrs. Blanchard.

—The next meeting of the Monday Club will be with Mrs. Moulton, Walnut street.

—The C. L. S. C. will meet with Mrs. Holbrook, Walnut street, Monday, Oct. 1.

—Mrs. Goodwin and daughter of Norman road have returned from their stay at No. Woodstock.

—Mr. and Mrs. J. H. Wentworth, and the Misses Stevens, have gone on a Boston & Albany excursion.

—Mrs. Guild and Miss Sweetzer have gone to Brooklyn, for a visit of a week or two, with friends.

—Mr. C. B. Lentell is making alterations and repairs on his house at the corner of Boylston and Winchester streets.

—Mr. H. M. Beal, the builder, has sold one of his houses on Harrison street, Eliot, in process of erection, but nearly completed.

—At the Methodist church next Sunday, Rev. Mr. Painter will preach a sermon to the children at 10:45, and at 7 o'clock there will be a "Harvest concert."

—The death of the infant son of Mr. and Mrs. A. C. Hughes occurred on Sunday last. The funeral took place on Monday from the house on Boylston street.

—Rev. Lawrence Phelps now occupies the house on Bradford road, Eliot terrace, lately leased to him, being one of the houses erected by Mr. J. J. Smith, the builder.

—Mr. W. F. Blake and family of Haverhill, are moving into the house on Griffin avenue, belonging to Mr. A. S. Williams, next adjoining the residence of Mr. J. W. Bayley.

—Rev. Thomas McClelland of Forest Grove, Oregon, and president of the Pacific University, has leased the furnished house of Mr. H. W. Taylor, for the winter season, and now occupies.

—Unitarian services will be held as usual Sunday morning at 10:42 in the Highland club hall, conducted by the minister, Rev. Mr. Henry L. Jewett of Abundance, an old and valued friend of the deceased, Mr. H. F. Fate of West Newton having charge of the body. The religious services were conducted by Rev. Mr. Hornbrook of the Channing Unitarian church, of which the deceased was an attendant. Mr. Hornbrook's remarks were most fitting and beautifully expressed, breathing a spirit of tenderness and sympathy and comfort to the stricken family and the many dear friends which he had left behind. After the funeral services at the house the body was taken to Stoughton to be laid beside his kindred.

There was a large attendance of former business associates and friends to pay the last sad respects to their departed friend. The tribute of flowers from the societies to which he belonged and his business associates and friends was large and beautiful in design.

He was a member of Aberfour lodge of Masons of Boston, and the Unitarian church of Newton, both of which sent beautiful floral designs in remembrance of the deceased.

Mr. Monk had made his residence in Newton for the past eighteen years, at first twelve of which was passed in Abundance, and was held in high esteem and respect by a large circle of friends and acquaintances. Besides his widow, Mr. Monk leaves a well settled daughter to mourn his loss. Their sudden bereavement will call forth the sincerest regrets and heartfelt sympathy for their irreparable loss.

Mr. Monk was born in the town of Stoughton, and his ancestors were of good old revolutionary stock, his great great grandmother, on the maternal side, being Deborah Sampson, made famous in revolutionary annals from the fact that in a spirit of intense patriotism she donned the garb of a man and enlisted as a soldier in the revolutionary army under the assumed name of Robert Shurtliff. She served under Washington in several of his campaigns, performing faithful and courageous service, in which she was three times wounded, the scars from which she carried with her to the grave. Descended from such an ancestor, it comes naturally to be expected that he would inherit that spirit of loyalty and devotion to his friends and faithfulness to trusts imparted to him, that was one of his distinguished characteristics throughout his well settled life. He was a very intelligent and capable man, an expert in his line of work, thoroughly trustworthy and conscientious in everything which he undertook to do. His tastes were refined and simple, and his modest and unassuming bearing and pleasant affable ways secured him the lasting respect and friendship of all who were brought into business or social relations with him. He was the soul of honor and integrity, and one of whom it could be truly said that the world is better for his having lived in it.

It was in the home circle where the natural nature of his affectionate and gentle nature found its full scope. He loved his home above all earthly things, and it was there, surrounded by his loving wife and children, that he found his chief pleasure and delight. He was a most devoted husband and father, a true and steadfast friend, a kind neighbor with heart attuned to deeds of gentle charity, and a pleasant smile and word for all.

His life was gentle,  
And the elements so mixed in him,  
That nature might stand up and say,  
"That all the world this is a man."

### Death of Warren G. Monk.

In the death of Mr. Warren G. Monk, at the City Hospital in Boston, on Friday of last week, Newton has lost an old and highly esteemed citizen. Mr. Monk was well known in the mercantile and banking circles of Boston, having been connected with several leading houses during his business life. For eighteen years he was with the late firm of Lewis, Brown & Co., dry goods commission merchants, as book keeper, and after severing his connection with that firm became associated with Irving A. Evans & Co., brokers, as cashier and bookkeeper, where he remained for several years, his services terminating with the dissolution of the firm by the death of Mr. Evans. For the past five years he had been cashier and bookkeeper for the wholesale drug firm of West & Jenney.

Mr. Monk had not been in the best of health for the past two years, although there was nothing in his condition to alarm his friends, and he continued right along in his work. Not until after his return on the last of August, from a two weeks' sojourn at the seashore, did any alarming symptoms manifest themselves, and on the third of September he was obliged to take to his bed, hoping with a short rest to be able to resume business again, in a few weeks at least. But this hope proved fallacious, as an examination by his physician developed the existence of a malady that had not been suspected, and a surgical operation was deemed necessary, with the hope that it might be the means of prolonging his life for several years at least, and he was taken to the City Hospital in Boston, on Sunday before last, where an operation was performed upon him by Dr. Gay. The operation, however, developed a condition of things worse than had been anticipated, and although successfully and most skillfully performed, the patient did not have the vitality to rally from it, and he quietly sank to rest on the morning of the third day after the operation.

The funeral of Mr. Monk took place at his late residence in Newton, at Hunnewell terrace and St. James street, on Sunday afternoon, Oct. 7, at 2 o'clock, and was conducted by Rev. Mr. Henry L. Jewett of Abundance, an old and valued friend of the deceased, Mr. H. F. Fate of West Newton having charge of the body. The religious services were conducted by Rev. Mr. Hornbrook of the Channing Unitarian church, of which the deceased was an attendant. Organ postlude, Fugue in D major. Gilmant

—At the regular meeting of the Vestry of Grace church, which was held last week, a unanimous vote was passed giving consent to the organization of the new St. John's parish at Newtonville. This will make the eighth Episcopal parish in this city. St. Mary's is the oldest. Three missions developed into parishes while they were in charge of Dr. Shinn—in Auburn, in the Highlands, and in Chestnut Hill. The vigorous parish at Newton Centre was partly an outgrowth from St. Paul's, Newton Highlands, and there are links of connections also between the unique organization known as the Church of the Good Shepherd at Waban and St. Paul's. There are no restrictive parish boundary lines in the Episcopal church. People can attend any parish church they prefer. New parishes are organized to suit neighborhood needs and conveniences.

—The first of the Star Course entertainments was given at Eliot hall, Wednesday evening, before a good sized audience. The chorists' Glee Club, composed of members of the Grace church choir of men and boys, and Master Hey Dunham as soloist, and readings by Mr. Hoyt L. Conary, made up a very enjoyable entertainment, and every one present was very enthusiastic. The Glee Club gave four selections that called out much applause and several encores. The twenty-four fine voices show excellent training, and their singing is a rare musical treat. Master Dunham sang in his usual charming manner, and after each song an encore was demanded and given. Mr. Conary recited "The Famine" from Hiawatha, "How Dennis O'Brien Came Over" and "Uncle Tom's Account of How Jim Went off the Roof," a down east dialect story that called out shouts of laughter. He is an excellent mimic and his selections are always given with taste, and prove a popular feature. The Star Course has made an excellent beginning, and the attractions offered deserve a crowded house. The next entertainment on Oct. 27th, is something novel in Newton, and consists of a series of some 30 pictures illustrating Anthony Hope's popular novel, "The Prisoner of Zenda," by means of the marvellous biograph, the moving picture machine, which is said to be far ahead of the stereopticon. Miss Anna DeLong Martin will present the drama, and the

will also be an exhibition of Edison's kineoscope.

—There was a very pretty wedding at Grace church, Tuesday evening, when Miss Florence Clifton Hallett of Centre street, and Mr. Gray Blandy of Chicago were married. Rev. Dr. Shinn officiated, and the bride was given away by her brother, Mr. Edward M. Hallett. The chancel was decorated with palms and pink chrysanthemums, and a large congregation was present. The maid of honor was Miss Alice Chase, and the bridesmaids were Miss Polly Hallett, Miss Bertha Merrihue and Miss May Merrihue of Brooklyn, N. Y. The best man was Mr. Graham Blandy, a cousin of the groom, and the ushers were Messrs. F. E. Jones, Welles Holmes and Robert Howard of Newton, A. B. Sawyer of Chicago, Houghton Perkins and Henry Whipple of Salem.

The bride's gown was of heavy white corded silk, trimmed with duchess lace and she wore a tulle veil and carried a bouquet of bride roses. Following the ceremony a reception was held at the home of the bride's mother on Centre street, which was largely attended. The presents were numerous and of great value. Mr. and Mrs. Blandy left for a

wedding trip, after the reception, and will make their home in Chicago.

The lineups of the local club was as follows: Harrington, centre; Woods and Sullivan, guards; Wheeler and Shea, tackles; Noden and Flood, ends; W. Sprout and Lemon, half-backs; R. Sprout, full back.

—Harry Belcher, 15 years old, and residing on Boyd street, Watertown district, received a painful wound in the forehead by discharge of a rifle about 5:30 o'clock, Monday afternoon. He was hunting in the woods in the vicinity of Lombard street when the accident occurred. A cartridge caught in the barrel of his rifle and he began hammering it down, when it exploded. The bullet struck his right thigh and glanced off lodged in his leg above the knee. After much exertion Belcher walked out to Lombard street and sat on the sidewalk. Here he was discovered fainting from the loss of blood. A passing hackman brought the young man to Hudson's drug store, where he was attended by Dr. Hudson. The ambulance was summoned and the young man removed to the Newton hospital. The bullet was extracted and Belcher is now reported as rapidly improving.

—The millinery opening at The Juvenile attracted many ladies to the new street, this week, and the display of fall and winter millinery was a very varied and attractive one. Bonnets of velvet, of felt, and of jet were shown, all something larger than last winter, and the hats with their masses of feathers are even more calculated to obstruct the view than ever. They are so picturesque, however, as to furnish a good excuse for their popularity. Feathers are more worn than ever, and also more attractive, coming in a great variety of colors, and evidently from a great variety of birds. The Audubon society may be responsible for the sudden popularity of the plumage of our domestic birds, but that of wild birds is still in evidence, and it is said that every kind of plumage is in fashion, from a pigeon's wing to an eagle's quills. Fur is also largely used and for any one who wants a comfortable home at a moderate price. The property will be sold on easy terms if desired.

## JOLLIFICATIONS OF THE VETERANS.

VICTORIES OF THE OLD NONANTUM FITTINGLY CELEBRATED AT WEST NEWTON WEDNESDAY EVENING—PARADE FOLLOWED BY BANQUET AND SPEECH MAKING—OVER 300 MEMBERS AND GUESTS PRESENT.

The creditable work this summer of the old hand-tub Nonantum gave the Veteran Firemen every reason for rejoicing Wednesday evening. And fittingly did they observe this occasion, which marks so important an epoch in the history of that organization. The jollification at West Newton, like the work of the "vets" at the different musters, was a complete success.

The red-jackets and their friends were out in force, to properly celebrate these victories, which have won them a leading place among the hand-tubs of New England. The evening's program included a procession through the principal streets of Ward Three, after which a meeting was held in Odd Fellows hall.

Shortly after 7 o'clock the parade formed in front of the engine house in the following order:

Platoon of Police,  
Sergeant Purcell Commanding,  
Veteran Firemen's Life and Drum corps,  
Capt. John Redding commanding, 75 members of the Newton Veteran Firemen, Capt. Exley commanding.

At 7:30 the command "forward march" was given, and the procession moved forward, passing through the streets of Watertown, to Waltham, to Webster, to Cherry, to River, to Elm, to Washington, to steamer 2 engine house, where it was reviewed by active members of the fire department, to Watertown, to engine house, to steam-march, Washington, to Odd Fellows hall.

The line of march was a blaze of red fire and at River and Lexington streets, the illumination was brightened by huge bonfires. Many residents displayed red fire and fire works, and crowds on the sidewalks applauded and cheered the red-jackets as they passed.

Shortly after 8 o'clock the company, numbering 300 members and guests, assembled in the main hall of the Nickerson building. Secretary O. S. W. Bailey presided in the absence of President Parker and the two vice presidents. In a few well-chosen words he spoke of the gathering to commemorate the summer victories, announcing that within one month the Newton Veterans had attended 3 musters, and participated in one field day. Through their successful efforts a prize was theirs. Not only this but they had succeeded in defeating the champion Quansigamog of Hopkinton.

Capt. Exley, who followed, was greeted with three rousing cheers when he rose to speak. He reviewed the work of his company the past season, speaking in the highest terms of the men and their work.

Like other veteran firemen organizations, he said, Newton should have a ladies auxiliary. "Ladies nights" should be a feature of the meetings. He hoped to see an organization of a ladies auxiliary in the near future.

Letters of regret were read from Capt. George Cushing of the Hingham department, and Supt. of Streets R. A. Jones of Waltham.

Chief Fiskitt of Natick was unable to be present, and Capt. King of that town spoke in his absence. In his remarks he extended the sincere congratulations of Natick citizens to their Newton brethren.

Ex-Chief Parks of Waltham spoke in a similar vein. He referred to the Newtons and their excellent records, and hoped for their continued success.

In the absence of Chief Handlett, Asst. Chief Humphreys represented the acting fire department. The younger blood among the veterans, he thought, was a great aid in their victories. The behavior of the Newton men at the many musters was a credit to the city.

Mr. P. A. Murray of Newton spoke of a humorous incident at the Haverhill muster when a portion of the engine was damaged and he was called upon to repair it. For this he thought he was entitled to a membership in the ambulance corps.

Dr. Thomas F. Carroll was the next speaker. "Ladies and gentlemen," he said, "it gives me great pleasure tonight to congratulate the veterans on their well earned victories. I have watched their work with interest, and feel justly proud of the old Nonantum's success."

Dr. Stearns referred to the muster at Haverhill, and spoke of his pleasure in being able to join the men at pumps on that occasion. He noted an amusing fact in connection with this muster, which caused considerable laughter. Newton, New Hampshire, he said, is just across the line from Haverhill, and the residents of the latter city, mistaking our men for the organization in the little town said, "Where did Newton ever get such a fine looking body of men?"

Mr. F. M. Dutch—it always gives me pleasure to be with the Veterans on these occasions. Although I am not a member of the organization it is with the greatest interest that I have watched its work. The veterans are a benefit to the community, as they are ready to be called upon in emergency, and are prepared to do a brave service in fire-fighting at any time.

Mr. Frank B. Reed, the last foreman of the old hand-engine Cataract of Lower Falls, reviewed his experiences as a fire-fighter, and congratulated the Nonantum veterans.

Among the other speakers were Mr. Nathaniel T. Allen, Sgt. John Purcell of the police force, and ex Alderman H. H. Hunt.

After refreshments were served the floor was cleared, and dancing was enjoyed until a late hour. The floor was under the direction of Capt. Exley and Asst. Chief Humphreys.

Sweet Young Thing—Horror! Aren't you almost dead?

The Klondike gold miner held up a nugget which he had just found. It was as big as his fist. "Isn't that a beauty?" he asked. The consensus of opinion was that the nugget was a beauty. Indeed, "Yes, indeed," said one of the old hands, "after the others had expressed their admiration, 'that nugget is easily worth its weight in corned beef.'—Harper's Bazar.

Misses—How is it one never hears a sound in the kitchen when your sweet-heart is with you of an evening?

## RHODY KIRBY.

I think fate must have decreed it. One day I wrote this:

"To Let.—A frame cottage, containing nine rooms, subdivided into parlor, reception and dining room, library, kitchen and four bed chambers, with broad halls. The house is encircled by a veranda and situated in a grove of about three acres extent. Well and cistern on the premises; stable and outhouses. Three squares to station and about half a mile to electric car line, now in course of construction, and which will pass place. Rent \$55 per month. Apply on the premises, Cloverside, St. Louis county."

I am not a college bred man, just a plain "readin', writin', 'rithmetick" sort of a mortal, not given to beating about the bush, but trying with all my heart to speak and write so as to be plainly understood. And so, when, after writing this advertisement, I looked it over, it seemed to express in a fairly intelligent way the desire that moved me to its composition and the subsequent expenditure of coin necessary to secure its publication. I desired to secure a tenant for my property. The premises and the location were described with sufficient attention to detail and accuracy to enable the reader to arrive at a decision as to whether that was such a place as he or she might have in view for residential purposes. The rental was set out as distinctly as my knowledge of the English language would permit me to state. It is words or figures. These preliminaries disposed of, there remained for me nothing to do but reflect upon the bereavement by which I, a confirmed bachelor, found myself in possession of something for which I had no earthly use, and to trust to the power of the press for a measure of assistance in the preservation of that possession or its disposition in a manner satisfactory from a financial and personal standpoint.

It was plain that, city raised as I had been, I could not reside contentedly in such a place. I was ignorant of the management of a house and the control and guidance of a corps of servants. The location was against my taking up my abode there. It was too retired and quiet, decidedly. The ten days I had spent there while the carpenters, painters and decorators were putting the place in shipshape were the most lonesome and dismal in all my experience. The nearest neighbor was about two blocks distant, but had been next door it would not have relieved the isolation, for he and his family extinguished the lights and retired at 9 o'clock, "leaving the world to darkness and to me."

In an old fashioned rocker, with that solace of solitude the pipe, I would sit for hours, my reverie only disturbed by the rattle and roar of a passing train and the accompanying bark of every dog in the circuit, these dying away and intensifying the loneliness.

I have said that I was a plain speaking man and a plain writing one. Perhaps in the interest of truth I should qualify that statement by adding that I thought I was until the results of my rushing into the want columns of a metropolitan newspaper disabused my mind of the idea. My appeal to house hunters met with a generous response. They came singly, in pairs and quartets, in crowds. Every train bore a delegation of them. Not all house hunters are demoted, not by any manner of means, but a goodly percentage of those who favored Cloverside with their presence on that beautiful Sunday just a year ago today were, I am bound to think, weak mentally. Either this or there was a gigantic conspiracy among the guild to harass and annoy me, and thus add to the embarrassment of the predicament in which I found myself through this sudden acquisition of landed property. To particularize: The first person to call was a pudgy, red faced gentleman, who after he had tolled up the hill and relieved himself of a snort or two, requested to be shown over the place. When we had returned from the inspection, my caller protested that there was no sewer connection.

How under the shining sun there should be such a thing with the nearest sewer flumes away is beyond my feeble comprehension. He noted an amusing fact in connection with this muster, which caused considerable laughter. Newton, New Hampshire, he said, is just across the line from Haverhill, and the residents of the latter city, mistaking our men for the organization in the little town said, "Where did Newton ever get such a fine looking body of men?"

Mr. F. M. Dutch—it always gives me pleasure to be with the Veterans on these occasions. Although I am not a member of the organization it is with the greatest interest that I have watched its work. The veterans are a benefit to the community, as they are ready to be called upon in emergency, and are prepared to do a brave service in fire-fighting at any time.

Mr. Frank B. Reed, the last foreman of the old hand-engine Cataract of Lower Falls, reviewed his experiences as a fire-fighter, and congratulated the Nonantum veterans.

Among the other speakers were Mr. Nathaniel T. Allen, Sgt. John Purcell of the police force, and ex Alderman H. H. Hunt.

After refreshments were served the floor was cleared, and dancing was enjoyed until a late hour. The floor was under the direction of Capt. Exley and Asst. Chief Humphreys.

spokesman—at least she opened the interview by referring to the advertisement as the moving cause of their visit. I cannot for the life of me explain why I thought so, but instantly it fixed itself in my mind that my tenants stood before me.

I was just a bit nervous and half regretted laying aside my pipe, "but I gathered myself together, and in five minutes' time we were walking together through the house and taking pleasantly about its arrangement, conveniences and such like, and then made a tour of the grounds. When we returned to the veranda, I tendered the rocker to the young woman, while the gentlemen—one, as I learned, her father, the other her brother—and myself sat on the steps. There would be no train to the city for an hour, and we had ample time to discuss the object of their visit and incidentally such personal circumstances as we went to develop under such circumstances.

It was thus that I learned that the old gentleman was a Virginian upon whom the results of the war had fallen rather disastrously, and whose troubles from this source had been augmented by the death of his wife. His son was a member of one of the professions and amply equipped mentally and financially to provide for the family, while the daughter, reared in true Virginia fashion, was to be housekeeper or general charge of affairs. We agreed upon terms, and it was arranged that Colonel Kirby was to assume possession on the following Monday. I accompanied the party to the station, gave them a cordial goodbye (I confess it was a reluctant goodbye I gave the young woman), the train sped away toward the smoke wreathed spires of the city and left me to my rocker, my pipe and my reflections.

Bright and early Monday morning a procession of vans invaded Cloverside, and while the sturdy help was busily engaged in the work of transferring the contents to the house the colonel and his daughter reached the place by train. An exchange of a few compliments pertinent to such an occasion ensued, when I abdicated and left the quiet country cottage to resume life in town. At the end of a month I made my debut as a landlord. There was a noticeable improvement in the appearance of the place. The grounds looked clean, and flower beds at odd places and borders the walk gave evidence of womanly attention. The house wore a homelike, hospitable air, and just where I had left it sat the old rocker. These things I noticed at that first call, a brief one. Subsequent visits gave opportunity for more extended observations, which only emphasized my first impression that a model housekeeper was directing matters in a certain habitation in Cloverside. Gradually I became conscious that a change had taken place in myself.

Town life was fast losing its attractiveness. My thoughts turned with an indefinable longing to woods crowning the uplands through whose leafy branches the southern breezes played, to rivulets springing from groves, playing along the slopes awhile, prattling into groves again and dancing away in the shaded distance. And I philosophized too. No man is a bachelor from choice. Either his lonely condition is a curse of it, or in perdition I cannot not yet looked into eyes that have never seen his heart. Love is magnetism. The eyes have it. When the ordained eyes meet, then and there the bachelor ceases to exist and one more township is added to paradise. I made this discovery when my eyes met those of Rhody Kirby, and though I have looked into these same dear eyes thousands of times, and though they have been my inspiration, my very life, yet to save me from perdition I cannot describe them. I know the real rose, the modest violet, the loyal sunflower, but to attempt a description of either would be a task entirely beyond me. And so with Rhody's eyes. I only know they are the most beautiful this side the shining stars; that she herself fills up the gracious mold of modesty, and that I am desperately—but I anticipate a little.

I developed an extraordinary interest in my property in Cloverside, so that it was no unusual for me to drive out there every week. My pretext was that the place needed looking after, the fences and buildings requiring a deal of attention to save them from falling into decay. Miss Rhody was my companion over the grounds, making suggestions here and there and filling me with a fear that I should one day drop dead at her feet from an attack of heart palpitation, but all things must have an end, and I resolved to talk seriously with Rhody when next I put foot on the place. It was the first day of June and early morning. The budding roses were bathed in dew, the birds twittered tunelessly in the trees, the air was soft and deliciously fragrant, and Miss Rhody was as delightfully sweet and captivating as is given to any mortal to be. We walked about the place, our conversation confined to matters commonplace, and my stay had been prolonged to a length which I could find no propriety in longer detaining her.

As I was about to take my leave I said: "I am not going to call any more for the rent." There was an enormous lump in my throat.

"Have you placed the property in an agent's hands?" she inquired.

"No, Rhody—Miss Kirby."

"Then you have disposed of it?"

"Not exactly. I think I am on the point of doing so, however."

"We shall feel very grateful," she said, "if it passes into the possession of so kindly and considerate an owner as yourself."

"I am satisfied," I said slowly, "that the new owner will prove my superior in that regard. In fact, Rhody, that person is to be no other than your own sweet self."

"Since I first saw you every day has increased my admiration until I find love takes the place of admiration. I have discovered that it is possible for a woman to possess sense without vanity and beauty without affectation." I had taken her hand in mine while I spoke. "May I ask you to take this place and with it me into your dear keeping for life?"

She was a sensible woman. Observation had impressed me with that idea, and my numerous visits confirmed that impression.

"I cannot pretend to indifference," she said, "and therefore own that what you have told me makes me extremely happy."

That settled it. I was in an ecstasy of joy. Did I kiss her? I am a man given to plain speaking, plain writing. I did. Could I have done otherwise?

She said other things. So did I, but it is not necessary to repeat them here. She is today the owner of the place in Cloverside, with all the appurtenances thereunto belonging, including myself, and as I sit in the old rocker on the veranda and write these lines I am the happiest man on this whizzing ball.—St. Louis Republic.

Bats That Eat Fruit. Fruit eating bats eat fruit only, and are confined to Asia, the islands of the East Indian archipelago being one of their principal habitats. They cover the trees in daytime in vast multitudes, looking like a large flock of crows.

Love's young dream is one that fills the heart with intense joy. Sometimes the happy dream is realized. Frequently, it is not. In many cases love young couples fall short of true married happiness because of the ill health of the young wife. A woman who is tormented by pains due to weakness and disease of the organs that are distinctly feminine, cannot be an amiable and helpful wife. Troubles of this nature rack the nerves with pain and sap the strength. Under their malign influence the most amiable and helpful disposition will become soured. The wife that promises to be a cheerful, capable and willing helpmate surprises her husband by proving a sickly, nervous, fretful and helpless invalid. This unfortunate outcome of Love's young dream may be prevented or remedied by resorting to the right medicine for troubles of this nature.

The right medicine is Dr. Pierce's Favorite Prescription. Over 90,000 women have said so in unsolicited letters to its discoverer Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. The "Favorite Prescription" acts directly upon the organs that make wifehood and motherhood possible. It makes them strong and healthy. It allays inflammation and soothes pain. It relieves the strain upon the nerves. It prepares for motherhood and insures the health of the child. All medicine dealers sell it. "I take pleasure," writes Mrs. J. E. B. of Biology, Bosque Co., Texas, "in writing you again. I am in better health than I have been in six years. I hope every woman who is afflicted as I was will take it. Your 'Favorite Prescription' has saved my life. I was not able to get up when I was sick until I began to take your medicine. I cannot thank you enough for what you have done for me. You can use my statement as you like."

Constitution is the all-embracing cause of ill-health. Dr. Pierce's Pleasant Pellets cure it. They never gripe.

## BUSINESS-LIKE METHODS.

A city is nothing more than a business corporation, organized to carry on the business of a city. The cities of the country are learning this simple truth by a very costly process, but it is now generally admitted by students of municipal government, and efforts are being made to correct the mistakes of the past.

Here in Newton we have been spared the corruption that has prevailed under the old system, which has given rise to the assertion that American cities are the worst governed cities in the world, but we have had troubles of our own, that could not be avoided under the old fashioned system.

We have had a government without a responsible head, managed by independent committees, whose work might or might not conflict with each other, and if anything went wrong, the responsibility was so divided up that no one could be held responsible. The Mayor has been under the old charter a figure head, and whether he had any real influence or not depended on the amount of tact he displayed in persuading the members of the city council to follow out his ideas, and on the size of the following he was able to build up by this and other means. His hands were tied in every direction, and he was only nominally the mayor, with a dozen or more other mayors in the chairmen of the committees, all independent of each other.

That the results have not been more serious for the city is due to the high character and patriotism of the men elected to office, and to the fact that politics has never had any influence in our city government. Nevertheless it must be admitted by every one who has looked into the matter, that a great deal of money has been wasted every year, that one committee has often undone the work of the other, and that the city business has not been managed economically. Such things were a natural result of the system under the present charter.

The present year has furnished many instances of all these evils, and in spite of the need of economy because of our high tax-rate, there have been extravagant expenditures which could not have passed muster under a more business-like form of government, appropriations have been lavishly used up before half of the year had passed, and demands for extra appropriations have only been averted because public attention was called to them in time.

Under the methods followed by other business corporations, for instance the Boston & Albany Railroad Company, Newton would get a great deal more for the amount expended, and our tax rate would be many dollars less than at present. In fact, any business corporation managed as Newton has been would be forced into insolvency in a very short time.

Under the new charter, we would have one mayor instead of a dozen, he would be held responsible for the expenditures, and his success would depend upon his efficiency and wise management.

People who wish an economical government, who desire to have the city get full value for every dollar expended, who desire to have the tax-rate brought down to a reasonable figure, who in short wish to see as much system and wise management in the Newton city government as in other corporations, will vote for the new charter. It is hardly necessary to say that every tax-payer desires these things, as it is for their interest. Other cities are adopting charters similar in all important features to the one prepared for Newton, and as a matter of local pride, merely, Newton should maintain its reputation as a progressive city, by securing a new charter and thus keeping up with the procession.

## THE MAYORALTY.

The Boston Herald in an editorial which is reprinted on another page, thinks that ex-Mayor Bothfield is the proper man to be elected Mayor, under the new charter, and a large number of Newton people are of the same opinion. The Herald staff is so largely composed of Newton men, that it almost might be called a Newton paper, and it always discusses Newton affairs with an intelligent comprehension of the circumstances. There is no doubt that Mr. Bothfield was one of the best mayors Newton ever had, and there are many who would say that that is putting the case too mildly. He was obliged to decline a reelection on account of his health, but now that he has not that excuse, there are the strongest reasons for calling him back to office for another year, especially if the new charter is adopted. No one has ever questioned his independence, or his ability to decide every issue upon its merits, without fear of or favor to any one, and when to these qualities is

added a sound judgment, and unusual executive ability, we have a man whom the city needs. It will be a sacrifice for Mr. Bothfield to take the office, as he is a very successful business man, who has many interests to look after, but it is such men who are needed in public office, the very qualities that make them successful business men making them capable of managing successfully the great business interests of Newton.

There is no question that the business of Newton has been conducted on an extravagant basis, the tax-rate is much higher than it should be, and it is very important that a radical change should be made, and the expenses of the city kept strictly within the appropriations.

This was done under Mayor Bothfield's first term, even under the disadvantages surrounding the Mayor under the present charter, and much more could be expected of him under the new charter. It will require an unusual kind of a man to start things successfully under the new charter, and a large portion of the business men of Newton think that Mr. Bothfield is just the man for the great responsibilities of the place.

There seems to be a good deal of sentiment in certain parts of the city in favor of a third term for Mayor Cobb. A number of papers are being circulated for signatures in his favor, and Newton Centre is said to be particularly active in his favor. So far as can be learned the friends of other candidates are not taking any active measures, possibly because they are waiting to see if the new charter is adopted.

A VOTE for the new charter is a vote for a business-like city government, and every citizen who has the interests of Newton at heart should vote for it.

## NEW HIGH SCHOOL BUILDING.

ITS ESTIMATED COST \$200,000 NOT INCLUDING THE FURNISHING.

The new high school building is nearly completed and will probably be occupied some time in November. It is the handsomest public building in the city, and the largest school building in the state outside of Boston. Its cost will be \$200,000 at least and the furnishings will cost \$17,000 more. It is an imposing piece of built brick, with trimmings of gray stone, and roof of light green slate.

The building has a frontage of 198 feet on Walnut street, and an extreme depth of 193 feet. It covers a superficial area of 24,000 square feet.

The main entrance is on Walnut street, through a heavy stone arch, relieved by carved designs. Above the entrance on a stone tablet are the words, "Newton High School." There is a second similar entrance on the north front and a third in the rear. The doors open into square lofty vestibules, which in turn give access to two broad corridors 11 feet in width, running the entire length of the building from east to west and north to south.

The basement contains lunch rooms for boys and girls, a third lunch room, all fitted with counters and ranges; a boys' recreation room, girls' recreation room, toilet rooms, book storage room, janitor's closets and janitor's office.

It also contains two bicycle storage rooms, one for boys and the other for girls. The heating and ventilating apparatus consists of three six-inch boilers and a 12-foot ventilating fan.

On the ground floor are ten large classrooms, each 24x37.

Four recitation rooms, 18x28, retiring rooms for male and female teachers, toilet rooms, and a book storage room are also located on this floor.

On the second floor are handsomely appointed offices for the head master and the secretary, a reception room for visitors, 10 classrooms similar to those on the ground floor, two toilet rooms, two recitation rooms and a library.

The third floor contains two class rooms, two drawing rooms, botanical, chemical, and physical laboratories, a lecture theatre, a photographic dark room and a large assembly hall.

The large assembly hall is 76 feet by 50 feet and has a gallery 30x10. Its seating capacity is estimated at 900. At one end is a stage 10x20.

The fourth floor is largely unfinished, but contains space that may be utilized for classrooms or drawing rooms.

The class rooms are all 14 feet in height, and are well lighted. The assembly hall is nearly 24 feet in height. The structure is as nearly fire-proof as it can be made. The building contains 257 windows. To light the structure 900 incandescent lights will be used.

The interior finish of the entire building is of oak, with the exception of the assembly hall, where the doors throughout are of heavy quartered oak.

## Building Permits.

Inspector of buildings George H. Fidler has granted the following permits the past two weeks:

Appleton street, Ward 2. 2-story brick stable, 120x30, H. F. Ross owner, cost \$9,000; H. F. Ross builder.

Elbridge street, Ward 7. 2-story residence, 24x34, furnace, bath, etc., C. B. Galand owner, cost \$8,000; L. W. Crowe builder.

Fisher avenue, Ward 5. 2-story frame residence, 24x31, furnace, bath, etc., Charles W. Smith owner, cost \$3,000; T. H. Kingston builder.

Fisher avenue, Ward 5. 2-story frame residence, 24x31, furnace, bath, etc., Charles W. Smith owner, cost \$3,000; T. H. Kingston builder.

## Those Nonantum Buildings.

For some months the residents of the Nonantum district have been agitated by a so-called building nuisance, which it was alleged existed in that place. Several houses located on Faxon and Beech streets, it was claimed, did not meet the requirements of the law.

For a time there was considerable talk, and the residents of that part of Ward One, petitioned the city government to consider the matter. A special committee was appointed which after looking over the buildings decided to refer the matter to the city solicitor. Incidentally the inspector of building came in for some harsh criticism.

Now comes the news, which is authoritative, that the city solicitor has found that buildings were being constructed within the provisions of the ordinance. The inspector of buildings gave this as his opinion at first, and is therefore sustained. Perhaps some may realize by this that the office is held by a competent man.

—Jerry Race, the alleged pony thief, was brought before Judge Kennedy in the police court Wednesday morning. He pleaded guilty, and was held for trial before the grand jury.

—There are letters in the postoffice for Mrs. Gustaf Pils, Mrs. D. B. Bradley, Miss M. J. Eaton, Mrs. Helen Nichols, Miss Sylvester, Mr. and Mrs. A. W. Beard and A. Wozz.

—The annual meeting and election of officers of the Auburndale Village Improvement Society, will be held at Auburn Hall, Thon, Oct. 21, at 7:30 o'clock. Every one is invited to attend.

—Mr. W. S. Hinman and family have returned after their summer's outing to their residence on Central street. Part of the summer they were at Falmouth, and for the last few weeks have been staying in Boston.

—Sunday afternoon Officer Quilty arrested a vagrant, named Enders, a domestic employed in this place. Later she was turned over to an Everett officer, she being wanted in that place for larceny of \$17 worth of goods.

—Union services, under the auspices of the Auburndale Woman's Christian Temperance Union, will be held at the Congregational church next Sunday evening, Oct. 17th, at 7:30. Mrs. Mary Clement Leavitt, honorary president of the World's W. C. T. U., who has spent nine years in temperance work in foreign lands, will speak. All are invited.

—As yet municipal politics have taken no special form in this ward. It is generally understood however, that Alderman Knowlton and Councilmen Hadlock and Lyman will continue to hold their positions in the city government as the unanimous choice of Ward 4 residents. The records of these men have been creditable, and thoroughly satisfactory to their constituents.

—Funeral services over the remains of George L. Chandler, for many years a teacher at the Newton school, will be held Saturday morning at the First Unitarian church, West Newton, and was very largely attended by his former associates in the school department and old pupils of the Newton high school. Rev. Julian C. Jaynes conducted the service and several appropriate musical selections were rendered. The remains were taken to Kingston Mills, for interment.

—Officer Mills of the police force reported to police headquarters last Sunday evening that about 8 o'clock E. A. Matthews of Weston had a pair of valuable ponies and phaeton stolen. The outfit was taken from the sheds of the Auburndale Congregational church where it had been left while Mr. Matthews was attending the evening service. City Marshal Richardson sent out a description of the team, and it was found in Athol, Tuesday morning, and the man driving it arrested. He was about 20 years of age, and gave his name as Jerry Race and his home as Brandon, Vt. He had already bargained one of the ponies to a prominent citizen of Athol for \$50, and was trying to trade the phaeton for a buggy when arrested. The young man had kept a memorandum of his trip from the time he left Boston, giving the time that he passed through various places as Worcester, Barre, etc., the last entry being "arrested and in jail in Athol."

## An Improvement.

## ALMOST KILLED.

MRS. KATE SEERY THE VICTIM OF A TERRIBLE ASSAULT—HER HUSBAND LOCKED UP, CHARGED WITH THE OFFENCE.

Mrs. Kate Seery, 55 years old, was the victim of a terrible assault Tuesday morning. Her wounds were so serious that for a time it was feared she would not live. Her husband, James Seery, who is fifteen years her senior, is locked up at police headquarters charged with assault with intent to kill.

On his arrival at police headquarters he was placed in cell No. 1, and a few minutes later Patrolman Harrison, on making his customary visit to the cell room, discovered his apparently lifeless body suspended from the cell door by his suspenders. Without waiting to unlock the door he broke the suspenders and released the body, by his promptness probably saving the man's life.

A little later he became more communicative, and declared his knowledge of any complicity in the assault on his wife. He had been, he said, to Newton, and on his return with a bottle of whisky found two men in his wife's room. They took his whisky from him, he says, pushed him from the room, striking him repeatedly, and after robbing him of \$300, which he had just taken from the bank to discharge a mortgage, carried him from the house and threw him into the brook. He did not know of the assault on his wife until she was being carried away in the ambulance, but supposed that she was beaten by the two men and then robbed. He does not know who the men are.

This story is not believed by the police, as no one can be found who saw any strange men in the vicinity that noon.

Tuesday evening Sergt. Huestis saw the wife of the man in the Newton Hospital, where she repeated the statement that her husband was the assailant. Seery was brought before Judge Kennedy in court Wednesday and held in \$1000.

An Attractive Estate in West Newton.

Owing to the decease of the owner one of the most attractive of the many beautiful estates in West Newton has been placed on the market by the executors. The property is owned by the Gane heirs, and comprises a handsome house, stable, greenhouse and billiard room, land seventeen acres of land. It is bounded by three streets—Waltham street, on which the land has a frontage of 700 feet; Derby and Cherry streets. The grounds are laid out in beautiful lawns, flower gardens, and groups of fruit trees. Situated on one of the best streets in the city, the estate offers an unusual opportunity to those seeking a delightful home in a growing city, sufficiently removed from the bustle of traffic to insure quiet. The house, in fact the whole estate, has been perfectly kept and is ready for immediate occupancy. Investors looking for a piece of real estate that is sure to advance in value will find in this parcel a capital opportunity. The property is taxed for \$29,000, which is only about 4 cents a square foot, including the very soon to be completed new grades of the Boston & Albany Railroad costing several millions of dollars, and occupying nearly two years to complete, together with the widening of Washington street, paralleled with the railroad, making a boulevard, on which the trolley system will connect Boston by the way of Commonwealth avenue, will result in the West Newton taking on new attractions for those seeking the retirement of beautiful suburban homes.

The Battlefield of Gettysburg.

The point at which the Rebellion received its deathblow and the permanency of the American Union was forever established in one of the most interesting spots in America. It can be visited at no better season than the present. The Pennsylvania Railroad Company's personally-conducted tour to Gettysburg, Luray, and Washington, which leaves Boston, Oct. 22, presents an extraordinary opportunity. Rates, including all necessary expenses during the entire time absent, \$35. Itinerary of D. N. Bell, tourist agent, 205 Washington Street, Boston, or Geo. W. Boyd, Assistant General Passenger Agent, Philadelphia.

## NEWTONVILLE.

—Ivers & Pond pianos, Farley, Newton.  
—Mr. W. D. Wellington is seriously ill at his home.

—Mr. Sidney Hobson expects to move into his new house next week.

—Mr. Harvey B. Merrill is seriously ill at his home on Bowers street.

—Mr. G. H. Loomis is entertaining his brother and wife from Westfield.

—Boynton Lodge, U. O. I. O. L. held its regular meeting Tuesday afternoon.

—Mr. L. E. G. Green expects soon to occupy his new house on Watertown street.

—Dalhousie Lodge held its first fall meeting in its new quarters, Wednesday evening.

—Mrs. James Sherman of Washington, Mass., passed a short time at Wayland this week.

—The regular meeting of the Daughters of Veterans was held in Dennison hall, Tuesday evening.

—Mr. Harry Levetto, formerly with Mr. Marston, has opened a barber shop at Newton Lower Falls.

—Mrs. Frank Bass and daughter of Central avenue leave this week for California, where they will remain about two years.

—Mr. Stanley of Bowers street fell from a stepladder last Friday, breaking his hip. His condition is as comfortable as can be expected.

—A pet canary bird belonging to Mrs. J. F. Bancho, and one she raised, died last week aged nearly 14 years. It was a beautiful singer, and kept its voice up to the last. This is thought to be an unusual old age for a canary bird.

—The Sunday school board of the M. E. church held its fall meeting at the residence of the superintendent, Mr. A. L. Lindsay, on Wednesday evening last. At the conclusion of the business session, refreshments were served, and a pleasant hour was passed in social intercourse.

—Political circles seriously contemplate the advisability of nominating Charles E. Davis as candidate for alderman. Mr. Davis will be warmly supported by a large number of friends. He is well posted in Newton politics and is well known in official circles, having served as police captain for a number of years.

—Chas. Ward Post 62, G. A. R., will dedicate its new Memorial Hall in the Masonic building, Thursday evening, Oct. 21st, at 8 o'clock. The Rev. John M. Deane and his staff, representing the G. A. R., Col. Olin, representing the state, Mayor Cobb, the city, and other distinguished speakers will be present and assist in the ceremony.

—The work of constructing the various lines of street railway over Walnut street crossing is now completed and the Water-town cars are now running directly to the Highlands, thus avoiding the necessity for changing cars and possible delay in the square. Several steam rollers have been at work on the roadbed through the square during the week and it is hoped that the work through the center of the village will be completed by Saturday night.

—The Educational Society held a meeting in the chapel of Central Congregational church, Tuesday evening. President Hornbrook in the chair. A lecture was delivered by Edwin D. Mead of Boston on the "Study of History." A discussion followed, in which a number of prominent members of the society participated. A number of members were admitted, making a membership of over 100. Mr. George A. Walton proposed an amendment to the constitution, admitting new members on approval of the executive committee without reference to the association as a whole. This amendment was adopted.

—Gen. Hull Lodge, A. O. U. W., celebrated last Friday evening by entertaining the ladies of the Ladies' Home Circle at the Newton Club house, Tuesday afternoon, brought out ladies enough to fill eight tables, and the affair was very enjoyable. Prizes were won as follows: First, Mrs. W. H. Rogers; second, Mrs. M. J. Severans; third, Mrs. C. S. Merchant of West Newton; 4th, Mrs. A. F. Plummer of Auburndale; 5th, Mrs. Stewart of the Highlands. The other dates are the 19th, 20th, 21st, 22nd, and 23rd.

—Washington street between Walnut street and West Newton is now in condition for travel, and is one of the finest roads in the city. The completion of the work means a great deal to all who have occasion to travel in that direction, as the street has been impassable for months. The only criticism heard is of the narrowness of that part of the street in front of the hook and ladder house, where there is only a little wider than when Chief Bixby was fatally injured, through the narrowness of the street. At all other points the street is abundantly wide, both for the double tracks and the traffic.

—Last Friday evening Bishop Lawrence met the Newtonville people who are interested in the organization of St. James Episcopal church. The meeting was an enthusiastic one, and the Bishop expressed himself as altogether in favor of the establishment of the church. The first meeting will be held Oct. 20 in Temple hall, at 8 o'clock. Bishop Lawrence will conduct the service. The new church will be established under decidedly favorable auspices, and at the outset will have a congregation of more than 100. The leaders in its organization have already decided to employ an ordained minister.

—Rev. Mr. Hamilton will preach on Sunday morning and evening at the Methodist church. On Sunday evening, Oct. 31, he will begin a course of eight addresses on "Gospel Lessons from 'Wanderings Abroad,'" as follows: Oct. 31, "Through quaint Holland to Delftaven, whence the Mayflower sailed;" Nov. 7, "Under the Lindens of Berlin—Beholding the Glory of an Emperor's Court;" Nov. 14, "With Knapsack and Walking Stick along the River Rhine;" Nov. 21, "The Spectre of the Hartz Brocken and the Haunts of the Robber Barons;" Nov. 28, "The Legend of the Blue Danube and Imperial Vienna;" Dec. 5, "The Footprints of Napoleon around Paris—Fontainebleau, Versailles, St. Cloud;" Dec. 12, "The Field of Waterloo and the Tomb of Napoleon;" Dec. 19, "Lights and Shadows of Latin Quarter Life in Paris."

—A fashionable wedding of more than common interest among the young society people of this place was that of Miss Mabel Westwood, daughter of Mr. Thomas Westwood of Cambridge street, and Mr. Herbert E. Eames of Holliston, which took place last evening at the Methodist Episcopal church. The ceremony was held at 8 o'clock. Rev. Mr. Hamilton officiating. The church decorations were of green and white, and the church vestry, where the reception was held, was adorned with autumnal foliage. The bride was handsomely gowned in white satin, and wore the customary tulle veil. She carried bride roses. The maid of honor was Miss Gertrude Maynard of Warwick, Mass. Her dress was of white lacy. She carried a bunch of white pinks. The bridesmaids wore white muslin. They were Miss Helen Webster, Miss Lois Ramsey, Miss Florence Sylvester, Miss Cora Carter of Newtonville, Miss Eva Chadbourne of Newton Centre, Miss Maud Johnson of Wellesley, Miss Marie Burnett of Springfield, and Miss Nellie Smith of Waltham. The best man was Mr. Frank Cass of Holliston. The following gentlemen acted as ushers: Mr. Henry Cutler, Mr. Charles Flagg of Holliston, Mr. Elmer Eames of Natick, Mr. Clarence Paice of Springfield, Mr. James Webster of Newtonville, and Mr. Theodore Richardson of Waltham. At the reception which followed, Mr. and Mrs. Eames were assisted in receiving by the maid of honor and best

man. After a wedding tour Mr. and Mrs. Eames will reside in Holliston.

—Mr. Andrew Wellington is seriously ill at his home on Bowers street.

—Miss Florence Sylvester has returned after an eight weeks' vacation.

—Mrs. Henry Jennison is very critically ill at her residence on Crafts street.

—Miss Louise Rollins has returned after a visit with friends in Rhode Island.

—Dr. Talbot has returned after several weeks' stay in the New York Hospital.

—Rev. John Worcester was elected general pastor of the Mass. New Church Association, at the meeting in Brockton, yesterday.

—Mrs. E. H. Pierce and Miss Blanche Pierce returned to their home on Cabot street after their summer vacation.

—Sunday evening, Oct. 21, Mr. Herbert Thayer, tenor soloist at the Central Congregational church, Boston, will sing at the regular service at the Methodist church.

—There are letters remaining in the post-office for Miss Hattie Blanchard, Miss Mary Burk, Mrs. Mary Doherty, Miss Marion Dyke, Alfred Taylor, Miss Dora Leonard, Mrs. George Thompson and Horace Wood.

—A "Household Sale" under the auspices of the "Kings Daughters Ministering Circle," will be held Thursday afternoon and evening at the home of Miss Mabel W. Hall, 45 Brooks avenue. All are cordially invited.

The meeting was an enthusiastic one, and the Bishop expressed himself as altogether in favor of the establishment of the church. The first meeting will be held Oct. 20 in Temple hall, at 8 o'clock. Bishop Lawrence will conduct the service. The new church will be established under decidedly favorable auspices, and at the outset will have a congregation of more than 100. The leaders in its organization have already decided to employ an ordained minister.

—Rev. Mr. Hamilton will preach on Sunday morning and evening at the Methodist church. On Sunday evening, Oct. 31, he will begin a course of eight addresses on "Gospel Lessons from 'Wanderings Abroad,'" as follows: Oct. 31, "Through quaint Holland to Delftaven, whence the Mayflower sailed;" Nov. 7, "Under the Lindens of Berlin—Beholding the Glory of an Emperor's Court;" Nov. 14, "With Knapsack and Walking Stick along the River Rhine;" Nov. 21, "The Spectre of the Hartz Brocken and the Haunts of the Robber Barons;" Nov. 28, "The Legend of the Blue Danube and Imperial Vienna;" Dec. 5, "The Footprints of Napoleon around Paris—Fontainebleau, Versailles, St. Cloud;" Dec. 12, "The Field of Waterloo and the Tomb of Napoleon;" Dec. 19, "Lights and Shadows of Latin Quarter Life in Paris."

—A fashionable wedding of more than common interest among the young society people of this place was that of Miss Mabel Westwood, daughter of Mr. Thomas Westwood of Cambridge street, and Mr. Herbert E. Eames of Holliston, which took place last evening at the Methodist Episcopal church. The ceremony was held at 8 o'clock. Rev. Mr. Hamilton officiating. The church decorations were of green and white, and the church vestry, where the reception was held, was adorned with autumnal foliage. The bride was handsomely gowned in white satin, and wore the customary tulle veil. She carried bride roses. The maid of honor was Miss Gertrude Maynard of Warwick, Mass. Her dress was of white lacy. She carried a bunch of white pinks. The bridesmaids wore white muslin. They were Miss Helen Webster, Miss Lois Ramsey, Miss Florence Sylvester, Miss Cora Carter of Newtonville, Miss Eva Chadbourne of Newton Centre, Miss Maud Johnson of Wellesley, Miss Marie Burnett of Springfield, and Miss Nellie Smith of Waltham. The best man was Mr. Frank Cass of Holliston. The following gentlemen acted as ushers: Mr. Henry Cutler, Mr. Charles Flagg of Holliston, Mr. Elmer Eames of Natick, Mr. Clarence Paice of Springfield, Mr. James Webster of Newtonville, and Mr. Theodore Richardson of Waltham. At the reception which followed, Mr. and Mrs. Eames were assisted in receiving by the maid of honor and best

man. After a wedding tour Mr. and Mrs. Eames will reside in Holliston.

—Mr. Andrew Wellington is seriously ill at his home on Bowers street.

—Miss Florence Sylvester has returned after an eight weeks' vacation.

—Mrs. Henry Jennison is very critically ill at her residence on Crafts street.

—Miss Louise Rollins has returned after a visit with friends in Rhode Island.

—Dr. Talbot has returned after several weeks' stay in the New York Hospital.

—Rev. John Worcester was elected general pastor of the Mass. New Church Association, at the meeting in Brockton, yesterday.

—Mrs. E. H. Pierce and Miss Blanche Pierce returned to their home on Cabot street after their summer vacation.

—Sunday evening, Oct. 21, Mr. Herbert Thayer, tenor soloist at the Central Congregational church, Boston, will sing at the regular service at the Methodist church.

—There are letters remaining in the post-office for Miss Hattie Blanchard, Miss Mary Burk, Mrs. Mary Doherty, Miss Marion Dyke, Alfred Taylor, Miss Dora Leonard, Mrs. George Thompson and Horace Wood.

—A "Household Sale" under the auspices of the "Kings Daughters Ministering Circle," will be held Thursday afternoon and evening at the home of Miss Mabel W. Hall, 45 Brooks avenue. All are cordially invited.

—A pet canary bird belonging to Mrs. J. F. Bancho, and one she raised, died last week aged nearly 14 years. It was a beautiful singer, and kept its voice up to the last. This is thought to be an unusual old age for a canary bird.

—The Sunday school board of the M. E. church held its fall meeting at the residence of the superintendent, Mr. A. L. Lindsay, on Wednesday evening last. At the conclusion of the business session, refreshments were served, and a pleasant hour was passed in social intercourse.

—Political circles seriously contemplate the advisability of nominating Charles E. Davis as candidate for alderman. Mr. Davis will be warmly supported by a large number of friends. He is well posted in Newton politics and is well known in official circles, having served as police captain for a number of years.

—Chas. Ward Post 62, G. A. R., will dedicate its new Memorial Hall in the Masonic building, Thursday evening, Oct. 21st, at 8 o'clock. The Rev. John M. Deane and his staff, representing the G. A. R., Col. Olin, representing the state, Mayor Cobb, the city, and other distinguished speakers will be present and assist in the ceremony.

—The work of constructing the various lines of street railway over Walnut street crossing is now completed and the Water-town cars are now running directly to the Highlands, thus avoiding the necessity for changing cars and possible delay in the square. Several steam rollers have been at work on the roadbed through the square during the week and it is hoped that the work through the center of the village will be completed by Saturday night.

—The Educational Society held a meeting in the chapel of Central Congregational church, Tuesday evening. President Hornbrook in the chair. A lecture was delivered by Edwin D. Mead of Boston on the "Study of History." A discussion followed, in which a number of prominent members of the society participated. A number of members were admitted, making a membership of over 100. Mr. George A. Walton proposed an amendment to the constitution, admitting new members on approval of the executive committee without reference to the association as a whole. This amendment was adopted.

—Gen. Hull Lodge, A. O. U. W., celebrated last Friday evening by entertaining the ladies of the Ladies' Home Circle at the Newton Club house, Tuesday afternoon, brought out ladies enough to fill eight tables, and the affair was very enjoyable. Prizes were won as follows: First, Mrs. W. H. Rogers; second, Mrs. M. J. Severans; third, Mrs. C. S. Merchant of West Newton; 4th, Mrs. A. F. Plummer of Auburndale; 5th, Mrs. Stewart of the Highlands. The other dates are the 19th, 20th, 21st, 22nd, and 23rd.

—Washington street between Walnut street and West Newton is now in condition for travel, and is one of the finest roads in the city. The completion of the work means a great deal to all who have occasion to travel in that direction, as the street has been impassable for months. The only criticism heard is of the narrowness of that part of the street in front of the hook and ladder house, where there is only a little wider than when Chief Bixby was fatally injured, through the narrowness of the street. At all other points the street is abundantly wide, both for the double tracks and the traffic.

## TO HELEN.

Helen, thy beauty is to me  
Like those Naxos tokens of yore  
That gently o'er a perfumed sea  
The weary, wayworn wanderer bore  
To his own native shore.

On desperate seas long wont to roam  
Thy hyacinth hair, thy classic face,  
Thy Naiad airs have brought me home  
To the glory that was Greece  
And the grandeur that was Rome.

Lo, in your brilliant window niche  
How statuelike I see thee stand,  
The aged lamp within thy hand  
Ah, Psyche, from the regions which  
Are Holy Land!

—Edgar Allan Poe.

## THE KOL-IRA.

The blazing sun trembled on the rim of  
the desert for a moment and then sank  
into the sand with a sudden drop, sharp  
and distinct as the click of a Martini-  
Henry.

The fear of desolation was in the air.  
For three weeks the sun baked streets and  
echoed with the "Ah, ah!" of the hired  
mourners as they hurried the swollen and  
purple corpses out of the city gate and into  
three feet of earth just beyond.

"The Christian dogs will not believe my  
word, but I swear to the presence that I  
saw it with my own eyes, and, by Allah, I  
talk true talk."

The Abu puffed a cloud of blue smoke  
against the lantern that flickered among  
the sticky trailing vines about the lattice  
of the veranda and shook his head slowly  
from side to side.

"The Ingelezz is fighting with Allah.  
The kol-ira, the black death, came straight  
from the hand of Allah, and these eyes saw  
it when it came. Let the presence have  
it well in his mind that it will not depart  
until the word of Allah calls it away. The  
presence has frowned? Let my master be  
not vexed at the word of the worm, his  
servant. My eyes have seen what they  
have seen, and my soul knows what it  
knows, and it will not be otherwise for the  
Ingelezz boy."

"You say that you saw it, Abu? And  
what did you see?"

"My eyes saw the kol-ira coming into  
Aden, and I know what I know. Allah is  
praised!"

For several minutes the eyes of the Abu  
stared into the hookah bowl, as the ember  
glowed and reddened with each puff.  
Then he took the mouthpiece from between  
his teeth, rested one hand upon his knee  
and smoothed his beard wearily with the  
other.

"The presence wishes to know? What  
good will that be if his soul does not be-  
lieve? Am I to turn a liar in my old age?  
Besides the Ingelezz has been gracious to  
me. I have heard in the light of his eyes  
and have smoked many hookah pipes at  
his expense. So that I have dwelt in gar-  
dens of pleasure. But that is the way with  
the unbelievers. They come here and they  
tear up the streets and throw much lime  
about and build fires in the market place  
to burn the refuse of the earth, and then  
they rub their hands and say to themselves,  
"Mashallah, mashallah, in an hour,  
or a day, or a week the kol-ira shall be no  
more and we will laugh in the face of  
Allah." As for me, the presence knows  
that I shall not turn liar at the end of my  
days. Another hookah? May the mercies  
of the presence be remembered! All un-  
believers are not dogs, and the Ingelezz  
boy is better than some Moslems."

Then came another period of silence,  
broken only by the gurgling of the hookah  
and the wheezing of the Abu's breath.  
Presently the muezzin walked to the evening  
prayer from the platform of the mosque  
that stands in the market place  
over against the fountain that is now dry.

The Abu looked up at me and said mus-  
tlingly: "Abu Ibn Hamish has heard the  
muezzin call the faithful to prayer from  
childhood to old age, ninety and three  
years. I shall hear him only a short time  
more."

He laid down the hookah mouthpiece on  
the mat and counted thoughtfully on his  
fingers, "I shall hear him only six—seven  
—eight times more, and then—"

The sentence was left unfinished, and  
the Abu replaced the mouthpiece compli-  
cantly between his teeth, purring to him-  
self: "Ishallah, ishallah, as it is written,  
so shall it be. I have dwelt in paradises  
because the presence has thrown the light  
of his eyes upon me, and has caused my  
hookah bowl to be filled with a fragrant  
plentiful smoke. And now I will tell him  
a word of wisdom that he may be guided  
by it and sleep the sleep of the fearless."

"The black death is going away. How  
does my soul know it? Did I not tell the  
presence that my eyes saw the death com-  
ing into Aden? It came as an old woman  
who rode in the rear of a caravan. Your  
servant, the worm, was sitting where he  
is sitting now, smoking his hookah pipe  
and thinking of many things that he had  
seen in the desert and upon the sea. The  
kahvedji—may the evil eye strike him be-  
cause of the many half-filled hookah bowls  
that he has given me for just and full  
measure—the kahvedji lay on his bench  
sleeping the sleep of a donkey, and the  
place was empty save for that thief and  
liar and unbeliever at heart and myself  
who am now tasking in the radiance of  
the presence."

"It was just before the first crowing of  
the cocks and the moon was pouring down  
white upon the desert, even as it is now.  
The presence may think that my eyes had  
closed in slumber or that I had partaken  
of the heavenly drug. Let not the Ingelezz  
boy scoff at the words of his servant who,  
he tells him that he was watchful and that  
his eyes looked out upon the desert as they  
do now. My ears heard the tinkling of  
camels' bells, and in a breath there passed  
before my eyes and up this road that the  
boy is looking upon now a caravan covered  
with the dust of the desert and clothed  
in the rags of many days. Each hadji sat  
in his saddle muffled to the ears in his  
hurnoose, looking neither to the right nor  
to the left. There was no sound of treading,  
but only the tinkle of the bells, and the  
caravan passed straight into the market  
place, although the gates of the city had  
long been closed upon its sleeping happi-  
nesses."

"The presence smiles? Let him not be  
in haste to take my true talk lightly."

"In the rear of the caravan there rode  
an old hanum on a camel that had nothing  
but bones within its skin and holes where  
the eyes should be. Your servant was  
about to wake that sleeping bound of a  
kahvedji—on whom may the prophet send  
a thousand and one curses—when the old  
hanum raised her arm and beckoned him  
to her side. The camel that bore her stop-  
ped in the middle of the road, just where  
the presence sees that white stone. The  
hanum's face was covered with a ragged  
veil, and there was nothing but rags upon  
her—nothing but the rags of many days,  
as your servant lives and breathes and  
smokes the hookah which the boy has com-  
manded to be filled for me in a heaping  
measure. Presently she spoke: "Abu Ibn

Hamish, do you know me? I am the kol-  
ira, the black death, and I have come to  
carry away half of Aden. I shall be here  
for a month and a day, and you I shall  
carry away last of all."

"Then the caravan moved toward the  
market place, and I saw it no more. When  
day broke, these ears heard the "Ah, ah!"  
of the hired mourners as they carried out  
the first of the dead. And I am to be the  
last."

"The presence is going away? Let him  
look to the steps of his feet, lest he stum-  
ble into the well in the courtyard."

"Who told you that story, Jenkins?"  
asked young Stover, who had come out  
from England two weeks before to fight  
the plague. "It must be that old booby,  
Ibn Hamish. Who is he anyway?"

"A harmless sort of idiot, who passes  
for a wise man among his people," replied  
a subaltern who was balancing himself on  
a camp stool and vainly trying to interest  
himself in a back number of the London  
Times.

Thereupon Stover launched out upon a  
lecture on superstition. The young sur-  
geon was fresh out of civilization and did  
not have so much as an inkling of the  
backward and sideways workings of the  
oriental mind. His eloquence was cut  
short by the appearance of my Arab serv-  
ant, who saluted me profoundly before me.

"May the presence be not moved to an-  
ger, but there is a messenger at the door  
who craves that he may be permitted to  
see the light of your eyes."

"A messenger? And what does he want  
of me?"

"May I be forgiven if I speak, but the  
dead dog will not tell me what he wants.  
He comes from Abu Ibn Hamish, may it  
please the Ingelezz boy."

The Abu had been taken with the plague,  
said the messenger, and would I be so gra-  
cious and merciful as to go and see him?  
I threw my fatigue coat over my arm, in  
anticipation of a return during the cold of  
the night, and followed the messenger.

I found the Abu where I had last seen  
him, sitting on the veranda of the kahvane  
which had been his dwelling place appar-  
ently for years. He was staring soberly at  
the smoke that curled up from the hookah.

"The presence is here? May your serv-  
ant be forgiven, but I wish to tell you a  
word and you shall see before tomorrow's  
sun that I have spoken truth. Ishallah,  
you shall see."

"What can I do for you, Abu? The mes-  
senger told me that you were stricken with  
the plague and I came to you at once. Do  
stricken men smoke the hookah and make  
bad jests?"

"The presence is smiling the smile of  
the unbeliever, but let him be not moved  
to anger. My time is coming even now. I  
threw my fatigue coat over my arm, in  
anticipation of a return during the cold of

ment in the printed copy statements which  
he had never formed and ideas which he  
had never conceived. Since the days of  
Adam man has laid faults at some other  
person's door. The bookmaker recalls in  
his mind the various persons through  
whose hands his manuscript has passed,  
and as they stand before the bar of judg-  
ment—his judgment of course—he reads  
them a severe lecture. Who is to blame?  
Was it the typesetter or the proofreader or  
that denizen of the ink office—the printer's  
devil? Looking upon the thwarted at-  
tempts at perfection, he believes it to be  
decidedly foolish.
Preserves often spoil. Every housewife  
knows it. Economizing a spoonful of sugar  
results in the loss of a jar of fruit. So  
"the art preservative" sometimes fails to  
preserve the writer's thought, whether  
through false economy or negligence. I  
say not. Sometimes it is amateur in-  
experience. By request I once sent an am-  
ateur sermon to a local weekly for this  
section. It was inserted. Such a rendition  
of my fair written manuscripts! I could  
weep at the distorted, disjointed sen-  
tences and paragraphs; all the "ographies"  
and "ologies" seemed to have passed  
through a collision or experienced an  
earthquake. The title was "Memorial  
Stares." I no longer trust amateur printers.
I must first see the proof sheet. Happily  
the sheet had the small circulation it  
deserved. The older residents regarded  
each issue as a joke perpetrated.
Sometimes perhaps the author might  
blame himself instead of the printer.  
Great thinkers are not always good writers.  
Indeed the reverse seems to be true  
generally. Thought can form faster than  
ink can flow from the fountain pen. This  
statement is inserted. Such a rendition

## Lassell Notes.

On Saturday evening last the gymnasium  
looked its best; an orchestra was in at-  
tendance, and the students, in pretty even-  
ing dresses, added the charm of youthfulness,  
grace and beauty to the scene; it was the  
evening set for the German given by the  
Cano Club, and pleasure was the order of  
the hour. The figures chosen were very  
pretty and effective; fees were provided by  
way of refreshment, and altogether it was  
a very pleasant occasion.

A large party attended Joe Jefferson's  
initial performance of Rip Van Winkle at  
the Boston Theatre last Monday evening,  
and enjoyed to the full Rip's rollicking  
humor and imperturbable good nature,  
sympathized with poor Gretchen, and cold  
chills of apprehension when Rip went for-  
lornly into that terrific storm, wondered  
with him at the deafness of Hendrick's  
"boys," feared with him lest his pretty  
daughter should have forgotten him like  
all the rest, and rejoiced at his final triumph  
and the humiliation of the testy old villain  
who plotted his ruin. That was playing,  
to some purpose.

In Bohemia.—"I prepare all my meals  
myself," observed the Bohemian, who a  
moment since had been wondering if his  
chauffeur dish would go another week with-  
out washing.

"I eat in a cafe," rejoined the other Bo-  
hemian. "It saves fuel."

"Yes, at every meal I take toothpicks  
enough to keep my fire going until the next  
meal."—Detroit Journal.

## FROM FOOT TO KNEE

Ohio Woman Suffered Great Agony  
From a Terrible Sore—Her Story of  
the Case, and Her Cure.

"For many years I was afflicted with a  
milk leg, and a few years ago it broke out  
in a sore and spread from my foot to my  
knee. I suffered great agony. It would  
burn and then all the time and discharge  
a great deal. My health was good with the  
exception of this sore. I tried a great  
many kinds of salve, but I could not  
irritate the sore so that I could hardly  
stand the pain. I could not go near the  
fire without suffering intensely. Some one  
sent me papers containing testimonials of  
cures by Hood's Sarsaparilla, and I told  
my husband I would like to try this medi-  
cine. He got me a bottle and I found it  
helped me. I kept on taking it until my  
limb was completely healed. I cannot  
praise Hood's Sarsaparilla enough for the  
great benefit it has been to me. It  
cleanses the blood of all impurities and  
leaves it rich and pure." MRS. ANNA E.  
EAKEN, Whittlesby, Ohio.

You can buy Hood's Sarsaparilla of all

## A Great Surprise is in Store

for those who will go to-day and get a package of GRAIN-O. It takes the place of coffee at about 1-4 the cost. It is a food drink, full of health, and can be given to the children as well as the adult with great benefit. It is made of pure grains and looks and tastes like the finest grades of Mocha or Java coffee. It satisfies everyone. A cup of Grain-O is better for the system than a bowl of porridge, and is permanent. What coffee breaks down Grain-O builds up. Ask your grocer for Grain-O. 15c. and 25c.

## NEWTON UPPER FALLS.

—Cornelius Corkery has taken a position in Boston.

—Mrs. Mason of High street is enjoying an extended vacation trip visiting friends and relatives in the southern and middle states.

—Tuesday morning a buggy standing near the watering fountain was run into by a large dumpcart. The occupants of the carriage were thrown out but not hurt. A rear wheel of the lighter vehicle was broken, and the axle damaged.

—The Boston Traveller has the following in its "Around and About" column: Mr. William Hopkins, who is so well

known to New England readers as "Bud Brier," has returned to Boston after a month's sojourn in Zanesville, O. He is greatly benefited by his much needed rest, and resumes his duties with renewed energy. I see that Mr. Hopkins has been interviewed by a Zanesville paper at some length. Some of his views are extremely interesting.

## Croup Quickly Cured.

MOUNTAIN GLEN, Ark.—Our children were suffering with croup when we received a bottle of Chamberlain's Cough Remedy. It afforded almost instant relief.—F. A. THORNTON. This celebrated remedy is for sale by E. P. Partridge, Newtonville; Lacroix & Genest, Nonantum; B. Billings, Newton Upper Falls; J. H. Green, Newton Highlands.

## NEWTON LOWER FALLS.

—A new boiler is being put up at Sullivan's extract mills.

—Mr. Henry Vyett is taking a month's vacation, his nephew attending to his tonorial business in his absence.

—Mr. W. P. Holden, formerly a well-known business man of this place, made a brief visit among friends here, Tuesday.

—Mr. Geo. N. Smith, insurance agent, and auctioneer, received some bad face wounds last week by the breaking of a bicycle he was riding.

—Mr. Farley Osgood, formerly superintendent of the telephone agency at Wellesley Hills, is now with the Bishop's paper manufacturing here, as agent, he also having an interest in the concern.

—Mr. Chas. Severson, who has been off on a hunting trip for two weeks, brought a deer home he had shot in Maine. A party met at Mr. Severson's home, Monday evening, when the carcass was cut up and divided.

—The marriage of Mr. Joseph Madden of this place to Miss Francis Mahoney was celebrated Tuesday evening, Fr. Callanan performing the marriage ceremony. The reception immediately after the ceremony was attended by about 75 friends, which shows the popular esteem the newly married couple enjoy. Supper was served at Freeman hall from 9 to 10 o'clock, by Mrs. Madden. The wedding gifts were numerous and costly, mostly useful and adorning articles, and all selected with good taste. The groom was attended by his brother Edward, who acted as best man, and a sister of the bride acted as bridesmaid. The most hearty wishes were extended the newly married couple by their departing guests for a happy future. They will take up their home in Somerville after a brief wedding tour.

A pain in the chest is nature's warning that pneumonia is threatened. Dampen a piece of flannel with Chamberlain's Pain Balm and bind over the seat of pain, and another piece between the shoulders, and prompt relief will follow. Sold by E. P. Partridge, Newtonville; Lacroix & Genest, Nonantum; B. Billings, Newton Upper Falls; J. H. Green, Newton Highlands.

—A large number of the younger people attended the Gypsy party given in Waltham, Monday evening.

—A cottage prayer meeting was held Wednesday evening at the home of Mrs. Powell on California street.

—Letter-carrier Michael Gallagher is enjoying a vacation of two weeks. Substitute Burns is taking his place.

—Milk thieves have been unusually active in this place the past week, and several residents have suffered the loss of their morning milk.

—Mr. John Morgan of Cook street sails this week on the Steamer Canada of the Dominion line for England. He will visit friends in England and Ireland.

—One of the best football games among the amateur clubs in this city is promised for tomorrow afternoon, when the Garden Citys will line up against the Allen school eleven on Morse's field.

—Last Sunday marked one of the largest attendances in the records of the Buelah Baptist Mission. The service, which was conducted by Rev. Mr. Burt of West Newton, was of the most interesting nature.

—Thomas Leo, the 7-year-old son of Patrick H. and Hannah O'Brien, died last Saturday. The funeral was held Monday morning at 23 Adams street, and services followed at the Church of Our Lady at 9 o'clock.

—The Sunday school scholars of the Buelah Baptist Mission will hold a harvest concert in St. Elmo hall, next Sunday afternoon. A fine program is being arranged, the special features of which will be the music, and solo singing.

—Last night at the Nonantum club a large number of members enjoyed an oyster supper, and an informal discussion of the proposed city charter. The occasion marked the first in the series of winter entertainments, which have been provided by the executive committee. The principal speakers of the evening were Mr. William Jenks and Dr. Stearns.

—A horse, attached to a democrat wagon left standing in front of a house on West street, Tuesday morning, became suddenly frightened and ran away. A three-year old child was sitting on the seat, but when the horse started was thrown violently to the rear of the wagon. The animal dashed down West to Watertown street at a furious speed, but the little occupant of the vehicle managed to sustain his hold on the back of the wagon. Soon the horse was brought to a stop on Pearl street, and the child rescued from his perilous position. No one was injured, and the carriage was but slightly damaged.

—Two cases of illegal transportation and one of maintaining a liquor nuisance were brought before Judge Blaney in the police court Saturday morning. Mary Travis was charged with maintaining a nuisance by Officer Davis, pleaded guilty, and was placed on probation. Michael Roche, an expressman, was charged by Officer O'Halloran, with violating the "Fast" transportation law, and Giuseppe Cataldo with illegal soliciting. They were found guilty and were fined \$50 each. Santo Chairamonte and Seire Scipione, Boston expressmen, were charged by Officer Davis with violating the transportation law, and their case was continued.

## BOSTON AMUSEMENTS.

BOSTON THEATRE.—Miss Fanny Davenport, it must be acknowledged, is assuming tremendous risks and attacking obstacles of the most formidable character, when she is attempting to build up an elaborate and costly production simply from the manuscript of a playwright. Miss Davenport for years has made the closest study of every detail connected with the stage, before and behind the footlights. She is first, last and always a worker, and no one associated with her labors harder than she does herself, but always in the best of temper, which fact makes her such a great favorite with those who have been associated with her in any of her companies. She is not "a terror at rehearsals," but, of course, she believes in discipline and in thorough compliance with her ideas as a stage manager, which is her right when she has as much at stake. The company engaged for the season includes such thoroughly capable people as Melbourne MacDowell, Charles Barron, J. M. Colville, MacDowell, Albert Gran, Mrs. C. G. Jones, Henry Jewett, Frank Cannell, Sr., Louis Hendricks, Chas. W. Stokes, Ellis Rice, Albert Lang and many others. In this list will be noticed the names of stage people of particularly close attachment to Boston's theatrical history and this fact alone will lend particular interest to this production. The piece has many musical and spectacular features, the greater part of the former to be participated in by Alexander Haig, W. W. Furst and Miss Margaret McNulty, and with its beautiful scenery and sumptuous costumes bids fair to be one of the greatest theatrical attractions ever presented for the approval of a Boston audience. The opening is set for Tuesday evening, Oct. 19.

TREMONT THEATRE.—Boston theatre goers are to have Dewolf Hopper and "El Capitán" again. Sousa's and Klein's famous opera will again be presented in Boston on next Monday evening, and every evening throughout the week at the Tremont Theatre. As a successful repeater, "El Capitán" has proven beyond peradventure, its very attractive qualities, for upon the return engagements of the opera in New York, Brooklyn, Boston, Detroit and other large cities, it was given a warmer welcome and the results of each return engagement in a monetary sense, was even greater than its initial presentation. The comedian's first season in "El Capitán" was a remarkably prosperous one. In the first place, Hopper as a comedian, and Sousa as a popular composer, are great favorites everywhere, yet their popularity would not be potent enough to attract large audiences were it not that "El Capitán" was an unusually melodious and attractive comic opera, and the company presenting it, one of unusual excellence. The identical cast of principals that interpreted the beauties of the opera at the Tremont Theatre during the holiday season last winter, as well as the large class of fifty voices will again be in evidence. The opera will be presented on a scale of augmented splendor, if such a thing is possible, as the series of superb stage settings, which were so greatly admired by the theatre goers of Boston and vicinity last season, have been freshly repainted, while to the brilliant display of costumes have been added elaborate gowns and dresses for each one of the principals, as well as the more prominent members of the chorus. Contrary to the usual rule of this organization, the Wednesday matinees, during the engagement, which is for two weeks only, will be included, and during the comedian's forthcoming engagement at the Tremont, a mid-week, as well as a Saturday afternoon matinee of the opera will be given.

Diseases often lurk in the blood before they openly manifest themselves. Therefore keep the blood pure with Hood's Sarsaparilla.

## Literary Notes.

Mr. Robert W. Chambers has published no book of fiction for some time, and his forthcoming volume, "The Mystery of Choices," will be looked for with interest by the many readers of this brilliant and imaginative young American author. The Appletons are to publish the book.

The title of Sarah Grand's forthcoming novel is derived from the name of her heroine. The Beth Book is the story of Elizabeth, a child who develops into a woman of genius. This is the first novel which the author has written since "The Heavenly Twins." It is to be published in America by D. Appleton and Company in November.

The well-known scholar, Dr. Edward Dowden, is the author of the important volume on French Literature, which is to appear shortly in Appleton's Literatures of the World Series.

## ANTIQUE OF THE ROSE.

Over One Thousand Species of the Wild Flower Known to Botanists.

The antiquity of the rose is so great that all account of its origin has been lost. It is not mentioned in the Biblical writings, earlier than the reign of Solomon, but the allusion to it then made is such as to indicate that the flower had already long been known, for the essence of roses was extensively used in Jerusalem and Judea during the reign of the luxurious and much married king. In Egypt the rose is depicted on a number of very early monuments, believed to date from 3000 to 3500 B. C., and in the tomb of an Egyptian princess, disinterred a year ago in southern Egypt, several hermetically sealed vials were found which when opened contained genuine attar of roses, so that the modern claims for the discovery of this delicious perfume are vain.

Rose water, or the essence of roses, is mentioned by Homer in the "Iliad." Homer and Solomon were nearly contemporaries. Both the Greeks and Hebrews probably borrowed the idea of its manufacture from the Egyptians, and these, for aught anyone can tell, may have had it from the Indians or from the Chinese, for the latter claim for each of their discoveries and inventions a most marvelous, not to say incredible, antiquity. The rose is one of those flowers which by the people so well known as to need no description, and hardly mention, for it is a singular fact that every continent on the globe, with the solitary exception of Australia, produces wild roses. Even the frozen regions of the north, where the summer lasts but two or three months and is at best a season which may be described as very late in the fall, produce their wild roses, and travelers through Greenland, Kamchatka and northern Siberia find in the deeper season an abundance of blossoms, while the crews of whaling vessels which call at Spitzbergen come off shore with bouquets of the native Spitzbergen rose. All wild roses are not of the same kind, for there are over 1,000 species of the wild rose known to botanists, and the varieties are innumerable.—St. Louis Globe-Democrat.

## CLAY'S GREAT VALEDICTORY.

All Who Heard His Pathetic Farewell to the Senate Shed Tears.

John F. Coyle writes of Henry Clay's farewell to the senate in The Ladies' Home Journal, regarding it as the most dramatic event ever witnessed in the United States senate. Although from the opening words of the famous valedictory the vast assemblage of people were in tears, and the "great commoner" was frequently interrupted by the sobs of his auditors. "The scene was indeed impressive as Mr. Clay pronounced the concluding words of his farewell to public life," says Mr. Coyle. "He stood for a moment after in reverential attitude, while all about him strong men, swayed by the magnetic power of the great orator, wept in silence. The hushed suspense of intense feeling and attention pervaded the crowded assemblage as the famous statesman, with lowering eyes, resumed his seat. For several moments the silence was unbroken. Senators sat as if in the shadow of some impending calamity. Men of all parties seemed equally overcome by the pathos and majesty of the great statesman's farewell."

As Mr. Clay rose to leave the chamber after adjournment, which directly followed his address, and after he had said farewell to all the other senators, he encountered Mr. Calhoun. The eyes of the whole assemblage were fixed on these two old friends and old political antagonists. There was a pause in the demonstration which awaited Mr. Clay. The moment of suspended anticipation was almost painful. For five years they had been estranged, and the only words which had passed between them had been those harshly spoken in the senate chamber. They remembered only the political companionship of 20 years' standing. The intervening differences which had chilled their hearts toward each other were forgotten. Tears sprang to their eyes. They shook each other cordially by the hand, interchanged a "God bless you!" and parted. The released suspense which awaited this tearful scene found vent in shouts and cheers, which were taken up by the crowds outside the senate chamber, expecting Mr. Clay's appearance. He was surrounded by the waiting thousands on his way to his carriage, and throngs followed him even to his hotel.

## Not Identified.

When Lady Burton was traveling alone in Brazil, after three months roughing it in the interior she arrived at Rio Janeiro in a night which might excuse any one for not recognizing her. Her boots were in shreds, her dress in shreds, her hat in ribbons, and her face, much swollen by exposure, was of a reddish mahogany hue.

On arriving she was told that the Estran geros hotel, where she had left her maid and luggage, was full, and so she went to the next best house in town. The landlord, seeing before him only a ragged woman, pointed across the road to a little tavern where sailors' wives were wont to lodge.

"My good woman," said he, "I think that will be about your place. Not here."

"Well," she responded, "I think I shall stay here all the same."

Very much amazed, he showed her an attic room, but she would have none of it and insisted on engaging one of his best rooms. Entering it, she said: "Now be kind enough to send this letter for me to the Estrangeiros."

In reply to the letter came the maid, a most imposing functionary, with the luggage and letters. After a bath and a change of garments Lady Burton rang the bell to order supper, and the landlord himself appeared.

"Did that woman come to take apartments for you, madam?" he asked humbly. "I beg your pardon. I am afraid I was rude to her."

"I am that woman," returned Lady Burton, smiling. "But you need not apologize, for I saw myself in the glass, and I do not wonder at your suspicions."—Youth's Companion.

## A Rural Love Story.

"Yes," said the village gossip, "John wuz always a pesterin' of Sue about marryin' of him, an' she'd done told him 'No' more times 'I could tell you."

"You don't say?"

"Hit's true as preachin'. Well, you know John carries the mail?"

"Yes, I've heard tell he does."

"An las' Wednesday wuz a week Sue wuz a-travelin' long with him, goin' ter town, when John ups an says ef she didn't make up ter marry him he'd make the boss run down hill till all three of 'em wuz drowned in the bottom er the river."

"Do tell!"

"That's what! But what do you reckon Sue did?"

"Lord knows!"

"Caught John by the collar, jerked him outen the buggy, grabbed up a live rattlesnake what wuz a-sleepin' by the roadside an' lambasted John with it till he couldn't stand."

"Laws a-massy!"

"Then she stomped the snake ter death, an' John he took ter his bed, whar he laid fer two weeks, an' Sue got sorry fer him an' nussed him an' killed a beef ter make stew fer him, an' now what do you reckon?"

"I dunno!"

"She's a-goin' ter marry him!"—Atlanta Constitution.

## An Oxford Scholar.

Mr. Geoffrey Dawling stumbled into my room with awkward movements and an equivocal sound, a long, lean, confused, confusing young man, with a bad complexion and large, protrusive teeth. He bore, in its most indelible pressure, the postmark, as it were, of Oxford, and as soon as he opened his mouth I perceived in addition to a remarkable revelation of gums that the text of the queer communication was in a rapid and enervated quaver, made him scarcely intelligible. He was full of refinements and angles of dreary and distinguished knowledge. Of his unconscious drollery his dress freely partook. It seemed, from the gold ring into which his red necktie was passed to the square toe caps of his boots, to conform with a high sense of modernness to the fashion before the last. There were moments when his overdone urbanity, all suggestive stammer and interrogative quaver, made him scarcely intelligible. I felt him to be a gentleman, and I liked the honesty of his errand and the expression of his good, green eyes.—Henry James' "Glasses."

—Yesterday morning in Bray's small hall a very interesting lecture was given by Mrs. Maria Daniel of New York city on "Food supplies and economic buying." The affair was under the auspices of the Newton Centre Woman's club, and called out a large patronage. Mrs. Daniel's remarks pertained to the buying, preparing, and cooking of inexpensive cuts of meat. Many of the points were demonstrated by practical illustrations.  
—The friends of Julius Peterson in Newton Highlands are willing, it is said, to place him against Whiting of this place again on the Waltham track, two weeks from Saturday. They claim he had overtrained last Monday, thereby losing the race to Whiting. These same wheelmen are anxious to match three of their "flyers" against three members of the Circuit Bicycle Club in an invited club race to be held also on the Waltham track.  
—Quite a number of enthusiastic wheelmen gathered on the playground Monday afternoon to witness the unlimited pursuit race between Julius Peterson of Newton Upper Falls and Eugene Whiting of this ward. Both men are well known as local flyers, and have established creditable records in road racing. The match Monday was one of the best that has ever been held on the playground track. Whiting followed his man in great style, and overtook him in 21 and 1-2 minutes. It was not until he had gone 7 and 1-4 miles, however, by this time both riders had begun to show

signs of wear. Albert Mills was starter and Reuben Rutledge referee.

—Mr. Geo. H. Doane, a friend of Mr. Wm. F. Woodman, and well-known here, shot himself by accident a few days ago at his home in Duxbury, Mass., dying in half an hour.  
—Prof. George Bullen is at New Sharon, Me., attending the funeral of his brother-in-law, Dr. Charles Alexander, who died in Wisconsin, where he had been in the practice of medicine for many years.  
—Charles Ward of Ward street reported to Newton police headquarters that during his absence Tuesday night burglars entered his residence and secured considerable property, the exact amount of which is not yet known.  
—On Monday evening, Oct. 18th, the Oxford Musical Club of Boston, assisted by Miss Carolyn Faye, reader, will give an entertainment in Denison hall, Newtonville, under the auspices of Newton Lodge, Knights of Pythias. The club has been well received in this city in the past, and to those who have heard it needs no word of recommendation.  
—The Newton Centre Golf Club has added two very creditable matches to its long list of victories, within the past week. Last Friday afternoon the second in a series of intermatches with the Newton Golf Club was played on the Institution hill links, and resulted in a victory for the home club. The playing of both teams quite excelled the usual high standard, and was watched with interest by members and their guests. The score:

—Mrs. H. W. Taylor, whose house is now occupied by Pres. McCallan of a western college, for the winter season, has gone away for a while, for a visit among friends.  
—The Church Aid Society connected with the Congregational church held a meeting in the chapel on Wednesday evening, Oct. 14th, for a missionary family in the state of Washington, and will soon send a barrel of clothing, etc.  
—Mrs. Sennott, the wife of H. H. Sennott, who was one of the letter-carriers at the Highlands, and who resigned his position, and left for parts unknown, leaving his family in destitute circumstances, has now an addition to the family by the birth of a son.  
—Mr. William Peters, formerly a resident at the Highlands, and for several years at the Philippine Islands, for the past year has been a resident of Denver, Col., where his death occurred of consumption. The funeral service took place at Mt. Auburn chapel on Thursday. Rev. Mr. Phillips officiated.  
—On Monday evening, Oct. 18th, the Oxford Musical Club of Boston, assisted by Miss Carolyn Faye, reader, will give an entertainment in Denison hall, Newtonville, under the auspices of Newton Lodge, Knights of Pythias. This Club has been well received in this city in the past, and to those who have heard it needs no words of recommendation.  
—A very pretty home wedding occurred on Wednesday, Oct. 6th, at the home of Mr. J. F. Munroe of Dedham street. The contracting parties were Miss Blanche Clark of Brookline and Mr. Geo. W. Munroe of Boston. The ceremony was performed by Rev. G. G. Phillips in the presence of a large number of guests from Brookline, Boston, Natick and Newton. A number of elegant and useful presents were received. Mr. Irving Munroe, the brother of the groom, was best man, and Miss Mulock of Brookline was bridesmaid. The bridal party stood under a floral bell, which was hung from an arch made of autumn leaves and asparagus vines. The bride wore white organdie. Music was furnished by an orchestra. After a short wedding trip the bride and groom will

make their home at Brookline for the winter.  
—Rev. Charles E. Havens is in New Haven this week attending the annual meeting of the American Board.  
—The Christian Endeavor Society held their regular social at the Congregational chapel on Wednesday evening, and there was a good attendance. Light refreshments were served.  
—WABAN.  
—H. E. Buckley of Waban school is at his home in Cleveland, O.  
—Fifteen names were added to the voting list here last Friday night.  
—Mrs. W. B. Locke is visiting her son, Mr. Chas. W. Locke at Lowell, this week.  
—Messrs. Knight, Morse and Locke have returned from their gunning trip down on the Cape.  
—Mr. and Mrs. B. S. Cloutman and Miss Hattie Severance are stopping at the Waldorf in New York.  
—Mrs. A. W. Vose, who had her bicycle stolen one night last week while at Newtonville, has recovered it.  
—Mr. M. H. Morse, who has been visiting at Mr. F. A. Childs', returned to his home in Greenfield last Friday.  
—Mr. Raymond's little boy Marshall, had a second operation performed on his leg last week, but is now improving.  
—Mr. and Mrs. C. B. McGee have returned from Greenfield, where they were the guests of Mr. McGee's brother.  
—Mr. and Mrs. R. H. White have returned from their camp at Sharon, where they have been the past four weeks.  
—A lot of land between Woodward and Chestnut streets on Pine Ridge road has been sold to Mr. Conant of Brookline for building purposes.  
—Last Sunday was Harvest Sunday at the Church of the Good Shepherd, and the pulpit was beautifully decorated in overhanging grape vines and grapes.  
—Letters unclaimed in the postoffice: Mrs. J. M. Ramsdell, Agnes Kenney, James A. Colt, Sadie Daley, H. H. Hawkins, Johanna Olsen, Thos. Flynn, Mrs. I. W. Crowley, Mrs. M. Waterfield.  
—Waban Hall was crowded last Saturday evening at the Harvest Festival, given by the ladies of the church. A good supper was provided and enjoyed, after which Mr. Cloutman auctioned off what was left. There were musical selections during the evening by the local artists, and dancing by the young people closed the evening's entertainment. Quite a neat sum was realized. The hall was nicely decorated and some very large pumpkins were on exhibition.

NEWTON UPPER FALLS.  
—The pastor of the Baptist church will give an address on "John the Baptist," Sunday evening.  
—Iolanthe, Oct. 28, 29, and Saturday afternoon matinee for children, Oct. 30, new Temple Hall, Newtonville.  
—NEWTON IS READY FOR YALE.  
THE BLUE TEAM ARRIVES TONIGHT—A DINNER TOMORROW—HEFFELFINGER HERE.

Yale men are taking great interest in the game to be played by their team against the Newton Club team at Newton tomorrow. The Yale team, with substitutes and coaches, will arrive about 10 this evening by special car, arrangements having been made with the Boston & Albany railroad to leave their car at Auburnville. They will be quartered at the Woodland Park Hotel, where they will remain until Sunday evening.  
The Newton Club will tender the Yale players and their friends a complimentary dinner at its clubhouse at 6 o'clock, Saturday, directly after the game. Some 300 of the leading Yale alumni of Massachusetts have accepted invitations to this dinner, which will be unique from the fact that it will be a "training dinner," the bill of fare having been made up by Manager Twelfth of the Yale team, and the distinguished sons of old Yale will for once, at least, have to come down to plain food.  
Judge Howland, of New York, one of the most distinguished graduates of Yale, is in Boston and will attend the game and the dinner. Walter Heffelfinger, Yale's famous old guard, has arrived to witness the game. He is accompanied by Maj. Heffelfinger, his father.  
There are all kinds of predictions as to the probable outcome of this game. It will be a contest between a well-trained team on one side, and an aggregation of stars on the other. The general opinion seems to be that Yale will win by a small score.

NEWTON CLUB.  
More than 200 members were present at the monthly whist night of the club last Saturday evening. Progressive whist was played at 20 tables, arranged in the assembly hall. The prizes were awarded as follows: W. H. Barker and G. T. Coppins of the C. H. Potter and E. A. Ellis second, E. P. Wilson and E. S. Merchant third.  
The Newton club was represented in full meeting of New England Whist Association held at the American House, Boston, last week.  
A meeting of the club will be held Saturday, at 8 p. m., for the purpose of selecting a committee to nominate officers to be voted for at the next annual meeting.  
When Yale Comes to Newton.  
The team of the Newton club is an "all-star aggregation," but what kind of an exhibition it will give against a team like Yale, that has already perfected its team plays, remains to be seen.

NEWTON.  
ing towns and cities, several coming from Boston.  
—Jacob J. Storer of Maple street has been granted a pension.  
—The annual meeting of the Eliot church society will be held this evening.  
—Miss D. V. Stone has returned from her summer vacation, and has taken rooms with Mrs. Daniels, 181 Washington street.  
—Mayor Henry E. Cobb was elected yesterday one of the auditors of the American Board of Foreign Missions, at the session in New Haven.  
—The Channing Union will hold a special service next Sunday evening, at 7:30, in the chapel of the Channing church. Rev. Thomas Van Ness, president of the National Young People's Religious Union, will speak on the work of the union, and it is hoped that there will be a large attendance. All young people are cordially invited.  
—The school board, Monday evening, opened an evening drawing school in the old Jackson school building at Newtonville, and an evening school in the old Claffin building at Newtonville. The attendance at both schools was larger than ever before, especially in the regular evening school, where more than 60 pupils were enrolled.  
—Miss Ethel Louise Fuller, daughter of the late Granville A. Fuller, was married Tuesday evening, at her home in Brighton, to Mr. Harold Union True. Mrs. Herbert A. Fuller of Newton and Mrs. W. S. Fuller were the bridesmaids, and the bride's brothers were the ushers. A reception followed the ceremony, at which some 400 guests were present.  
—The handsome cat that has presided over Mr. Atkins store for so many years, had to be chloroformed this week, to put it to sleep, as it is thought to have been poisoned. It was probably the largest cat in Newton, and was quite a feature of the store, and took the petting of strangers in a very dignified way. It is supposed to have been 11 years old.  
—The annual meeting of the Epworth League of the Methodist church was held Monday evening. These officers were chosen to serve the coming year: Fred Sites, pres.; D. F. Barber, 1st vice pres.; Miss Kate Stevenson, 2d vice pres.; Mr. George W. Vose, 3d vice pres.; Mr. Albert Thompson, 4th vice pres.; Miss Helen Eager, sec'y; Mrs. Ada Davidson, treas.

—Mr. Mague expects to finish the new double street railway tracks next Tuesday night. They will be laid down Washington street to the West End tracks. There are five street rollers now working on Washington street, and the new road bed is about completed above Newtonville. They will next week begin work this side of Walnut street, and it looks as though the work would be completed within a few weeks.  
—The dedicatory services at the new Methodist church will be as follows: This evening at 7:30, consecration service, to be addressed by former pastors of the church. Rev. Dillon Bronson will preach the dedicatory sermon, next Sunday, at 10:30 a. m., and Bishop Foster and Presiding Elder Eaton will assist in the service. At 3 p. m., a fellowship service will be held, at which different local pastors will make addresses. At 7:30 p. m. Rev. Dr. L. T. Townsend will preach.

—Daniel McKinnon, 19 years old, of 114 Boyd street, met with a peculiar and possibly fatal accident, Wednesday afternoon, by falling through a greenhouse roof on Kendrick street. The class cutting his throat almost from ear to ear, as well as inflicting deep cuts on the head, face, body and hands. McKinnon was employed by W. H. Elliot, a florist. The greenhouse is situated on the side of a hill, from which one can step upon the roof, and this is what McKinnon did. He plunged through the glass roof into the space below, and was taken out from the shrubbery, bleeding from many wounds. He was attended by a physician and later taken to the Boston City Hospital.

—At the consecration service in the new Methodist church, this evening, there will be special music and addresses by Rev. A. A. Wright, D. D., Rev. Frederic Woods, D. D., Rev. W. E. Huntington, Ph. D., Rev. Samuel Jackson, Rev. J. B. Gould, Ph. D., and Rev. J. M. Leonard. Sunday morning Prof. H. G. Mitchell, Rev. Charles Parkhurst, Rev. Charles W. Rishell, Bishop Foster, Rev. W. L. Clark and Pres. Elder Eaton will be present. Sunday evening Rev. L. T. Townsend will preach, and Rev. Geo. K. Morris and Rev. J. W. Lindsay will assist in the services.

—The removal of the Washington street temporary bridge across the railroad causes great inconvenience to so many people that the removal of the temporary structure. It is said that Centre street bridge will be closed next and that before the Centre place bridge is built, so that people will have to go way round by Richardson street. As the Centre place bridge will be closed, it is difficult to see why this is not built before the Centre street bridge is taken away, and if proper representations were made to the company by some one representing the citizens, probably this could be brought about. Some one certainly ought to look after the convenience of Newton people in this matter, and it would not be a very expensive matter to put up a temporary bridge at Centre place, if the permanent bridge can not be got ready in time.

—The organ recital at the new Methodist church, last evening, called out a large audience that nearly filled the handsome new church, and the cheer and song, with its decorations of cream and white, was much admired, and it made a fine contrast to the dark oak woodwork in the chancel and the pews and doors. The new organ was exhibited by a number of the organists, and the test was very satisfactory, the organ being remarkable for its sweetness, purity of tone, and the ease with which it responds to the touch of the player. The volume is also satisfactory, and the sound is to be congratulated on having one of the finest of church organs. The organists were Mr. B. Franklin Young, of the Church of the Good Shepherd, Boston, who gave the "Sanctus" from St. Cecilia Mass, and a Cradle Song, and also closed the concert with Read's Offertory in A, and Dubois' "March of the Magi Kings," which displayed the fine qualities of the organ in magnificent style. Miss Warren, the organist of the church, played Guilmant's "Elevation" in a very sympathetic manner, and Mr. J. Eliot Trowbridge gave two excellent improvisations on familiar hymns and choruses. Mr. W. J. Howell, organist of the First Church, gave Raff's Cavatina, and Liszt's Rakoczy March, two stirring numbers that showed of what the organ was capable. In addition to the organ music, Master Henry Donlan gave two songs, which were heartily enjoyed, and Miss Potwin gave some violin solos, accompanied by Mr. Stanton on the piano. Miss Potwin is a very talented musician, and played with great skill and feeling, and was given a hearty encore. The audience comprised people from all the churches, and a large number of musical people were present, all of whom gave hearty praise to the fine organ.

He was about twenty years of age, but late in the evening was taken ill and died before the doctor could arrive. Mr. Gavin was the owner of the Newton Coal Company, and was known to many Newton people. He had resided in Watertown for some forty years, and by his own industry and enterprise he had built up a large business and was one of the prominent and wealthy men of that town. He had held several offices in the town and was a power in local politics. He was a stockholder in the Union Market National Bank, and in the Watertown Water Company, and also proprietor of the Plymouth foundry. His last public service was on the committee which had charge of the widening of Mt. Auburn street. He leaves two sons and two daughters.

—After considering all sides of the question Mr. Sterling Elliott, ex-president of the L. A. W., has decided to place himself in the hands of his friends and run for the chief consuls of the Massachusetts division. The regular ticket, submitted by the nominating committee, has been the subject of considerable study by the opponents of the side in power, and a silent campaign has been waged during the past two weeks. Everybody who knew anything of what is going on in L. A. W. politics knew that Mr. Elliott would be the opponent of Geo. W. Dornette, the regular nominee for chief consul, but it was not given out officially until Saturday that he would run. Mr. Elliott is in the field, and as he is a hustler when it comes to real hard work, a lively campaign may be looked for from now on. About a dozen independent names have been added to the list of representatives, among them being Joseph M. Bassett, H. E. Ducker, Albert S. Parsons, Geo. W. Bull, E. P. Burroughs, C. E. Fay, J. W.

—Mr. Henry W. Crowell died at his residence on Hunnewell avenue, Sunday morning from dropsy, after an illness of only a few weeks. He had been a resident of Newton for some twenty years, and was widely known as a thoroughly honest and reliable business man. His grain mill on Church street was a well known landmark, but when it was destroyed some years ago, a new mill was built at Newton Highlands, and the office kept at the old location. He had made a great number of friends in Newton, and had built up a very extensive trade, as all dealing with him found that they could trust him thoroughly in the smallest details. Such a reputation is invaluable to a business man, and Mr. Crowell's business was constantly growing. He was born at West Yarmouth and like other young men on the cape went to sea, at the age of 15. He continued a seafaring life until the age of 21, when he had risen to be first mate on board a large American trader, and then he retired and engaged in the grocery business in Somerville, where he remained for 15 years, after which he came to Newton. He was 55 years old and leaves a wife and two sons, the older of whom was engaged in business with him. His mother, aged 89 years, has made her home with him, and his death is a great blow to her, as he was the last of her children. He was a member of the Boston Chamber of Commerce and of the Royal Arcanum. The funeral services were held at his late residence on Wednesday afternoon, at 2 o'clock Rev. Mr. Hornbrooke officiating. There was a large attendance of friends from Newton and other places, and a delegation was present from the Boston Chamber of Commerce. The interment was at

the Newton Cemetery. All the local stores were closed during the funeral services.

—At the close of Dr. Shinn's address before the ministers of Newton last Monday, a unanimous vote was passed asking that it be printed so that it might be read not only by the ministers but by the people of the city, as giving an idea of what the movement for Christian Unity means.

—The first meeting of the Unitarian club this season was held last evening in the parlors of the Channing church. Nearly 50 members and their guests were present. Supper was served at 6:30 o'clock, after which the company adjourned to the lower rooms, and listened to an address on "The Worth of History" delivered by Rev. Mr. Hornbrooke.

—About 6:45 o'clock last Friday evening hose 1 company was called out on a still alarm to extinguish a brush fire on vacant land on Church street. While at the fire the hose wagon horses became suddenly frightened and started to run away. The pole of the wagon collided against a tree, and was broken. The animals were soon brought under control by the driver.

—A donation party will be given for the benefit of the Williston Home for Children on Eliot avenue, West Newton, on Wednesday, Oct. 27th. Gifts of groceries, provisions or fruit will be gratefully received and acknowledged. Refreshments will be served to guests from 3 to 5 and from 8 to 10. Orchestra music and dancing in the evening. Matrons, Mrs. S. W. Holmes, Mrs. M. Pond, Mrs. Cheever Goodwin, Mrs. F. W. Ashcroft.

—A quiet home wedding took place at the residence of Mr. and Mrs. Arthur Neilson, on Bennington street, last Tuesday morning, the occasion being the marriage of their daughter, Miss C. Edith Neilson to Mr. Alonzo E. Yont of Worcester. The ceremony was performed by Rev. Daniel Furber of Newton Centre. A wedding breakfast followed. On the return from their wedding tour Mr. and Mrs. Yont will reside in Worcester, where Mr. Yont is engaged in business.

—The cars are using the new double tracks, but there has been delay with the paving, as the telephone conduit may have to be lowered, and the work has been delayed until the matter is settled. Some swift work was done the first of the week in connecting with the new tracks and taking up the old one, and now that the cars can run on the new tracks people do not so much mind about the delay in the paving, as the street is in a terrible condition anyway, and will be until the highway department can get to work. The macadamizing is nearly done as far down as Harvard street, and a half dozen steam rollers

### Iolanthe.

This popular comic opera has been selected for the opening of Temple Hall, in the new Masonic building, Newtonville, under the management of Mrs. Phillip W. Carter, who has given successfully most of the other Gilbert & Sullivan operas in Newton.

The new hall will be used for the first time, and the audience will have a chance to try its new leather-cushioned chairs, its raised seats, and see a play produced on its fine stage.

It is only one flight up from the street, and there are large coat rooms and ladies' rooms for the comfort of the audience.

The cast of the opera will include Mr. Stutson, who is alone sufficient to make any entertainment successful, Messrs. Burdum, Knapp, Delmon, and Waterhouse, and Misses, Linda Colledge, Josephine Martin, Lucy L. Carter, Davis and Weeks, most of whom have already been successful in amateur performances, and there will be a chorus of 30 well-known singers. Admission is one dollar, and tickets can be secured at the local drug stores. The performances will be Thursday and Friday evenings Oct. 28 and 29, and a matinee will be given Saturday afternoon, Oct. 30, at which children will be admitted for half price, and adults at the usual price.

### A Caution Respecting Fruit Trees.

To the Editor of the Graphic:—

Permit me, through the column of the GRAPHIC, to call the attention of owners of fruit trees in Newton, whether of a few for pleasure, or of orchards for profit, to the danger from the San Jose scale. This is one of the most dangerous of tree pests known, and takes its name from San Jose in California, where it has destroyed large orchards of Peach trees. It has been known in this state for three years. Prof. A. H. Kirkland, in the service of the State Board of Agriculture, has found the scale upon the apple, peach, plum, quince, currant, pear and grape on my place and I have destroyed apple, peach and pear trees which were infested beyond hope of saving. My remaining fruit trees have been sprayed under Prof. Kirkland's supervision with a strong solution of whale oil soap, which is a sure contact insecticide. The scale is an almost microscopic insect and gives a grey appearance to the bark where it is. It requires three or four years for the pest to kill a tree, but it will practically destroy its powers in one season. The scale is particularly likely to infest fruit trees, but is found on other shrubs also.

### The Goddard Congress.

A series of popular addresses by noted speaker will be given at the Universalist church, Newtonville, to which admission will be free. The speakers include, Mr. Edwin D. Mead of Boston, Monday evening, Oct. 25, "Lessons of Old South Meeting House." Prof. A. E. Delbeare of Tufts College, Nov. 8, "The Future of Electricity." Mr. William Lloyd Garrison, Nov. 22, "The Fundamental Social Problem." Dec. 18, Secretary of State Olm of Boston; Dec. 27, Mr. Edwin F. Kimball of Dorchester, "The Human Eye." Jan. 3, Mr. Darius Cobb of Boston, "Higher Lessons of Art and Nature." These lectures will be of interest to people all over the city, and all are invited to attend. A silver collection will be taken to defray expenses.

### Removal.

Dr. Webber has removed to 463 Centre street, opposite Eliot church, where he may be found after Oct. 1. Until Oct. 1, messages may be sent to Hubbard's drug store. Telephone 253-3.

## CITY GOVERNMENT.

**MEETING OF THE UPPER BRANCH MONDAY EVENING**—SEVERAL HEARINGS AND PETITIONS CONSUME A LARGE PORTION OF THE TIME—MEMBERS OF THE POLICE DEPARTMENT ASK TO HAVE THEIR SALARY INCREASED—HIGHWAY COMMITTEE RECOMMEND APPROPRIATION OF \$1500 FOR PLANS TO ELIMINATE GRADE CROSSINGS OF THE SOUTH SIDE—ORDER TO THIS EFFECT ADOPTED—\$6000 TO COMPLETE WORK OF WIDENING AND LAND DAMAGES OF PARK AND TREMONT STREETS.

The first steps toward the elimination of grade crossings on the south side were taken by the board of aldermen at their regular meeting, Monday evening, when it was voted to expend \$1500 for plans and surveys, and authorize the city engineer to consider the matter and report as to the best methods of procedure.

There were other matters of less importance, and the board was in session two hours and a half. The board convened at 8 o'clock, Mayor Cobb presiding, and Alderman Allen being the only absentee.

## HEARINGS.

The first hearing was on the petition of residents of a street formerly known as Waban Hill road, but now as Waban Hill terrace, according to published maps. They asked to have the name of Waban Hill road restored, as the change had made it detrimental to disposing of real estate bordering on this highway. Mr. Wm. M. Noble appeared in behalf of the petitioners. He related the history of the affair, and with the aid of charts, described the locality in which the streets are situated.

It seems that land was sold to the petitioners, some years ago on Waban Hill road, and that the deed specified the street as such. Within the past year other real estate owners in that vicinity have chosen to name their street Waban Hill road, and give the first thoroughfare the less dignified name of Waban Hill terrace. Both of these are unaccepted streets. The change has also appeared on the city engineer's charts and on published maps of Newton. Several of the petitioners explained their feelings on the matter, and expressed themselves as anxious to have the matter adjusted according to their petition.

There was no remonstrance, and the hearing was closed.

The telephone company's petition for a location on Griffin and Lake avenues came up for a hearing. A remonstrance was read by Mayor Cobb from H. G. Rhue.

Mr. Allen for the telephone company explained that locations on these streets were necessary for the continuance of the service in that locality. The company had found it necessary at present to make temporary locations through private property.

On the hearing of the telephone company's petition to remove poles on Commonwealth avenue, between South and Lake streets, no one appeared, and the hearing was closed.

A hearing was opened on the petition of the Newton Club for permission to maintain a 40 horse-power engine on its property on Walnut place.

President Powers spoke briefly of the plans of the club. It was intended to light and heat the clubhouse with the new plant, he said, which would be so placed that it would not annoy neighbors or cause any dissatisfaction.

Mr. James W. French said the plant would be placed in an excavation near the clubhouse, and on its grounds. It would not be necessary for the apparatus to come any height above ground, unless a foot or so, the height of an ordinary bulkhead. If there was any annoyance it would be as great to the club members as those living in the vicinity. The sound of the engine, vibration or noise, if it was thought that any would be caused by the new plant, the apparatus would not be put in.

Dr. Blodgett was opposed to the location of the plant, if it would cause any noise or continual humming. This would be very annoying at night.

A representative of Mrs. S. L. Crocker spoke also in remonstrance, and was opposed to the engine if it would in any way depreciate the value of real estate.

Mr. French explained further that the club originally intended to place the new engine in the clubhouse, but in the basement there was not sufficient room. The engine could be run in such a manner that it would make it absolutely noiseless, and not cause any annoyance.

The hearing was closed.

## COMMUNICATIONS AND HEARINGS.

Wellington Howes and Benjamin K. Brown were appointed election officers. The appointments were laid over for one week.

A communication from the town of Weston showed that John Purcell and Charles Tainter of this city had been appointed special officers in that place.

Claxton M. Bray, Institution avenue, George Angier, Waban park, E. R. Spauld, Sumner street, and W. B. McMullen, Lincoln street, were drawn as traverse jurors. The reading of the journal was dispensed with on motion of Alderman Bailey.

Two papers were received and acted upon in concurrence with the common council.

The sixth class liquor license of W. C. Gaudet was ordered transferred.

Residents of Nevada and Churchill streets asked to have both streets drained, and put in proper space for public travel. Highway committee referred.

The telephone company petitioned for right to erect poles on Elgin street and Glen avenue. Hearing ordered Nov. 24.

A petition from the gas company to erect poles and wires on Marlboro street, was received, and a hearing ordered for Nov. 2.

Phillips street, Auburndale, residents asked to have that street laid out, graded and accepted. Highway committee.

Mrs. S. Boyle petitioned for edgewise on Adams and Middle streets. Highway committee.

Alderman Downs presented a petition signed by 16 patrolmen of the police department, who had served 5 years and over, asking that the amount of their salary be increased to \$3 a day.

Recommending the granting of this request was a second petition signed by a large number of leading citizens, including Dwight Chester, Senator Harwood, E. H. Mason, ex-Mayor Ellison, ex-Mayor Bothfield, ex-Mayor Hubbard, D. R. Emerson, James French, S. L. Powers.

Both communications were referred to the police committee for consideration.

The petition of E. R. Dorhan, for right to erect a small building on vacant land on Adams street, was the cause of a breezy discussion.

Alderman White was not in favor, he said, of granting petitions of this kind unless they were in the interests of the city. Alderman Downs explained that the building was a temporary structure, and would be built on posts. The petitioner was a cripple, who was very anxious to open a small store for the purpose of making a living. He could see no objection.

Alderman Bailey was in favor of granting the petition. The houses of Nonantum, which had caused so much discussion were not to be compared as a parallel case to the erection of the building represented in this petition would not be crowding any thickly settled locality. On the contrary

it would be some distance from any other building.

Alderman Downs referred to the building of the Commonwealth Avenue Street Railway at the junction of the boulevard and Walnut street. He thought that the board should be consistent, and grant the petition of a poor man as well as a corporation. The building would be just as good in proportion to the size of it.

Alderman White said he did not understand from the first description of it, that it would be such a fine affair. The building is very well adapted to the purpose for which it is used, and might well be taken as a model by the West End for their station at the line between Newton and Boston. The building in question will be consistent with the other buildings on Adams street.

Alderman Knowlton was opposed to granting the permit. He thought that the board should be given the right of constructing these wooden buildings that a large number of petitions would be received. Such a thing should not be encouraged.

A vote was called for, and the petition granted by four yeas, against two nays.

The Newton & Boston Street Railway petitioned for a sewer in Homer street, from Walnut street to Cemetery avenue. Sewer committee.

Joseph Lingard was granted a renewal of his express license.

Mrs. Barry was granted permission to conduct an intelligence office.

R. Bingham asked to be allowed three pool and one billiard tables at Newton Centre. Granted.

Bacon and others were granted permission to remove a building from Peabody to east of Pearl street.

The petition of one Stanton for right to stand a night lunch cart in Washington street at the corner of Centre in front of French's block was read.

Alderman Downs expressed himself as not wholly in favor of the petition. The cart had been placed in the square once before, and he had ordered it removed. He thought if it was replaced it would fill the square, and be an inconvenience.

It would also be very dangerous, with so much travel, and especially so in case of fire. The present location was very good, and he thought the young man could support his customers there as well as any other location.

Alderman Roberts favored giving the petitioner an opportunity to conduct business at this stand, as the license could be renewed any time.

The general opinion of the other members was that the lunch-cart would prove an inconvenience, and a menace to public safety, especially in case of fire.

It was voted to grant the petitioner leave to withdraw.

## COMMITTEE REPORTS AND ORDERS.

On recommendation of the highway committee it was voted to appropriate \$1500 for plans and survey of the proposed abolition of grade crossings on the B. & A. on the south side, with instructions to the city engineer to report as to the best methods of procedure.

Alderman Bailey explained that this was the initiatory step toward the elimination of grade crossings on the south side. The petitioners represented the Newton Centre Improvement Society, and a similar organization at Newton Highlands.

It was voted to place street lights on the following thoroughfares: Eastbourne and Westbourne roads, Kaposia, Cheney, Edinboro and Pearl streets, and Oakleigh road.

The highway committee in its report favored the widening of Walnut street, from Bowers street to Newtonville avenue, and ordered a hearing for those interested in the matter to be held Nov. 2.

It was also voted to place two hydrants on Beacon street near the cemetery.

Also to construct sewers on Griffin avenue and Cornell streets.

Also to appropriate \$6000 to meet the expenses for the completion of the widening of Park and Tremont streets.

Authorizing the mayor to execute a quit claim deed releasing to the Boston & Albany a parcel of land on Centre place.

The list of streets to be watered was read, and approved.

The Newtonville & Watertown Street Railway gave notice of a lease of 99 years to the Newton & Boston Street Railway, a practical consolidation of both lines.

It was voted to rescind the assessment of Caroline Spear of \$44.11 for use of sewer.

The gas company was granted permission to locate four poles on Charles street.

Notice of state election Nov. 24, was read.

The board by a rising vote expressed their sincere sympathy for Alderman Allen in his bereavement, and the city clerk was authorized to express the feelings of the board in a letter.

At 10:30 o'clock the board adjourned.

## A Single Tax Illustration.

To the Editor of the Graphic:—

I have often read the 25th verse of the fourth chapter of Mark, and wondered what it could mean. I am happy to state that your issue of 15th inst. has enlightened me by plainly showing it to be an elucidation of the working of the Single Tax.

Your reporter therein shows how the single tax "would encourage and promote industry and do it scientifically." He would then have us suppose four plots of lands lying side by side and each valued at \$1000. The first one is vacant; the second has \$1000 worth of house on it; the third has a house valued at \$2000, and the fourth has a \$3000 house on it. He, furthermore, would have us suppose the rate of taxation to be 1-1-2 per cent. The single tax goes into operation, ground rent is doubled and houses are exempted—in order to "scientifically promote and encourage industry."

His report, "The result is, according to your reporter, 'No. 1, vacant, the owner who is today taxed 1-1-2 per cent, \* \* \* is taxed 3 per cent.'"

"No. 2, \$1000 house: The owner has taken from him, as above, another third of his \$1000 worth of land, but is compensated by the exemption of 1-3 the annual value of his \$1000 worth of house, an even exchange and no robbery."

"No. 3, \$2000 house: The owner, (like No. 1 and No. 2) has taken from him by the added tax one third of \$1000 of land, or \$333-1-3, and has, just as literally, given to him \$666-2-3 of house."

The case of "No. 4, \$3000 of house" is then followed out in like ratio, and it is shown to the initiated, to those who can "see the cat," that for every \$333-1-3 added to the tax of the man, who cannot afford to put up buildings on his land, "there is \$1000 compensation, or three dollars for one" to the man who can afford to build on his lot. Why the example is not carried to its ultimate, showing what "scientific encouragement to industry" it would be to take "three dollars for one" from the poor owner of a bare lot and give it to the millionaire, who could erect a sky scraper on the adjoining lot, is not clear to me. It may have been the fear of a "scientific absurdity." The one thing made quite clear to me was the meaning of, "For he that hath, to him shall be given: and he that hath not, from him shall be taken even that which he hath."

## L. A. W. POLITICS.

STERLING ELLIOTT THE INDEPENDENT CANDIDATE FOR CHIEF CONSUL.

Who is Sterling Elliott? Ask any wheelman in Massachusetts (or in the United States) and he will tell you. He is the most popular wheelman in the old Bay State, and his kindly disposition, sterling integrity and good works have made him so.

Bicycle riders have an organization called the League of American Wheelmen. It has 12,000 members in Massachusetts and 100,000 in the United States.

It elects officers and dispenses patronage. These create politics and politics too often become a curse. Until within a few years the politics of the L. A. W. in Massachusetts have been clean and void of offence.

Today the wheelmen of this state see and feel the reign of the political boss and a political condition that is unwholesome and disgusting.

A grand uprising is taking place all over the state. Men who have never cared for league politics are coming forward to vote for decency and good government. Nearly every past officer in the Massachusetts division is enrolled in the movement. Old timers all down the line of League history are making themselves heard. Bossism and political trickery are bound to be put out of the way.

Naturally every eye is turned to Sterling Elliott to head the movement. Reluctantly he consented to sacrifice his private interests and he will be the candidate of the reform party for Chief Consul of the Massachusetts Division L. A. W.

Mr. Elliott is editor and publisher of the official organ of the League, the L. A. W. Bulletin. He has served two terms as Chief Consul of Massachusetts and one year as President of the L. A. W. He was a candidate for president of the L. A. W. for a second term but he was sold out by Massachusetts men, and the wheelmen of the state suffered the humiliation of seeing men from all parts of the country rally to the support of Mr. Elliott while his own state sold him out for a price which they afterwards received. In the history of the League affairs there has been no record of such a dastardly piece of business as which was enacted at Albany last February.

And now Massachusetts men will have the opportunity to express their opinions at the polls and a very loud and emphatic condemnation of the trade at Albany may be looked for.

Mr. Elliott has always been a pronounced enemy of the "ring," and they know it well. He has worked hard to bring about harmony and to secure the best results by the united action of wheelmen.

His record of service is surpassed by none. Under his administration the League grew and flourished. No administration shows a more healthy growth in point of membership nor a greater number of tangible results. Let the records speak on these points.

Mr. Elliott has been the prime mover in providing for the cyclist about every law that has been put upon the statute books of Massachusetts, and he has been instrumental in forcing every manly attempt at objectionable legislation. Few wheelmen appreciate the fact that obnoxious laws aimed at wheelmen are brought before every session of the legislature and it needs careful and constant watchfulness and sagacity to defeat them. It was wholly due to Mr. Elliott that a reduction in the tariff on all New England railroads for the transportation of bicycles was made from twenty-five cents to ten cents, minimum, and a still further reduction on the longhaul tariff is promised. In New York State wheelmen boast that they have free carriage of bicycles, but it is a well-known fact that they have to tip the baggage men with a quarter. If they want their wheel well taken care of, and they must remove tool bag, cyclistometer and lantern.

The fact that Mr. Elliott is to be a candidate for Chief Consul is hailed with delight all over the state and he will be elected by a tremendous majority.

His interest in bicycling and good roads dates back a score of years, and he has ever been an intelligent counselor and an active, ardent champion of the cause, on any and every occasion. He has been a League member for 12 years and a member of the Massachusetts Board of Officers for 8 years. He was chairman of the National Highway Committee during 1894, and has been a member of the National Assembly since 1890.

A Great Surprise is in Store

for those who will go to-day and get a package of GRAIN-O. It takes the place of coffee at about 1-4 the cost. It is a food drink, full of health, and can be given to the children as well as the adult with delight. It is made of pure grains and looks and tastes like the finest grades of Mocha or Java coffee. It satisfies everyone. A cup of Grain-O is better for the system than a tonic, because its benefit is permanent. What coffee breaks down Grain-O builds up. Ask your grocer for Grain-O. 15c. and 25c.

N. H. S. Notes.

A special meeting of the executive committee of the Intercollegiate Foot Ball League was held Monday evening. Those present were E. Murphy, Boston Latin; W. Warnock, Cambridge High and Latin; E. B. Cole, Hopkinton; Eliot Spaulding and L. S. Clark, of the private members, and R. Sever Hale of the donors. The meeting was called to decide the grounds on which to play the game in the junior championship series between Newton High and Medford High, and that oval was selected. It was impossible to settle on grounds for the Newton High-Somerville High game, as it is not yet known whether the latter team will become a member of the senior league or remain a junior. It was voted to give Mr. Hale the donors' power to act in determining Somerville's eligibility to become a senior.

Mr. Elliott has always been a pronounced enemy of the "ring," and they know it well. He has worked hard to bring about harmony and to secure the best results by the united action of wheelmen.

His record of service is surpassed by none. Under his administration the League grew and flourished. No administration shows a more healthy growth in point of membership nor a greater number of tangible results. Let the records speak on these points.

Mr. Elliott has been the prime mover in providing for the cyclist about every law that has been put upon the statute books of Massachusetts, and he has been instrumental in forcing every manly attempt at objectionable legislation. Few wheelmen appreciate the fact that obnoxious laws aimed at wheelmen are brought before every session of the legislature and it needs careful and constant watchfulness and sagacity to defeat them. It was wholly due to Mr. Elliott that a reduction in the tariff on all New England railroads for the transportation of bicycles was made from twenty-five cents to ten cents, minimum, and a still further reduction on the longhaul tariff is promised. In New York State wheelmen boast that they have free carriage of bicycles, but it is a well-known fact that they have to tip the baggage men with a quarter. If they want their wheel well taken care of, and they must remove tool bag, cyclistometer and lantern.

The fact that Mr. Elliott is to be a candidate for Chief Consul is hailed with delight all over the state and he will be elected by a tremendous majority.

His interest in bicycling and good roads dates back a score of years, and he has ever been an intelligent counselor and an active, ardent champion of the cause, on any and every occasion. He has been a League member for 12 years and a member of the Massachusetts Board of Officers for 8 years. He was chairman of the National Highway Committee during 1894, and has been a member of the National Assembly since 1890.

A special meeting of the executive committee of the Intercollegiate Foot Ball League was held Monday evening. Those present were E. Murphy, Boston Latin; W. Warnock, Cambridge High and Latin; E. B. Cole, Hopkinton; Eliot Spaulding and L. S. Clark, of the private members, and R. Sever Hale of the donors. The meeting was called to decide the grounds on which to play the game in the junior championship series between Newton High and Medford High, and that oval was selected. It was impossible to settle on grounds for the Newton High-Somerville High game, as it is not yet known whether the latter team will become a member of the senior league or remain a junior. It was voted to give Mr. Hale the donors' power to act in determining Somerville's eligibility to become a senior.

## WOMEN DO NOT TELL THE WHOLE TRUTH.

Modest Women Evade Certain Questions When Asked by a Male Physician, but Write Freely to Mrs. Pinkham.

An eminent physician says that "Women are not truthful, they will lie to their physicians." This statement should be qualified; women do tell the truth, but not the whole truth, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To this good woman they can and do give every symptom, so that she really knows more about the true condition of her patients through her correspondence than the physician who personally questions them. Perfect confidence and candor are at once established between Mrs. Pinkham and her patients.

Years ago women had no such recourse. Nowadays a modest woman asks help of a woman who understands women. If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

And the fact that this great boon which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters which are received by her prove. Many such grateful letters as the following are constantly pouring in:

"I was a sufferer from female weakness for about a year and a half. I have tried doctors and patent medicines, but nothing helped me. I underwent the horrors of local treatment, but received no benefit. My ailment was pronounced ulceration of the womb. I suffered from intense pains in the womb and ovaries, and the backache was dreadful. I had leucorrhoea in its worst form. Finally I grew so weak I had to keep my bed. The pains were so hard as to almost cause spasms. When I could endure the pain no longer I was given morphine. My memory grew short, and I gave up all hope of ever getting well. Thus I dragged along. At last I wrote to Mrs. Pinkham for advice. Her answer came promptly. I read carefully her letter, and concluded to try Lydia E. Pinkham's Vegetable Compound. After taking two bottles I felt much better; but after using six bottles I was cured. My friends think my cure almost miraculous. Her noble work is surely a blessing to broken-down women."—GRACE B. ## BENEFITS OF NEW CHARTER.

The two important things to be gained  
by the adoption of the new charter are,  
first, the absolute separation of the execu-  
tive and legislative functions, and second,  
the simplification of the legislative branch.

To gain either one of these desirable  
ends would be good cause for favorable  
action upon a charter embodying but one  
of them, but when both of these essen-  
tials to a better municipal administra-  
tion are within reach, it is clearly shown  
how wisely and carefully the Charter Com-  
mission and the city councils of 1896 and  
1897 have acted in this matter.

Undoubtedly the most serious evils of  
our present form of government is the ir-  
responsible and unwieldy committee con-  
trol of the public work. The mayor is  
called the executive of the city, but it is  
frequently a mere name. To be sure, we  
have had mayors who were able to accom-  
plish much, but it was not because of the  
system under which they worked but  
rather in spite of it.

Instances might be cited almost without  
number, showing how the public has been  
inconvenienced and money wasted be-  
cause of lack of co-operation between  
committees, often in utter disregard of the  
mayor. Take the Highway Committee  
who also serve as highway surveyors. It  
does not take a long memory to go back  
to instances wherein the chairman of  
that committee defied the mayor and yet  
when criticism was made because of waste-  
ful methods or because of neglect of  
needed public work, that some private in-  
terest might be subserved, whom did the  
public blame? Not the committee or its  
chairman certainly, for, as a rule, they are  
unknown factors, but the mayor, whom  
the public think has power greatly be-  
yond that possessed by him under our  
present charter.

No man objects to just criticism, and if  
a man is charged with certain duties and  
it is known by all that he is the responsi-  
ble party, criticism and commendation can  
be clearly placed.

Take another form of committee mis-  
management. The highway committee or-  
ders a street rebuilt.

The work is perhaps hardly completed,  
when the sewer committee or the water  
department tears the street up. It may be  
said that this way of doing work can be  
prevented under the charter of today.  
Yes, it can be but it is not.

But it will be stopped under the pro-  
posed charter, because the mayor will be  
held to a strict accountability, as all execu-  
tion of the mandates or orders of the  
board of aldermen rests solely with him,  
through the several heads of departments.

The process will be something like this:  
The board of aldermen will determine the  
work to be done, will prescribe its method,  
whether by contract or not, and appropriate  
the money therefor.

Committees will exist, as now, but they  
will serve as an aid to the board in prepar-  
ing the legislative work and not in acting  
as executive arms of the service.

A petition for the construction of a  
street, for instance, will be referred by the  
board to its committee on streets. This  
committee will examine into the matter  
and report to the board. If a favorable re-  
port is made and the board adopts it, the  
work is ordered done and the money ap-  
propriated. Here the responsibility of the  
board and its committee ceases.

If the mayor disapproves of the matter  
he has the veto power, which can be over-  
ridden by a two thirds vote of the board,  
but the carrying on of the work in all its  
details rests with him. Of course he will  
hold the street commissioner to a strict re-  
sponsibility, for under this official is placed  
all street work, the digging up for sewers  
and drains, as well as the building of the  
roadway. If the work does not progress  
satisfactorily the board of aldermen will  
hold the mayor to an accounting or ex-  
planation. And so all through the several  
lines of municipal work, the board of alder-  
men determines the work to be done and  
the sum to be expended and the mayor is  
to carry out its desires.

Two things are gained here,—the direct  
responsibility is placed and the unpaid  
members of the board of aldermen are re-  
lieved of all the burdensome and annoying  
detail work now devolving on the members  
of the committees. As a result of this, it  
will not be so difficult to secure the service  
of men hitherto unwilling to serve as alder-  
men.

The practical application of the new  
order is seen on every hand in the manage-  
ment of corporations and large business  
enterprises. First, there is the board of  
directors, which outlines the general policy  
to be pursued and controls the purse-  
strings; then there is the president or  
treasurer who acts as the agent of the  
board of directors in attending to all the

details consequent upon the execution of  
its policy.

So, in our city, there will be the board of  
aldermen, acting as directors or trustees of  
a vast business enterprise, and the mayor,  
who will have the duties and responsibil-  
ities of the president of the corporation.  
Is it not a sensible and simple plan? Is it  
not the plan adopted in the management of  
affairs of large moment everywhere?

Why will it not result as beneficially in a  
municipal corporation expending but  
\$1,000,000 annually, as it does in other cor-  
porations expending many millions?

## THE MAYORALTY.

Judging from the popular talk there are  
only two men being considered for the  
next mayoralty, ex-Mayor Bothfield and  
Mayor Cobb. The friends of the latter  
have for some weeks been circulating peti-  
tions in his favor, and have received a  
large number of signatures. But these  
petitions are not of much practical use,  
save in the initial stages of a campaign,  
and a number who have signed have stated  
to us that they did so with the understand-  
ing that Mr. Bothfield was not a candi-  
date, as he is their first choice.

Many do not believe in a third term for  
Mayor of Newton, as they do not think it  
good policy, no matter how satisfactory an  
official may have been. This rule has only  
been broken over in one instance in the  
history of the city.

Another strong argument in favor of  
Mr. Bothfield is the class of men who are  
working against him. The history of his  
first campaign is repeating itself, and he  
is opposed by the corporations who have  
dealings with the city, and also by the  
men who aspire to be political dictators  
here in Newton. These men know they  
can not influence him in their favor.  
Another element that has appeared in the  
fight against him is the remains of the old  
police ring, that was broken up by Mayor  
Bothfield. The police force had been in a  
demoralized condition for some years, but  
Mayor Bothfield had the courage to tackle  
the ring in spite of the political influence  
behind it, and the result was approved by  
all. It is hardly surprising that this ele-  
ment is working against him.

It is fortunate, rather than otherwise,  
that these elements have combined against  
Mr. Bothfield, as they raise the question at  
once, whether the citizens of Newton will  
allow a man to be defeated because no  
corporation and no set of men have been  
able to own him while in office. Shall a  
man be defeated solely because he is  
known to have the courage of his convictions,  
and those who have selfish ends in  
view can not control him? When such an  
issue is raised most citizens will feel it  
their duty to support Mr. Bothfield against  
any other candidate, especially as next  
year, if the new charter goes into effect,  
the mayor should be a man of exceptional  
courage and independence, as enormous  
pressure will be brought to bear upon him  
in the matter of appointments, and other  
matters, in which the welfare of the city is  
vitaly concerned.

## THE STATE ELECTION.

The state election comes a week from  
next Tuesday, and it is the duller cam-  
paign Newton has ever seen. For repre-  
sentatives there are for the first time no  
rival candidates, so that the election of  
Messrs. Pickard and Hayward is assured,  
and for many of the other officers to be  
voted for there is only one candidate. The  
election will evidently be a purely formal  
affair, and were it not for the new charter,  
few Newton voters would take the trouble  
to go to the polls.

Herein lies the danger of disaster to the  
new charter, as although the great majori-  
ty of citizens favor the change, they may  
let it go by default, on account of the lack  
of any interest about the state ticket to  
call them to the polls.

The opponents of the new charter have  
been very industrious, and a great effort  
has been made to arouse opposition among  
the workmen of the city. Many of those  
who do business with the city are against  
the charter, as they think it will be un-  
favorable to their interests, and hence the  
men employed by them are more or less  
opposed to it.

Some of the city departments that are  
threatened with consolidation if the char-  
ter goes into effect, are not particularly en-  
thusiastic, and then there are a more or  
less large class of men, who have a real or  
fancied grievance against certain heads of  
departments who have proved themselves  
so valuable to the city that they are likely  
to be appointed under the new charter, and  
these are all industriously working to de-  
feat the charter.

Most of these opponents will be certain  
to go to the polls, and unless the tax-pay-  
ers, who will be benefited by the change,  
and the friends of the new charter gener-  
ally do some active work between now and  
Nov. 2, the conditions will not be exactly  
favorable for the success of the reform  
charter.

Some of the reports that find believers  
are curious, and when once a bad report  
gets in circulation it survives for years  
among people who are otherwise well-in-  
formed. Some years ago, during a pro-  
longed dry spell, some cases of malaria  
appeared in Ward Four, along the exposed  
banks of the Charles River, but the follow-  
ing winter the disease disappeared, and it is  
now difficult to find a physician who has a  
case of malaria under his care, yet now and  
then people are found who would like to  
come to Newton, they say, but they could  
not think of coming to a place that was so  
full of malaria, and so they go to far less  
healthy sections. As a matter of fact, for  
the past year, Newton has been more free  
from malaria than any other suburb of Boston.  
There never was any great amount here,  
but in the agitation to secure legislation to  
improve the banks of the Charles River, a  
good deal was made of the few cases that  
we had. The popular sections of Newton  
are from one to several miles from the  
river, and the board of health statistics  
show that Newton is one of the healthiest,  
if not the healthiest town in the state.

THE Massachusetts Republican Club  
has had to postpone its dinner on account  
of the lack of eminent speakers, according  
to its own statement. There are impor-  
tant campaigns going on in New York city,  
Ohio and Iowa, but so far the eminent  
speakers who could not attend the Boston

dinner are also unable to make dates for  
speeches in any of these places. The New  
York campaign is regarded as something  
which it is wise for outsiders to keep out  
of, and the same appears to be the case  
in Ohio, where Senator Hanna appears to  
be left to conduct his own campaign for the  
senatorship. Apparently outside Republicans  
do not care to get too much mixed up  
with Hanna and his peculiar methods, and  
the mourning over his defeat would not  
interfere with the happiness of many of  
the older Republican leaders. In fact the  
present campaign is such a curious one in  
all quarters, that the shrewder leaders are  
mostly keeping as quiet as possible.

A GREAT effort is being made to have  
the grade crossings on the south side of the  
city abolished, as they are in the way of  
contemplated street railway extensions.  
This has started quite an agitation in favor  
of the movement, and many of the resi-  
dents of the South side have joined in the  
movement to have the crossings done away  
with. The statement is made that the  
land along the railroad, needed for the  
work, is now held at a low price, but if the  
change is once decided upon, everyone will  
be surprised to see how that land will rise  
in value. We have had an experience of  
this on the north side, but nevertheless the  
cost of the change will probably be less  
now than later. Of course, as the circuit  
road is only used for local traffic, there is  
not the same necessity for abolishing the  
grade crossings as existed on the north  
side, with all its express and freight trains,  
but the crossings are dangerous, and they  
stand in the way of the development of the  
Oak Hill district by means of street rail-  
ways, hence it would be for the advantage  
of the city to have them abolished.

MAYOR QUINCY appears to have got the  
best of those who have been criticizing him  
for the purchase of the municipal printing  
plant. The workings of the same have  
been carefully examined by a committee  
selected by the Merchants Municipal Com-  
mittee, and it is found that during the first  
six months of the plant's operation, the  
city has saved \$6300, over its previous con-  
tract prices. The committee was one in  
whose findings full reliance can be placed,  
as it was composed of such men as George  
H. Ellis of West Newton, John C. Cobb of  
Milton, and James P. Stearns of Brook-  
line. The net cost of the plant to the city,  
allowing for depreciation, is \$37,787. Mayor  
Quincy in a communication to the city  
council, says that in three years' time,  
the savings will pay for the plant, and there  
seems to be a solid argument in favor of  
municipal enterprises. This particular  
plant seems also to have been managed in a  
business-like way.

THE Home Market club will celebrate the  
Dingley tariff bill with a jubilation dinner  
at the Mechanics hall on Nov. 10th. A  
long list of speakers, including Senator Han-  
na of Ohio, is announced, and as the state  
election will be over by that date, possibly  
the speakers expected will have recovered  
from "the engagements" that prevented  
their appearing at the Republican Club  
dinner.

Now that the street railway tracks are  
laid across the Boston & Albany bridges,  
there is no necessity for so many street rail-  
way companies in Newton, all demanding  
a separate fare, and consolidation will be  
the order of the day. The Watertown road  
has been leased to the Newton & Boston,  
and other leases may follow in the near  
future.

The city of Newton has won in an im-  
portant case, involving the boulevard as-  
sessments, and City Solicitor Slocum is re-  
ceiving many congratulations at the  
decision of the court against E. B. Towne  
and others.

THE Yale and Harvard football teams  
seem to be trying it on the Newton Club  
team before they tackle each other.

evening in Auburn hall with a large atten-  
dance of members and city officials. Reso-  
lutions were presented by Alderman W. E.  
Knowlton and adopted, expressing the  
regret of the society at the death of George  
L. Chandler, its late secretary. The re-  
ports of the president, secretary and treas-  
urer, showed the affairs of the society to  
be in a very satisfactory condition, and  
that a large amount of work in the direc-  
tion of village improvement had been ac-  
complished during the year. These officers  
were elected: E. E. Hardy, pres.; S. C.  
Farley, vice pres.; William Fuller sec.; H.  
C. Hildreth treas.; George M. Fiske, W.  
E. Knowlton, J. F. Ryder, George D. Har-  
vey and Quincy Pond.

—The alleged ghost, which it is said  
caused a reign of terror among residents  
of West Pine and Melrose streets, has mathe-  
matically been proved to be a "real live  
ghost," but a real live man. Whoever  
originated the story must have had a  
wonderful imagination. He knew how to  
tell the yarn too. Many credulous people  
heard the tale, and half believing it, passed  
it along, each time embellishing the original  
facts? The more often it was told the  
more interesting the matter got. No one  
saw fit to investigate the affair however.  
Last week some one gave away the secret  
and those who had been so delightfully  
entertained by this fiction of a fertility im-  
agination, were crestfallen when they heard  
how a man at work at his druggists.  
was not a woman in fantastic garb doing

strange things by the light of a red lan-  
tern.

—The Misses Crane of Maple street are  
entertaining friends from New York.

—Mr. Leander Soule of Freeport, Me.,  
is visiting his brother, Mr. W. F. Soule of  
Rowe street.

—Miss Jennie Dunham of Portland,  
Me., is visiting Mrs. Enoch Soule of  
Lexington street.

—Rev. Mr. T. W. Bishop, Mr. J. O.  
Bishop and Miss Bishop have returned  
from the mountains.

—Mr. Frank Cunningham has purchased  
a house, corner of Commonwealth avenue  
and Woodbine street.

—Miss Bertha Johnson of Washburn  
avenue has opened a dressmaking estab-  
lishment at her home.

—Mr. James H. Dolliver and family have  
been at Washington this week with the  
railway agents' excursion.

—Miss Leavitt, the well known temper-  
ance worker, is spending the week with  
Mrs. Strongman of Grove street.

—Auburndale Lodge, A. O. U. W., will  
attend the exercises of the Waltham Lodge  
in that place next Thursday evening.

—The Sunday school scholars of the Con-  
gregational church are preparing for the  
harvest concert to be given in about two  
weeks.

—Mr. W. G. Bosworth of Rowe street at-  
tended the reunion of the ex-Prisoners of  
War held in the United States hotel, Bos-  
ton, Wednesday.

—Alice Maude Smithers, D. G. W. P., of  
the sons of temperance, officiated as grand  
chapelain at their semi-annual session held  
in Lawrence on Oct. 20.

There are letters in the postoffice for  
Miss S. N. Brown, Miss Lizzie Gibbs, Mrs.  
M. A. Maynard, James Keefe, Daniel  
Menahan and Edward Taylor.

—The Riverside Gun Club will hold the  
last shoot of the season on the Hubbard  
estate at Weston tomorrow afternoon. It  
is expected there will be a large attendance  
of members.

—Walter Dexter, 18, of Boston, was shot  
at Weston early Wednesday morning. He  
left Boston at 4 to shoot squirrels in Wes-  
ton, and at 5 stopped for lunch, leaning  
his gun against a tree. As he sat down his  
feet struck the stock, knocking the gun  
down. He was discharged as it fell, and the  
charge entered his left arm and left side.  
He may lose his arm.

—About 1.15 o'clock, Tuesday afternoon,  
hose 5 company was called out on a still  
alarm to extinguish a blaze in the old cot-  
tage on the Fowle estate. The building is  
a wooden structure and was partially  
burned some years ago. Tuesday a party  
of boys set fire to an immense pile of  
leaves and the flames ignited the woodwork  
of the building. The blaze was pretty  
local for a while, but was soon extin-  
guished after the arrival of the department.  
Capt. Washburn of hose 5 received a bad  
scalp wound by being accidentally struck by  
the nozzle of the hose.

—More guests are at the Woodland Park  
Hotel than ever before in its history. Every  
room has been filled the past week and  
cots have had to be placed in both parlors  
and in many of the rooms. The hotel is  
so easy of access and its cuisine is so fa-  
mous that it is a popular place for clubs  
to come for a dinner. Twenty members of  
the Norfolk club dined there last Satur-  
day. Mr. Jack Baird of Redding, Baird &  
Co. gave a dinner to a few friends, and  
Mayor Quincy of Boston was out with a  
small party, and a party of Hotel men,  
representing Youngs, Parkers, the Thorndike,

Boston Correspondence Academy, conducted  
the first meeting of the Evangelist  
Bible class at the Bromfield M. E. church,  
Boston, last Saturday.

—Nathan Upham, one of the oldest and  
best known residents of Weston, died  
Tuesday night at his home on Newton  
street. Mr. Upham was born in Weston  
82 years ago and had lived there all his life.  
He always took an active part in local  
affairs. He left a wife and family. Fun-  
eral services were held at his late home  
Thursday afternoon.

—Thursday afternoon, Newton Chapter,  
D. A. R., met with Mrs. Benjamin W.  
Hackett of Woodland road. A large num-  
ber of the daughters were present and  
plans were talked over for a formal pre-  
sentation of their charter by State Regent  
Mrs. T. M. Brown, at the Newton Club-  
house in the near future.

—The local lodge of the A. O. U. W.  
held its regular meeting in Auburn hall,  
Wednesday evening. Among other busi-  
ness to come before the meeting was the  
election of one new member. After the  
transaction of other business refreshments  
were served and a social hour enjoyed.

—James Jackson, colored, was arrested  
last Friday evening by Sergt. Purcell and  
Patrolman Dolan of division 1. The com-  
plainant in the case was Margaret Gleason  
of Auburndale avenue, who alleges that on  
the night of Sept. 20 Jackson accosted her  
on Auburn street, and after attempting to  
walk with her snatched her handbag. A  
young man passing on a bicycle caused him  
to take to his heels, and the bag was sub-  
sequently found on a street near the depot.  
Jackson was preparing to take his  
departure from Auburndale. In court  
Saturday morning Jackson was sentenced  
to six months in the house of correction.

Wise, president.

—The executive board of the Newton Federation of Women's Clubs held a business meeting in the parlors of the New church on Highland avenue Monday forenoon. Reports from the various committees were read and some plans for the winter's program discussed. It was decided to have the first public meeting a social gathering in Temple hall early in December. The second meeting will be under the auspices of the municipal committee.

—In Denison hall, Tuesday evening, 100 members of Newton council, Knights of Columbus, had the pleasure of listening to an interesting address by John Buckley of Mt. Vernon council, South Boston. Mr. Buckley spoke on the rise of Catholicism in Boston since the early thirties. An address was also made by Mr. T. B. Fitzpatrick of West Newton, who compared the conditions of Catholics in Boston 60 years ago and those of today. Ex-Councilman John E. Briston gave a short address.

—The Oxford Musical Club gave an enjoyable entertainment in Denison hall, Monday evening, under the auspices of Newton Lodge, Knights of Pythias. The following artists contributed to the program, Messrs. Thrasher, Tilton, Lancy, Korman, Reinwald and Miss Faye. The affair called out a large number of members and their friends. As a social and financial success it eclipsed all former efforts, and the committee who had the affair in charge should be congratulated on the splendid result. The talent was furnished from the concert bureau of Mr. Edward Howard, 159 A Tremont street, Boston.

—At the Methodist Episcopal church Sunday evening at 7:30 there will be a special service held at which the pastor, Rev. Franklin Hamilton, will preach, by request, a sermon on "Memories of the Sea," suggested by a summer residence among the deep sea fishermen of Gloucester. Mr. Herbert Thayer, the well known tenor soloist of Boston, and an artist deservingly of the reputation of tenor solos appropriate to the occasion. All seats are free and all are most cordially welcome. In the morning at 10:45 at the regular morning service Mr. Hamilton will preach as usual. All are invited.

—Ella Frances Rice, wife of George F. Williams, of Washington Park, passed on to a higher life early Sunday morning. She was a perfect woman, fulfilling every duty as a sacred trust. She was the youngest daughter of Charles Rice one of the proprietors of the Boston Traveller in its former days; and a lineal descendant in the seventh generation of Deacon Edmund Rice who settled in Sudbury in 1637. Her husband and four children, one sister and brother, survive her. Mr. and Mrs. Williams moved to Auburndale in '75 and to this place in '80 where they have since resided. The funeral services were held Tuesday afternoon from the residence, Rev. Charles S. Nickerson officiating. The floral tributes were very beautiful. The interment was at Mt. Auburn.

—Mr. and Mrs. J. F. Lathrop celebrated their 25th wedding anniversary Monday evening with a reception at their charming home on Central avenue. The reception was attended by more than 300 of the society people of Newton, by large delegations from Cambridge, Boston and Brookline. From 8 to 10 Mr. and Mrs. Lathrop received in the large drawing room, which was handsomely decorated with masses of palms, which served as an effective background for the potted chrysanthemums. They were assisted in receiving by Mr. Geo. Tucker of Ware, and Mrs. Tucker, who was Mrs. Lathrop's maid of honor at her wedding. Light refreshments were served in the dining room, which was

prettily decorated with chrysanthemums and snail. In the library an orchestra of popular airs. In addition to the hearty good wishes of their friends, Mr. and Mrs. Lathrop were the recipients of numerous handsome gifts of silver.

—The Newton Congregational Club held its first meeting of the season Monday evening, the parlors of the Congregational church. About 100 members were present, and after the usual social hour and supper, President A. C. Farley introduced the speaker of the evening, the Rev. Dr. F. E. Clarke of Auburndale, who took for his subject "New England in Africa." He gave an outline of his recent trip through that country. Mrs. Alice G. Gullik, also of Auburndale, who has spent the greater part of her life in missionary work in Spain, followed with an interesting address on the manners and customs of that country, and the great need of reforms in its present form of government. During the evening musical selections were rendered by the choir of the Auburndale Congregational church.

—Clerk Henry L. Whittlesey of the police court has completed his report of the criminal business of the court for the year ending Oct. 1. The statement shows a total of 1257 cases disposed of, the largest in the history of the court. Of these 756 were charged with drunkenness, 29 with violation of the liquor law, 60 with larceny, 80 with assault, and 145 with disturbance. A marked increase in the number of serious charges brought against prisoners is noted and a falling off in the proportionate number of arrests for drunkenness. During the year 21 search warrants for liquor were granted, and in 18 cases liquor was found. During the same period 14 warrants for searches for stolen property were granted. The amount of fines paid into the court aggregate nearly \$9000.

—Wednesday afternoon and evening the Suffolk West Conference held its 48th semi-annual meeting in the Congregational church. More than 400 delegates representing the Congregational societies of Boston, Wellesley Hills, Needham, and the various Newtons, were present. At the afternoon session a series of addresses on the general topic, "The Christian in Prayer," was given. Among those to speak were the Rev. John O. Haavberg, in Private Prayer; the Rev. Charles E. Havens, on "In Family Prayer;" the Rev. Charles E. Harrington, D. D., on "In the Prayer Meeting;" and the Rev. A. A. Berle, on "The Power of a Praying Church." In the evening addresses were delivered by the Rev. James L. Burton, D. D., on "True and False Religion," and the Rev. F. E. Clarke, D. D., on "Among Our Missions."

—Mrs. Caroline K., wife of Mr. James T. Allen, died Sunday at her home on Washington street. Deceased was 64 years of age. She was the eldest daughter of Dr. Edward A. Kittredge, who was the founder of the hydropathic establishment on Franklin street, Boston. Mrs. Allen was a direct descendant of Gov. Bradford. She was a pupil of the famous school at Brook Farm where she enjoyed the teaching of such men as George Ripley and Charles A. Dana. She was left motherless at the age of sixteen, and assumed the duties of a mother over several younger brothers and sisters. Her father was one of the progressive men of the day, and entertained many of the prominent men of his time, including Webster, Garrison, and Phillips, thus early giving his children broad and liberal ideas. When a young lady she became a member of the noted William Henry Channing Society. After her marriage to Mr. Allen she removed to Newton, and soon made a large number of warm friends. Mr. and Mrs. Allen were among the original twelve to organize the West Newton Book Club of which they have always been prominent members. Mrs. Allen was a devoted wife and mother. She was one to whom no appeal for aid was made in vain. The funeral services were held at the residence, Tuesday, Rev. Julian C. Jaynes, pastor of the Unitarian church, officiating. A large number of friends and relatives were present. The floral tributes were numerous and

beautiful. The interment was in the family lot at Medfield.

—Mrs. Charles Homer Sprague has for guests Mr. and Mrs. Starbuck of Cincinnati.

—Mr. J. T. Prince is conducting the course in pedagogics this year at Wellesley College in the absence of Prof. Carew Wencheback.

—The regular meeting of the local branch of the W. C. T. U. was held in the Baptist vestry Tuesday afternoon. Mrs. E. E. Burdon presided.

—Dr. P. F. Coady was best man at the Macdonald-M'Ginnis wedding in Roxbury, Wednesday morning. Dr. Coady is a cousin of the groom, Mr. James M. Macdonald.

—The annual reception of the West Newton Women's Educational Club will be held Friday, Oct. 22nd, from 3 to 5 at the home of the president, Mrs. E. N. L. Walton.

—Dr. F. A. Williams of Boston has purchased the H. A. Gane homestead and two acres of land, and the remainder of the estate has been bought by Capt. S. E. Howard who will develop it.

—Mrs. Mary H. Hunt, National Supt. of Scientific Temperance Instruction, will deliver a lecture here the latter part of November, under the auspices of the local branch of the W. C. T. U.

—Mrs. Martial Wood, having rented her beautiful home, corner Lenox and Highland streets, to a Boston merchant, will visit friends in New York for the winter, and in the spring will go to California.

—The Unitarian Society tendered a reception to Rev. and Mrs. J. C. Jaynes in the church parlors last Friday evening. Mr. and Mrs. James H. Nickerson assisted Rev. and Mrs. Jaynes to receive. The parlors were tastefully decorated with potted plants and cut flowers. A collation was served in the dining hall.

—Mr. and Mrs. Joshua Blake Langley held their first "at home" Wednesday evening at their residence on Cherry street. A large number of friends from Boston and vicinity were present. The house was tastefully decorated with ferns, potted plants and cut flowers. A collation was served in the dining room.

—A number of ladies interested in the Saturday fair to be held in Boston in December met at the home of Mrs. Whiting, Newton, Monday afternoon, to work for the Newton table. It is hoped that this will be the handsomest table in the hall, and that the members of the Newton League are working hard to reach that end.

—The annual fellowship meeting (16th anniversary) of the Congregational church will be held this evening. Social gathering in the parlors at 7, followed by services in the chapel at 7:30, when there will be a roll call to which it is hoped all members will respond by Scripture citation, personal acknowledgement or written communication.

—The current event class, connected with the Educational Club will hold its meetings the first and third Fridays in each month at the residence of Mrs. Walton, under the leadership of Miss Amelia Davidson. The art class for mutual study will be continued under a committee of three, Mrs. L. G. Pratt, chairman. The subject will be Greek Architecture.

—Mrs. Florence Howe Hall will give an entertainment in the Unitarian church parlors, Wednesday evening, Nov. 17, under the auspices of the Newton Suffrage League and the West Newton Women's Educational club. Mrs. Hall will give her entertaining program, "The Garden City, Pliny." A portion of the proceeds will be used to advance Southern education.

## NEW MEMORIAL HALL.

DEDICATED BY CHARLES WARD POST 62, G. A. R.

Charles Ward Post 62, G. A. R., last evening, with impressive ceremonies, dedicated its new memorial hall in the Masonic Temple at Newtonville.

The exercises were graced by the presence of the department commander of Massachusetts and his staff, the secretary of the Commonwealth, the mayor of Newton, other city officials and hosts of prominent Grand Army men, as well as large numbers of the friends of the post.

The dedicatory exercises were held in Temple hall, adjoining the new Grand Army hall, which was lavishly decorated with the national colors, arranged in festoons over the platform, on which were seated the members of the post and the speakers of the evening. Tall palms were grouped about the commander's desk, which was also draped in the national colors.

Promptly at 8 the members of the post "fell in" in the outer hall and marched to their places on the platform. There they were met by Col. Willard D. Tripp, chairman of the committee appointed to make the arrangements for the new hall, who presented the keys to Commander H. D. Degen.

After receiving the keys Commander Degen thanked the committee in behalf of the post, and in the words of the Grand Army ritual, dedicated the hall to the army, the navy and the fallen of both. The taps were sounded on the bugle.

The dedicatory being completed, Commander Degen introduced the first speaker, Department Commander John M. Dean of Fall River, who in the name of the 22,000 veterans of the department of Massachusetts congratulated the post on the possession of the hall.

Col. William M. Olin was the next speaker, representing the Commonwealth, in the absence of Gov. Russell, detained by the observance of Constitution day. He briefly congratulated Charles Ward Post, both as a representative of the state and as a comrade of the G. A. R.

Major Henry E. Cobb was the next speaker. His remarks were in part as follows: "Thirty-five years ago Lyceum hall at Newton Centre was crowded, and there sat one of the noblest of our race, a young man, the youngest son of his mother, and she widow. He had already heard a call to preach the gospel, but in the crowded hall he heard a louder call, and Charles Ward went forth to take his part in the struggle. In camp and march and field he was the same loyal, loving Christian soldier as when he started. For a year he gave his service unstinted, and at the battle of Gettysburg he met death, and stepped from the ranks of the army into the heavenly list. We thank you in the name of the city that you have taken the name of this noble man and embodied it forever in our midst as the name of your post."

Other speakers who followed were Senior Vice Department Commander John E. Gilman, Junior Vice Department Commander Peter D. Smith, Department Chaplain Gibbs, Col. John D. Billings of the governor's staff, Rev. A. A. Berle and Rev. C. M. Southgate.

The Grand Army rooms are situated in the second story of the building, on the street corner. One is octagonal in shape, with a dome shaped roof, the walls lined with quartered oak cabinets, and about the room are wide seats upholstered in leather. The cabinets contain the relics of the post, each one of which has a history. The room will be open every evening for a Post club room.

The second room opens out of the first, is much larger, and is to be used for the meetings. It will seat 100 comfortably, and has a platform and comfortable seats. The walls and ceilings are very attractive, the latter containing names of the battles in which the members took part. Pictures

of battles and portraits of famous soldiers line the walls. The decorations are very handsome, especially when illuminated by electric lights, and the many relics are worth study. Charles Ward Post is certainly to be congratulated on his handsome new house.

## DINNER TO THE YALE TEAM.

FOOT BALL PLAYERS ENTERTAINED AT THE NEWTON CLUB HOUSE—THE OCCASION WAS A GREAT SOCIAL SUCCESS—SPEAKERS EXPRESSED PLEASURE AT THE RE-ESTABLISHMENT OF AMICABLE RELATIONS BETWEEN YALE AND HARVARD.

Saturday evening, at their handsome club-house, the Newton Club gave a complimentary dinner to the members of the Yale team. The occasion was a great social success. It was important because of the expressions of pleasure at the re-establishment of amicable relations between Yale and Harvard, expressions which were uttered by alumni of both colleges, and also because its influence was thrown in the direction of pure and honest athletics.

There were about 100 seated at the tables, this number including the men from New Haven, alumni of Harvard and Yale, and members of the club. President Powers of the Newton Club presided, and the post-prandial speakers were Judge Howland of New York, W. H. Coolidge, an old Harvard player; Samuel J. Elder, C. T. Gallagher, Capt. Rogers of the Yale eleven, Capt. Corbett of the Newton Club eleven, and Mr. Heffelfinger, who did such valiant service for Yale in years past.

It was a training dinner, as the menu stated, and nothing of a gastronomic nature was offered the players which could possibly interfere with digestion or muscle building.

At the top of the menu was the score of Friday's game, and a foot note announced: "The foregoing bill of fare was made up by the manager of the Yale team. The Newton Club does not hold itself responsible for it."

Following is the menu in full:

PLAYS.  
Kick-off.....Oysters  
Fumble.....Custard  
16-25-43-14 (through the center).....Roast beef  
4-11-44 (no interference).....Ale  
7-32-8-15 (ball to kicking half).....Mashed potatoes  
16-25-43-14 (through the center).....Rice pudding  
4-11-44 (no interference).....Peaches  
7-32-8-15 (ball to kicking half).....Safety

The tables were very prettily decorated with flags in the Newton Club color and in the blue of Yale, with red and blue ribbons, and with a profusion of white chrysanthemums. Cigars and coffee were served to the members of the club and the visiting alumni of the colleges, but the foot ball players were not allowed to partake of them.

After the discussion of the menu, President Powers made an address of welcome, in which he expressed the hope that yesterday's game was only the beginning of athletic and friendly relations between Yale and the Newton Club.

He then introduced Judge Howland, who was received with applause and cheers. He encouraged the Yale team and thanked the Newton Club for the cordial hospitality extended, and he told the funny stories for which he is not only famous, but continued, was a great game, and called for all that was manly in a man, for it required skill, courage, and self-control. It was not a baby's game.

The Yale alumni, said the judge, stood by the team in victory and defeat, and thought just as much of the boys whether they lost or won. The judge's remark that he rejoiced at the re-establishment of amicable relations between Yale and Harvard, characterizing the latter as "a worthy foe in any field," was received with tremendous applause. The judge felt sure that a social gathering after every game could do much to assuage any hostility of feeling which might be aroused by the contests on the gridiron.

Mr. Coolidge said that the one thing which Harvard had desired and waited for was the resumption of a friendly spirit between Harvard and Yale. He was sure that, when the teams of these colleges met in Cambridge, there would be only friendly feeling and no hostility on both sides that the best team might win.

Mr. Elder was as humorous as usual. The future of foot ball, he said, offered everything that was pleasant. He congratulated the Newton Club for the friendly team, a team than which no other athletic association in the country had a better. He also paid a compliment to the grit of Mr. Sands, the quarter-back of the Newton team, who stayed in the game even after he had broken his collar bone.

Mr. Gallagher spoke in praise of pure athletics, and Mr. Heffelfinger thanked the Newton Club for its hospitality and expressed the pleasure he felt in being present.

Capt. Rogers was received with a storm of applause, as was also Capt. Corbett. Capt. Rogers thanked the Newton Club in behalf of the Yale team. Capt. Corbett said that he was glad to entertain so grand a team as that of Yale.

After the speaking an adjournment was made to the club hall, where the party was entertained by variety artists from Keith's theatre.

In addition to those mentioned, Messrs. Bragg, O'Shaughnessy, Carter, Bigelow, Morton, Walworth, Twomey, Dickson, Huntress and Murphy occupied seats at the head table.

## NEWTON CLUB.

## CHARITY WHIST.

The second in the series of "charity whists" at the Newton club house, Tuesday afternoon, under the direction of Mr. Richard Anders, brought out a large company of the society women of the Newtons and Boston. Progressive whist was played from 2 to 5, and prizes were awarded as follows: Miss Helen Hunt, West Newton, first; Mrs. J. W. Glover, Boston, second; Mrs. S. Gordon, Boston, third; Miss G. A. Ballard, Boston, fourth; Mr. Sturges, Potter, Boston, fifth. The proceeds of the "whist" will be devoted to the Woman's Charity Hospital.

NEWTON WHIST FOUR'S VICTORY.

The Newton Whist Team played a chivalrous match at the Newton Club last Friday against the Pyramid Four of Boston in the New England Whist Association Tournament, for the Robinson Trophy, defeating the Pyramids by seven tricks. The Newton Four were, H. D. Kingsbury, (captain), W. E. Hickey, John F. Casey and C. H. Sprague. The Pyramids were represented by C. S. Street, (captain), C. S. Knowles, E. C. Fletcher and D. Williams. The Pyramids are regarded as the strongest team in the Association, but Newton, as usual, put up a winning game. It will be remembered that the Newton Four won second place in the fall tournament of the New England Whist Association Convention held the 5th and 6th inst. The play against the Pyramids began in the afternoon, after the first third Newton was seven tricks ahead. After dinner Newton forged ahead three tricks more on the second half. Then Capt. Street instructed his players to "sky-rocket" for tricks. The Newton players, on the other hand, were instructed to play a steady, close game for everything in sight. On the first half of the last third, Pyramid made the first win of the game, three tricks, reducing Newton's lead to seven. On the last half of the third, the Pyramid players at one of the tables felt very jubilant, declaring that they had pulled out five of the seven in that round, and the Newton players felt that the estimate was conservative; but at the other table the Pyramids must have dropped as many, for the result was a tie, 45 each.

The total score was, Newton 232; Pyramid 235. The next club in line to challenge for the Robinson Trophy is the Providence Athletic Association, which will probably try to take it away from the Newton Club next Saturday.

FORTNIGHTLY WHIST.

The series of fortnightly whist tournaments and "ladies' nights," under the auspices of the executive committee of the Newton Club, was opened Wednesday evening. Progressive whist was played at 30 tables, arranged in the large assembly hall, from 8 to 10, and at the conclusion of the play supper was served in the large dining hall. The prizes, handsome silver dinner pieces, were awarded as follows: Mrs. Richard Anders, first; Mrs. C. L. Smith, second; Mrs. W. F. Lunt, third; Mrs. W. Adolph, fourth; Mrs. W. O. Delano, fifth; Mrs. Frank L. Nagle, sixth.

American Canoe Association—Executive Committee Meeting.

The annual meeting of the executive committee of the American Canoe Association was held at the Clarendon Hotel, Brooklyn, N. Y., on Saturday, Oct. 16, at 10 a. m.

Several matters of importance were to come before the meeting this year and the Eastern Division officers decided to attend. Local canoe men will be interested to learn that the committee voted, after a prolonged discussion, to define a year canoe as follows:

Maximum length 30 feet, minimum beam 36 inches, minimum depth 17 inches and minimum weight 150 pounds.

This is a radical change which will be of great benefit to the canoe clubs in New England, especially in this vicinity, where there are already several "30 footers" of this model.

Most of the Canadian War Canoes are 35 feet in length and carry crews of fifteen men, so naturally the Northern Division paddlers were strongly opposed to any change in the rules which named the maximum length as 35 feet. The Eastern Division representatives were successful, however, in carrying out their ideas and in the future all war canoes must be built with a maximum length of 30 feet in order to compete in races of the American Canoe Association.

It was decided to hold the annual camp on Stave Island in the St. Lawrence River, August 5 to 19, 1898.

Reports of the Division Pursees and committees were read and accepted. New committees were appointed and the regular annual business was transacted, the committee being in session about five hours.

In the evening very pretty dinners were given to the members of the committee, some thirty in number, were entertained at the Crescent Athletic Club where an elaborate dinner was served. On Sunday the New York Canoe Club did the honors and the visiting Easternists took dinner at their clubhouse in Bensonhurst.

The Eastern Division was well represented by Capt. Louis S. Drake of the Vawbawwas who is vice-commander, Francis J. Burage, purser of the Vawbawwas and of the Eastern Division, Louis A. Hall and Parry C. Wiggins of the same club.

A SOCIAL EVENT.

MASONIC HALL OPENED TO THE WIVES AND FRIENDS OF MEMBERS.

The beautiful Masonic building at Newtonville which was last week dedicated to the purposes of Freemasonry, Wednesday evening received a second dedication at the hands of Newton society. The occasion was a reception tendered by Dalhousie lodge, F. and A. M., to the women of its members' families, and the affair was one of the most brilliant social successes of the fall season.

More than 1000 prominent people of the Newtons, Boston, Brookline, Watertown and Waltham were present, including a large number of high Masonic officials.

From 7.30 to 8.30 a reception was held in the lodge hall, the guests being received in behalf of the Masonic fraternity by Most Worshipful Master W. S. Sloom and Mrs. Sloom. Most Eminent High Priest, Albert L. Harwood and Mrs. Harwood, and Eminent Commander Clarence E. Tebbetts and Miss Tebbetts.

The arriving guests were presented by the following ladies: Charles F. Brown, Robert H. Bennett, John W. Fisher, Geo. E. Gleason, W. F. Wetherbee, Edward P. Hatch, A. P. Eustis, Mitchell Wing, C. Bowditch, John, Louis E. Binney, Austin Deane, George Dyer, W. E. E. Lesh, Andrew Kistler, F. W. Mutchmore, J. M. Beck, Avalon Graves and C. S. Somers.

Immediately after the reception the company took seats in the lodge hall and were treated to an exhibition of the brilliant electric light effects on the splendid Masonic decorations on the walls.

The informal musical followed the resources of the new organ being admirably displayed by Mr. Geo. E. Brown, organist of the fraternity. His selections were varied to show off the soloists, and the harmonious combinations, and included "Overture to 'Poet and Peasant,'" Concert Overture by Thayer, and Largo by Handel, and also a number of improvisations on familiar themes. Mr. E. D. Hale was playing numbers of solos in an artistic manner, which added to the enjoyment of the evening. A number of vocal selections were rendered by the Dalhousie quartet, Messrs. F. H. Hunting, G. W. Ulmer, Charles Buxton and G. E. Rice.

After the musical the company adjourned to the banquet hall, which was handsomely decorated with masses of palms and ferns, where light refreshments were served. During the supper hour an orchestra stationed in the hall discoursed popular airs.

The material wants of the guests being satisfied they dispersed through the rooms, which will hereafter be the home of Dalhousie lodge, Newton Royal Arch chapter, and Gethsemane commandery, and inspected them under the guidance of the members of the Masonic fraternity.

Dancing was enjoyed to the music of Parks orchestra.

Among those present were, Mayor Henry E. Cobb and wife, ex-Mayor Fenno and wife, ex-Mayor Kimball, Representative Pickard, Mr. and Mrs. Mitchell Wing, Mr. and Mrs. J. H. Nickerson, Rev. and Mrs. H. U. Munro, Mr. and Mrs. L. E. Green, Mr. and Mrs. E. W. Gay, Mr. and Mrs. H. H. Hunt, and the Mayor of the city with their wives and the ladies of their families.

—Cards are out for the marriage of Miss Carrie English, daughter of Mr. and Mrs. A. I. English of Centre street, to Mr. Robert Vachon, to take place next Wednesday at the Church of the Sacred Heart.

—Patrons of the Newton & Boston street railway are pleased to see that the car service and the Newton Centre branch has been greatly improved by the addition of fine vestibule cars, which are of the latest pattern, and among the handsomest in the city.

—The Newton department was called to two small fires last Friday, one being extinguished with but slight damage. An alarm from box 71 at 2 o'clock was for a brush fire off Beacon street, and a still alarm about 7 o'clock for some burning rubbish off Church street, Newton.

—There are letters in the postoffice for Mr. J. E. Greene, Mrs. C. H. Herrick, Miss Victor J. Loring, Maggie Mack, Mary McGovern, Mr. Fred Parker, Mr. Charles Peterson, Mr. W. F. Robinson, Mrs. Mary Taylor, Elynn Ward, Mrs. Mary Brown, Mrs. George Cole, Charles W. Lovell, H. Mynois, Ronald and William McGrath.

—Monday evening, Nov. 1st, the residents of this place will be allowed to witness a session of the "Old District School," which will be held in Bray's hall. Those who have the honor in charge are making great preparations, and will spare no pains in making it a great success. The entertainment is given to raise the necessary balance to complete the playground fund.

—Mr. Maxwell Lowrey of Everett street died very suddenly Tuesday about 6 o'clock. He had started from his sitting room for the dinner table when he was seized with a sudden faintness, and a moment later was dead. Death was due to heart failure. Mr. Lowrey was 75 years of age, and had lived for the greater part of his life in Cambridgeport, where he was well known. He came to Newton about two years ago, and had resided with his son.

—After the first of next month an additional carrier will be placed at the central postoffice, to increase the delivery facilities in the place. At present there are but three men on the working force, and the routes assigned to each are too long for one man to cover in the short time allotted. The routes will be changed as to shorten the distance for each carrier. When the new plans are in operation the residents will have less cause for complaint.

—About 30 members of the Newton Centre Golf Club and neighboring clubs took part in a tournament on the links of the United States Golf Association, on the links Saturday, D. T. Kidder, Jr., won with a score of 122, net 84. Other scores were as follows:

Players Gross Handicap Net  
H. D. Beckler.....120 31 89  
H. D. Ward.....106 12 94

—Tomorrow will be a red letter day among the local wheelmen, for the place of especial interest to them and wheelers throughout the city will be that between Eugene Whiting of this place and Julius Peterson of Upper Falls. Both men will meet on the playground track. Whiting defeated Peterson about two weeks ago, and his friends are confident he will score a second victory tomorrow. Peterson, it is said, is backed by enthusiastic supporters from Newton Highlands. Great interest is centered in the match by wheelmen on the south side of the city, and the outcome will be watched with interest.

—A pleasant social event Monday afternoon and evening, was the reception given by the Newton Centre Club to their daughter, Miss Chester, at their home on Parker street. In their handsomely decorated parlor, Mr. and Mrs. Chester and Miss Chester, received informally from 3 to 5 in the afternoon, and 8 to 10 in the evening. During the afternoon and evening over 250 society folk were present, representing the various Newtons, Brookline, and Longwood. The guests were very agreeably entertained by display of a large number of beautiful water color paintings, the artistic work of Miss Chester during her recent stay abroad. Most of the pictures were taken from scenes in Paris and Yvoire, where Miss Chester has devoted a large portion of her time while abroad. Among those to attract the greatest admiration were "Study of a Holland peasant," "Italian Jester," "Algerian Water-carrier," "An Acolyte," "Notre Dame by Moonlight," "Paris," "Pont Neuf," and "On the borders of the Seine."

In the afternoon Mr. and Mrs. Chester were assisted in the dining room by Mrs. Brown, Mrs. Chase, Miss Colby, and Miss Mand Woodruff. Miss Saxo assisted in the studio, and Mrs. Geo. Smith, Miss Elizabeth Armstrong, Miss May Colby, and Miss Lida English at the frappe tables. In the evening Miss Grace Jones, Miss Harriet Forbes, Miss Dora Thomas, Miss Grace Smith presided at the tables in the dining room. Mrs. F. O. Woodruff in the studio, Miss Harriet Briggs, Miss A. J. Bond and Miss Alice Kidder at the frappe tables.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the results was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by E. F. Partridge, Newtonville, Laconia & Co., Boston, Nonantum, R. H. Billings, Newton Upper Falls; J. H. Green, Newton Highlands.

## The City Wins the Suit.

The petitions brought by E. B. Town vs. the city council of Newton, and by Elea beth Atkinson vs. the same, for the writ of certiorari to quash betterment assessments laid upon their land by reason of the laying out of the boulevard, known as Commonwealth avenue, Newton, as illegal, were denied by the court, in a majority opinion.

The city took some land belonging to the petitioners, but the amount of the betterment assessments levied upon them equalled, if not exceeded, the value of what land was taken. The court denies the petitioners' delay in asserting their rights against the public work until great expenditures had been made. It says:

The petitioners do not attack the laying out of the way, which has been constructed at great expense, and by which they are personally benefited.

Parties who lay out a road, and incur great expenditures to be made, the benefits of which they will enjoy, are not to be allowed to avoid responsibility for the payment of any share of such expenditures by afterward having the proceedings under which they were rendered quashed.

One of the reasons why the petitioners claimed the betterment assessment was invalid was because the city council, before the lay-out of the boulevard, and the levying of the assessment, had entered into a contract with a syndicate of land owners by which the latter agreed, among other things, to pay one-third the expense of the cost of construction, and to hold the city harmless and indemnified from damages which other land owners who did not sign this agreement might recover against the city by reason of the laying out, and the syndicate being "subrogated to and credited with the betterments assessed or to be assessed by the city" upon the non-signing owners.

The court decides that, under the circumstances, the agreement must be taken to have been entered into for a consideration, and that it is valid, in the absence of any fraud. No fraud was alleged in this case. The court finds no illegality in the assessment. J. E. Cotter and R. M. Sulton stand for petitioners; W. S. Sloom for defendant.

## Poor and Weak

Catarrh and Bronchial Trouble—Had no Appetite—Now Better in Every Way—A Delicate Child.

"Some time since I took a sudden cold and could not get rid of it. Being subject to catarrh and bronchial trouble I coughed terribly. I lost my appetite and grew poor and weak and I did not feel like work. I began taking Hood's Sarsaparilla. In a short time the cough disappeared, I slept well, had a good appetite and I was better in every way. Last spring I was not feeling well, I had no appetite and no strength. I resorted to Hood's Sarsaparilla and soon felt more like work. My little nephew was a delicate child and had a humor which troubled him so he could not rest at night. He has taken a few bottles of Hood's Sarsaparilla and now he has a good appetite and is able to sleep." Miss Abbie J. Freeman, South Duxbury, Mass.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. —A largely attended meeting of Echo Bridge Council, Royal Arcanum, was held Wednesday evening in the lodge hall on High street. After the transaction of important business, refreshments were served.

—Last Sunday's edition of the Boston Journal contained some excellent half-tone cuts of Echo Bridge and the Homelock Gorge Reservation, which form the principal parks in the Metropolitan Commission's system.

—The Upper Falls Athletic Club met Monday evening in its hall on High street. The leading feature of the evening's entertainment was a music town meeting. The different parts were acceptably taken, and the local hits were the cause of no little laughter.

—During the week a circular has been circulated about town announcing that some of the young people of this village have organized a club, calling themselves the Juvenile Club. They propose to present to the public a course of home entertainments to be given in Wade Hall, upon Thursday evenings, one in each of the months of November, December, January and February. These entertainments will be of as high an order as their capabilities will permit. A decided change will be made in the platform paraphernalia and entertainment will be so placed and conducted as to leave no loophole for any objection whatever, or reason why every one could not attend. They have succeeded in securing the services of some of the musical and dramatic talent of the village affords, to instruct them in their work. Whether they are able to carry out their project or not depends upon the public at large. In order to carry this through successfully, first, it is essential that they have the endorsement of the citizens.

—Through an error last week we reported Mr. W. R. Knight as gunning down on the cape. Mr. Knight has been in northern Maine after larger game and found it was plenty. He took pictures of the game, but not near enough so that he could see the whites of his eyes. He brought home two large deer which he shot.

## Lasell Notes.

A large party of the students saw Joe Jefferson in his inimitable character, Rip Van Winkle, during his engagement at the Boston Theatre.

Following out his plan to give the girls of Lasell as far as possible the training best adapted to make them self-reliant and capable women, Principal Bragdon continues this year the course of lectures upon business law for women, which has for several years made part of the Lasell curriculum. Miss Mary A. Greene of Providence, R. I., a lawyer of repute, is the lecturer, and delivered the first of the course of eight lectures, last week. She is a bright and interesting talker, and makes her subject, with which she is perfectly familiar, an attractive one.

The Symphony concert has been recommended, and Lasell, as usual, furnishes weekly her contingent of the Saturday evening audience.

On Sunday evening the Christian Endeavor Society of the semi-ary was addressed by Mrs. F. E. Clarke, on the subject "Mexico."

Professor Rich conducted a party to see the warships in the harbor, on Monday, and on the same day a party of the teachers and pupils visited Wellesley, Hunnewell's Gardens, the old Baker estate, and Echo Bridge, during a pleasant wheeling expedition.

Miss Lillie R. Potter, class of 1880, will lecture at Lasell Seminary on "Reminiscences of Travel in Syria," at 7.30 p. m., on Oct. 28th. Friends are welcome.

## BOSTON AMUSEMENTS.

TREMONT THEATRE.—Last Monday evening DeWolf Hopper and Sousa's bright and melodious comic opera, "El-Capitan," returned to the Tremont Theatre, Boston, where it had its first production, and where it has during the present week been largely in evidence, for pretty, tuneful, "El-Capitan," bigger, brighter and better than ever, has been witnessed by audiences limited only by the four walls of the theatre. Naturally as of yore, Mr. and Mrs. Hopper carry a good part of the performance on their own shoulders, and both of them have secured again and again for their specialties, while the singing of Miss Bergen is also a great feature of the performance. The peculiar humor of Alfred Klein and the splendid vocalism of Edna Stanley, make them unmistakable favorites, while Thomas S. Guise, Alice Hosmer, John Parr, Harry P. Stone and the remaining members of the cast, are excellent in their various roles. If there has been a comic opera company in Boston before, which contained so many fresh and pretty faces in its chorus as Mr. Hopper's does this year, it would be difficult to specify when. The opera is richly and handsomely mounted in every way, and everything goes with absolute smoothness and with a sparkle and snap that leaves nothing to be desired in that respect. On the opening night and at the close of the first act, Mr. Hopper was called before the curtain several times and finally was induced to make a speech, which was quite in keeping with the occasion, as well as a decided novelty in its way. Two notices will be given during the Hopper engagement, which is for one week longer.

If any proof of Mrs. Fiske's genius as an actress were wanting, the fact that she has been enthusiastically accepted as "Tess" in the play made from Hardy's "Tess of the D'Urbervilles" would furnish it. It is said that her psychological grasp of the character is so perfect, and her illumination of the living woman so vivid that all previous physical conceptions vanish before her. Happily, the theatre, public of this city will have an opportunity to study her in the character this season, as she appears at the Tremont, Nov. 1st.

## The Newton Mayoralty.

(Boston Herald.)

The suggestion which we made a few days ago that ex-Mayor Bothfield of Newton would be an excellent man to receive the nomination of mayor in that city at the approaching election has been received, we understand, with a great deal of favor in the city of Newton. Mr. Bothfield's many excellent qualities are well understood by his fellow-citizens, for he presents the somewhat rare combination of an extensive knowledge, obtained from careful study, of the theories of municipal government, and at the same time approaches the subject as a successful merchant from the standpoint of practical business. A great deal is hoped for in Newton by the change which is to be made in the city charter—a work in which Mr. Bothfield has taken a leading part. But we would remind the citizens of the thriving municipality that when such a change is made the success secured by it depends in a large degree on the ability and wisdom of the one who first puts the system into practice. Under a reorganized city government, the first mayor called upon to serve should have a thorough knowledge of and be in entire sympathy with the influences which brought about the change, because he must of necessity act in a large number of ways which will establish precedents for those who may come after him. It is proverbial that it is the first step that costs, and hence it is essential that the first step taken should be in the right direction. The satisfactory to know that not only would ex-Mayor Bothfield be an admirable man to nominate and elect, but that he will consent to accept the nomination and election it appears to be the wish of his fellow-citizens that he should so serve them.

## A Real Catarrh Cure.

## B. &amp; A. INSPECTION.

DIRECTORS AND COMMISSIONERS GOING OVER CIRCUIT AND MAIN LINE.

The directors of the Boston & Albany railroad, with the railroad commissioners, Tuesday afternoon, inspected the circuit and main line as far as Riverside.

Particular attention was paid to the work just being finished relating to the abolition of grade crossings on the north side of the city.

This work is practically completed, although the railroad has been delayed in opening all the bridges by the failure of the steel companies to supply trusses and girders as fast as needed. With the arrival of the steel the Washington street, Centre street and Centre place bridges will at once be opened for traffic.

The most important duty of the inspecting party was to look over the ground where it is proposed to effect a separation of grades on the north side of Newton on the B. & A. circuit.

The road is favorably considering the request of Newton residents that this work be taken up at once. It is probable that it will be begun as soon as the depression of tracks now in progress at Westboro and South Framingham is brought to completion.

The city of Newton is particularly anxious that this improvement be carried through at the earliest moment, in order to secure the settlement of real estate values in the sections interested.

The city council has already made an appropriation for plans, and the city engineer, with the engineers of the B. & A. will at once begin the preparation of estimates and plans for the depression of tracks in Newton Centre and Newton Highlands.

It is estimated that at present the cost of separating the grades would not exceed \$500,000, as only six crossings will be affected. Land in the vicinity of most of the crossings is held at a comparatively low figure.

## The Oak Hill Alderman.

To the Editor of the Graphic:—

At a meeting of the citizens of the Oak Hill district of Newton, held last week, Mr. Herbert D. Ward made a brief address, in which he earnestly thanked the people for the honor conferred in selecting him as their choice for a candidate to be supported in the coming caucuses for membership in the board of aldermen from Ward 5. He said that owing to the demands upon his time and attention caused by his membership on the state board of prison commissioners, he felt that the duties of the latter position would be liable to conflict with those of the former, for which reason he requested that another name be presented with a view to the aldermanic position. He pledged himself in very warm terms to do all in his power in support of whomever might be agreed upon.

Under these circumstances the meeting voted unanimously to substitute for Mr. Ward's name that of Mr. Frank Irving Cooper.

Mr. Cooper resides on Dudley street, between Boylston and Greenwood street. He owns a fine estate of several acres, built from his own plans.

He is an architect by profession, and has through comparative young man has already achieved marked success. At the time of the death of the celebrated Richardson, Mr. Cooper was under engagement with him to enter his office as an assistant. The task of carrying out the business plans which remained wholly or in part unexecuted at the time of the great architect's death was undertaken, in accordance with his last expression of his deathbed wish, by the well known firm of Shepley, Rutan & Coolidge. By far the most important of these plans left by Mr. Richardson were those for the Allegheny County court house in Pittsburgh, Pa. That building attracted attention throughout the country at the time of its erection, and is by many competent judges considered as ranking next to Trinity church in Boston as a Richardson masterpiece. The cost was between \$2,000,000 and \$3,000,000.

Mr. Cooper was sent to Pittsburgh as supervising architect for the Boston firm already mentioned, and under his supervision the court house construction was continued from early in 1887 to its completion and furnishing in 1889.

While in Pittsburgh he received from Mr. Andrew Carnegie a \$2000 prize for a competitive design for the magnificent new building which the great millionaire manufacturer presented to the city of Pittsburgh. Since entering upon the independent practice of his profession in Boston, Mr. Cooper has been employed as chief architect of many important buildings, both public and private, among those of the former kind being the Bristol County court house at Taunton, costing \$285,000, and the Malden High school building, costing \$100,000.

Mr. Cooper is an enterprising and public spirited citizen, who enters with tireless enthusiasm into movements having the general good of the community in view. He has already taken hold of more than one improvement of a local nature in Newton, and pushed it to success. He is affable and personally liked. He understands the art of mixing with men and dealing with affairs. He is a gentleman of spotless reputation, high character, fine culture, and marked ability. There is every reason to expect that if he becomes a member of city government, he will be the Oak Hill section of Newton only but the entire municipality will find in him a faithful and efficient friend.

## The New Cars From Newton.

The Wellesley & Boston cars are now running from Nonantum square, Newton, to the Lower Falls via Newtonville and West Newton, every fifteen minutes until ten o'clock p. m., after that every thirty minutes to midnight. The leaving time is half way between that of the Newton cars on the Waltham line. Vestibule cars are the only ones in use, making the cars more comfortable for the passengers as well as the motormen and conductors.

Beginning Sunday, Oct. 31, the Newton Centre line will go into operation. The cars will leave Newton every twenty minutes for Newton Centre via Washington street, Newtonville square, Walnut street, passing the Newton Club and the High school, to Homer street, and then to Centre street. There will be five cars, and transfers will also be placed in the conductors' hands, which will entitle a passenger on the payment of five cents, to a ride on any part of the city of Newton, Watertown or Needham, reached by the lines of the Newton & Boston or Wellesley & Boston cars.

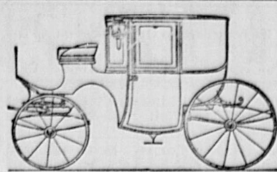

The Newton & Boston cars are now operating without change between Newton Upper Falls and Watertown; in fact the run is from Needham via Highlandville, Upper Falls, Newton Highlands, Commonwealth avenue, Newtonville, Nonantum, Watertown square and Watertown Arsenal, all for the price of one fare, five cents. Cars are run now every twenty minutes to ten o'clock in the evening, and then every thirty minutes to midnight.

## NEWTON CENTRE.

—Ivers & Pond pianos, Farley, Newton.  
—Mr. Wm. I. Howell has resumed piano lessons. See card.  
—Mr. Alward Ingram has removed to Brookline.  
—Mr. W. M. Mick is home from Chicago for a short visit.

—Messrs. Geo. E. Wales and F. C. Rising each brought home a deer from Maine last Saturday.

—Substitute letter-carrier Barry is to be transferred from the Newton office to the central postoffice.  
—Mr. John A. Baldwin and family have returned to their home on Cypress street, after a residence of several years in Brookline.

—An additional carrier has been allowed at Newton Centre. Postmaster Ellis made application for a line of carrier, mounted carrier, and permission to include the Oak Hill district in his delivery, but the department has refused to permit any extension at present.

—The funeral of Mr. Maxwell Lowery took place yesterday morning at 10 o'clock from his late home on Everett street. The Rev. Edward M. Noyes of the Congregational church officiated. There was a large number of business associates present, and the floral tributes were extremely beautiful. The interment was at Forest Hills cemetery.

—Miss Ethel, daughter of Mr. Oren W. Weaver of this place, and Mr. Frank Harding Adams of Revere were married Wednesday evening at the First Unitarian church, in the presence of a large company of friends from the Newtons, Boston and Wellesley. The ceremony was performed at 7:30 by Rev. George Phipps of Newton Highlands, and the bride was given away by her father. It was a "Wellesley wedding," the bride and groom, and one of the bride's attendants being Wellesley students or graduates. The maid of honor was Miss Isabella Moore 96 of Chestnut Hill, and the bridesmaids were Miss Clara Keene 96 of Brighton, Miss Mary A. Vinton 97 of Still River, Miss Harriet Viola Evans 97 of Haverhill and Miss Alice Ayles of Pawtucket, the groom's cousin. Mr. Herbert B. Fuller of New York was the best man, and Messrs. E. W. Bennett, son of Wellesley, Walter Howe and Harry B. Roberts of Boston, and Theodore Marsh of Dedham acted as ushers. The bride was gowned in white duchess satin with trimmings of white tulle and lace, and carried a bunch of orange blossoms, and a bunch of bride roses. Miss Moore wore pink liberty silk over pink satin, and carried a bunch of pink roses. The bridesmaids wore white organdie over white silk, with trimmings of pink and pink sashes. The church was elaborately decorated with masses of ferns arranged to form an effective background for pots of chrysanthemums. An informal reception at the home of the bride followed the ceremony. Mr. and Mrs. Adams will be at home Jan. 5, and 12 at 63 Avery street, Dedham. The bridegroom and maid of honor were presented with handsome gold pins formed as a wreath and set with pearls. The ushers received handsome scarf pins, set with pearls, also the gift of the bride.

—Sunday, the sixth anniversary of the laying of the cornerstone of the Sacred Heart church, of which Rev. D. J. Wholey is pastor, was observed by the opening of what is practically a new church. Six years ago, the edifice, as planned, was deemed sufficiently large to accommodate the Catholics of Newton Centre, but in increase of population brought with it increase of Catholic members, and the church was found to be entirely inadequate. Fr. Wholey therefore extended the church, completing it as to outside formation and the fitting up of a most beautiful lower chapel for present services. The church is of Romanesque style, seating about 1000 people. New sanctuary and sacristies have been lately added, the entire church newly decorated. At 10:30 o'clock there was a solemn high mass, with Fr. Wholey as celebrant, Rev. Dr. Supple of Cambridge as co-celebrant, and Rev. F. McDermott sub-deacon. The sermon, appropriate to the occasion, was delivered by Rev. Dr. Supple. In the afternoon at 3:30, solemn vespers were sung, the rosary recited by the children of the parish in procession, the entire parish consecrated to [CONTINUED ON SIXTH PAGE.]

## NEWTON HIGHLANDS.

—The C. L. S. C. will hold its next meeting with Mrs. Logan.  
—Mrs. Manson is spending a few weeks with friends at Dayton, Ohio.

—Mr. Jones, one of the Bishop Express drivers, has taken a suite of rooms in Mr. Weber's back house building.

—Mr. Frederick Stevenson of Detroit has been making a visit at the home of his father, Mr. Samuel Stevenson.  
—Mrs. S. C. Cobb, who has since her return from Scotland, been at Whitefield and Poland Springs, has now become a resident of the Highlands again.

—Dr. A. S. Wiley has bought of Mr. J. W. Scandlin his estate on Walnut street, which has been occupied by Mr. Copeland for the past year or more.

—We hear that Mr. A. S. Williams of Hyde street, has sold his house just completed, on Griffin avenue, to a Mr. Park of Jamaica Plain, who now occupies.

—Unitarian services will be held as usual in Highland club hall, Sunday morning, at 10:45 o'clock. Rev. Wm. Safford Jones will preach on "Is Life Worth Living."

—Rev. Ellis Mendell of the Boylston church at Jamaica Plain, will occupy the pulpit at the Congregational church next Sunday morning. Rev. Mr. Stevens' topic for the evening will be "Helps."

—The death of Mrs. Sprague occurred on Wednesday, Oct. 13th, after a long illness. The funeral service took place at her late residence on Saturday. Rev. Mr. T. Wombly officiated. Interment at Newton cemetery.

—The inspector of buildings has granted a permit to Charles W. Smith, to erect three houses on Flax street, to cost \$3000 each on land purchased of Mr. Moses G. Crane. Mr. T. H. Kingston is to be the builder.

—A good number of the members of the Congregational club from the Highlands church, attended its first fall meeting, Monday evening, at the Sacred Heart church, West Newton. Very interesting addresses were made by Rev. F. E. Clark of the Society of Christian Endeavor, and Mrs. Gulick a missionary from Spain.

—Mr. J. W. Foster, who was appointed guardian a few months since, of Mr. Leonard Bacon, brought a suit in the equity court in Boston, to obtain possession of ten shares of bank stock, transferred to Mrs. Mary H. Bacon, wife of Mr. Jason Bacon, and four shares transferred to the daughter of Mr. and Mrs. Bacon, a year or two after the first transfer. The charge set up by the guardian was, undue influence exercised over Mr. Bacon, and feebleness of mind, on account of old age. The case came up for a hearing last week, at which quite a number of our residents were in attendance, and gave their testimony. The judge has rendered his decision, which is that the ten shares may remain in the custody of Mrs. Mary H. Bacon, and the four shares transferred to the granddaughter

must be returned, to the possession of the guardian.

—The next meeting of the Monday Club will be with Mrs. E. H. Greenwood.

—The West End Literary Club will meet on Monday, Oct. 25th, with Mrs. Geo. B. King.

—The Misses Curliiss have returned from their visit in New York, accompanied by two lady friends.

—Mr. and Mrs. E. H. Corey, who have been taking a pleasure trip to Philadelphia and Washington, have returned.

—Mrs. C. H. Guild and Miss Sweetzer, who have been visiting friends at Brooklyn, for a few days, are home again.

—A house on Lodge road at "Rockledge" belonging to Mr. L. A. Ross, has been leased to a Mr. Farnum of Winchester.

—Mr. S. S. Colburn has leased his house on Woodward street, to Mr. Frederick Spear, and will remove to Newtonville.

—Mr. Alfred H. Allen, and wife, (formerly Miss Gallison) have returned from their wedding trip, and are at the home of Mrs. Gallison at Eliot.

—A dance is to be given in Lincoln hall, Saturday evening, Oct. 30th, under the auspices of the Unitarian Ladies Aid Society. Atwood's orchestra will furnish the music.

—A piano recital will be given in the Highland club hall by Miss Lillian F. Lamkin on Oct. 28, at 8 o'clock. Among other artists will be the famous Chas. N. Allen, violinist.

—Walter Keating, the son of Mr. J. P. Keating of Dedham street, who has been spending the past year at Albany, and the Catskills, on account of ill health, has now returned.

—Mr. Jagger, one of the conductors on the electric railway, and who occupies a suite of rooms in the Newhall block, has opened a dining room in another part of the block.

—The flag on the Highland mills elevator was displayed at half mast, on Wednesday, on account of the funeral of Mr. H. W. Crowell, which took place at his late residence at Newton.

—Mrs. Sennott, the wife of H. H. Sennott, one of the letter-carriers here, who resigned his position and deserted his family, has with her two children removed to Nonantum, and will have her home with her father and sister.

—The O'Connor family have had as their guest Mrs. O'Connor's sister and children, who have spent the summer in Dorchester, and have now gone to their winter home at Tampa, Fla. Mr. Allen Swan, professor of music, a brother of Mrs. O'Connor's, will spend the winter here.

—The wedding of Mr. Arthur William Wood of this place, and Miss Charlotte Ellen Greenwood of Needham took place on Wednesday evening, Oct. 20, at the home of her aunt, Mrs. C. C. Greenwood at Needham. Rev. Mr. Webb of that place performed the ceremony. They will make their home at the Highlands, and have taken a suite of rooms for housekeeping at No. 18 Lincoln street, in the Newhall building.

—Needham high school eleven defeated the Newton Highlands team at Needham last Saturday morning in a one-sided contest. A brilliant run of 60 yards around Newton Highlands' left end by Nichols and the work of Reamy in kicking the goals were the features of the game. The lineup:

## Harvard Defeats Newton.

Harvard defeated the Newton athletic association's eleven on Soldiers' field in Cambridge Wednesday afternoon, 24 to 0. In the first half Harvard scored but once and that was on good, long gains down the field in the first two minutes of play. During the rest of the half the ball would be worked gradually down to Newton's 15-yard line and then lost on downs, and the work began over again. This happened four times. In the second half three touchdowns were scored, two of them owing to poor passing by Newton's quarter-back, Cochran kicked every goal. The playing of the Harvard team showed a marked improvement in offensive work. The lineup:

Ex-Capt. T. F. Murphy of Yale, who saw the game, said that although he thought Harvard's ends were stronger than Yale's, he considered the lines of both eleven about equal, while he failed to see on the part of the Harvard backs that quick starting, and on the part of the whole eleven that aggressiveness which Yale showed Saturday.

To this may be added the comparison of Jack Corbett, the old Harvard player, who played halfback on Newton last Saturday against Yale and Wednesday against Harvard. He said: "So far as I could judge the lines of the two big eleven are of equal strength, but the Harvard's backs are not up to their opponents."

## Newton Single Tax Class and Club.

The next meeting of the Newton Single Tax Class and Club will be held Monday evening, Oct. 25th, at 8 o'clock, in the vestry of the Methodist church, Newtonville. There will be a short paper on the religion of the Single Tax, followed by five minute speeches by members and others. Criticism invited. As this is the first public appearance of the club it is hoped that all members will make a special effort to be present and bring their neighbors and friends with them, and that they will cooperate to make the meeting interesting and profitable. The program provided for the occasion is an interesting one and will be of assistance to inquirers or those who have recently become interested in the Single Tax movement, and the public is cordially invited. Literature will be supplied to those who desire it, books at marked prices, tracts free.

## An Excellent System.

As an instance of the excellence of the Bishop school of shorthand in the Tremont Temple building, whose advertisement is found in our columns, and now so popular, it may be stated that Mrs. Butters, on the second day's lesson, read fluently. Miss Yates on the 14th day wrote from dictation on practised matter at the rate of forty-five words per minute, re-reading correctly, and Miss Barnard, after sixty days' attendance, wrote new matter from dictation at the rate of one hundred words per minute, reading her notes without a single error.—Dorchester Beacon.

## NEWTON.

and a large force of men and teams are pushing things as fast as possible.

—Mr. Harrington will remove his news room to the old location in Cole's block, Oct. 30.

—Aban, Trowbridge & Co. have rented the Mandell east house, Maple circle, to Walter R. Furbush of Boston.

—Rev. Chas. E. Owen of Houlton, Me., who has been visiting Mr. L. B. Harrington and family, returned home this week.

—The members of the Eliot church subscribed \$170 at the Sunday services for the American Board of Foreign Missions. Last August \$1000 was raised in this church, making a total subscription of \$2700 in three months.

—Robert Shaw of Nonantum was struck on the head by a stone thrown by an unknown person while following the Salvation Army on Church street, Wednesday evening. He was attended by Dr. Carroll and several stitches were taken to close his wounds.

—Miss Clara Mulvey, daughter of Mr. and Mrs. John B. Mulvey, was married to Mr. J. Montgomery White of Newton, Wednesday evening, at the residence of Mr. and Mrs. C. L. Hamilton, Newburg street, Roslindale, by the Rev. John Norris of the Sacred Heart church.

—The Newton Star Course will be given hereafter in the new and attractive Y. M. C. A. Hall, and reserved seat tickets can be exchanged at Hudson's. The Y. M. C. A. will have charge of the management of the course. The next attraction will be "The Prisoner of Zenda," and will be an unusually interesting one.

—An enjoyable concert was given last evening in the Y. M. C. A. Hall, under the auspices of the local association. The program consisted of readings and vocal and instrumental music. Among the artists were Mr. Herbert W. Ireland, Miss Leonard, Mr. Percy J. Durrell, Mr. Charles G. Thompson, Mr. Albert E. Ferguson and Mr. George B. Archer.

—Last Sunday the subject of the Business Men's Class of Eliot church was "Public Schools: How far they should contribute to the training and development of children." The subject was ably discussed by Mr. H. C. Sawin, who made some valuable suggestions. This week Mr. F. H. Howes will speak on "The Consumers' League. Can such an association be made an effective force?"

—There is very little progress to report concerning the depression, although some iron has arrived for the Washington street bridge, which has aroused hope in the people who would like to cross at that point. One of the steam shovels was disabled this week, and the cars to be loaded have to be moved so often on account of the regular trains that it looks as if the road was preparing for a winter's job.

—The course of lectures by Leon H. Vincent, advertised this week, begins next Thursday evening with "Thackeray." The other lectures will be on Nov. 4th, 18th and Dec. 2nd, and the subjects will be "Carlyle" and his wife, Victor Hugo, Balzac and the "Comedy of Life." Mr. Vincent's lectures last fall were so much appreciated that his present course will doubtless be well supported.

—Mr. P. A. Murray has been in New York, attending the annual meeting of the National Carriage Manufacturers' Association. Prominent makers were present from all over the country, and there was an interesting exhibition of finished and unfinished carriages and parts of carriages. Mr. Murray found a number of valuable improvements made the past year, which he will introduce in his manufacture.

—The Women's Auxiliary to the Young Men's Christian Association are giving the ladies and children of Newton a fine opportunity for physical culture at their gymnasium classes on Wednesday afternoons and Saturday mornings. Mothers should see that their children join the classes early in order to get the full benefit of the season's work. No need of going to Boston with such advantages and good teaching in our midst. See adv.

—The Grace church choir football team played the Bigelows on the Hyde avenue field last Saturday afternoon. On the first half the Bigelows gained 6 points. There was some dissatisfaction and two more halves were played. The score at the close stood 4 to 4. The teams are: Choir boys—Morse, Stearns, L. Schenck, Macomber, G. Otis, A. Wilson, J. Eliot, F. Green, E. Hamblin, J. Otis; Bigelows—Flood, Rooney, M. Wood, Harrington, Sullivan, Noden, J. Maher, Lemon, W. Sprout, R. Sprout.

—A runaway accident, which may result seriously, took place Tuesday afternoon on Crafts street. Mrs. A. E. Ferris of H. H. Hume well hill was passing through the street in her carriage when the horses became frightened at a cow and ran away. The carriage had gone but a short distance when it collided with a tree, and was badly wrecked. John Leonard, the coachman, was thrown out, and struck the ground with such force that he had to be removed to his home, where he has since been confined to his bed. Mr. Ferris, although badly frightened, stayed in the carriage and escaped with a few cuts and bruises.

## REAL ESTATE.

Alford Bros. & Co. sold at auction Tuesday afternoon the estate 53 River street, West Newton, consisting of a 10-room frame dwelling and 9000 square feet of land. A Mr. Grossman was the purchaser, for \$3000.

The Abington Savings Bank have sold their house, corner of Phillips street and Commonwealth avenue, Auburndale, to Frank P. Cunningham.

The well known estate of the late Henry A. Gane on Waltham street, West Newton, has been sold. Dr. F. A. Williams of Boston purchased the homestead and two acres of land, and the remainder was bought by Capt. S. E. Howard of West Newton.

## Stenography and Typewriting.

A select school of stenography and typewriting for young ladies has been opened by Mrs. F. E. Lake, at No. 3, Park street, room 9, Boston, which promises to be a most decided success. Its nearness to the electric cars of Newton, numbers of which stop at Park Street church, and others which pass this location, gives splendid opportunity for the young ladies of Newton to secure the best of instruction in those branches with but very little inconvenience. Mrs. Lake has the best of testimonials as to her ability, among them the following: Boston Young Women's Christian Association, June 20, 1896.

To Whom it May Concern: This may certify that Mrs. F. E. Lake has had charge of the B. Y. W. C. A. school of Shorthand and Typewriting for the past five and one-half years. Results prove her work to be thorough and painstaking as seen in the success of the graduates of this school, who, to a marked degree, secure and retain positions of responsibility. Mrs. Lake has manifested a lively interest in the personal welfare of her pupils, and through her efforts and influence many have attained their present standing in business circles. We bespeak for her our best wishes, and believe she will have a successful future. (Miss C. V. Dineen, a former student.) General Supt. B. Y. W. C. A.

## Reasons for Voting for the New Charter, on Tuesday, Nov. 2, 1897.

It separates and clearly defines the executive and legislative powers.

The executive department will consist of the Mayor; the legislative department will consist of the Board of Aldermen. Neither can ever exercise the functions of the other.

The management of the public work will no longer be placed in the hands of committees of the City Council, composed, as they frequently are and often of necessity must be, of persons who have little or no experience in municipal affairs.

The Board of Aldermen will determine the work to be done and provide the means for doing it: the Mayor will be held responsible for its execution.

It simplifies the legislative department:

By consolidating the two boards without change in the number of members.

It prevents ill-considered and hasty action:

By providing that the objection of one member to the passage of a measure through all its stages at one meeting shall postpone it at least one day, and if, when it is next brought up, five or more members object, it shall lie over at least one week; and by further providing that one-third of the aldermen shall hold office for two years, ensuring some experienced legislators.

It is approved and recommended by  
His Honor, Mayor Henry E. Cobb,  
The City Council of 1896 without a negative vote,  
The City Council of 1897 without a negative vote,  
and the Charter Commission, consisting of

Hon. Henry E. Bothfeld, Chairman;

John T. Langford, Frederick Johnson,  
George M. Fiske, Dwight Chester,  
Henry D. Degen, Eugene Fanning,  
N. H. Chadwick, Louis E. G. Green,  
Mitchell Wing, Freedom Hutchinson,

**SPECIAL MEETING OF ALDERMEN MONDAY EVENING AND A REGULAR MEETING OF LOWER BOARD—BUSINESS LARGELY OF A ROUTINE NATURE—DEMOCRATS ASK FOR FREE USE OF CITY HALL—SEVERAL SEWERS ORDERED—NEWTON CLUB'S PETITION GRANTED—WEST NEWTON COLORED BAPTISTS ASK TO BE ALLOWED TO BUILD A CHURCH—NEW STREET WANTED ON WEST NEWTON HILL—\$167,000 FOR NOVEMBER EXPENSES.**

A special session of the aldermen, which lasted over an hour, was held Monday evening, largely for the consideration of routine business. All members were present when Mayor Cobb called the board to order.

## HEARINGS.

A hearing was opened on the petition for a sewer in Cornell street. No one appeared and the hearing was closed.

A hearing for location of a sewer in Manet road followed. Mr. Bellows spoke in furtherance of the petition, and urged the construction of the sewer, which was very necessary.

There was no remonstrance and the hearing was closed.

At the hearing for a sewer in Pine Grove avenue, which followed, no one appeared. The petition of Seminary avenue, Auburn, residents, for concrete sidewalks was next given a hearing.

Mr. Duke, a signer of the petition, appeared in its behalf. He spoke of the great necessity of a concrete sidewalk, which was demanded by the bad condition of the street.

Mr. Bragdon of Lasell Seminary was much opposed to the plan. He thought the street was not used sufficiently to warrant the expenditure of such amount. There had been some repairing done in the spring, but this did not improve the condition of the street to any great extent. The condition of the city's finances would not warrant, he thought, the laying out of this money. The sidewalk was desired by land owners whose property represented about 200 feet, while the remonstrants had 463 feet frontage. If the sidewalk was ordered he thought it a case of the tail wagging the dog.

Mr. Duke spoke further in behalf of the petition, and the hearing was closed. The next hearing which developed a little excitement was that on the order for edgstones on Thornton street in front of the Flood and Stevens estates.

Mr. Flood appeared for his wife and was much opposed to the plan. He thought the stones unnecessary. Mrs. Flood did not care to make the expenditure for this improvement at present. He thought the plan for edgstones was a scheme of Councilman Potter.

Mr. Potter, who was in the room at the time replied, saying he rose on a question of privilege. The councilman from Ward 1, he said, did not state a petition.

It was circulated by abutters on the street. These edgstones were desired by abutters representing 1500 feet, while it was opposed by these two estates, each representing about 200 feet.

Mr. Flood said in reply that Mr. Potter had called on him with the petition, and he also called him up by telephone. Mr. Laflie had also brought the petition to him, saying he had been requested to do so by Mr. Potter.

This hearing was closed. A hearing on the sidewalk on Walnut street was opened and closed as no one appeared.

The joint hearings having been concluded, the doors of the council chamber were closed and the session of the aldermen resumed.

On motion of Alderman Hobart the reading of the Journal was dispensed with. A communication was received from Alderman Allen, thanking the board for its sympathy in his bereavement.

The board authorized the joint use of street railway tracks by the different companies.

## PETITIONS.

Petitions were received by the board as follows: From Wm. H. Baker requesting the free use of city hall for a political meeting.

Mr. Baker stated that he had repeatedly applied to the city messenger for this permission and had been refused. He saw no reason for this as he believed the hall public property. The petition was referred to the public property committee.

Alderman Roberts moved that the petition of the Newton Club for permission to maintain a boiler room in the Thompsonville and Franklin buildings, and the need of a thorough examination of the Bigelow building with a view to determining if its condition would warrant its repair or whether a new building should be erected.

Mr. Ward for the committee on rules presented an order providing for the adoption of schedule of rates of salaries to be paid to various teachers, which was referred to this committee at the last meeting. He suggested that the matter be considered in executive session. Mrs. Anders objected to the establishment of the director of music salary for \$1,600. Then the board went into executive session and directed its attention to this one point in the schedule.

When the doors were opened the order was adopted as presented by Mr. Ward with the exception of the item under discussion, which was laid on the table for further consideration. On motion of Mr. Brackett 3,500 copies of the annual report were ordered printed.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the results was a speedy and permanent cure. We have no hesitancy in recommending this excellent Cough Remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by E. F. Partridge, Newtonville; Lacroix & Genest, Nonantum; B. Billings, Newton Upper Falls; J. H. Green, Newton Highlands.

**TREMONT THEATRE**—The character sketches in Mrs. Fiske's "Tess of the D'Urbervilles" are said to be supremely entertaining. Among them the "Joan Burdfield" of Mrs. Mary Barker, a sterling actress remembered here in distinguished company, and the "Marion" of Mary Shaw, an artist everywhere highly esteemed, are prominent. The piece will be presented at the Tremont Theatre, Nov. 1.

## A Card.

We, the undersigned, do hereby agree to refund the money on a 50c bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25c bottle to prove satisfactory or money refunded. J. G. Kilburn W. F. Hahn.

of West Newton hill, and requesting that a new street be laid out between Chestnut and Highland streets, to furnish a convenient approach. A hearing was ordered on this petition for Nov. 2.

On Alderman White's motion it was voted to have the city engineer present figures at the hearing, on the estimated cost of the proposed improvement.

H. H. Hunt's petition for a one-story frame storage shed on Newtonville avenue for use of city was granted.

## COMMITTEE REPORTS AND ORDERS.

The highway committee recommended the construction of concrete sidewalks on Hull street and Hunnewell terrace, Seminary avenue, St. James and Walnut streets, also edgstones on Thornton street. Report accepted.

The finance committee through Chairman White favored the expenditure of \$500 for an ambulance to be used by the board of health in conveying contagious cases to the hospital.

An order appropriating \$300 for this purpose was introduced and adopted. It was also ordered to construct concrete sidewalks on Hull, St. James and Walnut streets, Hunnewell terrace and Seminary avenue. Also to place edgstones on Thornton street.

The sum of \$167,000 was appropriated for the November department expenses. Orders were adopted for the installation of sewers on Manet road, Cornell street and Pine Grove avenue.

Alderman Baily introduced two orders regarding the Waban Hill road matter.

The first order that the numbers put on Waban Hill road and Waban Hill terrace so-called, be rescinded, as neither is in the postal district.

Also that the use of these names for any municipal purpose shall be in no way an official designation or recognition of the same.

Adjourned until Nov. 2.

## SCHOOL BOARD.

**CONSIDERS MATTER OF SALARIES BEHIND CLOSED DOORS AT ITS REGULAR MEETING WEDNESDAY EVENING—SEVERAL NEW APPOINTMENTS—ANNUAL REPORT OF THE COMMITTEE—OTHER MATTERS OF IMPORTANCE.**

The school board held its regular session Wednesday evening with Mayor Cobb in the chair and ten members present. The meeting was chiefly notable as marking a new departure on the part of the committee, that of considering the question of salaries behind closed doors, notwithstanding the fact that the rules of the board only permit of executive sessions for the consideration of removals and appointments.

Carrie M. Ring was appointed first assistant in the Peirce school at a salary of \$720, and Nellie P. Rand was appointed a substitute first assistant at a compensation of \$55 per month. Philip Goodrich was appointed master of the evening drawing school and Willard Marcy, F. H. Keyes, E. R. Chase, J. S. Whitehouse and Mary J. Callahan assistants in the evening schools. On recommendations of the Ward Four committee Miss Annie B. Smith was granted full pay for the first two weeks of the school year, during which time she employed a substitute.

The superintendent's report showed a total enrollment in all grades of the public schools of 5,045 against 4,800 last year. Superintendent Aldrich also noted a decrease in the number of overcrowded school rooms.

At his recommendation the superintendent was granted authority to arrange for a teacher's institute to be held in Newton for the purpose of closing the public schools on the day selected.

A communication from the Newton Federation of Women's Clubs, urging the extension of the teaching of manual training in the schools, was presented by Mr. Bond and referred to the committee on courses of study. Mr. Bond also presented resolutions on the death of George L. Chandler, supervisor of nature study in the public schools, which were adopted by a rising vote.

Orders were adopted appropriating \$17,962 for the expenses of the department during the month of September, and \$135 for the purchase of furniture for the new Peirce school.

Mr. Howes of Ward Seven presented the annual report which called attention again to the need of more room in the Thompsonville and Franklin buildings, and the need of a thorough examination of the Bigelow building with a view to determining if its condition would warrant its repair or whether a new building should be erected.

Mr. Ward for the committee on rules presented an order providing for the adoption of schedule of rates of salaries to be paid to various teachers, which was referred to this committee at the last meeting. He suggested that the matter be considered in executive session. Mrs. Anders objected to the establishment of the director of music salary for \$1,600. ## SMOKE AND FOG.

**CAUSE THE FIRE DEPARTMENT HEAPS OF TROUBLE.**

The members of the Newton fire department had one of the worst experiences in the history of the department last Saturday night. It was not a stubborn fire which caused the trouble, but the mingled smoke from a huge peat fire and the thick mist, which formed an almost impenetrable barrier to the progress of the apparatus and caused the ditching of one engine and narrow escapes for others.

Shortly after midnight, and before the apparatus stationed on the south side of the city had been dismissed from the fire for which box 323 was sounded, an alarm was rung in from box 64. Coming at this time it constituted a second alarm, and apparatus from the north side of the city immediately responded to the box which is located in Newton Highlands square.

The apparatus from West Newton met with a sudden check on Homer street at "Cold Spring City," however. As chemical A entered the valley it was suddenly shrouded in darkness. Driver Rawson was unable to see a foot ahead and quickly brought his horses to a walk.

A moment later the horses and forward wheels were off the road and hopelessly mired in the ditch. While in this position the patrol wagon from police headquarters passed the chemical without seeing its lights in the darkness.

It was necessary to send a man ahead of this wagon with a lantern to show the way, and five feet from the horses' heads its light was not visible. After a few minutes of this kind of progress the attempt to proceed was relinquished and the wagon returned to headquarters.

A man was sent from the chemical engine to secure a rope from the Newton & Boston street railway company's power house, but he was able neither to find the station or return to the engine.

Finally help was secured, and after an hour's work by 25 men the chemical engine was landed on dry ground uninjured.

In the meantime engine 2 was obliged to be led by a man with a lantern, and the horses were kept at a walk. Even thus a collision with an electric car, whose headlights were not visible in the smoke and fog, was narrowly averted.

So dark was it that the firemen were obliged to stop frequently and grope for fences and street corners, and the electric lights were unable to pierce the murky blackness. Almost by miracle, however, their experience have they encountered such darkness.

The fire was in the house of Miss Lillian K. Mackenzie of the Avenue street, Newton Highlands, and was incendiary.

Miss Mackenzie was alone in the house, when she was awakened by the smell of smoke. On investigation she found the cellar in flames.

The fire had been set in four places after the woodwork had been liberally saturated with kerosene. A large pile of straw in the centre of the cellar had been soaked with kerosene, but not lighted. The fire was extinguished before it had spread beyond the cellar. The damage amounted to \$150. Insured. The police are now investigating the matter.

As a result of the accident to chemical A, the city authorities have taken up arms against the peat fire in the Cold Spring bog, which has been burning for the past two weeks. Trenches are being dug to confine the fire to its present locality and the city water will be turned on to flood the same and extinguish the fire. For the past few nights, owing to the heaviness of the air, the vicinity of Homer and Walnut street has been wrapped in such a blanket of smoke that it has been impossible to see at a distance of five feet, even with the aid of a lantern.

## Somerville Scores 58 Points.

Somerville High practically won its title to the championship of the Junior Inter-scholastic League for '97 Saturday afternoon, by defeating Newton High, which was considered its strongest competitor, on the Newton grounds, by the overwhelming score of 58 to 0. Only five times in the game did the losing eleven have the ball in its possession, and in all this time it was not able to advance it more than 25 yards into the enemy's territory. For Newton, Plimpton at quarter and Owens at tackle did effective work.

## TRYING ORDEALS FOR WOMEN.

**Mrs. Pinkham Tells How Women May Avoid Painful Examinations.**

To a modest, sensitive, high-strung young woman, especially an unmarried woman, there is no more trying or painful ordeal than the "examinations," which are now so common in hospitals and private practice.

An examination by speculum, or otherwise, is sometimes a positive necessity in certain stages of many diseases peculiar to women, so at least it is declared by the profession. This would not be the case if patients heeded their symptoms in time.

If a young girl's blood is watery, her skin pale and waxy looking, her lips colorless, bowels torpid, digestion poor, her ears and temples throb and she is subject to headache, begin at once to build up her system with Lydia E. Pinkham's Vegetable Compound.

Do not allow her to undergo a physical examination. Here is a letter from a young lady who requests that her name should not be used, but gives her initials and street number so that any inquiry addressed to her will be received. She says:

"Dear Mrs. Pinkham:—It affords me great pleasure to be able to say a few words in regard to the merits of your Vegetable Compound. I was tempted to try it after seeing the effects of it upon my mother, and now I feel like a new person. I am a stenographer and was troubled with failing of the womb and female weakness in general. I continued to work until I was so weak I could no longer walk, and the last day I was forced to stop and rest.

"I was then so ill that I was compelled to stay in bed, and so nervous that I could not hold anything in my hands. The least noise or surprise would cause my heart to beat so loudly, and I would become so weak that I could hardly stand. I suffered for almost a year. It is different now. I can go about my work with pleasure, while before, work was a drudge.

"Trusting that my words of praise may help some other afflicted person, and be of benefit to womankind in general, I remain, Yours in gratitude, L. H., 444 S. East St., Indianapolis, Ind."

## THE NEW CITY CHARTER.

MR. JOHN T. LANGFORD GIVES STRONG REASONS FOR ITS ADOPTION.

To the Editor of the Graphic:—  
The new city charter will come before the voters for their acceptance or rejection at the state election to be held next Tuesday, November 2nd, and every voter in the city should register his choice thereon. The city government has mailed a copy of the charter to every voter that he may be informed of that upon which he is asked to vote, and having done its part the city and all who have contributed to the production of the charter have every reason to expect that the voter will do his part also. Those who from personal considerations oppose the passage of the charter can be depended upon, not only to be present at the polls and vote, but also to exert their influence to secure its defeat, and the friends of the charter should likewise be present at the polls, vote and exert their influence to secure its enactment. Over-confidence and neglect of the voters to attend the polls and vote can alone defeat the charter.

The present city charter which is a slight revision made in 1882 from the original charter enacted when the city was incorporated in 1873, does not meet the necessities of the city at the present time, nor insure for it a wise and economical administration of its affairs. This has long been recognized and acknowledged by those who have had to do with the government of our city. The existing order of administration in our city is behind the times, while a city like Newton with its large intelligence and broad public spirit should lead in all wise municipal reforms. Since 1882 several unsuccessful attempts have been made to establish a new charter and correct the defects and limitations which the present charter contains. The new charter which the legislature of 1897 has enacted contains changes that are of great importance to the economical administration of our city, and every citizen should give it a careful reading that he may vote understandingly.

This charter is the result of deep thought and earnest labor on the part of the charter committee, composed of twenty-two citizens, all experienced in municipal affairs and in the subject they were called upon to consider. From these citizens were selected to impartially represent the citizens, and seven members of the city council were selected to represent the government in this work, together, this committee devoted four months to the consideration of this important subject, after which they unanimously presented a charter to the city council of 1896, which council revised their work, making some changes which seemed to them necessary, and then unanimously adopted the charter. The city council of 1897 reviewed the work, making some perfecting changes, then unanimously adopted the charter and instructed the mayor to ask the legislature to enact the same.

The committee on cities of the legislature gave to the charter a two days' hearing, at which time every citizen who desired changes therein was given an opportunity to be heard, after which a few perfecting changes were made by this committee and the charter, as now presented to the voters, was unanimously enacted by the legislature. After the careful consideration it would seem the part of wisdom for the people to give the charter a unanimous support and a faithful trial. That this charter is an ideal one from the standpoint of every citizen of every member of every several bodies that took part in its enactment, is not to be expected, for it would be impossible to frame and enact a charter to suit every one or to which some opposition could not be raised, but it is as near an ideal in its application to the necessities of our city, as the combined wisdom and experience of its framers believed the citizens were prepared to accept, or that it was wise at this time to establish.

It is a grand advance from the present charter and lays a broad foundation upon which can be built in the fulness of time when experience has demonstrated their necessity, changes recommended by the charter committee but rejected by the city council, chiefly on the ground that the people would not today accept the same. They had not such strong faith and confidence in the people as the charter committee had, hence their timidity, but take it all in all the citizens are to be congratulated upon having placed before them so good a charter, one embodying so many excellent features, each of which have been tried and proved in other cities to be of unquestioned advantage to the municipalities that put them into practice. No doubtful experiments are offered, every feature embodied has stood the test of time and experience, giving assurance that under this new charter the affairs of our city can be far more successfully and economically administered than it is possible under the existing charter, that the business government can be conducted thereunder, the responsibility for shortcomings and extravagances can be placed, and the remedy successfully applied.

It has been said that this charter attacks the interest of the laborer, in that it promises economy instead of wasteful extravagance in the administration of the affairs of our city, thus cutting off work from the poor man. This statement is misleading and is not true, for under the new charter every laborer will receive all that he is justly entitled to receive under the present charter, and the economy which the government will be enabled to practice under the new charter will greatly benefit the laborer, for it will give the city funds to expend in carrying forward needed improvements of which there are and always will be plenty requiring attention, thus furnishing added work for every honest laborer to perform. That the charter will enable the government to place a check upon a shiftless or dishonest execution of the city's work, is true, for that is what its framers intended and what they believed every honest laborer desired, for the interest of the city should be the laborer's interest as their interests are and ever will be cared for by the city, but all employees, whatever their vocation, who are unwilling to perform an honest day's work for the pay which the city gives them, had better vote against the charter on election day, for so sure as this charter is adopted and competent officials are placed in charge of its executive departments, just so sure will every economy take the place of present extravagance in what is commonly known as public work, while its supervising and salutary influence will be experienced in every department of the government where money is expended. JOHN T. LANGFORD. Newton, Oct. 25, 1897.

## NEWTON SINGLE TAXERS.

HOLD MEETING IN VESTRY OF METHODIST CHURCH, NEWTONVILLE—ADDRESS BY MR. C. B. FILLBROWN AND RE-MARKS BY OTHER MEMBERS OF THE CLUB—AN INTERESTING MEETING.

The fourth meeting of the Newton Single Tax Club was held in the vestry of the Methodist church at Newtonville, Monday evening, Oct. 25th. There was a good attendance and an interesting meeting was held. Mr. C. B. Fillebrown delivered a short address on the religion of the Single Tax, stating briefly the broad principles upon which it is founded, and dwelling particularly upon its ethical and religious bearing. In opening he said:

"I am sure that I speak for all the members of this club when I express the great pleasure we have in making our semi-annual debut, not under the auspices, but under the hospitable roof of the Christian church, for which courtesy we tender our thanks to the trustees of the Newtonville Methodist society. There is not one of our club whose motive is other than a most earnest desire to help in bringing in the reign of the kingdom of heaven upon earth. We hope to make ourselves the most powerful ally of the Christian church in the promotion of that justice among men, that 'works' without which the gospel of love cannot have its full fruition.

"We have no word to say, no principle to advocate that can be out of harmony with the sacred concord of this place."

Mr. J. P. Willis was the next speaker and he dwelt upon the vexed social problems of the day, referring to the vast array of involuntary and undeserved poverty which was crying for a remedy. He said that in giving a man the advantages of schools, churches, newspapers, etc., you were increasing his wants by the very means which were increasing his poverty which was crying for a remedy.

## GOOD STENOGRAPHIC WORK.

NOTABLE EXHIBITION GIVEN BY PUPILS OF THE BISHOP SCHOOL IN TREMONT TEMPLE.

The exhibition in stenography given by Miss Eva Rosenthal after one week's study of the Jugendgarten plan at the Bishop school in Tremont Temple, this morning, offsets the old theory that the science of shorthand is an impossibility to the average mortal. Her speed, although but 20 words a minute as yet, showed phenomenal results.

Again, Miss Julie Gilchrist of Somerville, after one month's experience in the new system perfected by Mr. E. C. Merrill, but originated by Mr. Bishop, the official stenographer of the New York Stock Exchange, demonstrated that the old bugbear of "getting up speed" was all in the thought. As a climax to the exhibition, Miss Edith F. Barnard of Waltham, who has completed the two months' course requisite for graduation, took dictation from a philosophical treatise at the rate of about 80 words a minute.

The bride procession was headed by the ushers, Mr. Michael Murphy, Mr. John Vachon and Mr. Farrell. The flower girls, Miss Mary English and Miss Creta Vachon, followed. The bride was met at the altar by the groom and best man, Mr. Louis A. Vachon. The bride was given away by her father. After the ceremony a wedding breakfast was held at the home of the bride's parents. In the afternoon she received the children's choir and in the evening a reception followed. Mr. and Mrs. Vachon left on a wedding trip and after their return will reside on Centre street.

## NEWTON CLUB.

ANOTHER VICTORY FOR NEWTON TEAM. The Newton Whist team successfully defeated the Robinson cup Saturday against the Providence Athletic Association in the New England Whist tournament, defeating the Rhode Islanders by one trick. The total score was Newton 14, Providence 13. The Newton Club was represented by Casey, Sprague, Copeland and Hickox. The Providence team was Barney (captain), Hall, George and Wrightman. A second round from the Newton team played the American Whist Club in Boston, Saturday, for the Morse trophy, and was defeated by three tricks. Next Saturday the American Whist Club team, comprising the players that won the Hamilton trophy at Philadelphia last year, Becker, Ward, Bouve and Fenellosa, will play the Newton four at the Newton Club for the Robinson trophy.

## Lasell Notes.

A small party, Mrs. Jones accompanying, attended last week Mr. Dunham's organ recital at the Shawmut church, Boston, a privilege which should always be highly valued, especially by the organists of the organ for Mr. Dunham is a fine musician, and a master of the instrument.

The usual Saturday evening symphony party, accompanied by Miss Kendrick, attend the last concert.

Sunday evening was made more than usually pleasant by another sacred concert in the chapel. Mr. Gordon Marble, with several others of the village furnished excellent orchestra music, and the students gave additional charm and variety to the entertainment by singing favorite hymns from little to time.

Miss Lillie Potter, a graduate of Lasell of some few years ago, and a woman of ability, lectured at the seminary on Thursday evening. Subject: "Reminiscences of Travel in Syria."

Miss Mary A. Green of Providence, R.I. gave on Saturday afternoon last the first of an instructive course of lectures upon character writing is an impossibility to the average mortal. Her speed, although but 20 words a minute as yet, showed phenomenal results.

Again, Miss Julie Gilchrist of Somerville, after one month's experience in the new system perfected by Mr. E. C. Merrill, but originated by Mr. Bishop, the official stenographer of the New York Stock Exchange, demonstrated that the old bugbear of "getting up speed" was all in the thought. As a climax to the exhibition, Miss Edith F. Barnard of Waltham, who has completed the two months' course requisite for graduation, took dictation from a philosophical treatise at the rate of about 80 words a minute.

This school is the first in the world to apply Froebel's kindergarten methods to the stenographer.—Boston Herald.

The wise doctor when he is called in to attend a patient, knows that she could avoid the agony that she endures by taking proper care of her womanly self. No woman can long retain her general health who neglects the health of the organs that constitute her womanhood. She may suffer only locally for a time, but eventually the nerves are ruined by the constant wear and tear of pain. They cease to impart the necessary nervous activity to the various organs of the body. A general and serious break-down follows.

A wonderful medicine for weak, nervous women, who through local troubles are threatened with a general break-down is Dr. Pierce's Favorite Prescription. It acts directly on the delicate organs that are directly feminine. It restores them to vigor and health. It allays inflammation and soothes pain. It gives the tortured nerves a rest and permits them to resume their natural function of directing a healthy activity of all the organs. It prepares a woman for wifehood and motherhood. It makes baby's advent easy and almost painless and insures the child's health. It is the best woman's medicine and more than 60,000 women have said so over their signatures. Druggists sell it.

"I cannot say too much for Dr. Pierce's Favorite Prescription," writes Miss Clara Baird, of Bridgeport, Montgomery Co., Pa. "I feel it my duty to tell all women who may be suffering from any weakness or disease of the distinctly feminine organism that it is the best medicine on earth for them to use. I cannot praise it too highly for the good it did me. If any one doubts this give them my name and address."

Dr. Pierce's Pleasant Pellets are a sure, safe, speedy and permanent cure for constipation. They never gripe. One is a gentle laxative, and two a mild cathartic.

## CURIOUS CAMPAIGNING.

Evidently we are to have an old-fash-  
ioned contest over the city election, this  
year, and this will be of great benefit to  
the city in many ways. The voters will  
be aroused to take some interest in city  
affairs. In elections without a contest,  
there is nothing to remind voters that they  
have any direct interest in the city govern-  
ment of Newton, and it becomes difficult  
to induce good men to take office. No city  
can be well-governed where there is no  
strong opposition to watch what is done in  
city affairs.For these reasons it is fortunate that  
such a spirited contest has already begun  
over the choice for Mayor for the coming  
year, and the friends of the two leading  
candidates are doing some vigorous cam-  
paign work.But the friends of Mayor Cobb should  
be more careful to secure accurate infor-  
mation in regard to city affairs. In their  
zeal for their candidate, they should not  
make statements which they would find  
on investigation are without any founda-  
tion.We had occasion last week to call at-  
tention to a number of names they had  
secured by stating that Mr. Bothfield would  
not accept the office, and this week it has  
come to light that they are stating that it  
would be unwise to select Mr. Bothfield  
because of his official connection with the  
Boston & Albany railroad.As Mr. Bothfield was engaged by the  
City Council and Mayor Cobb to represent  
the city in negotiating with the Boston &  
Albany, in matters relating to the abol-  
ishing of grade crossings, and also in regard  
to settling claims for damages from the  
widening of Washington street, such a  
statement becomes ridiculous, and those  
who made it could not have been aware of  
the facts.The simple truth of the matter is that  
Mr. Bothfield has secured so many valuable  
concessions from the rail-  
road, that the railroad at first refused to  
grant, in the way of additional bridges,  
and other conveniences for the people,  
that the City Council, after trying to get  
along without him, was compelled to ask  
him to continue to represent the city. Of  
course if Mayor Cobb had been in the city  
council previous to his election as Mayor,  
and had had the experience and tact re-  
quired to continue the work begun by  
Mayor Bothfield, such a course would not  
have been necessary.This is one of the strongest reasons why  
Mr. Bothfield should be elected Mayor this  
year, so that he may close up the work he  
has begun, as the interests of the city  
would require that he should be retained,  
no matter who is chosen as Mayor. It is  
an admitted fact, by all who know any-  
thing about the matter, that Mr. Bothfield  
secured more concessions from the rail-  
road than any one had deemed possible,  
that he looked carefully after the interests  
of the city, and because he did these  
things to argue that it would not be con-  
sistent to elect him Mayor, show how lit-  
tle information many citizens have of  
city affairs. It only emphasizes the  
necessity of having contests in city  
politics, so that citizens will be roused to  
take some interest in city affairs, and in-  
form themselves of what is going on.

## WASHINGTON STREET DAMAGES.

Among the objections to Mr. Bothfield  
that Mayor Cobb's friends are presenting,  
is that so much money was paid for dam-  
ages along Washington street; that the  
Newton bank grounds were not taken for  
the widening of the street, that French's  
corner was not cut off and all the buildings  
between Washington street and the rail-  
road removed. It is certainly curious how  
little information those making these ob-  
jections have of city affairs.In the first place comparatively few  
claims for damages were paid during Mayor  
Bothfield's term of office. They came up  
the next year, and there was so much con-  
fusion about the matter, so many extrava-  
gant prices were paid, that finally the city  
council had to put the matter into the  
hands of ex-Mayor Bothfield, in order to  
protect the city treasury. After that date  
the claims were settled on as reasonable  
terms as the committee and Mr. Bothfield  
could secure, and although some of the  
claims were exorbitant, they were felt to  
be less than it would cost the city if carried  
into court. It would have saved the city  
many thousands of dollars if Mr. Bothfield  
had been placed in charge at first, as the  
committee of that year will testify.In regard to the bank building, that mat-  
ter was not absolutely settled while Mayor  
Bothfield was in office, but was agitated  
the next year. President James F. C.  
Hyde of the Savings Bank says that before  
getting plans for their new building or tak-  
ing any action, he went to Mayor Cobb andasked him if the city had any intention of  
taking the bank grounds, and was told  
that it had not. Then the bank went  
ahead, moved off their old building, let  
their contracts, had the cellar dug and the  
foundation partly laid, when there arose a  
great demand for the city to seize the land,  
a hearing was held, and because the banks  
asked to be compensated for the expense  
they had been to, the cost of taking the  
land was held to be so great that the plan  
was given up. Mr. Bothfield can hardly be  
held responsible for this.As to French's corner, that was taken  
off in the plan of widening adopted under  
Mayor Bothfield, and it would have been  
better to have widened Washington street  
at that point as contemplated, but last year  
the city council voted not to take French's  
corner or to widen the street on that side,  
which is felt by many to have been a mis-  
take, as the street is too narrow at that  
point, with all the electric cars in Nonan-  
tum square. The opponents of Mr. Both-  
field should not mix things up in such a  
ridiculous manner.

## THE FIGHT OVER THE CHARTER.

The state election next Tuesday has  
little interest for Newton aside from the  
vote on the new charter, as in other re-  
spects the vote will be all one way.In regard to the charter, while there has  
been little open opposition, there has been  
a great effort to combine the laboring men  
against it, and some have been convinced  
that it will be against their interests to  
have the new charter adopted. It is rather  
strange that this view should be taken, as  
the more money that is saved in useless  
expenditures, the more will be available  
for needed improvements, and as many of  
the laboring men own their own homes,  
they are even more interested than wealthy  
citizens in having the tax rate kept down.Among those who have come out strongly  
against the new charter, is Rev. Father  
Dolan, of the Church of Our Lady, who at  
the morning service last Sunday, gave his  
reasons at some length for opposing it, but  
told his hearers to vote as their consciences  
dictated. Mr. W. H. Mague, one of the  
largest contractors of the city, is also  
strongly opposed to the new charter, and it  
is said that most of the other contractors  
of the city are opposed to it.The friends of the charter have believed  
until recently that as nothing appeared in  
the newspapers, the feeling was all one  
way, and they have done but little mis-  
sionary work in favor, beyond having a  
copy of the new charter sent to every  
voter, believing that the evils of the pre-  
sent form of government were so evident  
and the changes proposed were so desir-  
able, that a simple reading of the new  
charter would be all that was needed to in-  
sure its adoption.The result now is in a good deal of doubt  
and will depend on the size of the vote.The majority of the voters are believed  
to be in favor of the change, but as there  
is nothing about the state ticket to call  
them out, the new charter may be lost, as  
all opposed to it will be sure to vote. It is  
the duty of every one who desires to have  
the city government of Newton put on a  
good business footing, to go to the polls,  
and vote for the new charter.A VERY amusing and absurd report  
comes to us from different parts of the  
city and is evidently being industriously  
circulated by some one. It is that Mr.  
Bothfield has recently held a "conference"  
with the Knights of Labor, and in return  
for their votes for him for Mayor, he is  
said to have promised them that no  
contract work shall be done in the  
city, that all day laborers shall be paid  
two dollars per day, that no Italians shall  
be employed, and so on, the story having  
many embellishments. One cannot but ad-  
mire the fertile imaginations of those who  
are opposing Mr. Bothfield, but they really  
ought not to violate all the probabilities,  
as they have done so far. Such yarns are  
too ridiculous to need any denial.NEWTON can boast more golf courses  
than any other city of its size, which in-  
dicates how enthusiastically Newton people  
have taken up the golf craze. The Boston  
Sunday Herald devoted most of a page to  
a description of the numerous clubs, writ-  
ten by Henry Haynie of Newton Centre,  
with illustrations of the club houses and  
some of the more famous players. The  
different associations are known by the  
names of Newton Golf Club, Braeburn  
Golf Club, Woodlawn Golf Club, Chestnut  
Hill Golf Club, and Newton Centre Golf  
Club. Each club has its special features,  
and some of the more enthusiastic players  
belong to several of the clubs.The Boston & Albany has inaugurated a  
new policy, by running only two cars on  
circuit trains during portion of the day,  
and at times these are uncomfortably  
crowded. People take the steam cars in  
preference to the electric, for one reason  
because they are sure of a seat, but if they  
have to stand up, they will prefer the  
electric at a cheaper rate of fare. It is no  
longer a disputed question that the electric  
have taken away a large slice from the  
Newton travel on the Boston & Albany,  
even under present conditions, with the  
Brighton electric over-crowded on every  
trip, and not half enough cars to accom-  
modate the people.THE BOSTON RECORD had a very pecu-  
liar article on the mayoralty campaign in  
Newton, Monday evening, which was a  
rather thinly-disguised boon for President  
Davis of the Common Council. His cam-  
paign was based chiefly on the claim that  
too high salaries are paid to the city  
officials of Newton, and two many tele-  
phones are used. In regard to the latter,  
it may be said that the committee ap-  
pointed to thoroughly investigate the matter  
reported that with all feasible consolidations,  
the city might be able to save the sum of  
\$48 a year.CHAPTERS from Mark Twain's forth-  
coming book will be published in the Nov-  
ember issue of McClure's Magazine, hand-  
somely illustrated. It is said to be written  
in Mark Twain's earlier manner, and every  
one will be glad of the announcement that  
the writer has been at last freed from all  
his pecuniary troubles, and is once more  
as prosperous as such a popular author ought  
to be.The smoke from burning leaves is again  
afflicting the city, and some better wayought to be found for the disposal of leaves.  
With the great number of trees in the city,  
every fall people have to suffer from the  
smoke of the numerous bon-fires, and there  
is a strong demand that the city council  
take some steps to do away with the nu-  
isance.MR. JOHN T. LANGFORD discusses the  
new charter in an article on another page,  
and gives some strong reasons for its  
adoption.

the best of care.—Miss Grace Robby of Burlington, Ver-  
mont, is visiting Mrs. Charles E. Kattelle  
of Grove street.—The McDonald house on the boulevard  
has been rented to Boston parties, and will  
soon be occupied.—Mr. Herbert K. Kente of Grand Rapids,  
Michigan, has been in town this week the  
guest of relatives.—Mr. E. W. Jones's trotting horse won  
first money at the Sunnyside Park races in  
Natick, last Saturday.—Dr. A. Post and family of Weston have  
removed this week to their winter home on  
Newbury street, Boston.—The new electric lighting system at the  
depot is a great improvement, and the new  
lights are quite ornamental.—The Riverside Gun Club will hold its  
annual meeting at the Quincey House, Bos-  
ton, next Tuesday evening.—Mrs. Jesse A. Ayres of Concord, N.  
H. is visiting her parents, Mr. and Mrs.  
Frank Reed of Ware street.—The Auburndale Review Club will

avenue, on Tuesday, Nov. 2nd.—Miss Elizabeth Crawford of Roxford,  
Ohio, who has been the guest of friends  
here, has returned to her home.—John Foran, employed by Mr. Geo. E.  
Johnson, was severely kicked in the chest  
by a horse Wednesday afternoon.—By the kindness of Prof. Bragdon,  
many Auburndale residents have been star-  
gazing through the Seminary telescope this  
season.—Wednesday evening before the mem-  
bers of the Review club, Prof. Hitchcock  
gave a very interesting address on  
"Hawaii."—Auburndale Lodge, A. O. U. W., went  
to Waltham last evening in a body, and  
participated in the anniversary exercises  
of the Waltham lodge.—The Dennison estate, corner of Wood-  
land road and Hancock street, has been  
sold to James H. Kendall of Cambridge,  
who will soon occupy it.—Representative Pickard will keep open  
house next Tuesday evening, from 7.30 to  
9.30, and his friends from all parts of the  
city will tender him their congratulations.—The chilly weather seems to have no  
effect on the wheelmen. All the week  
there were hundreds of wheelers on the  
boulevard, and on Sunday the number al-  
most equals that of midsummer.—The Cambridge Water Board, Mayor  
Sortwell and other city officials, and some  
one hundred invited guests, took dinner at  
the Woodland Park Hotel, Wednesday  
evening, after an inspection of the new  
Cambridge reservoir in Waltham.—A successful meet of the Riverside Gun  
Club was held on the Hubbard estate at  
Weston last Saturday afternoon. The  
fact that this was the last shoot of the  
season, probably accounted for the lack of at-  
tendance. Notwithstanding this several  
good scores were made.—The Woodland Park Hotel is the  
favorite stopping place for college football  
teams. The Cornell team will remain  
there till tomorrow, and the Chicago A. A.  
eleven are also guests of the hotel. Both  
the Harvard and Yale teams will be at the  
hotel from Nov. 7 to 13th.—Last evening the first sociable of the  
season was held in the parlors of the Con-  
gregational church on Hancock street.  
There was an unusually large attendance of  
members, and their friends. Supper was  
served at 4.30 o'clock, after which an in-  
formal entertainment of musical and liter-  
ary numbers was presented.—The appointment by Manager Loomis  
of the Newtonville Real Estate Exchange  
of Mr. M. C. Milham as sub-agent for Au-  
burndale and vicinity, will fill an acknowl-  
edged vacancy. With Mr. Milham's  
general acquaintance with residential  
changes and real estate values, and the in-  
formation he will soon acquire of the own-  
ership of the unsold and unsold houses,  
will aid him in building up an active busi-  
ness in Auburndale. Landlords and  
tenants give him a call.—A bowling tournament, to commence  
about November 1st, will be held at the  
Newton Boat Club House, Riverside, dur-  
ing the coming season, and is open to all  
members of the club, the matches to be  
on club nights namely, Tuesdays, Fridays  
and Saturdays. Prizes will be awarded as  
usual, the number of the same depending  
upon the number of entries to the tourna-  
ment. The committee are also consid-  
ering a plan for the giving of monthly prizes  
from November to April, inclusive, the  
participation of which will be posted in the  
hall of the club house. The alleys have  
been planned and the runway lowered, and  
everything is in first-class condition for a  
successful season, which the committee  
will make it their duty to see that the  
number of entries will be received for the  
tournament, which should be in not later  
than Saturday, Oct. 30th. The committeeon bowling includes: Geo. M. Warren,  
Edw. G. Blaisdell, Richard W. Buntin.  
—Patrolman Good has returned to duty  
after a vacation of two weeks.

## Medford H. 12, Newton H. 0.

Medford high played a scrappy game on  
Tufts oval Wednesday afternoon, beating  
Newton high 12 to 0. Newton put up good  
football, and might have won had she  
played a kicking game. After the first  
touchdown the ball was not in Medford's  
territory for the rest of the first half.It took Medford only five minutes to  
make the first touchdown. A. Gray went  
through Newton's left tackle and over the  
line. Hodgson kicked the goal. In the  
second half the ball was in the center of  
the field for some time, neither side being  
able to make gains. Then Newton weak-  
ened, and after several good rushes, Drake  
went through for a touchdown. Hodgson  
again kicked the goal.For Medford A. Gray did good defense  
work, and L. Gray made some good runs.  
For Newton Seever excelled. The sum-  
mary:  
MEDFORD HIGH NEWTON HIGH  
Sawyer 11, Stevens 1, Stevens 1, Stevens 1,  
Hodgson 1, Gray 1, Gray 1, Gray 1, Gray 1,  
Pearce 1, Gray 1, Gray 1, Gray 1, Gray 1,

## Daughters of the Revolution.

The Sarah Hull Chapter Daughters of  
the Revolution, had its first business meet-  
ing of the season at the residence of Miss  
M. R. Wheeler, 585 Centre street, on Thurs-  
day afternoon last. The regent, Mrs.  
Alexander M. Ferris, presided. Eleven  
new members were elected to the chapter,  
among them, three lineal descendants of  
men, and Mrs. Hull. After the business of  
the day had been transacted, a paper on  
"Old Ironsides" was read by Mrs. Frank  
T. Benner of Newtonville. A point of  
special interest to Newton people is that  
Commander Hull's command of the "Con-  
stitution," was nephew of Gen. William  
Hull, and when a boy he lived for a year  
and a half with his uncle and aunt in New-  
ton. Patriotic songs were sung under the  
leadership of Miss Wheeler.A Practical Student.—"I must get a book  
and read about the single tax," said Miss  
Kattelle thoughtfully. "I don't see why,"  
replied Willie Wistington. "After you  
understand it, it's hard to explain, and you  
can't get anybody to remain and listen to  
you." "I am going to read up on it, any-  
how." And the next time you call on me  
I'll see if I can't tell you all about it,"

valuable and comprehensive exhibit,  
comprising all grades, from the ordi-  
nary to the most expensive, and hav-  
ing many "stock patterns," match-  
ings can be had readily for years to  
come, an advantage appreciated by  
experienced housekeepers. The costly  
sets, ordered specially made to  
order with crests, initials, etc., can  
only be matched to order, which re-  
quires about 15 weeks for the impor-  
tation order.Fine Lamps. Many new designs  
added the past week, \$5 to \$50.Rich Cut Glass. Specimens just  
received of the diamond finish cut-  
tings; none finer made. Specially

—The Y. P. C. U. will have charge of the art department at the Universalist fair.

—A social religious meeting is held every Friday evening at the Universalist church.

—The Ladies Circle held a special meeting Thursday afternoon to further arrangements for the fair.

—The annual meeting of the Newtonville Cycle Club will be held Wednesday evening Nov. 30.

—Mr. A. L. Lindsay, manager of the Stoughton rubber company, has gone west on a business trip.

—Mr. Foote and family, formerly of Clarendon avenue, have moved to their new home on Homer street.

—Mr. J. H. Bombard and family have removed to their new home on Pleasant street, Newton Centre.

—A delegation from Gen. Hull Lodge, A. O. U. W., attended the convocation of lodges at Waltham last evening.

—Miss Coleman has opened perfect fitting ladies' tailoring and dressmaking rooms at her home, 25 Court street.

—The regular convocation of Gethsemane Commandery was held Tuesday evening. The Red Cross degree was worked.

—Work on Bulbough's park was begun this week. City Engineer W. H. Loomis is in charge of the roadwork being part of the plans.

—Mrs. Harry H. Wyman of Cleveland, Ohio, has leased, through the Loomis agency, the Briggs estate on Walnut street.

—Mr. Charles Otis was best man at the wedding of Mr. H. M. Cole and Miss Dorothy E. Snow, at Hyde Park, Wednesday evening.

—A "Harvest Cantata" by Garrett will be sung at the Washington park church next Sunday at Vespers, 4.45 p. m. Rev. Mr. Nickerson will speak.

—In addition to the electric clock reported as given to the Walnut street church last week, a silver pitcher and salver was received from Mr. E. P. Hatch.

—A Halloween party for the Universalist parish and friends is to be held at the residence of Mr. J. W. Dickinson, Grove Hill road, next Monday evening.

—Edwin D. Mead of Boston delivered an interesting address at the Universalist chapel, Monday evening, subject, "Lessons from the Old South Meeting House."

—Messrs. Bowker, Gay & Wills of 113 Devonshire street, Boston, have opened a branch office at Newtonville, which will be under the charge of Mr. John A. Robinson of Wellesley Farms.

—Bishop Lawrence will conduct the first service of St. John's (Episcopal) church, on Sunday, Oct. 31st, at 3 o'clock in the afternoon, in the Temple Hall, in the new Masonic building. All interested are cordially invited to be present.

—A delighted audience of representative people listened to Edwin D. Mead last Monday evening, at the Washington park church. Prof. Doherty comes Nov. 8th, his subject being "The Future of Electricity."

—The regular meeting of Mt. Ida Council, Royal Arcanum, was held in Denison hall, Monday evening. Mr. Austin T. Sylvester gave the lodge interesting reminiscences of his experiences in the war.

—Prof. J. B. Taylor will give the address at the next meeting.

—Washington street is now practically completed between Walnut street and West Newton, and the reopening of this great thoroughfare is much appreciated. This week the highway department has been giving special attention to the bridge approaches, and getting them in order for travel. It is also expected that Washington street will be opened for travel as far as Adams street, this week.

—James T. Carter, a drug clerk employed on Shawmut avenue, Boston, while riding on Commonwealth avenue near Walnut street, Wednesday afternoon, was involved in a collision with another bicycle, ridden by Elmer Johnson of West Newton. Both men were thrown from their wheels, and Carter struck heavily on his head, sustaining a number of severe scalp wounds, which necessitated his removal to the Newton hospital. Johnson was uninjured.

—The bazaar, in Central Congregational chapel, in aid of the organ fund, opens on Monday evening, Nov. 1, and promises to be a scene of unusual beauty. The committee in charge have made elaborate preparations for the event, which will include a fine musical program, varied by entertainment each evening. Supper will be served at 35 cents on Tuesday, Wednesday and Thursday evenings, when the fair closes. Special attractions for the children, Wednesday afternoon. Admission 10 cents.

—John H. Donohue of Nonantum was charged by Patrolman Dearborn with being idle and disorderly, and was sentenced to five months in the house of correction. He was arrested Monday evening after a long chase, in which the patrolman fired two shots in the air to stop him. He was trying to escape from an unoccupied house on Cabot street, from which it is alleged, a man has been insulting women for several weeks. The police believe that he is the man who has been frightening women at Newtonville for more than a year.

—At the Methodist Episcopal church Sunday evening at 7.30, the new series of Sunday evening addresses by the pastor, Rev. Franklin Hamilton, entitled "A Fair Country, or Gospel Lessons from Wandering Abroad," will begin. The first topic is "Through Quaint Holland to Delftland, whence the Mayflower sailed." In this address Mr. Hamilton will give personal reminiscences of travel and residence among the quaint Dutch people and ancient cities of Holland, keeping in mind the relations of our Puritan ancestors with them. The land of dikes and dunes is the mother of many of our dearest American institutions. Special music with solo. All seats free. All are welcome. In the morning at 10.45, Mr. Hamilton will preach as usual. All are welcome.

—At the preliminary meeting of Newton Commandery Ancient and Modern Sons of Order, Knights of Malta, held in the old Masonic Hall, on Tuesday evening, it was decided to institute on Tuesday and Wednesday evenings, Nov. 9th and 10th. It is expected that this Commandery will start off with at least 100 men, and will be second to none in this state. They have sub-leased the old Masonic Hall from Dalhousie Lodge, A. F. M., and have also purchased the furnishings of them. The Knights of Malta is the oldest Knightly Order in the world, and has a historical record of 849 years. To all lovers of ritualistic work and sublime precepts it offers an inexhaustible field, continually developing as the study progresses. All who have seen and heard the wonderful conception and exemplification declare it unsurpassed in grandeur and magnificence. The study of its principles and illustration of its secret mysteries bring out all the noble qualities of mankind and are a continual development of Christian character. To all good and true men we say, come to us and help in the noble cause of emancipation of the human mind and soul from all error and superstition. The growth of the order is phenomenal, but it is strong,

hearty and come to stay. H. S. Hiltz of Newton Highlands is the local organizer.

—Mr. Hartshorn of Cabot street is erecting a new house.

—Mr. E. W. Swallow has moved his stable on Madison avenue.

—A valuable horse connected with hose 4 died suddenly Monday night.

—The lower story of Central block has received a coat of paint this week.

—Rev. Mr. Dearborn of Andover is the guest of his brother, Mr. H. P. Dearborn.

—The Newtonville Ladies' Wheel Club enjoyed a run to Franklin Park last Saturday.

—Mr. and Mrs. E. W. Sampson are receiving congratulations on the birth of a daughter.

—A concrete sidewalk has been laid on Walker street in front of the Emerson houses and the residence of T. Aubrey Byrne.

—The city has leased a tract of land on the east side of Laundry brook on Newtonville avenue and will erect a cement shed and office.

—Mr. Loomis says that a good locksmith and general jobber in all around work is much desired in this place, and that he will locate such a party.

—Mr. Loomis has rented another of the Highland terrace apartment houses for Mr. L. A. Griffin to Miss Hobart, who will occupy it about Nov. 1st.

—E. E. Towne resumes his talks with the readers of the GRAPHIC this week, and his advertisements are always read with interest. See another column.

—A large congregation was present at the Washington park church last Sunday. The pastor, Rev. Charles Sumner Nickerson, preached on "Two Conditions."

—Why are there so many vacant houses in the Newtons? is a pertinent question, which Mr. Loomis will answer next week, but for the present he wishes it understood that Newton is not to blame.

—There are letters in the postoffice for H. Armstrong, Miss Abbie Colburn, J. E. Fitzgerald, A. H. Gross, Mrs. Ellen M. Hyde, Mrs. Kimball, Geo. M. Laraway, Bella McLellan, Catherine Molloy, Mrs. George C. Rice, James Sullivan, Georgia Turner, Mrs. G. Wandell and Jno. T. Welsh.

—A Democratic rally will be held in Temple Hall, Masonic building, on Monday evening, Nov. 1, at 8 o'clock. The speakers will be Harry Lloyd of Boston, William H. Baker of Newton, Charles E. Farrington of Newton, candidate for senator, and Pierre Humbert, Jr., of Boston. Daniel J. Gallagher of Newton will preside.

—On Tuesday afternoon the Newtonville Women's Guild met in the New church parlors, Highland avenue. Mrs. H. H. Carter presiding. The afternoon was devoted to Current Events. Mrs. Chandler Holmes, in charge. Mrs. Phillip Carter presented a charming young vocalist in a song by Richard Watson Gilder. Mrs. Corson on Congress; Mrs. Benner on new literature; Mrs. W. S. Sloam on the one thing of which one is absolutely sure, "taxes"—insurance tax, rental tax, tax on more intangible things such as stocks, bonds, etc.; Mrs. Nickerson on trade, the tariff bill; Mrs. Craze on Cuba; Mrs. Wallace Boylen on Crete; Mrs. Taylor on Turkey and Armenia; Mrs. Samuel Brown on New Discoveries; and a paper on the Klondike by the gain, pain and pleasure of gathering gold in the Yukon, by Mrs. Walter Chaloner on art, and a brief report of the state federation meeting at Great Barrington with unstinted praise of the courteous kindness of the Thursday Morning Club. Such a variety of subjects, all by club members and all finely presented—even those with statistical wisdom, combining wit to prevent a possible dullness—showed that the Guild has a wealth of talent, and only needs to call it out to fill all its needs of entertainment and instruction within its own limits. The next meeting on Nov. 24: Richard Wood Cone will address the club on "Vocal Culture," and the possibilities of the American speaking voice, and a large audience is anticipated.

## WEST NEWTON.

—Miller pianos, Farley, Newton.

—Mrs. H. G. Cleveland is in New York for a short stay.

—The Crowley house on Washington street has been let to an Italian family.

—Mr. Edwin F. Kimball has sold his house on Watertown street to Mr. Bryson.

—The regular meeting of John Eliot Lodge, A. O. U. W., was held Wednesday evening.

—Alexander Bennett returned this week after a trip to his former home at Twin Mound, Kansas.

—The Women's Guild will hold its regular meeting Wednesday afternoon in the Congregational church parlors.

—Mr. J. H. McCordale and family of Winchester have moved into F. F. Raymond's house on Hillside avenue.

—The Newton Ladies' Home Circle will hold its next meeting in the Unitarian church parlor, Wednesday Nov. 3, at 2 p. m.

—The regular meeting of the local branch of the American Legion of Honor, was held Tuesday evening in Metcalf's studio, Chestnut street.

—The West Newton Women's Educational Club held a reception this (Friday) afternoon at the home of the president, Mrs. E. N. L. Walton, from 3 to 5.

—Owing to the prevalence of scarlet fever in certain quarters of this place, the board of health has closed one of the rooms in the Peirce grammar school.

—About 7.30 o'clock last Saturday morning a six-inch water pipe in Webster street, burst, flooding the street and neighboring yards. The break was soon repaired, but the water department, and the water was turned off before serious damage resulted.

—Inspector Fletcher with officers from the fire marshal's office, are investigating the incendiary fires at Waban and Newton Highlands, Saturday night and Sunday morning. They have not yet been able to determine that they were not set by the same person, as was at first supposed. They state that the Newton Highlands attempt was a decidedly bungling job.

—Letters remaining in the postoffice for Mr. Frank Coley, Al Signora Vangenz Danerio, Mrs. Chas. Aldrich, 1520 Washington street, Eue, Mr. H. W. Gay, George Green, Miss Florence Hitchings, James Kearney, Miss Janet F. McPherson, Mrs. L. T. Milligan, Miss Nellie Nirlund, Mrs. Josie Parker, Mr. F. Prescott, Al Signora Amalia Raimond, Miss Mary Seavers, Mrs. Walter Stravens, Mr. Henry W. Towne, T. H. Transcript Office, Carne Vespevski, Mr. Henry W. Townsend, Thos. Wilkinson and Andro Winovai.

—The West Newton Women's Alliance will open the season with a reception at the home of the president, Mrs. J. P. Tolman, Thursday afternoon from 3 to 5. The program for the winter meetings was issued recently and is as follows: Nov. 18, "Lutherans and Reformed Church," Mrs. Ella Sargent; Dec. 2, "Episcopals," Mrs. Harriet M. Freeman; Dec. 16, "Congregationalists and Presbyterians," Mrs. Mary Raymond; Dec. 30, open meeting; Jan. 13, "Baptists and Methodists," Mrs. R. C. Chidsey; Jan. 27, "Salvation Army," Mrs. Helen I. Mayo; Feb. 10, "The Friends," Mrs. Mary C. Tolman; Feb. 24, open meeting; Mar. 6, "The New Church," Mrs. H. H. Carter; Mar. 24, "Universalists and Unitarians," Mrs. Henrietta Ames; April 7, "Spiritualists and Mormons," Mrs. E. N. L. Walton and Mrs. E. Bothume; April 21, open meeting. The text-book to

be used for this work is one entitled "A Study of the Sects" by Rev. W. H. Lyon.

—Mrs. Pike returned this week after a short vacation.

—Mr. and Mrs. J. B. Anderson of Milwaukee are the guests of friends here.

—The regular meeting of the W. C. T. U. will be held Tuesday afternoon at the Baptist vestry.

—Mrs. Jane M. Hastings and daughter have gone to Lowell where they will pass the winter months.

—A delegation from John Eliot Lodge, A. O. U. W., attended the convocation of lodges at Waltham, Thursday evening.

—Rev. Mr. Puddefoot of Framingham occupied the pulpit at the Congregational church last Sunday. His subject was "Home Missions."

—The Foreign Missionary Society, connected with the Congregational church, will hold its regular meeting Monday afternoon in the church parlors.

—The regular monthly meeting of the Newton Veteran Firemen's Association will be held Wednesday evening at the engine house, Watertown street.

—In about two weeks a new contagious ambulance for the Newton Hospital will be placed in commission. It is being built in Newton and will cost about \$200. The old contagious ambulance, which has been worn out, will be destroyed.

—A meeting in the interests of the candidacy of George D. Davis for mayor was held Monday evening at the residence of Mr. Dewese. A large number of prominent political workers in Ward 4 were present, and after the situation had been thoroughly canvassed it was decided to at once open a vigorous campaign in his behalf.

—Dr. Perrin, pastor of the Every Day church, Shawmut avenue, Boston, occupied the pulpit at the Unitarian church, last Sunday. He gave a most interesting account of good work done by the church over which he presides. At the close of the services a generous contribution was presented to further the plans and help enlarge the field of usefulness.

—The donation party at the Williston Home for children, Wednesday, was a great success. A large quantity and variety of groceries and produce was sent. Refreshments were served in the afternoon from 3 to 5 o'clock and in the evening from 8 to 9 after which dancing was enjoyed.

—Miss Gertrude Holmes and Miss Isabelle E. Ashcroft presided. Music was furnished by the Newton Orchestral Club. The matrons were Mrs. Lester Goodwin, Mrs. Holmes and Mrs. F. W. Ashcroft.

—The home of Mrs. Julian C. Jaynes, Prince street, was the scene of a very pretty reception, Monday afternoon. The occasion was the opening of the fall meetings of the Ladies' Aid Society connected with the Unitarian church. The president, Mrs. Jaynes, and Mrs. Perrin, vice-president, received. The house was handsomely decorated with potted plants and cut flowers. A collation was served in the dining room, a number of young ladies presiding over the tea and chocolate urns.

—Another pupil at the old Peirce school developed diphtheria symptoms, Wednesday, and was sent home from school. The parents of pupils in the Peirce district are thoroughly alarmed at the prevalence of the disease in the school, and are anxious to have the entire building closed. Their apprehension is strengthened by the knowledge that the building was condemned more than a year ago. The health authorities state that the scare is needless, and there is no danger of the further spread of the disease.

—Edward H. Farrar of Nonantum was complained of by Patrolman Kyte of division 1 Tuesday morning in the court, for the alleged larceny of a package of books belonging to J. L. Carter from an Adams express wagon on Lenox street, Monday evening. He was partially identified by the expressman as the man who took the package from the wagon, and when arrested had the books in his possession. In defense, he set up the claim that he found the package in the street. His case was continued to Thursday when he was found not guilty and discharged.

—The new police van is expected to arrive next week, and will be used on patrol in commission. It will be used to carry prisoners to East Cambridge. For some time complaints have been made by Newton people to the effect that prisoners should not be carried in the streets, and in the trains, and Mayor Cobb has decided that these objections are well grounded. The increased number of prisoners thus conveyed has put the police officials to great inconvenience, and it is estimated that the new arrangement will not only facilitate the conveyance of prisoners, but will decrease the expense.

## Death of Mr. Rodney Q. Barlow.

Mr. Rodney Q. Barlow, a well known resident of West Newton, died suddenly yesterday noon at his home on Cross street.

Up to a few moments previous to his death Mr. Barlow seemed to be enjoying his usual health. He had just come into the house after attending to his business duties. Death was due to heart failure.

Mr. Barlow was 64 years old and a native of Maine. About 30 years ago he came to Brighton and engaged in the milk business for a number of years. Some 14 years ago he moved to West Newton and opened a catering establishment, in which business, by careful management and strict attention, he met with considerable success. He was a prominent Freemason, being connected with Gethsemane commandery, K. T., Newton Royal Arch chapter and Dalhousie lodge, F. A. M. He leaves a widow. The funeral will be held Sunday afternoon at 2 o'clock at his late residence, and will be conducted by the Masonic bodies.

## Washington Tours.

The first eight-day tour of the season to Washington, under the Pennsylvanian Railroad Tourist System of the Pennsylvania Railroad will leave Boston, Thursday, December 2, and will be in Washington upon the opening of Congress. Round-trip rates only \$25.00.

For full information apply to D. N. Bell, Tourist Agent, 235 Washington street, Boston, or address Geo. W. Boyd, Assistant General Passenger Agent, Philadelphia.

## Newton Associated Charities.

Very well attended meetings of visitors and directors were held on Thursday afternoon. One subject of discussion at both meetings was the great number of cases brought to the notice of the society, and wives with children deserted by their husbands.

The prospect of the establishment of an Old People's Home, seems just at present, somewhat encouraging.

From a Biker's View.—Charlie Mariner (describing a canoe race): "The course was awfully choppy, and after standing for a while on the starboard tack, I went over on to the port tack—Miss Tandem (interrupting): 'Oh, how badly you must have been punctured!'—Browning, King & Co.'s Monthly.

One Girl and Another.—Miss Prymme: "That disreputable Jack Buggy wanted me to go to the theatre with him last night. Miss Cuttynge: 'How did you enjoy the play?'—

"We've got a woman living down our way says she is 106 years old," said the enthusiast. "Well a woman never tells the truth about her age. She's probably only 86," said the cynic.—Yonkers Statesman.

At City Hall, Wednesday, November 17, from 12 M. to 10 o'clock P. M., which is the last session of the Registrars preceding the election of December 7, 1897, and after 10 o'clock P. M. of said November 17, 1897, the Registrars will not, before the Election, add any names to the Register, except the names of voters examined as to their qualifications since the preceding thirtieth day of April.

Every male person whose name is not on the Voting List, must, in order to be registered as a voter, appear in person before the Registrars of Voters at a session on either of the days above mentioned, presenting a certificate from the assessors or tax bill or notice from the collector of taxes showing that he has been assessed for a poll tax as a resident of the city or town on the preceding first day of May.—Chap. 61, Acts 1895.

All women whose names are not on the lists and who wish to register must appear in person before the Registrars of Voters, to be qualified, as required by law.

All naturalized citizens must present their final papers when they register.

If the father of an applicant was naturalized before he the son became 21 years of age, the son is naturalized thereby, and must present the father's naturalization papers.

Every male citizen of 21 years of age and upwards, who has resided in the State one year, and in the City of Newton six months next preceding December 7, 1897, being able to read and write, and duly registered, shall have the right to vote at the City election to be held December 7, 1897.

GEORGE E. BRIDGES, HENRY H. FANNING, ISAAC F. KINGSBURY, Registrars of Voters.

## YORK AND YORK MINSTER.

"York, York for my home,  
To strike the cities that ever I see,  
For merry pastime and company,  
Except the city of London."  
"THE BRAVE TOWN OF YORK."

The city of York, England, is an old city. Whether or not its foundations were laid in the days when David was King of Judea, by Ebrancus, a king in Britain, who gave it his own name, calling it *caer Eborac*, (the city of Eborac), we do not know. It was known by the Romans as *Eboracum*. This name has been transformed into York, but how, etymologists are not agreed.

Enricus in the Domesday book, (that is, a town on the Ure); *Eaekroic* in the tongue of the Britons; *Eborwic*, the Anglo-Saxon name; and *Jorvik*, that of the Danes. The Danish name easily drops into York.

The history of York is recorded from the time of the Roman occupation. Agricola in his second campaign, in A. D. 79, completed the conquest of the Brigantes, a tribe occupying the north of Britain, and Roman York was probably founded at that time.

Agricola used it as a base of supplies when he marched north and began the erection of a chain of forts, completed later by Hadrian and called *The Picts' wall*.

In A. D. 140, York was the headquarters of the "victorious sixth legion." In 208 the Emperor Severus arrived in York, then doubtless the chief city of Britain. He died there in 210. This was a period of great splendor. Three of the most learned jurists in the Roman empire, Ulpianus, Paulus and Papinianus were then in York. When the Roman empire was divided, Britain fell to the lot of Constantine Chlorus, who fixed his residence in York and died there in 306. His successor was Constantine the Great, proclaimed emperor by the army at York, he being there at the time of his father's death. He soon left for Gaul; the Roman army was gradually withdrawn and the history of York as a Roman city ceased to be important.

Its later history, however, is full of interest, recording the successive struggles for possession of the Britons, Saxons and Danes, and the introduction and establishment of the Christian religion.

In 1066 William made easy capture of York, and built a castle which still stands and is called *Clifford's Tower*.

In 1170 Henry II held a council, the first of sixty-five held in York, called by successive kings to the time of Charles I.

In the reign of Richard I occurred the massacre of the Jews in England,—one of the most frightful of which was in York.

In 1327 Edward III marched from York with 60,000 men against Robert Bruce, and was married there shortly after Christmas to Philippa.

In 1483 Richard III hastened from York to London, when he heard of his brother's death, and was proclaimed king.

July 16, 1644, York surrendered to the parliamentary forces. Lord Ferdinand Fairfax and his son, Sir Thomas Fairfax, had the city in care during the war and saved the Minster from injury.

At the Restoration, Sir Thomas took an active part in the welcome of the king. At the Revolution the city favored the Prince of Orange. Its proclivities were Hanoverian in 1745, since which time York has figured but little in public history.

Its later triumphs have been in the domain of science and art.

Alcuin, a renowned scholar, was born here in 720 and died in 804. Frederic Frees, the first printer in York, settled here in 1497 or 1498.

Gray Pawkes (1570-1604), was also born here, of a good family. The Earl of Somerset, favorite of James I, was a native of York. His alumni include John Flaxman, a sculptor; Lindley Murray, a grammarian (who resided near York); George Hudson, "railway king," originally a linen draper and afterward Lord Mayor of York; the Earl of Rosse, the celebrated astronomer, and others.

But the gem, the pride of the city, its chief boast, its glory and its song, is that "most august of temples, the noble Minster," that stands in the midst of the city, wrapt in solemn grandeur, so huge that as it now rises in my thought, it seems lonely.

How can I again bring it before you? A cursory glance at the exterior, and a hurried walk through its majestic spaces, will not suffice for a full revelation. One must take time to let this mighty pile sink deep into the mind and heart till it abides there, a consecrated possession.

As with the music of the great masters of song who enthral the world; or with the paintings of the artists whose works outlive warring generations; or with the great poems of the bards who have touched the souls of all men in all ages; so with this cathedral. All are inspired products. Each is a thought of God's.

A few words as to its history, which begins with the introduction of Christianity by the preaching of Paulinus in the seventh century. King Edwin was baptized Easter day, 627, in a church erected by the king for that service. Of that temporary church no remains exist, but the present cathedral covers the same site.

The king, after his baptism, began at the suggestion of Paulinus, as Bede relates, a large and noble building of stone, in which the oratory he had first built was to be included. The king was killed before its completion, which was left for his successor to accomplish. Archbishop Wilfrid, 690-709, a great and successful architect, first made the building worthy of the capital. "A new roof of lead was put upon the Minster and glass was placed in the windows for the first time, so that the birds could no longer fly in and out of the sanctuary within, and means were found to keep the temple in repair and to maintain its ministers."

Destroyed by the fire which consumed the city in 1069, it was replaced by the building far superior in architecture. The only remaining relic of the former church is the central wall of the crypt below the choir. Changes and additions were made from time to time, until, completed as it now stands, it was re-consecrated Feb. 3, 1472, by Archbishop N.ville.

The cathedral suffered but little during the Reformation, but about 1730 the old pavement, "rich in incised slabs," was taken up and worked over to make a new pavement.

Wit: In the present century the building has suffered greatly by fire. Feb. 2, 1829, one Martin, an insane person, having concealed himself after evening service of the previous day, gathered haxocks and other combustible materials, placed them under the organ, and by means of them the destruction of the woodwork was complete. The beautiful tabernacle of carved oak, the stalls, the pulpit, the organ, the roof, the rest of the woodwork and much of the stone work of the choir, were destroyed. The great east window was saved with difficulty.

Restoration cost \$65,000, and was completed in 1832. In May 1840, through the carelessness of a workman, fire broke out. The damage was confined to the west end of the building, but the bells fell from the tower in which they were hung, and the roof of the nave was burned. The expense of the restoration was \$25,000. A new peal of bells was contributed. A monster bell was hung in 1845, but the clock work intended to be attached to it has never been completed, and consequently it is used only to strike the hour of noon, and that by a hammer instead of the tongue of the bell. Many improvements have been made with-

in a few years. The glass of the great windows have been inserted in the west aisle of the north transept; an additional organ has been erected in the nave. The building is warmed, and it is lighted with jets of gas placed around the capitals of the piers at the base of the triforium, both in nave and choir.

A war was waged long and actively by Archbishop Roger, (1134-1159), with the king, over the question of supremacy and "bearing the cross,"—the right to carry that symbol erect belonging exclusively to the primate.

The council of Westminster in Sept. 1102, Gerard of York kicked over the chair prepared for him because it was on a lower level than that put for Anselm of Canterbury. Roger vindicated his claims in a way, and once again undignified and this, too, at a council at Westminster.

The Pope's legate sat in the middle, of course, and the Archbishop was to sit on each side. When Roger arrived, he found that Archbishop Richard had been there before him and taken the place of honor on the right. What should he do? What did he but push in between the legate and his rival, and end by sitting on his knees. The people of Canterbury were angered, and pulled him off, threw him down, and beat and trampled on him unmercifully. He rose a sorry figure, with torn cape, and covered with dust and shame. He went to King Henry II and complained, but the king only laughed at him. In 1333 a composition was made by the king between the then contending bishops, which made Canterbury the head, though on all public occasions they were to be as nearly equal as possible. In addition to this, the Pope ordained that the archbishop of York should be primate of England, and the archbishop of Canterbury the primate of all England. York retains the old privilege of crowning the queen.

The church of St. Peter is to York what St. Peter's is to Rome. Let us now survey the interior of the Minster, and its dimensions are imposing. They are as follows: Extreme exterior length 524 feet; breadth across the transepts 250 feet; breadth of nave 135 feet; breadth of choir 130 feet; breadth of the choir and choir screen 202 feet; breadth of western tower 32 feet; breadth of central tower 65 feet; diameter of chapter house 90 feet.

Within, the nave is 264 feet long, 104 feet wide, and the choir is 122 feet long, 102 feet wide and 98 feet high. The interior height of the central tower is 185 feet.

In plan and proportion the cathedral is a masterpiece. It is in the form of a cross, the main limbs of which are of nearly the same length, as shown by the measurements given above. A few chapels on the south side of the choir, and the chapter house on the north side, are the only additions to the main body of the church.

It is not the form that impresses the spectator more and more, the longer he looks upon the Minster, but its dignity and grandeur, whether one view it from the exterior or the interior. It excels all other English cathedrals in the height of nave and choir, and in no other Gothic building is there finer architectural effects than are given in a view across the great transepts.

Let us examine some parts of the exterior, beginning with the west front. This is said to be unsurpassed by any church in England, in its fine proportions; character, richness, or scientific arrangements. An eight pinnacled tower rises on each side, and between is a gable with perforated battlements, surmounted by a crocketed spire. The whole front is divided into three parts by massive buttresses, enriched on every face with tabernacle work, and in each of these divisions is an entrance to the church. In each of the two side divisions are three windows, one above the other; the two lower ones are decorated. The three divisions correspond with the nave and aisles.

The great west entrance in the center consists of an outer arch, "deeply recessed" the mouldings of which contain details of exquisite delicacy, and figures representing the history of Adam and Eve. The doorway is divided into two by a slender shaft, as is not unusual, but the space beneath the deep vaulting of the arch is filled with six circular light windows, which is an uncommon, if not unique arrangement.

On the north side, a gable in the center of which is a niche containing a statue of Archbishop Melton, who completed the west front. "He sits graven in stone, in his attire as archbishop, with his hand raised in benediction. Over his head is the finest Gothic window in the world, built, in all probability, by himself, and still beaming with the same glowing colors with which he adorned it nearly 550 years ago." This window, one above the other, is a masterpiece of the art of the architect. The three divisions correspond with the nave and aisles.

In niches in the north and south buttresses are figures, somewhat dilapidated, which represent in one case the flight into Egypt, and in the other the entry into Jerusalem. The towers, erected in the 15th century, have on each side beautiful perpendicular windows. They are surmounted by lofty pinnacles.

The west window, already mentioned, is in two divisions of four lights each, and is an unrivaled specimen of a decorated window. Let us now pass in and view the interior. You have already seen it, but wish it recalled to remembrance.

You recollect the greeting the organ gave you as you were about to enter, and that it continued to lead its thrumming after you stood within. The vast spaces of nave and transept and choir could not suffice for the vast volumes of sound, which sought and shook the air without.

We are standing in the nave, let us observe some of the details. It is the largest in English cathedrals and its proportions are exquisite. It grows upon you as you look at it.

The Norman nave remained until 1291 when it was removed and the present one begun, and was completed about 1330. It has seven pointed arches, the piers of which are octagonal. In the great arcade are shields containing heraldic shields of benefactors, comprising most of the old Yorkshire families of note.

The pavement of the nave shows a geometrical pattern, made about 1730 by taking up memorial slabs and cutting them into shape—a sad desecration. In some respects the former pavement was peculiar and interesting. It had a row of circular stones, each in diameter about two feet apart up each side, and one row of fewer and larger stones down the middle, supposedly showing where, on grand occasions, the different church dignitaries should stand.

The different church dignitaries were seated in the nave, and the space was filled with graves, all trace of which is now lost, of course.

THE CHOIR. In front of it is a rood screen made of stone, 150 x 135 ft. 25 ft. high and broad. It is divided into fifteen compartments, each of which, on a lofty pedestal, is a statue, life size, of one of the kings of England, from William I to Henry VI. So it was that Henry VI was removed and James I put in its place, only to be taken down in the present century. Above the statues is superb tabernacle work, and in an upper series of niches are figures of angels. A rich parapet surmounts the whole.

On entering the choir one is struck first by the magnificent east window, and then by the elegant stalls, and the height of the roof and the general correspondence of the designs to that of the nave. There are nine pier arches, and as in the nave, there are two great divisions of pier arches and clerestory, the shafts of which form the triforium passage; they are, however, less ornamental than those of the nave. The twenty-five oak stalls for the accommodation of worshippers, and the throne of the bishop, are all modern, but the canopy above, are all modern, but of excellent design and execution. The organ,

replacing the one burned in 1829, was presented by the Earl of Scarborough. It has four rows of keys, 79 stops, and 4,540 pipes.

## THE SOUTH TRANSEPT.

No part of the building is finer, more impressive, and instructive, than this. The variety of detail is too great to allow a mention of all the objects of interest. A few must suffice. This Transept consists of four bays. There is an arcade on either side of the entrance door. Above the door are two painted windows, one on each side, representing Abraham, Solomon, Moses, and Peter. Above these is an arcade of pointed arches, in the center of which is a window of two lights, the stained glass representing St. Peter and St. Paul. On either side of this window is a one light window with a figure. Above the east window is a window of which another mention will follow. Canon Paine says of the South Transept, "It is the choicest portion of that glorious temple." In its aisles are some of the finest and most various arches and carved tombs.

Various arches and carved tombs, beginning with Paulinus. A carving of the Ascension and representations of Christ sitting in judgment and of St. Peter holding the keys. The carved canopy over a mass of delicate and highly finished carving, a fine example of elaborately carved stone work.

The North Transept, built the latter part of the 13th century, is similar in style to the south. The most striking feature is five-light window. The leafage and other ornaments of this transept are specially conspicuous. Here also are canopied tombs of painted arches and of church benefactors.

In the east aisle is a decorated door leading to the vestibule of the Chapter House, which is octagonal in form. Its beauty is much enhanced by the absence of a central pillar. The roof is vaulted and the floor is tessellated. The echo here of a musical tone uttered by our guide was notably fine.

There are forty-four canopied stone stalls, all the details of which will bear the closest study. Grotesque heads and figures are seen in the angles between the stalls and elsewhere. E. g. One carving represents the devil taking the crown from a king's head. Another, a monk and nun kissing. Above the stalls is a gallery running round the building.

The beauty of the whole is not exceeded by any other sculpture of this period in England or on the continent. "It is the gem of the cathedral." Near the entrance door is a Latin inscription which the guide is sure to point out. It is rendered in English thus:

As is the rose the flower of flowers,  
So of houses is this of ours.  
The crypt is one of the most interesting parts of the minster, it being more antique than anything above ground. Here are the only remains of the building of a saint, bishops Thomas and Roger, and probably of the church built by King Edwin. Here is a spring of water, said to be pure and delicious. We did not taste it. Four of the original Norman windows are still around each are the remains of four slender ones. The sculpture of these deserve notice. Outside these are some walls of the older Norman church, which enclose in some cases heretic bones of plumb.

The Saxon, just under the site of the Norman high altar, is an interesting mound of earth. It is the spot long hallowed as that on which King Edwin was baptized, and where his head was buried after he was buried. Here King Ebranc and his chiefs are said to have celebrated their pagan rites, and here the Romans had a temple to Diana and did state worship; so says tradition.

THE WINDOWS. The windows of the minster call for separate and special notice. Most of them retain their original glass, fairly perfect. That of the west window is out of plumb, owing to the heat of the fire in 1840, when the nave was burned as far as the central tower, and the bells melted. (Out of the bells metal snuff boxes, etc., were made and sold for years to the seekers.) The west window has been mentioned. Above the entrance to the south transept, and above three lofty windows, is the great feature of the west front, a magnificent rose window, 30 feet in diameter.

In the north transept the most striking feature is the lancet window of five lights, each 54 feet high, and 5 feet 3 inches wide. It is a masterpiece of the art of the architect. York is said to have always been a great place for single ladies. An Old Maids' hospital has been endowed by Mary Wadsworth, a maiden lady. The memory of this beautiful and celebrated window is preserved in the stained glass of the transept. (Read the pathetic story of the five sisters as told by Dickens in *Nicholas Nickleby*. He says—"Time may have softened the colors of the window, but the same stream of light still falls upon the forgotten tomb, of which no trace remains.")

The abrupt and level termination of that window is favored by the tall lancet windows above, which decline in height from the center.

In the west aisle of the same transept, and to the north of the aisle, is a stained glass window, to the memory of Sir V. William Harcourt, a judge, who died in 1863. It represents subjects from Sacred History, connected with the administration of laws, as, The Judgment of Solomon; Moses delivering the law; Samuel judging Israel.

To the west are four windows to the memory of the officers and soldiers, and women and children, of the 51st and 94th regiments, who died of cholera in India in 1817. One is a Calvary window, narrating his adventures; another is a Joshua window; the third is a Gideon window; and the fourth represents events connected with King David.

Of the Chapter House windows I must allow Hawthorne to speak. "The seven arched windows of old painted glass, are the richest I ever saw, each looking like an inestimable treasure of precious stones, with a gleam and glow even in the sunless light of this gray morning. What would they be with the sun shining through them? (as when we saw them.) With all their brilliancy, however, they are as soft as rose leaves. I never saw any piece of human architecture so beautiful as this Chapter House; at least, I thought so while looking at it, and I think so still; and it is a very rare thing to find a piece of painted window. From the outside, the windows look like nothing but an opaque old crust of conglomerated panes of glass."

The Great East Window is one of the glories of the cathedral, if not the most splendid object there. It is 75 feet (some say 77) feet high, and 30 feet broad, and is full of old painted glass in many exquisitely imagined and wrought scriptural designs. There are no larger windows of one work in original glazing. There are nine lights, twice transomed. There are 200 compartments in all. Below the tracery are 117, each a yard square, 13 in height and 9 across. The figures are about 18 inches high. The subjects of the three upper courses, which are above the gallery, are from the old Testament, beginning with the story of the birth of Jesus, and ending with the death of Absalom, 27 squares in all. The upper nine are: 1. Creation of heaven and earth; 2. Land and water divided; 3. Herbs of the field; 4. Light and darkness; 5. Birds and fishes; 6. Beasts, reptiles, man; 7. Seventh day; 8. Eating forbidden fruit; 9. Expulsion from Paradise.

Below the gallery all the subjects in 81 squares are from the book of Revelation, beginning with "A great voice saying, 'Come and see,' and ending with 'Our Saviour with a look, and John writing of what he has seen. In the lowest tier are the pope, archbishops, and kings. In the tracery above, a large stained glass arch, is a representation of Christ in glory attended by saints. In 1405 the Dean and Chapter engaged John Thornton, of Coventry, to glaze this window. He was to do the work with his own hands and complete it within

three years. In payment he was to receive four shillings every week and five pence each year. He was also to receive ten pounds if the work gave satisfaction when finished.

## SOME NOTEWORTHY OR CURIOUS OBJECTS.

In the north transept, behind a pillar, is a strange monument of a man worn to skin and bone, John Huxley by name. He was treasurer of the church. He died in 1424, after trying to fast during the 40 days of Lent, says tradition. Near by is the fine tomb of Archbishop Greenfield, behind which the maniac incendiary hid himself and lay till all others had left the building.

The monument of Archbishop Sterne, great grandfather of Lawrence Sterne, is reared high in the choir. His statue is half recumbent, with one leg thicker than the other.

In the south aisle of the choir is an amusing inscription to a certain Lady Downer. A piece of wood, which was her name, was found by the inquiring reader is referred to the *Gentlemen's Magazine* of May 1812, for further particulars.

Hanging high above the pavement are two rows of iron figures, which are ironmers, two bronze or iron figures strike the hours, striking alternately.

In the vestry are the record room and treasure. There are also some interesting objects. One is the Horn of Plenty, made of an elephant's tusk, cunningly carved and polished and once ornamented with gold mounting. It is a valuable relic of ancient art, and forms the title by which the chapter held some of its estates. Ulph was the son-in-law of Canute; he was governor of West Deira, and lord of a great part of East Yorkshire. To prevent his two sons quarrelling over their inheritance, he vowed he would make them equal. Then going to the altar of the cathedral, he filled the horn with wine, drank it off, and dedicated all his lands to God and St. Peter, and so disinherited his family. A church in Aldborough, East Riding, still bears the name of the donor, with this inscription: "Ulph commanded to be erected for the souls of Hamum and Gunthard."

The famous horn disappeared from the Minster during the civil war and fell into the hands of Sir Thomas Fairfax. His son restored it to the cathedral. In 1675 it was decorated anew, and an inscription put upon it, reciting the main points in its history.

The Maser Bowl, or Indulgence Cup of Archbishop Scrape is also preserved. It is a bowl of dark brown wood, with a silver rim and three silver cherubs' heads serving as feet. It bears this inscription: "Richardus archiepis Scrope grant unto all tho' that drinks of this cope Noli times to pardon." This is repeated in nearly the same words. This cup, after having been in the possession of others, was at last in 1808, presented to the cathedral. Other curiosities are an ancient coronation chair, a magnificent oak chest, on which is seated the story of St. George and the Dragon; and a silver pastoral staff, 6 feet long. It was taken at the Revolution from the Roman Catholic Archbishop, (appointed by James II) as he was entering the city in 1688, in solemn procession. It was the Earl of Danby who seized it and presented it to the chapter.

What memories gather about this venerable pile of kings and queens, of warriors, and statesmen, of old men, of sinners with their burdens coming repentant for absolution, of maidens with their joy, coming to be married, of weddings and of funerals! Here in 1328 Edward III espoused Philippa of Hainault, he not 17 years of age, and she but 14.

In 1225 Princess Joan, daughter of King John, but 11 years old, married Alexander II of Scotland.

In 1227 Margaret of England married Alexander III.

Here was buried Tosti, "the Tiger of the North," brother of Harold.

Also Archbishop Gerard, whose coffin was found in 1840, and who died with his hand on an astronomical book.

But enough. It is time to leave the Minster, richer in stories and glories than I have been able to tell or depict.

It is so rich in curiosities, that I leave it, but it will abide with us an inalienable possession.

It Will Surprise You. In order to prove the great merit of Ely's Cream Balm, the most effective cure for Catarrh and Cold in Head, your druggist will supply a generous 10 cent trial size, or we will mail for 10 cents. Full size 50 cts. ELY BROS., 56 Warren St., N. Y. City.

Ely's Cream Balm has completely cured me of catarrh when everything else failed. Many acquaintances have used it with excellent results.—Alfred W. Stevens, Caldwell, Ohio.

LECTURED ON CHILD LABOR. PROF. CALKINS OF WELLESLEY TELLS OF ITS DWARFING EFFECT.

A large number of persons interested in the work of the union for Industrial Progress met at the rooms of the union in Boston last Saturday afternoon to hear Prof. Mary Whitton Calkins of Wellesley college talk on the question of "Child Labor."

Prof. Calkins has made a special study of the question in all its phases, and in all the English speaking countries. She presented the result of her study in a most interesting and simple manner, and was listened to with the closest attention by her audience, all of whom were experts in labor matters.

The lecture began with a description of the different forms of child labor in the factory, the shop and the mine. Prof. Calkins drew a most pathetic picture of the young children, scarcely able to appreciate the nature of work, obliged to do a share of labor at times almost equal to that required of full grown men. These children never have any of the pleasures which fall to the lot of their more fortunate fellows, and at the time of life when the school and the playground should be the place of their young minds, one-sixth of the children in this country are employed regularly in manual labor.

The reasons for this state of affairs she traced to the situation of women in the introduction of machinery, the greed of employers who can get child labor at a much less cost than that of older persons, and the shortsightedness of parents who seek the money for the labor of their children to the injury done the children in depriving them of the opportunity of advancement.

This early and continuous employment, Prof. Calkins said, caused a lasting injury to the child's health and his intelligence, application to work. The children also crowd adults out of employment, lowering wages so that, by the shortsightedness of the parents to gain the small amount of money for the labor of their child, a much larger sum is lost by the reduction of the wages of the adults of the family.

Prof. Calkins gave the history of English factory legislation and of the efforts that have been made in this country in the same direction, but which were frustrated by the diversity of laws on the subject in the different states. Although 21 states had passed laws, they had in many cases forgotten to appoint inspectors to see that they were observed.

A pain in the chest is nature's warning that pneumonia is threatened. Dampen a piece of flannel with Chamberlain's Pain Balm and bind over the seat of pain, and another on the back between the shoulders, and prompt relief will follow. Sold by E. F. Partridge, Newtonville; Lacroix & Co., Boston; and by all dealers in medicine. Upper Falls; J. H. Green, Newton Highlands.

Below the gallery all the subjects in 81 squares are from the book of Revelation, beginning with "A great voice saying, 'Come and see,' and ending with 'Our Saviour with a look, and John writing of what he has seen. In the lowest tier are the pope, archbishops, and kings. In the tracery above, a large stained glass arch, is a representation of Christ in glory attended by saints. In 1405 the Dean and Chapter engaged John Thornton, of Coventry, to glaze this window. He was to do the work with his own hands and complete it within

three years. In payment he was to receive four shillings every week and five pence each year. He was also to receive ten pounds if the work gave satisfaction when finished.

SOME NOTEWORTHY OR CURIOUS OBJECTS. In the north transept, behind a pillar, is a strange monument of a man worn to skin and bone, John Huxley by name. He was treasurer of the church. He died in 1424, after trying to fast during the 40 days of Lent, says tradition. Near by is the fine tomb of Archbishop Greenfield, behind which the maniac incendiary hid himself and lay till all others had left the building.

The monument of Archbishop Sterne, great grandfather of Lawrence Sterne, is reared high in the choir. His statue is half recumbent, with one leg thicker than the other.

In the south aisle of the choir is an amusing inscription to a certain Lady Downer. A piece of wood, which was her name, was found by the inquiring reader is referred to the *Gentlemen's Magazine* of May 1812, for further particulars.

Hanging high above the pavement are two rows of iron figures, which are ironmers, two bronze or iron figures strike the hours, striking alternately.

In the vestry are the record room and treasure. There are also some interesting objects. One is the Horn of Plenty, made of an elephant's tusk, cunningly carved and polished and once ornamented with gold mounting. It is a valuable relic of ancient art, and forms the title by which the chapter held some of its estates. Ulph was the son-in-law of Canute; he was governor of West Deira, and lord of a great part of East Yorkshire. To prevent his two sons quarrelling over their inheritance, he vowed he would make them equal. Then going to the altar of the cathedral, he filled the horn with wine, drank it off, and dedicated all his lands to God and St. Peter, and so disinherited his family. A church in Aldborough, East Riding, still bears the name of the donor, with this inscription: "Ulph commanded to be erected for the souls of Hamum and Gunthard."

The famous horn disappeared from the Minster during the civil war and fell into the hands of Sir Thomas Fairfax. His son restored it to the cathedral. In 1675 it was decorated anew, and an inscription put upon it, reciting the main points in its history.

The Maser Bowl, or Indulgence Cup of Archbishop Scrape is also preserved. It is a bowl of dark brown wood, with a silver rim and three silver cherubs' heads serving as feet. It bears this inscription: "Richardus archiepis Scrope grant unto all tho' that drinks of this cope Noli times to pardon." This is repeated in nearly the same words. This cup, after having been in the possession of others, was at last in 1808, presented to the cathedral. Other curiosities are an ancient coronation chair, a magnificent oak chest, on which is seated the story of St. George and the Dragon; and a silver pastoral staff, 6 feet long. It was taken at the Revolution from the Roman Catholic Archbishop, (appointed by James II) as he was entering the city in 1688, in solemn procession. It was the Earl of Danby who seized it and presented it to the chapter.

What memories gather about this venerable pile of kings and queens, of warriors, and statesmen, of old men, of sinners with their burdens coming repentant for absolution, of maidens with their joy, coming to be married, of weddings and of funerals! Here in 1328 Edward III espoused Philippa of Hainault, he not 17 years of age, and she but 14.

In 1225 Princess Joan, daughter of King John, but 11 years old, married Alexander II of Scotland.

In 1227 Margaret of England married Alexander III.

Here was buried Tosti, "the Tiger of the North," brother of Harold.

Also Archbishop Gerard, whose coffin was found in 1840, and who died with his hand on an astronomical book.

But enough. It is time to leave the Minster, richer in stories and glories than I have been able to tell or depict.

It is so rich in curiosities, that I leave it, but it will abide with us an inalienable possession.

## Scrofula Eruptions

Little Girl the Victim of Impure Blood—Suffered Intensely Until Hood's Sarsaparilla Cured.

"When three months old, my little daughter had eruptions on her face. I was obliged to keep her hands tied at night and it was necessary to watch her during the day. She would scratch herself whenever she had the chance, until her clothes would be covered with blood. We concluded to try Hood's Sarsaparilla, because I had great faith in it, and after awhile, we could see that she was getting better. People often asked 'How did that child burn her face?' and they said she would certainly be left with scars, but she was not. It is now a year since she was cured by Hood's Sarsaparilla and her face is as smooth and white and soft as that of any child." Mrs. WILBUR WELLS, Warren, Conn.

Hood's Sarsaparilla Is sold by all druggists, \$1; six for \$5. Prepared by C. I. Hood & Co., Lowell, Mass.

**What do the Children Drink?**  
Don't give them tea or coffee. Have you tried the new food drink called Grain-O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choicest grades of coffee but costs about 1-4 as much. All grocers sell it. 15c. and 25c.

## NONANTUM.

—Richard Murphy, substitute letter-carrier, is on duty at Auburndale.  
—A cottage prayer meeting was held Wednesday evening at the home of Mr. C. P. Bowker on Watertown street.  
—The Y. P. S. C. E. meeting at the North End Baptist church last Sunday evening was led by Mr. Barber.  
—The speaker at next Sunday's meeting of the Beulah Baptist mission in St. Elmo hall will be Rev. Mr. Capen of Watertown.  
—Frank Mague, the boy who was hurt by a fall of an electric on Pleasant street Oct. 17, is still at the Massachusetts Hospital, Boston.  
—Abraham Tumin has been appointed substitute letter-carrier at Watertown. The carrier service in that place will go into effect next month.  
—There was a social meeting at the Beulah Baptist mission last Sunday afternoon, and the congregation was addressed by officer of the mission.  
—Hose eight of the fire department was called out last Sunday evening to extinguish a stubborn fire in the peat bog off Adams street, this district.  
—At the meeting of St. Elmo lodge, Sons of Temperance, held last Friday evening, several new members were admitted. A meeting is called for this evening when business of importance will be transacted.  
—Miss Julia Billings of California street reported at station 2 that some time last Saturday night her bicycle, valued at \$20, was stolen from in front of George H. Otis' house on Central avenue, Newtonville. The wheel was found Monday evening on Nevada street by Patrolman Desmond.  
—In the police court Saturday morning Judge Kennedy continued the case against James Seery until Nov. 27, at the request of the police. Kate Seery, the complainant, will be unable to leave Newton hospital for some weeks. Seery is charged with murdering his wife at her home on Crafts street, some weeks ago.  
—The change of time on the Nonantum & Bemis branch of the Newton street railway has caused, it is said, a great deal of dissatisfaction among regular patrons of the line. The cars on this branch run hourly in the morning instead of each half hour. The afternoon and evening time table is unchanged. It is reported that an effort will be made to induce the

officials to return to the former running time. It is understood however, that the patronage does not warrant it.

—Last evening there was an informal entertainment at the Nonantum club which was enjoyed by a large number of members.  
—Mrs. Peter Riley fell down stairs at her residence on Adams place last Friday, sustaining a fracture of her collar bone. She was removed to the Newton Hospital but returned this week much improved.

—A six-months old child of Mr. and Mrs. John T. Beale of Chapel street, died Monday morning. The funeral was held Tuesday afternoon. Mr. and Mrs. Beale have the largest of large circle of friends in their bereavement.  
—The Nonantum Athletic club lined up against the Garden City eleven last Saturday afternoon, but failed to score. The Nonantums made every effort, but without avail. The Garden city have yet to be defeated this season, and are being complimented for their good work.

—A large party of gentlemen gathered last Saturday evening at the Nonantum club house and enjoyed a banquet which was followed by a discussion on cricket. The purpose of the meeting was to promote the popularity of the game in this city. There were several interesting speakers, including members of the B. A., Zingari and Everett cricket clubs. The Newton eleven next year will be stronger than ever with the addition of several fine players from these clubs.

## Croup Quickly Cured.

**MOUNTAIN GLEN, Ark.**—Our children were suffering with croup when we received a bottle of Chamberlain's Cough Remedy. It afforded almost instant relief.—F. A. THORNTON. This celebrated remedy is for sale by E. F. Partridge, Newtonville; Lacroix & Genest, Nonantum; B. Billings, Newton Upper Falls; J. H. Green, Newton Highlands.

## NEWTON UPPER FALLS.

—Mr. F. T. Albrecht has removed from Mechanic street to Cottage hill.  
—Mrs. T. P. Leonard of Oak street is visiting friends in Brooklyn, N. Y.

—There are letters in the postoffice for Mrs. A. E. Wells, Joseph W. Hutchinson and Fred E. Young.

—The bowling alleys of the Quinbequin Association are now opened, and are liberally patronized.

—Mr. O. G. Billings attended the reception of the Canton Pilgrims in Young's hotel, Boston, Tuesday evening.

—Hose 7 wagon responded to two alarms of fire last Saturday, and the members were kept busy for several hours.

—A large number of delegates from Echo Bridge council, Royal Arcanum, attended the exemplification of the Kempton ritual council at Odd Fellows hall, Boston, Tuesday evening.

—The new stone bridge across the Charles river at Eliot street is about completed. The finishing touches have been put on this week, and the structure is now one of the best of its size in the state. It is certainly a needed improvement which benefits Newton and Needham as well as the street railway companies.

—It is reported that Pettee's Machine shops have consolidated with a similar firm in Saco, Me. The plant of the latter company will be removed here, it is said, and put in operation next month. This will give Upper Falls a much needed boom and prosperity will again assert itself. At present the Pettee shops are running full time.

—The Centre Stars' football eleven of this place defeated the Allen school team in a well contested match at West Newton last Saturday afternoon, by a score of 6 to 0. The local club, which is a comparatively new organization, is making a good record for itself, and will probably next year occupy the position among amateur teams of the state. The members are anxious to meet the Garden city eleven, and have issued a challenge. Next Saturday the Centre Stars will meet the Roxbury eleven in the latter city.

—We now have among the many nationalities here, Hungarians, who have taken tenement in upper part of Rice's block. A ladder, until this week was in use as an entrance and exit, when later steps were built.  
—Many admirers of Chauncey Olcott, the sweet voiced tenor, took the opportunity to hear him at the Concert hall, last Sunday evening, his selections being part of the program that included the John Boyle O'Reilly band and a pianist and soloist from Keith's.

—Rev. P. H. Callanan is contributing some interesting reminiscences of his early college days to The Stylus, published at Boston College. Father Callanan has begun his "Military Reminiscences" in the October number of the Stylus. These will be followed by "Reminiscences of the Pioneer Days of Boston College."

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham, of Gars Mills, Ia., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea ever since the war and have tried all kinds of medicines for it. At last I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by E. F. Partridge, Newtonville; Lacroix & Genest, Nonantum; B. Billings, Newton Upper Falls; J. H. Green, Newton Highlands.

## BOOKS AND MAGAZINES.

The Story of Germ Life, by H. W. Conn, will be found of the most interest by the large and ever increasing class of readers who are anxious to obtain a clear and intelligent account of a subject that is of the first and most vital importance at the present day. Unfortunately, but naturally, one aspect of the subject has developed into undue prominence, and to the public the microbe is regarded as something necessary threatening to human life; but in the fourth chapter of his valuable little book Mr. Conn shows the valuable services many of the microscopic germs perform for the benefit of man, or rather, how man profits from the life work of the microbe. Mr. Conn calls the bacteria many "friendly and allies. Without them we should not have our epidemics, but without them we should not exist. Without them plant and animal life would be impossible on the face of the earth." The reasons for these statements will be found in abundance in the volume under consideration, than which none better could be placed in the hands of the reader who is interested in the subject for the first time. The book should be read by young and old, by everybody who would keep up with the advance of beneficent science. Published by Messrs. D. Appleton & Co.

The Mystery of Choice, by R. W. Chambers, author of "The Moonmaker," "The Red Republic," etc., contains a number of charming stories, which do not fail to interest the reader. The same thread runs through Mr. Chamber's imaginative work—the strangeness of selections, the mystery which veils the reasons of decisions. In each adaptation of this general theme the author's fine imaginative quality, and his power of conceiving original situations, are shown at their strongest and best. Several of the stories have their scenes laid in Brittany, a fitting home of romance, and deal with the supernatural and the superstitious of the natives. The book involves some marvelous tales. The book is published by D. Appleton & Co., in very attractive covers, \$1.25.

The last in the series of Home Reading books published by D. Appleton & Co., is "Uncle Sam's Secrets," a story of national affairs, the youth of the nation, by Oscar Phelps Austin. It presents a very interesting story of the adventures of a boy who in some way gets mixed up with a gang of counterfeiters, and has some rather unpleasant experiences before his innocence is established. His travels take him to Philadelphia, and the U. S. Mint, and afterwards to Washington, where he has a chance to visit the public treasury and have its workings explained to him, also the Capitol, where he witnesses Congress in session, and finds out how the country is governed. For boys and girls who wish to gain information in an enjoyable fashion, the book seems well adapted both to interest and instruct. 75 cts.

Another book of this series is "The Hall of Shells" by Mrs. A. S. Hardy, where the adventures of some children at the sea shore is described, and in the course of the story much valuable information is given in regard to the sea and its treasures. Books upon marine shells are either too expensive or too learned for young people, and Mrs. Hardy gives in a popular way information that can hardly be found without a good deal of search. The book is handsomely illustrated, and in a way to aid the learner, and the scientific facts given are so arranged as to be easily retained in the memory. D. Appleton & Co., 60 cts.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the system, and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by DRUGGISTS, 75c. Hall's Family Pills are the best.

## NEITHER SIDE SCORED.

NEWTON CLUB A. A. AND NEWTOWNE'S PLAY A TIE GAME SATURDAY.

The Newtowne club of Cambridge, which defeated the Boston A. A. team, 8 to 0, two weeks ago, played the Newton club A. A. Saturday afternoon, and after 40 minutes of fierce driving football the eleven left the field without either scoring.

Newton could have done much better had it played more of a kicking game. Jack Corbett as usual made his sensational punting a feature of the game, but Newtowne's backs judged the punts poorly, and by booting the ball off-center Newton could have saved much needed strength.

Newton came much nearer scoring than Newtowne, several times pushing within 30 yards of its opponent's posts, and once just outside the second, white chalk line of the gridiron, but with their goal in danger the Newtowne boys put lots of ginger into their defense and withstood Newton's attack for a first down.

When Newton seemed nearest scoring, however, the team seemed to suffer from decisions of the line, which were apparently given in the right spirit, but which often were unjust to Newton.

For Newtowne Jackson played magnificently, his brilliant individual gains being features of the Cambridge eleven's game. Saul showed generalship in manipulating his backs, and with a knowledge of the N. A. A. signals spoiled many plays. Newell also was a power on the line, sharing defensive honors with Russell and Clark.

Paul and Corbett, were Newton stars. All of the men forward drove fearlessly into the plays, and the backs gave them good support. On offense the interference was poor. The summary:

A night clerk in one of the well-known hotels of Central Connecticut states these interesting facts: "I was badly troubled with indigestion, biliousness and heartburn. On one or two occasions I've been standing behind this desk and would suddenly find myself toppling over and for a few seconds my mind would be a perfect blank—a sort of dizziness. At other times I've been walking along the street and would all of a sudden begin to stagger and I know some people thought I had a jag on, although I never drank any liquor whatever. It was a runner for a New York concern that first told me to try RIPANS TABLETS, and they proved to be just the thing I needed and although I have not used fifty of them in all, my troubles from indigestion have vanished—completely."

A new style packet containing TEN TABLETS (in a paper carton without glass) is now for sale at some drug stores. FOR FIVE CENTS. This is printed so it is intended for the poor and the economical. (The dozen of 50-cent ones (10 tablets) can be had by mail or sent by express to the (F. J. C. C. CO., 100 Spruce Street, New York—or a single carton (TEN TABLETS) will be sent for five cents.

—The annual convention of the Newton group of Epworth Leagues was held yesterday afternoon and evening at the Methodist Episcopal church. The exercises were attended by nearly 300 delegates and interested members representing all the Newtons, Natick, Weston, Watertown and Waltham.

The exercises began at 2 o'clock with a reception of delegates and visitors. This continued for some three-quarters of an hour when the regular program was resumed. Dr. George L. West delivered an address of welcome and was followed by Rev. Elias Hodge of Waltham who made a fitting response. An inspiration service, conducted by Rev. Charles Tilton, preceded the department conferences. In the latter portion of the exercises there were speakers on the following departments: President's religious work, mercy and help, literary work, social work, correspondence and finance and junior league. Musical selections were rendered and at 5.30 a very interesting address was delivered by Rev. C. O. Jenkins, Windsor, Vt., third vice-president of the Newton group.

After supper had been served the evening's program was begun. The church was well filled by a large number of interested listeners. The order of exercises was as follows: Devotions, conducted by Rev. C. F. Holmes of Newton; address, Rev. B. F. Simon of Taunton, president of the N. E. group.

—Mrs. Stone of Duncklee street has leased her house, furnished, for the winter season, to Mr. A. C. Judd, who spent the last winter here, in the Dudley house, on Forest street. Mrs. Stone will spend the winter at her father's home, Mr. J. E. Hills at Eliot.

—Rev. Mr. Havens next Sunday morning will by request repeat his address delivered at the meeting of the West Suffolk Conference on "Family Prayer," and in the evening his topic will be "Christian Armor."

The boys' brigade will be present and furnish the music.

—Wednesday evening a reception was given to the Rev. and Mrs. Clifford G. Twombly in the parlors of the Highland clubhouse Newton Highlands. Mr. and Mrs. Twombly were assisted in receiving by Mr. and Mrs. Lucius P. Leonard and Mr. and Mrs. Gordon R. Fisher. Several hundred guests were present, representing the members of St. Paul's Church and their friends.

The ushers were John H. Heckman, Chas. F. Johnson, Thomas P. Ritchie, Edgar H. Sampson, Samuel L. Eaton and Arthur S. Williams.

—The second fire alarm on Saturday night last was on account of a fire in the house of Miss L. K. McKenzie, on Walnut street, which started in the cellar, and coming in contact with a water pipe, caused it to burst, flooding the cellar and extinguishing the fire to a large degree, so that on the arrival of the fire department from the Waban fire, their services were

not much needed. The fire is thought to be of incendiary origin. The damage to the house will not probably be over five hundred dollars, with a small additional amount to furniture, etc.

—Mr. Franklin Pierce Brown of this place, and Miss Grace Margaret Lawton of Brighton were married on Wednesday evening, at the home of Mr. Mitchell, a brother-in-law of the bride, of Brighton. Rev. Wm. Safford Jones of All Souls Unitarian church officiated. After a short wedding trip, Mr. and Mrs. Brown will reside at their home on Hartford street.

## WABAN.

—Mrs. S. W. Trues of Bethel, Me., is visiting her son, Mr. G. P. Trues.

—The boy choir of the church has been strengthened by several new voices.

—H. E. Bulkeley of Waban school has returned to his home in Cleveland.

—Mrs. A. Conant expects to be moved into her new house on Mont Clair road, next week.

—Mr. F. S. Small has bought him a nice horse and buggy. He is soon to erect a fine house on Pine Ridge road.

—Mr. William B. Locke, who has been quite ill the past week, is very much improved, and able to be out again.

—The Lend-a-Hand Society of the Unitarian church, Newtonville, met with Miss Mary S. Parks, Beacon street, Monday.

—Mr. Lott Mansfield has the sympathy of all the loss of his father, Mr. S. Mansfield, Dartmouth street, Boston, who died Wednesday.

—Mr. Cook's house, Beacon street, is fast nearing completion, and he hopes to be occupying it in about six weeks. It is one of the prettiest houses in the place.

—Staine and Warren, Waban school, are trying for positions on the N. A. A. football team. The boys of the school are also trying to arrange a dual athletic meet with Newton High.

—There are letters in the postoffice for Sadie Daley, J. Cotter, Mrs. J. M. Ramsdell, Francis Blake, Susan Connell, Thos. Flynn, Miss Eugene Grooms, Miss Munson, Julie Leary, J. M. and P. McSevitt.

—Mr. Lord of Boston, who occupied Mr. W. Campbell's house during the summer, is reported to have bought quite a lot of land of Mrs. W. H. Gould on Waban avenue, and is to erect a house and stable thereon.

—Mr. George F. Skelton and Miss Anna Frances Cronin of Newton Highlands were united in marriage by the Rev. V. H. Hall Williams at the Church of the Good Shepherd, Wednesday noon. The church was prettily decorated. Mr. and Mrs. Skelton will reside in Boston.

—There is a deal of indignation expressed by residents of Waban over the delay in the removal of the barn on Homer street, occupied by Jere Cotter, and partially destroyed the house of James Fortune. The fire was discovered before it had made much progress, and a messenger dispatched to Pine Farm school, where the key to the nearest box was supposed to be located. It was found that the school had been closed without notifying the department, and the key was not to be had. It was necessary to call up headquarters by private telephone in order to have the alarm sounded. A delay of more than 15 minutes was the result.

—There was a meeting of the citizens of this district, held at Waban hall, last Saturday evening, for considering the advisability of having a representative to the next city government. After the purpose of the meeting had been stated, Mr. J. E. Morse was elected chairman and Mr. W. H. Gould secretary. The name of Mr. John Edward Heymer was presented and by unanimous vote was elected the choice of the district for membership in the board of aldermen. Mr. Heymer lives on Beacon street, where he owns a beautiful residence, and is engaged in the electroplying business in Boston, and is the sole member of the firm of J. C. Heymer & Son, very popular, making friends with all with whom he comes in contact, and retaining them.

## STREET RAILWAYS.

LEGISLATIVE COMMITTEE INVESTIGATION—THEIR RELATION WITH MUNICIPAL CORPORATIONS.

The first hearing by the commission to investigate the relations between street railways and municipal corporations was held Thursday at the State House. The commissioners, the Hon. Charles Francis Adams, chairman, the Hon. W. W. Crapo and the Hon. E. B. Hayes, with W. S. Allen, clerk, were present, and there was a good attendance of municipal authorities and street railway managers.

After remarks by the mayor of Fitchburg, Mayor Cobb said that there was no cause of complaint in his city. The problem there was difficult, because Newton had the largest acreage in the state, and there were long runs. The roads were unable, because of legal prohibition, to aid in street widenings.

Chairman Adams remarked that under the law there was nothing to prevent a street railway expending its surplus or net earnings in street widenings, but it could not capitalize such an expense. It was stated that the railroad commission had made this ruling in the case of widening Beacon street in Brookline by the West End road.

Mayor Cobb went on to say that many Newton streets were narrow and never intended for street railways. When locations were granted, widenings were necessary. If railways were compelled to widen streets, they should, in return, be given a permanent franchise at least for 20 years.

City Solicitor W. S. Slooan of Newton added that whenever the attempt had been made to get a street railway company to widen streets, the city had been met by the statement that such action would be "ultra vires." He thought this was true, and that the roads could not do it. At Mr. Adams' request, he agreed to look up this whole question. He held that a city or town did not grant a franchise, but a location of "license." Franchises came from the Legislature. He had tried to get the law changed so as to permit widenings by roads, but was given leave to withdraw. It was a grave question with him whether there was proper compensation for the city in the widening of streets. He did not think he could enlighten the committee on general points. There were five street railway corporations in the city beside the West End, which enters one corner.

## NEWTON UPPER FALLS.

—For additional news see page 7.

—Last evening at the residence of the grown on Eliot street took place the marriage of Mr. David Wright Cook of this place and Mrs. Sophia Ann Hopkins of Eden, Me. Dr. Thompson officiated. Mr. and Mrs. Cook will reside on Eliot street.

## NEWTON LOWER FALLS.

—Next Sunday evening at the Methodist church promises to be of unusual interest, as the pastor promises a stirring address on "That fatal N. H. Tragedy: Who is to blame for it?" Special music will be rendered by Mr. and Mrs. Severson.

## NEWTON.

—Rev. H. C. Spaulding lectured on "The City of Caesars" in Groton, Tuesday.

—Driver Frank Cotton of engine 1 has returned to duty after a vacation of two weeks.

—Miss Nellie Stevenson of Willard street has returned to her home much improved in health.

—Letter-carrier Wm. Keefe fell from his bicycle Wednesday evening, and injured his right arm.

—Mr. F. H. Tucker of Church street is expected home next week from his European trip.

—The handsome pulpit hymnal at the new Methodist church was the gift of the Junior Epworth league.

—At a meeting of the Channing sewing circle held yesterday morning, it was voted to hold a fair during February.

—Mr. William J. Follett, formerly of this place, but now of Brooklyn, N. Y., was in town this week the guest of friends.

—The Young Ladies Charitable Association will hold a concert and whist party at Armory hall, Wednesday evening, Nov. 3d.

—Next Wednesday evening the postponed social of the Methodist Episcopal church will be held in the new church parlors.

—The regular meeting of the Neighborhood circle will be held today at the residence of Mrs. W. Meles on Bellevue street.

—Mr. and Mrs. Edward Slade Wheeler have removed from 55 Centre street to 93 Eldridge street where they will be pleased to see their friends.

—Miss Adelaide McCammon was bridesmaid and Mr. Henry McCammon one of the ushers at the DeMott-Saunders wedding at Chelsea, Wednesday evening.

—Mrs. F. B. Hornbroke will read her paper on the "Destruction of Birds for Ornamentation" at union meeting of Protestant churches in Lexington, Sunday evening.

—Mr. J. E. Lawrence, formerly of Newton, but for the last two years a resident of Winthrop, has purchased the Rice estate on Church street, which he will soon occupy as a winter home.

—All colored voters of Newton are requested to meet Monday evening at the residence of Mr. George M. Wright, 5 Crescent square, for the purpose of forming a H. E. Cobb political club.

—A meeting of the Women's Foreign missionary society was held Monday afternoon at the Wesleyan home on Wesley street. An interesting report was read of the annual meeting at Hartford, last week.

—Traffic on the Boston & Albany was delayed for nearly an hour Wednesday morning, by an accident to an engine. Just as the train was about to start, it was struck by a car about half way between Centre and Washington street crossings the cylinder head exploded.

—The railroad commission has approved the joint use of tracks on Washington, Watertown and Walnut streets, in Newton, by the Newton, Watertown, and Woburn, and Watertown, and Wellesley & Boston street railway companies, subject to regulation by the board of aldermen.

—It is announced that next Sunday an effort will be made to get the Washington street bridge up, as the iron has arrived. The work has to be done on Sunday so as not to interfere as little as possible with the train service of the road. The excavation is slowly progressing, but from one week to another some advance is clearly perceptible.

—John W. Sea, an old resident of Nonantum, died at his home on Faxon street, yesterday morning, after a brief illness. He was 62 years of age, and was born in England. He had lived in Newton for nearly 40 years, and was employed as a weaver at the Nonantum mills. The arrangements for the funeral have not yet been completed.

—The King's Daughters society connected with the North Evangelical church at Nonantum, gave a successful entertainment and sale in the church vestry on Chapel street, Tuesday evening. The fair was attended by nearly 500 members of the church and their friends, and the proceeds, which were large, will be added to the charitable fund of the society.

—The Newton street railway has put on several new cars of the same pattern as the old. Their car-house was not built to accommodate cars of any greater length than the old pattern, and the company says it does not put on the vestibule cars as their motor-men prefer the open platforms. This was the testimony of several street railway superintendents before the railroad commission at a hearing this week. When their new car house at Waltham is built the Newton street railway intends to fit it up for the long cars, and use them on lines where the patronage warrants it.

—Peter Brennan of Nonantum is at the Newton hospital recovering from the effects of injuries received early Tuesday morning, in an attempt to resist arrest. Brennan, with a companion, it is alleged, drove through Elmwood street in a wagon, which had evidently recently passed through a collision. They were making a good deal of noise, and Patrolman Fuller of division 2 climbed into the wagon and placed Brennan under arrest. When they reached the corner of Centre and Washington streets he ordered Brennan to drive to station 1, but the latter attempted to turn toward Nonantum. A lively struggle ensued, in which Brennan fell from the wagon and struck heavily on his head. He was picked up in an unconscious condition and taken to the Newton hospital. It was not until late Wednesday afternoon that he regained consciousness, but he is now apparently little the worse for his experience.

—Newsdealer Harrington will tomorrow occupy his newly fitted quarters, at the former location in Cole's block.

—Mrs. A. D. Babcock of Syracuse, N. Y., has been spending the week at Mr. F. Gaffield's, and will be at Hotel Hannebwell for the coming week.

—Next Thursday evening at the Nonantum Club a joint debate on Single Tax will be held between Mr. C. B. Fillebrown and Mr. William Jenks.

—Mr. W. G. Bosworth, night officer at station 1, attended the annual reunion of the 1st Mass. Cavalry at the United States Hotel, Boston, Wednesday.

—The different A. O. U. W. lodges in the city participated in the exercises at Waltham last evening. Several special cars from the different villages carried the members over to Waltham and return. The procession was one of the largest of the order that has been seen in this part of the state, and Newton was well represented.

—Dr. F. W. Webber was married last Friday at New Bedford, to Mrs. Esther Louise Southworth of Cambridge. The wedding was a quiet one, only the relatives of the contracting parties being present. On their return from their wedding trip Dr. and Mrs. Webber will occupy the house at 465 Centre street, which has been extensively repaired and fitted up for them.

—A pleasant event for Eliot church people this week was the reception and housewarming of Rev. and Mrs. W. H. Davis, Wednesday evening, at their handsome new residence on Park street. The affair called out an attendance of representative Newton people, besides the members of the Eliot church congregation. The house was prettily decorated and filled with guests both afternoon and evening. Rev. and Mrs. W. H. Davis were assisted in receiving by Mr. and Mrs. Edgar F. Billings.

—A nephew of Mr. John T. Langford was one of the heroes in the recent dreadful railway accident on the bank of the Hudson river. One who witnessed his part in the rescue said that it was a perfectly marvelous exhibition of courage and devotion for others. The young man was in one of the cars that stayed on the track. He received a few injuries in the accident but disregarding everything except the peril of those in the cars that had gone down into the water, he tore an axe loose from its fastenings, plunged into the river and swam to a partly submerged car. He cut a hole in the roof and pulled out four persons, all he could reach, and sank exhausted. They carried him to a hospital and it is hoped he will soon recover. The young man proved himself to be the worthy son of a father who made a most noble record for himself, and whose recent death has caused grief to many thousands.

—The report that the Centre street bridge was to be taken away before either the Centre place or the Washington street bridges were in place was so incredible that every one will feel relieved at the denial of the story that comes from Mr. Lentell. It would leave the south side of the tracks without proper protection in case of fire, as the engine would have to go around by Richardson street and Washington street is almost impassable. The Centre place bridge has arrived and is all ready to be put up, but no one has apparently looked ahead, and the bridge will not be ready for at least ten days, and it will take about as much longer to get the bridge ready for use. It is said to be the intention not to close Centre street, although the temporary bridge may be shifted to another location to give room for the steam shovel to work. It is also said that the Washington street spans will be put across on Sunday, but it will take several weeks to get the bridge ready for use.

## NEWTON CLUB.

Plainfield street, Ward 5, 2-story frame residence, 41x28, furnace, bath, etc., Mrs. Bertha E. Hovey, owner, F. H. McDonald builder, cost \$5000.

"Darling," he said, "did you tell your father that you were engaged?" "Yes, George, I did," replied the maiden, but she looked so troubled that it was some time before he mustered up courage to pursue the subject. "What did he say?" he asked finally. "I don't know," she answered. "He went out to the woodshed to say it."—Chicago Evening Post.
